  - Under Secretary and Assistant Secretary; authority to approve or concur in public land orders issued by Secretary of Interior under Executive Order 10355 respecting withdrawal and reservation of lands under jurisdiction of Department ---------- 6570
- To Secretary of Agriculture from General Service Administrator; authority to negotiate without advertising contracts for engineering and architectural services in connection with establishment of laboratory for investigation of foot-and-mouth and other animal disease ---------- 8571

Beans; standards for frozen lima beans ---------- 6931

Bonding and net assets requirements under United States Warehouse Act and Commodity Credit Corporation authorizations; notice regarding unit prices for listed commodities ---------- 6232

Kenaf seeds, and kenaf fiber ---------- 7021

Brewers rice; imports ---------- 6090, 6269, 8547

Butter; imports ---------- 6090, 8547

Butter oil. *See* Oils.

20000—52——1

AGRICULTURE DEPARTMENT—Continued Page

Carrots, diced, frozen; standards, proposed rule making 8439
Casein or lactarene; imports 6090, 6269, 8547
Castor oil. *See* Oils.
Cauliflower, fresh, grown in certain counties in Colorado, marketing of:
Budget of expenses and rate of assessment for fiscal year ending May 31, 1953 7411
Shipments; regulation by grades and sizes 6625
Cheese; imports 6090, 6269, 8547, 8548
Citrus fruits (oranges, lemons, limes, grapefruit, and tangerines):
Diversion program; canned concentrated orange juice, program TMP 41a 7363
Export payment program SMX 65a 2 (fiscal year 1952), for fresh and processed lemons:
Claims supported by evidence of compliance 6837
General statement 6837
Export program SMX 7a (fiscal year 1952), for fresh and processed oranges:
Claims supported by evidence of compliance 6838
General statement 6838
Export program SMX 23a (fiscal year 1952), for fresh and processed grapefruit:
Claims supported by evidence of compliance 6837
General statement 6837
Marketing of citrus fruits grown in various States:
Arizona; lemons:
Administrative Committee rules and regulations 6747, 7713
Limitation of shipments 6023, 6243, 6625, 6810, 6838, 7069, 7070, 7274, 7447, 7717, 7920, 8064, 8065, 8244, 8452, 8612.
California; lemons:
Administrative Committee rules and regulations 6747, 7713
Limitation of shipments 6023, 6243, 6625, 6810, 6838, 7069, 7070, 7274, 7447, 7717, 7920, 8064, 8065, 8244, 8452, 8612.
Florida:
Grapefruit; limitation of shipments 8244
Oranges; limitation of shipments 8243
Standards:
Grapefruit (Florida) 5995, 7408
Limes, Persian (Tahiti) 7035
Oranges (Florida) 6713, 7879
Tangerines (Florida) 7017, 8377
Conservation programs:
National Agricultural Conservation Program, 1953; allocation of funds for conservation practices 6995, 7110, 8527
Naval Stores Conservation Program, 1953; allocation of funds for conservation practices 7269
Special conservation programs for Territories and possessions. *See* Alaska; Puerto Rico; *and* Virgin Islands.
Corn; standards:
Canned corn:
Cream style 6933
Whole kernel (or whole grain) 6935
Frozen corn, whole kernel (or whole grain) 7038
Cotton:
Marketing quotas:
Determination with respect to total supply and normal supply for marketing year beginning August 1, 1952; notice 8159
Extra long staple cotton 8160
Proclamation with respect to national marketing quota for cotton produced in 1953; notice 8159
Extra long staple cotton 8160
Standards, for American Upland cotton 7405
Warehouse for. *See* Warehouses.
Cottonseed, sold or offered for sale for crushing purposes within United States:
Authority of Director, Cotton Branch, with respect to sampling, analysis, etc 7909
Standards:
Grade, determination of 5955, 7177
Quantity index, determination of 5955, 7178
Cream, marketing of. *See* Milk, cream, and byproducts.
Currants; standards for dried currants 5998, 8415

AGRICULTURE DEPARTMENT—Continued Page

Dairy products (butter, cheese, milk, etc.):
Grading and inspection; form of application and contract of agreement for grading service on written agreement 6757
Imports 6090, 6269, 8548
Marketing of milk, cream, and byproducts. *See* Milk, cream, and byproducts.
Defense Production Act, determination relating to imports 6090, 8547
Drought emergency program, 1952; authority with respect to purchase of hay under. *See main heading* Commodity Credit Corporation.
Economic poisons. *See* Insecticides, etc.
Eggs and egg products, sampling, grading, grade labeling, etc.; proposed rule making:
Application for grading, inspection, and sampling; when application may be rejected 6963
Denial of service, in case of misrepresentation, deceptive or fraudulent act or practice, etc 6963
Interfering with a grader, inspector or sampler; revocation proposed 6963
Export and diversion programs, for various agricultural commodities. *See* Apples, Citrus fruits; Honey; Prunes; Raisins; *and* Wheat and wheat flour.
Farm equipment; memorandum of agreement concerning scope of term farm equipment as used in Executive Order 10161 between Production and Marketing Administrator and Administrator of National Production Authority 6129
Appendix A; equipment included within definition of term farm equipment for purposes of section 101 of Executive Order 10161 6129
Farm Land Restoration Program, 1952; allocation of funds for restoration practices in designated disaster areas:
Applicability to listed counties in certain States; addition of Adams, Clay and Sarpy Counties in Nebraska 6807
Restoration materials and services, deductions; new provisions respecting material furnished producers for use prior to December 31, 1953 6807
Federal Insecticide, Fungicide and Rodenticide Act; regulations for enforcement of, with respect to economic poisons, proposed rule making:
Registration:
Continuance of 7436, 8518
Duration of 7436, 8518
Shipments for experimental use; permits:
Articles for which permit is required 7436, 8518
Cancellation of permits 7436, 8518
Figs, Kadota; set aside requirements for canned Kadota figs, reduction respecting 6088
Filberts grown in Oregon and Washington, marketing of; salable, surplus, and withholding percentages 8079, 8500
Flaxseed; imports 6090, 6269, 8547
Flour, wheat. *See* Wheat.
Food:
See also specific commodities.
Disposal of food commodities acquired through price support operations. *See main heading* Commodity Credit Corporation.
Foods, under Defense Production Act; Defense Food Orders, agricultural imports:
Determination relating to imports under Defense Production Act 6090, 8547
Notice respecting continuation 5995
Import restriction on certain commodities. *See* Imports.
Fruit preserves (or jams); standards, proposed rule making 5999
Fruits and vegetables:
Export and diversion programs, for fresh and processed fruits. *See* Apples; Citrus fruits; Prunes; *and* Raisins.
Marketing of various fruits and vegetables. *See* Cauliflower; Citrus fruits; Grapes; Peaches; Pears; Peas; Plums; Potatoes; *and* Prunes.
Set aside requirements, processed fruits and vegetables:
Canned fruits, Table 1; reduction of requirements respecting Kadota figs 6088

AGRICULTURE DEPARTMENT—Continued Page

Fruits and vegetables—Continued
Set aside requirements, processed fruits and vegetables—Continued
Canned vegetables, Table 1; deletion of percentages respecting requirements for pumpkin and tomato paste 6087
Standards, for various fresh and processed fruits and vegetables. *See* Beans; Carrots; Citrus fruits; Corn; Currants; Fruit preserves; *and* Plums.
Fungicides. *See* Insecticides, etc.
Golden Nematode Suppressive Program, for 1952 potato crop year; authority from Secretary of Agriculture to Entomology and Plant Quarantine Bureau relating to. *See* Authority, delegations of.
Grains:
Support prices for various grains. *See main heading* Commodity Credit Corporation.
Warehouse for. *See* Warehouse.
Grapefruit. *See* Citrus fruits.
Grapes (Tokay) grown in California, marketing of:
Budget of expenses and fixing rate of assessment for 1952–53 season 7398
Industry Committee, rules and regulations:
Definitions:
Billing date 8419
Crop; deletion 8291
Exemption certificates 8291
Regulation of daily shipments; computation of 72-hour limitation 8419
Marketing agreement and order; amendments 7417
Shipments:
Limitation of daily shipments 8321, 8612
Regulation by grades and sizes 7774, 8611
Hawaii; sugar requirements and quotas. *See* Sugar.
Hay; authority with respect to purchase of, under drought emergency program, 1952. *See main heading* Commodity Credit Corporation.
Honey export program (1952 marketing season):
Claims, filing of 6838
General statement 6838
Payment, eligibility for 6838
Hops grown in Oregon, California, Washington and Idaho, and hop products produced therefrom, marketing of:
Budget of expenses and rate of assessment for marketing season beginning August 1, 1952 7602, 8420
Marketing agreement and order, as amended 5957, 6626
Referendum among producers, direction concerning 5967
Salable quantity of 1952 crop hops 7187, 7841
Imports:
Agricultural imports; restrictions 6088, 8546
Continuation of determination relating to imports under Defense Production Act and of Defense Food Order 3, as amended, notice of 5895
Determination as to listed commodities; revisions, covering period July 1, 1952 through June 30, 1953 6090, 8547
List of commodities; Appendix A 6090
Cheeses, certain; deletion 8547
Policy statement; import authorization for certain commodities:
Casein or lactarene 6269
Cheese 6269
Deletion of Stilton and certain Italian type cheese 8548
Issuance of new import authorization for Italian type cheese 8548
Malted milk, etc 6269
Rice, brewers 6269
Seed, flaxseed and rice, for planting purposes 6269
Small defense plants; import authorization to, for certain commodities 6269
Import fees on shelled and prepared almonds (Proclamation 2991) 8645
Import quotas and fees; responsibility of Secretary for actions and recommendations respecting 8287
Insecticides, etc. (economic poisons), regulations for enforcement of Federal Insecticide, Fungicide, and Rodenticide Act; proposed rule making:
Registration:
Continuance of 7436, 8518
Duration of 7436, 8518

AGRICULTURE DEPARTMENT—Continued Page

Insecticides, etc. (economic poisons), regulations for enforcement of Federal Insecticide, Fungicide, and Rodenticide Act; proposed rule making—Continued
Shipments for experimental use; permits:
Articles for which permit is required 7436, 8518
Cancellation of permits 7436, 8518
Lands, withdrawal and reservation of:
Chief, Forest Service; revocation of authority respecting 6570
Under Secretary and Assistant Secretary; authority to approve or concur in public land orders issued by Secretary of Interior under Executive Order 10355 respecting 6570

Wisconsin; Milwaukee 6563, 7498, 7884
Minerals, reserved, disposition of; designation of counties in various States as areas in which mineral interests may be sold, revised area designations:
Fair market value areas; list, addition of certain counties:
Georgia:
Habersham County 7189
Lamar County 7189
Polk County 7189
Stephens County 7189
Telfair County 7189
Massachusetts; Worcester County 8442
Michigan:
Alcona County 5969
Alpena County 5969
Benzie County 5969
Branch County 5969
Eaton County 5969
Hillsdale County 5969
Ingham County 5969
Iosco County 5969
Jackson County 5969
Leelanau County 5969
Lenawee County 5969
Macomb County 5969
Oakland County 5969
St. Joseph County 5969
Sanilac County 5969
New York; Franklin County 8442
Oklahoma; Choctaw County 6597
South Dakota:
Bon Homme County 8196
Brown County 8196
One dollar areas; list, additional and deletion of certain counties:
Michigan:
Alcona County 5969
Alpena County 5969
Benzie County 5969
Branch County 5969
Eaton County 5969
Hillsdale County 5969
Ingham County 5969
Iosco County 5969
Jackson County 5969
Leelanau County 5969
Lenawee County 5969
Macomb County 5969
Oakland County 5969
St. Joseph County 5969
Sanilac County 5969
Minnesota; Nobles County, added 6925
Oklahoma; Choctaw County 6597
South Dakota:
Bon Homme County 8196
Brown County 8196
Molasses, sugarcane, edible; standards 6181, 6427, 7135, 8377, 8570
National agricultural conservation program, 1953. *See* Conservation programs.
National School Lunch Act; apportionment of food assistance funds pursuant to. *See* School lunch program.
Naval stores conservation program, 1953. *See* Conservation programs.
Nuts:
Marketing of various nuts. *See* Almonds; Filberts; *and* Walnuts.
Marketing quota, for peanuts. *See* Peanuts.
Standards. *See* Almonds; *and* Pecans.
Oils:
Castor oil; restriction on inventory and use (Appendix A, amendment) 6431
Imports of butter oil, linseed oil, peanut oil 6090, 8547

AGRICULTURE DEPARTMENT—Continued Page

Accidents and missing aircraft:
Investigation of accidents occurring at or near certain cities:
Dallas, Tex 6418
Indianapolis, Ind 8197
Miami, Fla., International Airport 7438
Report of aircraft accident 7111
Form of report and contents 8614
To whom report is directed 8614
Air agencies, certificates and ratings. *See* Certificates and ratings.
Air carriers:
Accidents and missing aircraft, investigation of. *See* Accidents and missing aircraft.
Irregular:
See also Irregular air carrier and off-route rules.
Investigation of air services by large irregular carriers and irregular transport carriers 7438
Scheduled. *See* Scheduled air carriers.
Air taxi operators; classification and exemption. *See* Economic regulations.
Air traffic rules:
Certificates of waiver for air shows (CAA policies), use of means other than radio permitted in control of acrobatics 6460
General flight rules (GFR):
Air traffic clearances, adherence to requirements of scheduled air carriers (CAA rules); long-distance scheduled air carrier operations (SR–382) 7009
Traffic patterns:
Juneau (Alaska) Airport (CAA rules) 7533
Washington National Airport (CAA rules) 7178
Instrument flight rules (IFR):
Air traffic clearance required of scheduled air carriers (CAA rules); long-distance scheduled air carrier operations (SR–382) 7009
Radio communications required of scheduled air carriers (CAA rules); long-distance scheduled air carrier operations (SR–382) 7009
Airmen, certificates and ratings. *See* Certificates and ratings.
Airworthiness; requirements for various types of aircraft and equipment:
Airplane, transport categories:
Emergency exits for airplanes carrying passengers for hire, special regulation (SR–387) 8613
Equipment requirements for scheduled air carriers; transfer of regulations, proposed rule making 6972
Rotorcraft, landing loads; distribution of vertical ground reaction loads and determination of angular inertia loads (CAA interpretations) 8322
Alaskan air carriers, classification and exemption. *See* Economic regulations.
Authority, delegation of, to Administrator; authority to permit air carriers under contract to military services to deviate from certain provisions of regulations, special regulation (SR–385) 6945
Certificates and ratings:
Air agencies:
Airman agency certificates:
Instruction quality of (CAA policies); air agency activity report, deletion 6896
Requirements:
Flying school curriculum (CAA rules):
Commercial flying curriculum, land airplanes 6895
Instrument flying school, ground school curriculum; instrument flight procedures 6895
Primary flying school curriculums, land airplanes, 35 hours flying time 6895
Flying school requirements, flight equipment (CAA interpretations); parachutes, deletion 6895
Repair station certificates; limited mechanic certificate with propeller or aircraft appliance rating, special regulation (SR–383) 6428
Air carrier operating certificates; scheduled air carriers. *See* Scheduled air carriers.
Airmen:
Airline transport pilot rating, competency certificate; duration of certificates showing horsepower ratings 7962

CIVIL AERONAUTICS BOARD—Continued Page

Certificates and ratings—Continued
Airmen—Continued
Mechanic and repairmen certificates, limited mechanic certificate with propeller or aircraft appliance rating; special regulation (SR–383) 6428
Pilot certificates, student; age less than 21 years, proposed rule making 8365
Certificates of public convenience and necessity. *See* Economic regulations.
Certification, identification, and marking of aircraft and related products; supplementary rules, policies and interpretations by CAA 8420
Aircraft nationality and registration marks 8431
Aircraft and product identification 8427
Certificates:
Airworthiness 8427
Production 8422
Type 8421
Design, changes in type 8422
Classification and exemption for various carriers. *See* Economic regulations.
Commercial operator certification and operation rules:
Emergency and evacuation provisions for certain aircraft:
Equipment and procedures, proposed rule making 8022, 8489
Crew assignments in cases of emergency and ditching 8023
Exits, emergency; lighting and marking of 8023
Life rafts, location of 8023
Passengers, briefing of 8023
Special regulation, proposed rule making 6791
Military services; delegation of authority to Administrator to permit air carriers under contract to military services to deviate from certain provisions of regulations, special regulation (SR–385) 6945
Economic regulations:
See also Procedural regulations.
Certificates of public convenience:
Foreign air transportation; business name of air carrier 7810, 8146
Interstate and overseas air transportation; business name of air carrier 7809
Classification and exemption:
Air freight forwarders:
See also International air freight forwarders.
Business name of air carrier 7812
Air taxi operators:
Business name of air carrier 7814
Scope of service, no service to be offered between points where scheduled helicopter service is provided:
Repeal or modification of provisions respecting operations over certificated helicopter routes; proposed rule making 6596, 7209, 7549, 8195
Temporary exemption of air taxi operators from limitation on scope of service; special economic regulation 6577
Alaskan air carriers, business name 7811, 8146
Large irregular air carriers; business name 7811, 8146
Exemption. *See* Classification and exemption.
International air freight forwarders:
Letters of registration, application for 6896
Limitations and conditions; business name of air carrier 7813
Operations pursuant to exemption authority 7137, 7209
Reports, filing of:
By certificated air carriers, and uniform accounting requirements; changes in reporting requirements; and modifications of Forms 41 and 41 (a) 6946
Proposed rule making 8277
By irregular air carriers, irregular transport carriers, air taxi operators and non-certificated cargo carriers; proposed rule making 8024
Filing of copies of agreements, manifests, other flight data and publicity material 8024
Statistical and flight reports required 8024
Exemption authority. *See* Economic regulations.
Field organization. *See* Organization.

CIVIL AERONAUTICS BOARD—Continued Page

Freight forwarders, international; economic proceedings. *See* Economic regulations.
Hearings, investigations, etc.:
Accidents, aircraft, and missing aircraft; investigation of. *See* Accidents and missing aircraft.
Companies and cases, list of. *See list at end of this agency.*
Helicopter routes, service of air taxi operators over. *See* Economic regulations.
Irregular air carrier and off-route rules:
Aircraft requirements; limitations for IFR operations, dual controls 7071
Definition, crew member; proposed 7096
Emergency evacuation provisions for certain aircraft:
Equipment and procedures; proposed rule making 8022, 8489
Crew assignments in cases of emergency and ditching 8023
Exits, emergency, lighting and marking of 8023
Life rafts, location of 8023
Passengers, briefing of 8023
Special regulation; proposed 6791
Flight crew requirements; individual flight time limitations for pilots on large aircraft, deadhead transportation to be computed as "on duty" and not as "time aloft", proposed 7096
Flight operation rules:
Flight plan for large aircraft; IFR or VFR flight plan must be in effect for all portions of flight 6244
Night VFR operations for large passenger-carrying aircraft; special rules 6244
Military services; delegation of authority to Administrator to permit air carriers under contract to military services to deviate from certain provisions of refrigerations, special regulations (SR–385) 6945
Large irregular carriers; classification and exemption. *See* Economic regulations.
Mail rate proceedings; rules of practice. *See* Procedural regulations.
Maintenance, repair, and alteration of air-frames, powerplants, propellers, and appliances; limited mechanic certificate with propeller or aircraft appliance rating, special regulation (SR–383) 6428
Mechanic and repairmen certificates. *See* Certificates and ratings.
Operation rules, general:
Aircraft requirements (CAA rules):
ICAO modifications of identification marks; deletion 7419
Identification marks and airworthiness classification marks; deletion 7419
Operating limitations 7419
Maintenance (CAA rules); inspections:
Annual 7675
Periodic 7676
Private and commercial pilot privileges and limitations; rating requirements 7962, 8146
Organization, delegations of authority, information, etc.:
Delegations of authority; Director, Bureau of Air Operations 8220
Interchange schedules 8220
Letters of Registration issued pursuant to Parts 296 and 297 of the Economic Regulations 8220
Organization, central and field; Bureau of Safety Regulation 7825
Pilots:
Certificates and ratings. *See* Certificates and ratings.
Private and commercial pilot privileges and limitations; rating requirements. *See* Operation rules, general.
Proficiency requirements, for operations outside or within continental limits of United States. *See* Scheduled air carriers.
Procedural regulations; rules of practice in economic proceedings:
Consolidation or contemporaneous consideration of proceedings; filing of motion 7420
Formal intervention; petition to intervene, time for filing:
Proposed rule making 8459

CIVIL AERONAUTICS BOARD—Continued Page

Procedural regulations; rules of practice in economic proceedings—Continued
Formal intervention; petition to intervene, time for filing—Continued
Temporary adoption 8452
Correction 8570
Hearings, participation of persons not parties 7040–7041
Mail, procedure for fixing temporary rates 7040
Repair station certificates. *See* Certificates and ratings.
Reports:
Aircraft accidents. *See* Accidents and missing aircraft.
Filing of by irregular air carriers, irregular transport carriers, air taxi operators, non-certificated cargo carriers and certificated air carriers. *See* Economic regulations.
Rotorcraft airworthiness. *See* Airworthiness.
Rules of practice. *See* Procedural regulations.
Scheduled air carriers:
Air traffic rules. *See* Air traffic rules, *above*.
Certification, operating:
See also Interstate air carrier certification and operation rules, *below*.
Air carrier operating certificate, issuance of, for local areas; authorizing use of aircraft under 12,500 pounds take-off weight, special regulation (SR–384) 6895
Emergency evacuation provisions for certain transport airplanes; special regulation, proposed 6791
Military services; delegation of authority to Administrator to permit air carriers under contract to military services to deviate from certain provisions of regulations, special regulation (SR–385) 6945
Interstate air carrier certification and operation rules; proposed rule making 6971
Emergency and evacuation equipment and procedures 8022, 8489
Crew assignments in cases of emergency and ditching 8023
Exits, emergency; lighting and marking of 8023
Life rafts, location of 8023
Passengers, briefing of 8023
Flight altitudes; establishment of lower "over-the-top" flight operations 7187
Flight time limitations for long distance operations 7949
Operations outside continental limits of United States:
Airman rules, pilot; proficiency requirements (CAA policies):
Aircraft used in flight check 8472
Flight simulator 8472
General standards 8471
Instrument competency check, failure to complete 8471
Performance, purpose of observing 8471
Proficiency checks 8472
Emergency evacuation provisions for certain aircraft:
Equipment and procedures, proposed 8022, 8489
Crew assignments in case of emergency and ditching 8023
Exits, emergency; lighting and marking 8023
Life rafts, location of 8023
Passengers, briefing of 8023
Special regulation; proposed 6791
Flight time limitations for pilots not regularly assigned to one type of crew; special air regulation (SR 386) 7790, 8525
Military services; delegation of authority to Administrator to permit air carriers under contract to military services to deviate from certain provisions of regulations, special regulation (SR 385) 6945
Operations within continental limits of United States:
Air carrier operating certificate, issuance of, for local areas; authorizing use of aircraft under 12,500 pounds take-off weight, special regulation (SR 384) 6895

CIVIL AERONAUTICS BOARD—Continued Page

Scheduled air carriers—Continued
Operations within continental limits of United States—Continued
Airmen, first pilot (CAA rules):
Instrument competency, proficiency requirements; steep turns 6815
Proficiency requirements; emergency procedures 8501
Emergency evacuation provisions for certain aircraft:
Equipment and procedures; proposed 8022, 8489
Crew assignments in cases of emergency and ditching 8023
Exits, emergency; lighting and marking of 8023
Life rafts, location of 8023
Passengers, briefing of 8023
Special regulation; proposed rule making 6791
Flight operations:
Altitude rules, flight:
See also Instrument approach rules, *below*.
Daytime over-the-top operations below minimum en route altitudes 7187, 8292
Flight altitude rules 8292
Night VFR or IFR operations (including over-the-top) 8292
Instrument approach rules:
See also Flight altitude rules, *above*.
Altitude maintenance on initial approach 8292
Military services; delegation of authority to Administrator to permit air carriers under contract to military services to deviate from certain provisions of regulations, special regulation (SR 385) 6945
Rescission of regulations; proposed rule making 6972
Transport airplanes, certain, emergency evacuation procedures for; special regulation, proposed 6791
Transport pilot ratings, airline. *See* Certificates and ratings.
Trust Territory of the Pacific Islands, operation of aircraft service in; special provisions for contracts entered into between Transocean Air Lines and Department of the Interior, special regulation (SR–364–A) 6873

CIVIL SERVICE COMMISSION:

See Loyalty Review Board.
Appeals of preference eligibles under Veterans' Preference Act of 1944:
Appeals to Commission; time limit 6063
Applicability of regulations; notice of reduction in rank or compensation 6063
Appointment:
Disqualification for appointment; reasonable doubt as to loyalty 8565
Educational requirements. *See* Education (formal) requirements.
Permanent appointments of postal employees in field service to positions for which salary rates are fixed by act of July 6, 1945 (Executive Order 10376) 6681
Reappointment after reduction in force. *See* Reductions in force.
To positions excepted from competitive service. *See* Exceptions from competitive service.
Education (formal) requirements, for appointment to certain scientific, technical or professional positions:
Plant quarantine inspector, GS–5 6193
School superintendent, GS–12, instructor, school activities, GS–5–9, Army and Navy civilian schools 6401

CIVIL SERVICE COMMISSION—Continued Page

Exceptions from competitive service; positions excepted from examination (Schedule A):
- Air Force Department; librarian, recreation leader and recreation supervisor, until December 31, 1956 — 7570
- Army Department:
  - Medical Department; Technical Director of Research, exception extended to June 30, 1953 — 6241
  - Ordnance Department; Technical Director of Research and Development, Technical Director, Metallurgical Laboratory, Production Manager, Detroit Arsenal, Technical Director, Explosives Laboratory, and Technical Director of Research and Development Center, Frankford Arsenal — 6425
- Defense Manpower Administration. *See* Labor Department.
- Economic Stabilization Agency. *See* National Enforcement Commission.
- Justice Department, United States Marshal in Virgin Islands — 7713
- Labor Department, Defense Manpower Administration; Labor Management Manpower Policy Committee:
  - One administrative officer to be executive assistant to Labor members of Committee — 7067
  - One administrative officer to be executive assistant to Management members of Committee — 7067
- National Enforcement Commission, Chairman — 8565
- Treasury Department, United States Savings Bond Division; State Director and Deputy State Director, exception extended to June 30, 1953 — 5933, 6141

Foreign duty of Federal personnel:
- Allowances for living, quarters, etc. (Executive Order 10391) — 8033
- Compensation for service in designated areas. *See main heading* State Department.

Holiday pay regulations. *See* Pay regulations.

Hospitals, Government, certain positions in:
- Exclusion from provisions of Federal Employees Pay Act and Classification Act:
  - Chaplain intern — 7441
  - Chaplain resident — 7441
  - Chaplain student intern — 7441
  - Clinical psychology interns, Public Health Service, fifth year approved post-graduate training — 8064
  - Hospital administration resident, Freedmen's Hospital — 6729
  - Student clinical psychologist, Bureau of Mental Hygiene, Health Department, District of Columbia — 8500
  - Student practical nurse, Public Health Service — 6729
- Stipends, maximum:
  - Chaplain intern, St. Elizabeths Hospital — 7441
  - Chaplain resident, St. Elizabeths Hospital — 7441
  - Chaplain student intern, St. Elizabeths Hospital — 7441
  - Clinical psychology interns, United States Public Health Service and St. Elizabeths Hospital — 8064
  - Hospital administration resident, Freedmen's Hospital — 6729
  - Medical record interns, Service — 6755
  - Psychiatric nurse interns — 8064
  - Student clinical psychologist, Bureau of Mental Hygiene, Health Department, District of Columbia — 8500
  - Student medical interns — 8064
  - Student nurses, Freedmen's Hospital — 6835
  - Student practical nurse, Public Health Service — 6729

Indefinite appointments of certain postal employees; conversion to permanent appointments. *See* Postal employees.

Investigation and enforcement; persons disqualified for appointment, reasonable doubt as to loyalty — 8565

Loyalty to Government of United States, reasonable doubt as to; disqualification for appointment — 8565

Night pay differential. *See* Pay regulations, general compensation rules.

Overtime pay. *See* Pay regulations, general compensation rules.

Pay regulations:
- Foreign duty in designated posts. *See* Foreign duty.

CIVIL SERVICE COMMISSION—Continued Page

Pay regulations—Continued
- General compensation rules:
  - Longevity step increases, effect on rate of grade for employee who is reemployed, transferred, reassigned or demoted — 7109
  - Night pay; computation of night pay differential — 7381
  - Overtime employment, computation of; leave with pay — 7381
  - Reduction in grade by reason of post audit by Commission, effect on rate of grade — 7109
  - Special provisions; retroactive pay to accompany retroactive classification decision — 8411
- Government hospitals; stipends for trainees. *See* Hospitals, Government.
- Holiday pay; identification of holidays — 7381
- Permanent employees, status after reappointment; retention preference regulations for use in reductions in force — 7035
- Postal employees; conversion to permanent appointments of certain indefinite positions in field service, positions for which salary rates, etc., fixed by Act of July 6, 1945 (Executive Order 10376) — 6681
- Reductions in force, retention preference regulations for use in; reappointment priority, status after reappointment — 7685
- Regulations, investigation and enforcement; persons disqualified for appointment, reasonable doubt as to loyalty — 8565

CUSTOMS BUREAU: Page

Air commerce regulations:
International airports, listed:
Florida, Fort Lauderdale; Broward County Airport, designation 6048, 7594
Minnesota, Duluth; Sky Harbor Seaplane Base, revocation 6048, 7594
Landing requirements, foreign aircraft; permit to proceed 6731
Almonds, shelled and prepared, import fees on (Proclamation 2991) 8645
Aluminum and alloys containing aluminum, certain imported articles of; additional information required on customs invoice 8065
Animals, certain; entry of. *See* Special classes of merchandise.
Articles conditionally free, subject to reduced rate, etc.:
Art works; articles imported for use of institutions organized and operated exclusively for religious purposes 7965
Diplomatic and consular officers, importations for official use of foreign government representatives; eligible countries according reciprocal privileges to United States, footnote respecting 8379
Institutions, certain, free entry of articles for:
Certificate of delivery; not required for certain articles examined on institution's premises 7965
Requirements on entry; certain articles imported for use of institutions organized and operated exclusively for religious purposes 7965
Works of art for institutions. *See* Art works.
Vessels, withdrawal of supplies for; exemption from customs duties and internal revenue tax for vessels of war of certain countries, listed 6732
Asparagin; tariff classification as chemical compound, proposed 8220
Birds, certain; entry of. *See* Special classes of merchandise.
Bone black, spent; change in tariff classification 8195
Canada, customs relations with; joint usage of customs seals for carload shipments of merchandise between ports of one country via territory of the other 7042
Chlorophyll and chlorophyll derivatives, in water-soluble forms; change in tariff classification 6285, 7754
Chopping blocks, Chinese; prospective change in tariff classification 7706
Coffee, foreign, shipped from United States to Puerto Rico; manifest required for 8176
Contiguous foreign territory, customs relations with; customs seals for carload shipments of in-transit merchandise between United States and Canada:
Between ports in United States through Canada; procedure 7042
Through United States between ports of Canada; procedure 7042
Cork parts of artificial bait; prospective change in tariff classification 7754
Customs districts and ports; ports of entry:
California; Los Angeles, extension 5981
Florida; Fernandina Beach, redesignation and extension 5981
Minnesota; Minneapolis, extension 5981
Oregon; Portland, extension 5981
Diplomatic and consular officers representing certain foreign governments, articles for official use of. *See* Articles conditionally free.
Documentation of vessels. *See* Vessels.
Dowels, rough dowels and rough rounds; prospective change in tariff classification 7551
Duties, liquidation of. *See* Liquidation of duties.
Entry of imported merchandise:
Invoices, contents of; additional information required on certain classes of merchandise:
Fur products and furs 7139
Glassware and glass articles 7625
Metal articles, certain, of iron, steel, or aluminum and alloys containing aluminum 8065
Paper and paper products, printed; other than books, newspapers and periodicals (except fashion periodicals) 7009
Release of merchandise; blanket release order, for shipments covered by blanket carrier's certificate 7885

CUSTOMS BUREAU—Continued Page

Entry of imported merchandise—Continued
Requirements on entry; separate entries, provision for, on importations arriving under consolidated immediate transportation without appraisement entry 7885
Right to make entry, evidence of; blanket carrier's certificate for shipments arriving at port during time specified therein 7885
Financial and accounting procedure respecting procurement and kind of car, compartment and package seals; green and yellow seals for carload shipments of merchandise in transit between United States and Canada 7043
Frames for box springs, wooden, unassembled; tariff classification 8053
Furs and fur products, imported:
Invoices; additional information required concerning origin, composition, etc 7139
Marking requirements; labeling to indicate composition 7140
Glassware and glass articles, certain imported; additional information required on customs invoices respecting 7625
Institutions, free entry of articles for. *See* Articles conditionally free.
International airports. *See* Air commerce regulations.
International Trade Fair, Seattle, Washington; importation of articles in connection with. *See* Washington State-Far East International Trade Fair.
Invoices for certain imported merchandise. *See* Entry of imported merchandise.
Iron, certain imported articles of; additional information required on customs invoice 8065
Liquidation of duties:
Classification of imports:
Change in classification or value, effective date of; 90 days after date of publication of ruling in weekly Treasury Decisions 8066
Tariff classification of prospective imports; decisions effective 90 days after date of publication in weekly Treasury Decisions 8066
Asparagin; classification as chemical compound, proposed 8220
Bone black, spent; change in classification 8195
Chlorophyll and chlorophyll derivatives, in water-soluble forms; change in classification 6285, 7754
Chopping blocks, Chinese; prospective change in classification 7706
Cork parts of artificial bait; prospective change in classification 7754
Dowels, rough dowels and rough rounds; prospective change in classification 7551
Frames for box springs, wooden, unassembled; classification of 8053
Phosphate, dicalcium; classification of 6792
Repliqued articles; change in classification 7512
Procedures for liquidation:
Computation of duties; ad valorem rates applied to values in even dollars for mail and baggage entries, as with all formal entries 7111
Notice of liquidation of entries filed at customs station outside of port of entry; procedure for posting 5982
Marking of imported articles; fur products, labeling to indicate composition 7140
Measurement of vessels. *See* Vessels.
Paper and paper products, printed, other than books, newspapers and periodicals (except fashion periodicals); customs invoices for entry, additional information required on 7009
Phosphate, dicalcium; tariff classification of 6792
Ports of entry, for aircraft, vessels, etc.:
Customs districts and ports. *See* Customs districts and ports, *above*.
International airports. *See* Air commerce regulations.
Repliqued articles; change in tariff classification 7512
Seals, customs, for carload shipments of merchandise between United States and Canada; kind, procurement, procedure for use, etc 7042
Special classes of merchandise; wild animals and birds:
Eggs of game birds, provisions for entry 8455

Aeronautical services:
Aircraft stations:
Air carrier aircraft stations; frequency 3023.5 kc available to air carrier aircraft only where VHF is not available or service is suspended, proposed rule making 7511
3105 kc available until March 15, 1953 7512
Aircraft and ship stations using telegraphy; use of certain authorized frequencies 6870
Authorized frequencies in band 415 to 490 kc for, and use of, aircraft stations using telegraphy 6870, 7370

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Aeronautical services—Continued
Aircraft stations—Continued
Distress, frequencies 405 to 535 for use in case of, by aircraft stations 6870, 7370
Private aircraft stations, frequencies available; 3023.5 kc (or 3105 kc until March 15, 1953) assigned as calling and working frequency, proposed rule making 7512
Airdrome control stations, service to be rendered; maintenance of listening watch during hours of operation, aircraft calling and working frequencies to be used for, proposed rule making 7512
Application for special temporary authorization:
Emergencies involving danger to life or property or due to damage to equipment, granting of temporary authorizations for station construction and operation in cases of 8122
Redesignation 8122
Civil aviation (including listening ground watches) use of frequency 3105 kc to be discontinued; proposed rule making 7512
Meteorological broadcasts; reassignment of certain frequencies to provide for use of certain aeronautical mobile (R) service frequencies for, proposed 7511
Mobile aeronautical (OR) and (R) services:
Definition of frequencies in bands allocated to OR and R services 7511
Frequencies in listed bands to be assigned only in accordance with Atlantic City table of frequency allocations, proposed rule making:
OR aeronautical mobile bands, certain, frequencies in, from 3025 kc to 18,030 kc, effective August 15, 1952 7127, 7152
R aeronautical mobile bands, certain, frequencies from 2850 kc to 17,970 kc, effective March 15, 1953 7549
Frequency 3023.5 kc in R and OR bands, use of, by aircraft and for communication with airdome control stations; proposed rule making 7511
Use of certain aeronautical mobile (R) service frequencies for meteorological broadcasts, proposed 7511
Navigational aid radio stations; frequencies available:
Airway track guidance (ranges); use for, of even-tenth frequencies in band 108.2–112.0 mc 6156
Instrument landing localizer, certain; frequencies used for, in band 108.1–112.0 mc, reassignment of 6156
Omni-directional radio ranges; use of even-tenth megacycles frequencies within band 108.1–112.0 mc 6156
Ranges, airway track guidance; use of even-tenth frequencies in band 108.2–112.0 mc, for 6156
Alaska; radio stations other than amateur and broadcast:
Fixed public service:
Communication from non-Government to Government and between non-Government stations, frequencies for 6870, 7370
Rescission of prior provisions respecting 6870, 7370
Communication from non-Government to Government stations, frequencies for; rescission 6870, 7370
Non-Government stations, frequencies for; rescission 6870, 7370
Public coastal service; communication with ship station, calling and working frequencies for, use of frequencies 416 to 438 kc 6870, 7370
Amateur radio service:
Canada and United States, convention between, relating to radio operation. *See* United States.
Civil defense. *See* Radio amateur civil emergency service; *and* Emergencies.
Emergencies, operation in; proposed rule making 7097
Communication bands for use in emergencies 7098
Operators, amateur:
License, eligibility for, advanced class; persons in Armed Forces, qualifying for license prior to December 31, 1952, permitted to take examination without regard to waiting period 6865
Redesignation 6158

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Amateur radio service—Continued
Radio amateur civil emergency service 6156
Applicability of rules governing amateur radio stations and operators 6159
Definitions 6158
Operating requirements; availability of station authorizations and operator licenses, station log maintenance, identification 6161

Frequency allocations and radio treaty matters:
Allocation assignment and use of rado frequencies; table of frequency allocations:
Atlantic City (1947) frequency allocations table and radio regulations, allocations in accordance with:
Aeronautical mobile bands:
OR frequency bands, certain, from 3025 kc to 18,030 kc to be available for use only in accordance with Atlantic City table; proposed rule making 7127, 7152
R frequency bands, certain, from 2850 kc to 17,970 kc, effective March 15, 1952, to be assigned only in accordance with Atlantic City table; proposed rule making 7549
Coast stations operating on frequencies: 4140, 6210, 8280, 12,420, and 16,560 kc, deletion of authority for, effective June 3, 1953; proposed rule making 7351
In bands 14–150, 150–200, and 200–535 kc, modification of licenses of, in accordance with table; proposed 6874
Lists of present and proposed assignments 6874
Coast telegraph station assignments, non-government, transfer of, to bands between 4 and 20 mc stipulated in Geneva agreement; proposed rule making 7354
Deletion of existing coast telegraph assignments not in accordance with Geneva agreement, proposed 7355
International frequency list (new); tentative list of asignments for frequencies in, proposed 7355
Temporary authorizations, conditions for issuance of, proposed 7355
Domestic fixed services, discontinuation by, of certain uses of frequencies below 25 mc, for purposes other than safety of life and property; further notice of proposed rule making to clarify issues in question 8666
Frequencies listed (Cairo-Atlantic City-FIAR-FCC table of frequency allocations); changes assignments, proposed 7510
Maritime mobile service, stations in; availability of certain frequencies in bands from 4238 kc to 17,290 kc, October 1, 1952, for use only in accordance with Atlantic City table, proposed rule making 7096
Ship radiotelephone stations; frequencies in certain bands from 4115 kc to 16,530 kc to be available only for use of, in accordance with Atlantic City table, June 3, 1953, proposed rule making 7127
Ship telegraph service:
Authorization of use by ship telegraph stations for calling, of frequencies between 2089 and 2093 kc; proposed rule making 7510
Frequencies in certain bands from 4177 kc to 16,748 kc, to be available only for use as ship telegraph calling frequencies, in accordance with Atlantic City table, effective June 3, 1953; proposed rule making 7096
Fixed stations, operational, and domestic fixed public service; establishment of new standards and deletion of old criteria in various rules with respect to protection for television in asignment of frequencies in 72–76 mc band to fixed stations, proposed rule making 8218
Frequencies in band 108.1–112.0 mc, reassignment of, to permit use of even-tenth megacycles for omni-directional radio ranges 6156
Hawaii, common carrier fixed stations; allocation of frequency bands 76–88 mc and 98–108 mc for use of, in inter-island communication 7150
International frequency list (new); tentative list of assignments for frequencies in, proposed 7355

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Frequency allocations and radio treaty matters—Continued
International treaties, agreements, and Federal laws, etc., relating to radio, in which United States participates, list of:
Addition of information with respect to:
Agreements (1952) between United States and Canada with regard to:
Assignment of television channels to cities near Border 8664
Promoting safety on Great Lakes by means of radio 8664
Treaty between United States and Canada (May 15, 1952) relating to radio station and operator licenses 6230
Amendments with respect to availability, dates, etc., of certain documents listed 8664
Effective date of list, changes in 6230, 3664
Hawaii, Territory of:
Allocation of frequency bands 76–88 mc and 98–108 mc to fixed services, for inter-island communications only 7150
Frequencies 472 kc and 22,509 kc available for assignment to coast stations in 6870, 7370

Redesignation of subpart heading 8513
Station authorization, procedure for obtaining, and commencement of operation 8513
Stations, authorized; changes in 8514
Supplementary information to be submitted with application 8514
Temporary authority, special, procedure for obtaining:
Filing of application for special temporary authority 8122
In cases of emergencies involving danger to life or property or due to damage to equipment, granting of temporary authorizations for station construction and operation 8122
Equipment acceptable for licensing, list of; when available 8521
Fixed stations, operational, and domestic fixed public service; establishment of new standards and deletion of old criteria in various rules with respect to protection for television in assignment of frequencies in 72–76 mc band to fixed stations, proposed rule making 8218
General information:
Frequencies, policy governing assignment of 8513
Station authorization, transfer and assignment of 8513
New application forms for radiocommunication facilities 8521

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Industrial radio services—Continued
Station operating requirements:
Permissible communications; conduction of tests by stations 8515
Record of station; maintenance of copy of Rules Governing Industrial Radio Services, rescission 8515
Tests, conduction of, by stations 8515
Technical standards; radio station tests, deletion 8515
Industrial, scientific and medical service:
Operation for which license is required; existing equipment:
Effective provisions respecting existing equipment not applicable to:
Diathermy equipment (completed before July 1, 1947) until June 30, 1953 6163, 6199
Industrial heating equipment (completed prior to July 1, 1947) until June 30, 1952 6163
Nonapplicability of provisions extended until June 30, 1953 6199
Miscellaneous equipment (completed prior to April 30, 1948) until April 30, 1953 6163, 6199
Further requests for extension of time for complying with rules for conformance of existing equipment to be considered on individual basis 6163, 6199
Operation without license:
Industrial heating equipment:
Field intensity, measurement of 7092
Maximum field intensity at one mile; measurements made along radials 7093
Operation outside of assigned frequency bands 7092
Location of industrial heating equipment; defining of 7092
Medical diathermy equipment; operation outside assigned frequency bands:
Editorial change 6231
Redesignations 6231
Requirements for equipment and operating conditions 6231
Miscellaneous equipment 7093
Statement of basis and purpose; suspension of effective date of regulations respecting electric arc welding devices, subject to certain operating conditions and equipment requirements 6866
International agreements relating to radio in which United States participates:
Frequencies, North America; assignment of frequencies to foreign broadcasting stations in. *See* North American Regional Broadcasting Agreement.
List of international agreements, Federal laws, etc., relating to frequency allocations and radio treaty matters; changes and additions 6230, 8664
New international frequency list, tentative list of assignments for frequencies in 7355
International broadcast stations. *See* Radio broadcast services.
Land transportation radio services:
Applications, authorizations, and notifications:
Construction period:
Form 400–A to be used for applications for extension of construction time 8516
Redesignation 8516
Equipment, changes in; deletion 8516
Equipment acceptable for licensing, list of; when available 8521
Forms:
New application forms for radio-communication facilities 8521
Standard forms to be used 8515
Frequencies, selection of; deletion 8516
License; procedure for obtaining radio station license, deletion 8515
Redesignation of subpart heading 8515
Station authorization, procedure for obtaining, and for commencement of operation 8515
Stations, authorized; changes in 8516
Supplementary information to be submitted with application 8516
Temporary special authority:
Emergencies involving danger to life or property or due to damage to equipment, granting of temporary authorizations for station construction and operation 8122

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Land transportation radio services—Continued
Applications, authorizations, and notifications—Continued
Temporary special authority—Continued
Filing of application for special temporary authority 8123
Equipment, acceptable for licensing, list of; when available 8521
Fixed stations; establishment of new standards and deletion of old criteria in various rules with respect to protection for television in assignment of frequencies in 72–76 mc band to operational and domestic fixed public service stations, proposed rule making 8218
General information:
Frequencies, policy governing assignment of 8515
Station authorization, transfer and assignment of 8515
New application forms for radiocommunication facilities 8521
Station operating requirements, permissible communications; conduction of tests by stations 8517
Technical standards; radio station tests 8517
Tests, conduction of, by stations 8517
Leased facilities services, including interstate and to Havana, Cuba; hearing respecting increased charges for tickers furnished by Western Union Telegraph Co 7316
Lifeboats, liferafts, etc., radio equipment for; exception with respect to operating controls requirements, proposed 7154
Maritime radio seryices:
Land stations, coastal:
Applications in an emergency, involving danger to life or property or due to damage to equipment, for construction permit or station license, procedure 8121
Assignment of frequencies to coast and ship stations in accordance with Geneva Agreement (1951), in bands 14–150, 150–200, and 200–535 kc and between 10 kc and 25,000 kc 6869, 7369
Coast stations currently authorized to operate within frequency bands 14–150 kc, 150–200 kc, and 200–535 kc, proposed modification of licenses of, for purpose of implementation of such bands in accordance with Geneva Agreement (1951); order respecting 6874
Lists of present and proposed assignments (frequency (kc), station, location, licensee, emission, etc.) 6874
Coast stations on inland waterways. *See* Inland waterways.
Emergency; applications for construction permit or station license in an emergency 8121
Inland waterways:
Coast or ship telegraph stations on inland waterways; deletion of certain currently assignable frequencies, proposed 7153
Modification of licenses of certain coast stations serving inland waterways, to delete authorization of use of coast telegraph frequencies between 2.2–12 mc, effective November 1, 1952; proposed 7164
List of licensees affected 7164
Operating requirements, general; radio telegraph watch by coast stations, use of frequencies 405 to 535 kc and 90 to 160 kc 6869, 7369
Station requirements, general; facilities required for public coast stations, assignment of frequencies 405 to 435 kc for use of coast stations employing telegraphy 6869, 7369
Telegraphy, use of, by coast stations:
Coast stations on inland waterways; modification of licenses of, and deletion of certain currently assignable frequencies, proposed 7153, 7164
Deletion of authority for operation of coast stations on frequencies 4140, 6210, 8280, 12,420, and 16,560 kc, effective June 3, 1953; proposed rule making 7351
Frequencies assignable:
Consideration of assignment of frequencies 448, 452, 454, and 462 kc in relation to interference to operation of superheterodyne type of radio receiver; deletion 6870, 7370

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Land stations, coastal—Continued
Telegraphy, use of, by coast stations—Continued
Frequencies assignable—Continued
Frequencies 161 kc–454 kc assignable only if previously included in assigned frequencies of coast stations; deletion of provisions respecting 6870, 7370
Great Lakes or inland waters, communication with ship stations on:
Exclusive use of frequency 2274 kc; proposed deletion 7154
Restriction respecting use of frequency 410 kc; deletion 6870, 7370
List of assigned frequencies:
Available for assignment:
Frequencies 472 kc and 22,509 kc for use in Hawaii 6870, 7370
Frequencies 486 kc and 128.95 kc, for use in Puerto Rico 6870, 7370
Frequency 482 kc for use in Great Lakes area 6870, 7370
Various frequencies between 112.85 and 22,569 kc to coast stations located in seacoast area (Atlantic, Pacific, and Gulf of Mexico) of continental United States 6870, 7370
Deletion of certain frequencies from list:
Between 2274 and 11,040 kc; proposed rule making 7154
Frequencies 5555, 5560 and 5565 kc (proposed deletion) 7511
From 105 to 484 kc, and notes respecting 6870, 7370
Mississippi River area, coast stations located in, exclusive use of frequency 3030 kc by; proposed deletion 7154
Temporary authorization of assignment of additional frequencies within bands 10 kc and 25,000 kc 6870, 7370, 7548
Use of frequency 8570 kc by coast stations under certain prescribed conditions; proposed deletion 7154
Frequencies for calling; use of frequencies 405 to 535 kc and 90 to 160 kc 6870, 7370
Frequencies for working; transmission on telegraph working channels within bands 110 to 150 kc and 415 to 490 kc 6870, 7370
International frequency list (new), tentative list of assignments for frequencies in 7355
Non-government coast telegraph station assignments, transfer of, to bands between 4 and 20 mc stipulated in Geneva agreement; proposed rule making 7354
Deletion of existing coast telegraph assignments not in accordance with Geneva agreement 7355
List of assignments, tentative, for frequencies in new international frequency list 7355
Temporary authorizations, conditions for issuance of 7355
Testing procedure; test emission frequencies within band 405–535 kc 7370
Unavailability of certain frequencies for assignment to coast stations to provide for meterological broadcasts on certain aeronautical mobile (R) service frequencies, proposed 7511
Mobile maritime service, stations in; availability of certain frequencies in bands from 4238 to 17,290 kc, October 1, 1952, for use only in accordance with Atlantic City table of frequency allocations, proposed 7096
Shipboard stations:
Application for license or modification or renewal of license in an emergency 8121
Assignment of frequencies to ship and coast stations in accordance with Geneva Agreement (1951), in bands 14–150, 150–200, and 200–535 kc and between 10 kc and 25,000 kc 6869, 7369
Call sign block assignment scheme for ships using telegraphy, alternative for; proposed 7906
Emergency; modification or renewal of license in cases of emergency involving danger to life or property or due to damage to equipment 8121

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Shipboard stations—Continued
High radiotelegraph and radiotelephone ship frequencies, tables of, (Appendix III); proposed 7908
Inland waterways, ship or coast telegraph stations on; deletion of certain currently assignable frequencies, proposed 7153
License, application for, or modification or renewal of license in an emergency 8121
Radiolocation by cable repair ship; operation of radio transmitting equipment on authorized radio channels within band 285-325 kc, with certain limitations 6870, 7370
Radiotelegraphy, use of:
Distress, frequencies for use in; ship or aircraft stations requesting assistance, use of frequencies 405 to 535 kc 6870, 7370
Frequencies assignable:
Authorization of use of radio channels, of which 480 kc is assigned frequency, in European coastal regions; deletion 6870, 7370
Direction-finding stations, communication by radiotelegraphy with; use of 410 kc 6870, 7370
Government stations, frequencies assigned for communication with; effective date of discontinuance of use of 355 kc assigned frequency radio channel by ship stations 6870, 7370
Great Lakes or inland waters:
Restriction respecting use of radio channels, of which 394, 400, and 410 kc are assigned frequencies, not applicable 6870, 7370
Use of frequency 2274 kc; proposed delection 7154
List of assigned frequencies:
Addition of frequency 448 kc (Region 2) 6870, 7370
Deletions from list:
Frequencies 160, 355, 375, 394, and 400 kc deleted 7370
Frequencies 2274 and 3030 kc; proposed deletion 7154
Frequency 8260 kc; proposed deletion 7511
Special conditions and limitations not applicable to frequency 480 kc 6870, 7370
Mississippi River and tributaries, use of frequency 3030 kc; proposed deletion 7154
Frequencies for calling:
Availability of certain frequencies for use as ship telegraph calling frequencies, June 3, 1953, in accordance with Atlantic City table (proposed) 7096, 7510
Call sign block assignment scheme for ships using telegraphy, alternative for; proposed 7906
Table of ship radiotelegraph calling frequencies (Appendix III); proposed 7907
Use of frequencies 405 and 535 kc and 90 to 160 kc 6870, 7370
Frequencies for working:
Cargo ship working frequencies, table of (Appendix III), proposed 7908
Communication with coast stations; transmission on telegraphy working channels within bands 110 to 150 kc and 415 to 490 kc 6870, 7370
Passenger ship radiotelegraph working frequencies, table of (Appendix III); proposed 7907
Ship and aircraft stations using telegraphy and working on frequencies within band 415 to 490 kc; authorized frequencies and use 6870, 7370
High radiotelegraph frequencies for ship station applicants; table (Appendix III), proposed 7908
Inland waterways, ship telegraph stations on; deletion of certain currently assignable frequencies, proposed 7153
Station records; ship stations using frequencies within band 90 to 535 kc 6870, 7370
Testing procedure; test emission frequencies within band 405–535 kc 6870, 7370

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Shipboard stations—Continued
Radiotelephony, use of; proposed rule making:
Availability of frequencies in certain bands from 4115 to 16,530 kc for use of ship radiotelephone stations only, in accordance with Atlantic City table, June 3, 1953 7127
Frequencies assignable; list of authorized carrier frequencies:
Addition of frequency 8262.3 kc 7511
Deletion of frequency 8830 kc from list 7511
Frequencies from 5000 kc to 30 mc for public correspondence; list of frequencies authorized for use by ship stations on oceangoing vessels:
Addition of frequency 8262.3 kc 7511
Deletion of frequency 8830 kc from list 7511
High (long-distance) radiotelephone ship frequencies between 4 mc and 22 mc; table, (Appendix III) 7908
Ship radiotelegraph frequencies from 2,000 kc to 23,000 kc and radiotelephone frequencies from 4,000 kc to 23,000 kc, tables of (Appendix III); proposed rule making 7907
Ship stations on inland waterways. *See* Inland waterways.
Station requirements, general:
Operating controls, requirements; ship stations using multi-channel installation for telegraphy, proposed rule making:
Effective date of requirements with respect to:
Frequencies in bands 4,000 and 23,000 kc and radio channels in frequency band 2065–2107 kc 7154
Radio-channels within frequency band 2000 kc to 25,000 kc; supersedure 7154
Equipment used in emergencies on frequencies below 515 kc or on lifeboats and survival craft only, exception with respect to 7154
Telegraphy, required radiochannels for:
Ship stations using telegraphy (except on lifeboats, etc.), operating on frequencies in bands 4000 to 23,000 kc, transmitting requirements for, proposed rule making 7154
Use of frequencies within bands 405 to 535 kc and 90 to 160 kc 6870, 7370
Unavailability and reassignment of certain frequencies to ship telephone and telegraph stations; proposed 7511
Watch required by International Radio Regulations; use of frequencies in band 405 and 535 kc 6870, 7370
Watches, general purpose:
Watch on 143 kc; use of frequencies in band 90 to 160 kc 6870, 7370
Watch on 500 kc; use of frequencies in band 405 to 535 kc 6870, 7370
Market News Service (Federal-State), California; further notice of proposed deletion of availability of certain frequencies used by 8666
Medical diathermy equipment, operation of. *See* Industrial, scientific, and medical service.
Meteorological broadcasts; reassignment of certain frequencies to provide for use of certain aeronautical mobile (R) service frequencies for (proposed) 7511
North American Regional Broadcasting Agreement; lists of changes in assignments for stations in various countries:
Canada 7826
Cuba 6874, 8308
Operator licenses, suspension of; procedure 8663
Organization, delegations of authority, etc.:
Authority, delegation of:
To Chief, Safety and Special Radio Services Bureau, respecting establishment of existence of emergency involving danger to life or property or due to damage to equipment 8132
To Engineer in Charge at each district headquarters office; authority to act on all applications for new, modified replacement, or renewed commercial radio operator licenses 8132

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Organization, delegations of authority, etc.—Con.
Authority, delegation of—Continued
To Regional Managers and Chiefs of Field Engineering and Monitoring Bureau and Field Operating Division to declare state of general communications emergency 7099
To Secretary, upon securing approval of:
Bureau of Engineering; certain applications for commercial radio licenses, deletion and redesignations 8132
Bureaus of Law and Engineering; applications for commercial radio operator licenses, deletion and redesignations 8132
Deletion of authority of Chief, Field Engineering and Monitoring Bureau, with respect to certain provisions concerning handling of applications for commercial radio operator licenses 8132
Public information; certified copies, requests for, and costs, treatment of requests from foreign governments and residents of foreign countries 7758
Practice and procedure:
Applications of cities for television channels, list of, arranged according to priorities in temporary processing procedure supplements 7556
Common carriers, tariffs, reports, and other material required to be submitted by; reports to be filed under Part 31 of this chapter:
Continuing property-record:
Deletions 6869, 8216
List of accounting areas and description of subsequent proposed changes 6869, 8216
Proposed revisions in list of property-record units 6869, 8216
Continuing property-record plan; change in reference 6869, 8216
Forms:
Forms for use with radio license applications. *See* Radio licenses.
Table of forms currently in effect:
Forms added:
Forms 400 and 400–A 8510
Form 410 6230
Form 481 6857
Form 482 6857
Forms deleted:
Forms 401–B and 401–C 8510
Form 402 8510
Form 455 8510
Radio licenses, applications and proceedings affecting:
Acceptance, amendment, or dismissal of application, rules relating to; multiple applications, broadcast service 6155
Action on applications:
Renewal applications, operation pending action on 7290
Temporary extension of station licenses; supersedure 7290
Filing of applications and description of forms:
Application for license following construction permit:
Form 341 (Noncommercial educational FM broadcast station license) 7601
Form 400 (Application for radio station authorization in public safety, industrial, and land transportation radio services) 8510
Redesignation 7601, 8510
Application for station license where no construction permit is required:
Form 341 (Noncommercial educational FM broadcast station license, application for), when it must be used 7601
Form 481; radio amateur civil emergency service, application for authority to operate a station in 6357
Redesignation 8364
Redesignations 7601
Authority to construct a new station or make changes in existing station, broadcast services; Form 340 (Noncommercial educational FM broadcast station) 7601
Canadian radio station licensees, application of, for registration and permit to operate in United States (Form 410) 6230

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Practice and procedure—Continued
Radio licenses, applications and proceedings affecting—Continued
Filing of applications and description of forms—Continued
Civil defense radio officer, certification of (Form 482) 6857
Construction permit, application forms for, radio services other than broadcast; Forms 400, 400–A, 401, and 401–A to be used by listed radio services 8510
Extension of time of construction permit, application for, to be requested on Form 400–A by public safety, industrial, and land transportation radio services 8510
Installation or removal of apparatus, broadcast and nonbroadcast; public safety, industrial, and land transportation radio services excepted, under certain conditions, from requirements regarding replacement of transmitting equipment 8510
Modification of license, broadcast and nonbroadcast, application for:
Form 301 (Application for authority to construct new broadcast station or make changes in existing station revised March 21, 1952) 8510
Inclusion of additional information requirement to be supplied by applicants for noncommercial educational television stations 6156
Paragraph 10, section IV; deleted 7495
Form 340 (Application for authority to construct or make changes in noncommercial educational FM broadcast station), when used 7601, 8511
List of application forms which are to be used for requests of modification of license, etc. (Forms 301, 312, 313, 340, 400, 403, 404–A, 501–A, 501–B, 503, 505, 525) 8510
Redesignations 7601
Renewal of license, broadcast and nonbroadcast, application for:
Form 303 (Application for renewal of broadcast station license); instruction respecting completion of form and deletion of paragraph 10, section IV 7495
Form 311 (Renewal of international facsimile, or experimental broadcast station license, application for); use of 7601
Form 342 (Renewal of noncommercial educational FM broadcast station license) 7601
Redesignations 7601
Voluntary assignment or transfer of control, application for:
Broadcast:
Form 314 (Application for consent to assignment of radio broadcast station construction permit or license); instruction respecting completion of form and deletion of paragraph 10, section IV 7495
Form 315 (Application for consent to transfer of control of corporation holding radio broadcast station construction permit or license); instruction respecting completion of form and deletion of paragraph 10, section IV 7495
Nonbroadcast:
Form 400 (Application for radio station authorization in public safety, industrial, and land transportation radio services) 8511
Redesignations 8511
General requirements; applications required:
Canadian licensees required to register and obtain permit for operation in United States 6230
Redesignation 6230
Manner in which applications are processed, television broadcast applications, temporary processing procedure for; suspension of processing of certain mutually exclusive applications 8663

Operator licenses, suspension of; procedure 8663
Public fixed and coastal service in Alaska. *See* Alaska.
Public radiocommunication services (other than maritime mobile):
Alaska, public fixed and coastal service in. *See* Alaska.
Domestic fixed services, discontinuation by, of certain uses of frequencies below 25 mc, for purposes other than safety of life and property; further notice of proposed rule making to clarify issues in question 8666
Fixed stations, operational and domestic fixed public service; establishment of new standards and deletion of old criteria in various rules with respect to protection for television in assignment of frequencies in 72–76 mc band to fixed stations, proposed rule making 8218
Hawaii, fixed services in; allocation of frequency bands 76–88 and 98–108 mc to, for inter-island communications 7150
Public safety radio services:
Applications, authorizations, and notifications:
Authorization; request for special temporary authority to install or operate equipment in emergencies involving danger to life or property or due to damage to equipment, procedure with respect to 8122
Construction period:
Form 400–A to be used for application for extension of construction time 8512
Redesignation 8512
Equipment:
Change in equipment; rescission 8512
List of equipment acceptable for licensing; when available 8521
Request for special temporary authority to install or operate equipment in emergencies involving danger to life or property or due to damage to equipment, procedure with respect to 8122
Filing of applications:
In duplicate; rescission 8511
Incompleteness of application or required information to constitute defect in application 8511
Installation of new equipment 8511
Temporary location, operation at; procedure respecting applications for operation of base or fixed stations remaining in locality less than one year and more than one year 8511
Modification of station authorization must be requested after one year 8513
Forms:
New application forms for radio-communication facilities 8521
Standard forms to be used 8512
Frequency requested, statement with respect to; deletion 8512
License; procedure for obtaining radio station license, deletion 8511
Redesignation of subpart heading 8511
Station authorization, procedure for obtaining, and for commencement of operation 8511
Stations, authorized; changes in 8512
Supplemental statement regarding coordinated service; deletion 8512
Supplementary information to be submitted with application 8512
Temporary location, operation at; rescission 8513
Equipment acceptable for licensing, list of; when available 8521
Fixed stations, operational and domestic fixed public service; establishment of new standards and deletion of old criteria in various rules with respect to protection for television in assignment of frequencies in 72–76 mc band to fixed stations, proposed rule making 8218
General information:
Coordinated service; mobile stations wishing to receive such service, procedure for 8511

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Public safety radio services—Continued
General information—Continued
Frequency coordination procedures 8511
Station authorization; submittal of requests for authority to assign or transfer control of 8511
New application forms for radio-communication facilities 8521
Operating requirements, procedure; conduction of tests by stations 8513
Technical standards; radio station tests, deletion 8513
Puerto Rico; frequencies 128.95 kc and 486 kc available for assignment to coast stations in 6870, 7370
Radio broadcast services:
Educational broadcast stations, noncommercial:
Administrative procedure, rules governing:
Application for noncommercial educational FM broadcast stations 7602
Renewal of license; use of Form 342, substituted for Form 343 7602
Equipment and antenna system, changes in; use of Form 340, substituted for Form 342 7602
Operation, rules relating to:
Logs, recording procedure where illumination of antenna structures is required 6230
Rebroadcast; stations refusing authority for rebroadcast of programs required to file statement of refusal with Commission, postponement of effective date of 8120
Technical operation:
Antenna structure, marking and lighting 6230
Tower lights and associated control equipment, inspection of; deletion 6230
Television stations. *See* Television broadcast stations, *below*.
Experimental and auxiliary broadcast services. *See* Experimental, *above*.
FM broadcast stations:
Allocation of frequencies and channels:
Class A stations:
Designated channels, exception 7150
Hawaii; allocation of frequency band 98–108 mc for nonbroadcast use only 7150
Class B stations:
Designated channels, exception 7150
Hawaii; allocation of frequency band 98–108 mc for nonbroadcast use only 7150
Revised tentative allocation plan for channels allocated to Class B stations; amendments 6857, 7153, 7510, 8670
Educational FM broadcast stations. *See* Educational broadcast stations, *above*.
Operation, rules relating to:
Logs, recording procedure where illumination of antenna structures is required 6230
Rebroadcast; stations refusing authority for rebroadcast of programs required to file statement of refusal with Commission, postponement of effective date of 8120
Standards of Good Engineering Practice:
Antenna systems; requirements respecting painting and illumination of antenna structures for air navigation protection, deletion 6231
Transmitter location, antenna structures as aviation hazard; reference to procedures and standards which may be used as guide by station license applicants 6231
Technical operation:
Antenna structure, marking and lighting 6230
Tower lights and associated control equipment, inspection of; deletion 6230
International broadcast stations:
Operation, rules relating to:
Logs, recording procedure where antenna structures are required to be illuminated 6230
Rebroadcast; stations refusing authority for rebroadcast of programs required to file statement of refusal with Commission, postponement of effective date of 8120
Technical operation:
Antenna structure, marking and lighting 6230
Tower lights and associated control equipment, inspection of; deletion 6230
Operator licenses, suspension of; procedure 8663

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Radio broadcast services—Continued
Standard broadcast stations:
Equipment, radiating system; painting and illumination of antenna structures, change in reference 6230
General rules applicable to standard stations:
Logs, recording procedure where illumination of antenna structures is required 6230
Rebroadcast; stations refusing authority for rebroadcast of programs required to file statement of refusal with Commission, postponement of effective date 8120
Standards of Good Engineering Practice:
Standard lamps and paints; deletion 6231
Transmitter location, relation of site to airports and airways; reference to procedures and standards for antenna structures which may serve as guide for station license applicants 6231
Technical operations:
Antenna structure, marking and lighting 6230
Tower lights and associated control equipment, inspection of; deletion 6230
Television broadcast stations:
Applications for television broadcast; suspension of processing of mutually exclusive applications in Group A–2 and Group B 8663
Assignment of frequencies in 72–76 mc band to operational fixed and domestic fixed public service stations; establishment of new standards and deletion of old criteria in various rules with respect to protection accorded television, proposed rule making 3218
Rules governing television broadcast stations (Part 3, E):
Applications and authorizations, noncommercial educational stations; FCC Form 301 "Application for authority to construct new broadcast station, etc.", revised to include additional information to be supplied by applicants for television stations 6156
Applications of cities for television channels, list of, arranged according to priorities in temporary processing procedure supplements 7556
Channel utilization:
Antenna heights, maximum required and power for VHF stations; zone location of transmitter determines applicable rules where transmitter and channel to be used are in different zones 8217
Assignments, table of:
Addition of listed localities to table:
Fremont, Channel 59, under Ohio; proposed rule making 7510
Irwin, Pennsylvania, VHF Channel 4; proposed rule making 8126
Old Hickory, Tennessee, Channel 5; proposed rule making 8668
Palm Springs, Channel 14, under California 8166, 8120
Changes, deletions, etc., affecting channel assignments in listed States:

Inventory control:
Controlled Materials Plan; inventories. *See under* Priorities system operation.
Limitations on materials that can be ordered, received or delivered; building materials, chemicals, forest products, leather and tanning materials, iron and steel, metals and minerals, rubber materials, textile materials, etc. (Regulation 1) 6771, 8153
Practicable minimum working inventory limitation, materials subject to (Table IA) 6773, 8155
Special inventory restrictions, materials subject to (Table II) 6774, 8156
Specific calendar day or practical minimum working inventory limitation, whichever is less, materials subject to (Table IB) 6774, 8156
Slab zinc removed from inventory limitation 5895
Priority orders respecting inventory limitations for specific materials and commodities. *See specific materials and commodities.*
Priorities system operation; regulations:
See also Priority orders.
Basic rules respecting DO ratings (Regulation 2):
Ratings for certain materials and products, restrictions upon use of (Dir. 3) 6669, 6774
Aluminum foil and powder; added 6775
Pig iron; added 6669
Rayon, high-tenacity; added 6669
Steel industry, work stoppage in; rescheduling of deliveries under NPA directives affected by (Direction 5) 6228, 7395
Canada; extent to which contracts and orders required to support defense programs of United States and Canada may have benefit of priorities system (Regulation 3) 7693

20000—52——10

NATIONAL PRODUCTION AUTHORITY—Continued Page

Priorities system operation; regulations—Continued
Controlled Materials Plan:
Basic rules; authorization of production schedules for manufacturing operations, and procurement of materials (CMP Regulation 1):
Allotments and delivery orders for controlled materials:
Designation and use of allotment numbers; provisions respecting 8151
Restrictions on placing orders and on use of allotments and materials; use or disposal of unused delivered materials 6762
Aluminum, copper and steel; various forms and shapes (Schedule I); aluminum foil and powder 6762
Carbon conversion steel; ex-allotment acquisition and use for Class A and B products (Direction 19) 7589, 7933
Carbon steel castings, heavy; additional advance allotment authority (Direction 14) 5894
Foreign and used steel; acquisition and use without allotment (Direction 4) 7784
Minimum mill quantities (Schedule IV); aluminum foil and powder 6762
Orders, authorized, time for placing (Schedule III); aluminum foil and powder 6762
Producers of class A and class B products, persons deemed to be (Int. 1) 6557
Producers of class B products:
Automatic allotment procedure (Direction 18) 7340, 7937
Procedure for obtaining minimum quanities of materials (Direction 1):
Persons affected by Direction 5894
Termination date, provisions respecting 7339
Self-authorization procedure (Direction 17) 7339
Restrictions on placing authorized orders (Direction 3) 7429
Special delivery status for authorized controlled material orders placed in support of certain military, atomic energy and machine tool programs (Direction 15) 6958
Special preference status for authorized controlled material orders placed in support of certain military, atomic energy, and machine tool programs (Direction 13); revocation 6906
Steel; restrictions on shipments and acceptance of deliveries (Direction 12) 6430
Revocation 6957
Third and fourth quarter authorized controlled material orders, certain; placement and acceptance (Direction 16) 6959, 7936
Construction; rules limiting construction, methods for obtaining schedules and allotments, and procedure for use of foreign and used steel (CMP Regulation 6):
Carbon conversion steel; ex-allotment acquisition and use with respect to authorized construction schedules (Direction 7) 7590, 7935
Categories of construction and quantities of materials for which purchase orders may be self-authorized (Table II) 7116
Conservation; limitations on use of controlled materials 7116
Controlled materials (Table III); aluminum 6763
Placement and acceptance of certain third and and fourth quarter authorized controlled material orders (Direction 6) 6960
Restrictions on placing orders and on use of allotments and materials; use or disposal of unused delivered materials 6763
Delivery orders, preference status of, for controlled and other materials (CMP Regulation 3); special preference status of DO rated orders for class A and B products containing steel (Direction 4) 6959, 7692
Inventories of controlled materials (CMP Regulation 2) 7938
Copper and aluminum, temporary suspension of inventory limitations on (Direction 1) 5894
Revocation 7940
Maximum inventory limitations; steel items, certain 6959

NATIONAL PRODUCTION AUTHORITY—Continued Page

Priority orders:
Aluminum:
Destructive uses, procedure for obtaining aluminum for (M–84) 6768
Distributors; rules for accepting, filling and placing orders and obtaining replacement of stock (M–88) 6769
Foil, converted; restrictions for use of, in certain containers or packaging material (M–67), revocation 6153
Foil and powder; ratings for certain materials (Regulation 2, Direction 3) 6774
Inventory limitations, temporary suspension of (CMP Regulation 2, Direction 1) 5894
Revocation 7940
Rules for placing, accepting and scheduling rated orders (M–5) 6763
Scrap, aluminum; distribution and use (M–22) 8545
Use in certain consumer durable goods. *See* Metals.
Use in electric utilities. *See* Electric utilities.
Use in residential construction. *See* Construction.
Automobile wreckers; required inventory report, limitations on acceptance of delivery of motor vehicles or car-units, and certain other requirements (M–92), revocation 5990
Temporary exemption of auto wreckers in certain areas from purchase limitations (Direction 1); revocation 5990
Brass and bronze:
Brass mill products. *See* Copper and copper base alloy.
Tin content, permissible in brass and bronze items. *See under* Tin.
Building materials; designation as scarce materials 6777
Cans, tin plate, terneplate and blackplate; restrictions upon acceptance, delivery and uses of cans and specifications for listed products (M–25):
Emergency packing of perishable food products, suspension of can specifications for (Direction 4) 5895, 6670
Revocation 8153
Exceptions respecting cans made from certain specified materials 7489
Temporary authority for manufacture and use of cans made from emergency purchases of tin plate (Direction 5) 8153
Carbon electrodes. *See* Graphite, artificial, and carbon electrodes.
Chemicals:
Allocation of chemicals and allied products (M–45), Appendix B materials; polyethylene (Schedule 5), revocation 7368
Inventory limitation 6773, 8155
Scarce materials, designation as 6776, 6777, 8152
Sulfuric acid, distribution by producers (M–94); revocation 7547
Columbium and tantalum; alloying materials. *See* Iron and steel.
Communications; rules for procurement and use of materials for MRO and operating construction by operators of systems (M–77):
Definitions, "operating construction"; quantities of controlled materials allowed for building alterations 7118
Limitation on use of controlled materials; deletion 7118
Construction:
Controlled Materials Plan. *See* Priorities system operation.
Machinery. *See* Machines and machinery.
Materials; copper and copper-base alloy, conservation of, and list of items in which use is prohibited (M–74), revocation 7118
Use of copper and copper base alloy in inventory as of July 1, 1951 (Direction 1); revocation 7118
Residential construction; limitations on construction or alteration of residential structures and restrictions on use of controlled materials (M–100):
Construction, alteration, etc., commenced prior to March 6, 1952; 1- through 4-family residences 7118

NATIONAL PRODUCTION AUTHORITY—Continued Page

Priority orders—Continued
Construction—Continued
Residential construction; limitations on construction or alteration of residential structures and restrictions on use of controlled materials (M–100)—Continued
Limitations on use of controlled materials for certain purposes in residential construction; revocation 7118
Scope; provisions for use of copper and aluminum, deleted 7118
Self-authorization for 1- through 4-family residential structures; continuance of construction, alterations, additions, or extensions 7118
Types and quantities of materials which may be obtained (Schedule I) 7118
Types and quantities of materials which may be obtained for construction, alteration, etc., commenced prior to March 6, 1952 (Schedule II); revocation 7118
Consumer durable goods, use of controlled materials in. *See* Metals.
Containers and closures:
See also Cans.
Inventory limitation 6774, 8156
Scarce materials, designation as 6777
Use of aluminum foil in. *See* Aluminum.
Controlled materials (aluminum, copper, steel):
See also Aluminum; Copper; *and* Iron and steel.
Controlled Materials Plan for. *See under* Priorities system operation, *above*.
Distribution to retailers; maintenance of inventories, and limitations on orders and sales (M–89), list of controlled materials and amounts that may be purchased on orders (Schedule I); deletion of certain aluminum items 6771
Copper and copper-base alloy:
Brass mill products; distribution to distributors (M–82) 6741
Placement of orders by distributors for additional products prior to Oct. 1, 1952 (Direction 1) 7693
Inventory limitations, temporary suspension of (CMP Regulation 2, Direction 1) 5894
Revocation 7940
Raw materials, distribution of; limitation on toll agreements covering scrap and prohibitions on undue scrap accumulation (M–16):
Advance authorizations (Direction 1) 5990
Definitions; brass mill products 7148
Records and reports; scrap dealer or broker, requirements for filing Form NPAF–125 7148
Use as construction materials. *See* Construction.
Use by electric utilities. *See* Electric utilities.
Use in certain consumer durable goods. *See* Metals.
Use in lighting fixtures. *See* Lighting fixtures.
Wire mill products, distribution of (M–86); monthly quotas of X–6 orders, increase in 6743
Cryolite; conservation and use (M–99) 8431
Electric equipment. *See* Power equipment, and electric equipment.
Electrical utilities; procurement and use of materials by (M–50) 7489
Aluminum (Appendix A); third and fourth quarter quotas and advance allotments for future quarters 7492
Copper (Appendix B); third and fourth quarter quotas and advance allotments for future quarters 7492
Inventory limitations:
Aluminum and copper; temporary suspension of limitations (Direction 1), revocation 7941
Steel; maximum limitations, temporary reduction of (Direction 2) 7493
Steel, carbon, alloy, and stainless (Appendix C, D, E); third and fourth quarter quotas and advance allotments for future quarters 7492
Temporary suspension of inventory limitations on copper and aluminum (Direction 1) 6741
Farm equipment. *See* Farm equipment, *above*.

NATIONAL PRODUCTION AUTHORITY—Continued Page

Forest products:
Inventory limitation 6773, 8155
Scarce materials, designation as 6776, 6777, 8152
Gas industries. *See* Petroleum and gas industries.
Graphite, artificial, and carbon electrodes; conservation and distribution of (M–66):
Allocation authorizations for fourth quarter (Direction 1) 7942
Revocation 8485
Insect wire screening, rules for placing and accepting rated orders (M–42); revocation 6958
Iron and steel:
Alloying materials and alloy products; requirements for melters and processors of, and authorization of melting or processing schedules (M–80):
Chromium and chromium nickel (Schedule C) 6766
Restrictions on certain uses for heat-resistant purposes (Appendix 1) 6767
Columbium and tantalum (Schedule 5) 7785
Nickel (Schedule 1) 8018
Quantities of contained metals in alloying materials exempted per month (List II); zirconium, increased allowance in 7785
Carbon steel castings, heavy; additional advance allotment authority under Controlled Materials Plan (CMP Regulation 1, Direction 14) 5894
Controlled Materials Plan respecting acquisition, deliveries and use of steel. *See* Priorities system operation, *above*.
Distributors, steel; requirements regarding shipments, and identification and acceptance of purchase orders (M–6A):
Earmarked stocks—aircraft quality alloy steel products (Schedule 1) 7013, 7692
Additional restrictions on sale and delivery (Direction 1) 6153
Earmarked stocks—oil country casing, oil country tubing, and oil country drill pipe (Schedule 2); additional restrictions on delivery of oil country casing and tubing (Direction 1) 6558
Revocation 7693
Flood-damaged area relief (Direction 2); revocation 8389
Supplemental shipments by producers and limitations on distributors' deliveries (Direction 3) 6957, 7114, 8119
Inventory limitation 6773, 8155
Pig iron, ratings for; restrictions on use (Regulation 2, Direction 3) 6669
Requirements concerning production, authorization for production and certain reports and provisions respecting orders and deliveries (M–1) 6033
Acceptance or rejection of orders by producers; provisions respecting 7087
Authorized production; respecting steel mill products derived from rerolling of rails and axles 7087
Fourth quarter; acceptance of defense orders in reserved space (Direction 6) 7088, 7185
Lead time 7083
List of products to which order applies (Table I) 6041
Percentage of carbon and alloy steel to be applied against planned monthly production for listed products derived from rerolling of rails and axles (Table II) 7088
Scarce materials, designation as 6776, 6777, 8152
Scrap; allocation and inventory limitation (M–20) 6669
Allocations and directives; alloy scrap, certain, provisions respecting 8044
Alloy scrap segregation (Direction 1) 7429
Use in consumer durable goods. *See* Metals.
Use of steel by electric utilities. *See* Electric utilities.
Work stoppage in steel industry, rescheduling of deliveries under NPA directives affected by (Regulation 2, Direction 5) 6228, 7395

NATIONAL PRODUCTION AUTHORITY—Continued Page

Priority orders—Continued
- Jacks, mechanical, hydraulic, air, and electrically-operated; limitation on manufacture and assembly (M–83) 6042
- Schedule A; list of devices commonly known as jacks 6043
- Schedule B; jacks not subject to standardization and simplification 6043
- Leather and tanning materials:
  - Inventory limitation 6773
  - Scarce materials, designation as 6776
  - Withdrawal of designation 8153
- Vegetable tanning material, restrictions on use (M–57); revocation 8272
- Lighting fixtures: limitations on use of copper (M–97), revocation 6670
- Machines and machinery:
  - Construction machinery, delivery of; rules for placing, accepting and scheduling rated orders (M–43) 6035, 8044
  - Claimant agencies and responsibilities (List B) 6037, 8046
  - Types of construction machinery and equipment (List A) 6037, 8046
- Farm equipment. *See* Farm equipment *above*.
- Metalworking machines:
  - Delivery (M–41) 6853
  - Finishes for; limitations on preparation for painting and application of paint on new machines (M–104), revocation 7051
- Turbines, engines, generators, transformers, etc. *See* Power equipment, and electric equipment.
- Metals (iron, steel, copper, and aluminum), use of, in certain consumer durable goods:
  - To prohibit use of copper and aluminum for certain ornamental, decorative, nonfunctional and nonoperational purposes (M–47A); prohibited use 7116
  - To provide for flexibility in production and to prohibit use of copper and aluminum for certain ornamental and decorative purposes (M–47B) 7116
- Furniture, fixtures, domestic appliances, lamps, fans, lawnmowers, silverware, fabricated products, musical instruments, jewelry, smokers' articles, etc. (Schedule 1) 6431, 7117
- Metals and minerals:
  - Inventory limitation 6774, 8155
  - Scarce materials, designation as 6776, 6777, 8152, 8153
- Metalworking machines. *See* Machines and machinery.
- Molybdenum. *See* Tungsten and molybdenum.
- Nickel, used as alloying material. *See* Iron and steel.
- Paper; rules for placing, accepting, and scheduling Government orders (M–36) 7090
- Petroleum and gas industries:
  - Foreign petroleum operations, priorities assistance for obtaining material for construction operations, maintenance, repair, operating supplies, and laboratory equipment (M–46A):
    - Carbon conversion steel; acquisition and use without allotments, for approved construction projects (Direction 3) 8076
    - Oil country tubular goods, third quarter authorized controlled material orders for (Direction 2) 7854
  - United States and Canada, petroleum operations in; priorities assistance for obtaining MRO material for maintenance and repair purposes, as operating supplies, or laboratory equipment (M–46):
    - Carbon conversion steel; acquisition and use without allotments, for approved construction projects (Direction 5) 8075
    - Filing date, for Form PAD–26LP 7050
    - Oil country tubular goods; third quarter authorized controlled material orders for (Direction 4) 7854
- Platinum; limitations on distribution and use (M–54) 7430
- Jewelry and miscellaneous items, use in, prohibited (List A) 7431

NATIONAL PRODUCTION AUTHORITY—Continued Page

Priority orders—Continued
- Polyethylene. *See* Chemicals.
- Power equipment, and electric equipment (turbines, engines, generators, transformers, etc.), production and delivery (M–44); factors in rescheduling production and delivery schedules of manufacturers (Direction 1) 6152
- Printing plates, conservation of metal used in (M–65); revocation 8582
- Railroad transportation equipment; information pertaining to production or delivery (M–95) 7592
- Rayon, high-tenacity, ratings for; restrictions on use (Regulation 2, Direction 3) 6369
- Rubber:
  - Inventory limitation 6774, 8155
  - Restrictions applicable to cold GR–S and natural crepe rubber (M–2) 6739, 7940
  - Cold GR–S rubber, limitation on purchase of; deletion 7940
  - Scarce materials, designation as 6776, 6777, 8152
- Scarce materials, designation of chemicals, forest products, leather and tanning materials, iron and steel, metals and minerals, rubber materials, textile materials, etc., as, and withdrawal of certain previous designations (DSM 1) 6775, 8151
- Steel. *See* Iron and steel.
- Sulfur, conservation of; restrictions on use and prohibitions on deliveries (M–69) 7591
- Sulfuric acid. *See* Chemicals.
- Tanning materials. *See* Leather and tanning materials.
- Textile materials:
  - Inventory limitation 6774, 8155
  - Scarce materials, designation as 6776, 6777, 8152
- Tin; use in civilian economy (M–8) 6705
  - Allocation of pig tin 7089
  - Certification, provisions respecting 7090, 8545
  - Importation of pig tin, restrictions on; revocation 7090
  - List of items or processes in which use of tin in any form is restricted (List A); deletion 6704
  - Schedules of permitted uses of pig tin or permissible tin content in various items or processes:
    - Babbitt (Schedule III) 6708
    - Brass and bronze (Schedule I) 6708
    - Foil (Schedule V) 6710
    - Miscellaneous items; tin pipe, tubes, dental alloys, pipe organs, printing plates, bismuth alloys, etc. (Schedule VII) 6710
    - Pig or secondary tin (Schedule VIII) 6711
    - Plating and coating (Schedule IV) 6709
    - Solders (Schedule II) 6708, 8545
    - Tin chemicals and tin oxide (Schedule VI) 6710
  - Scope; termination of restriction on private importation of pig tin 7089
- Tin plate and terneplate:
  - Permitted uses (M–24) 7368, 8270
  - Use in cans. *See* Cans.
- Transportation equipment, railroad. *See* Railroad transportation equipment.
- Tungsten and molybdenum, pure; conservation and use (M–81) 8272
- Wire screening. *See* Insect wire screening.
- Zinc, slab; removal from inventory limitation (Regulation 1) 5895
- Zirconium; alloying material. *See* Iron and steel.

Rules of practice before hearing commissioners. *See* Hearings.

Scarce materials, designation of chemicals, forest products, leather and tanning materials, iron and steel, metals and minerals, rubber materials, textile materials, etc., as, and withdrawal of certain previous designations (DSM 1) 6775, 8151

Suspension orders, issuance of, to various firms, after hearings on noncompliance with regulations and orders. *See* Hearings.

NATIONAL SCIENCE FOUNDATION:
- Manpower program; training and utilization of scientific and engineering manpower, responsibility of Agency with respect to 8072

NATIONAL SECURITY COUNCIL:
- Organization and functions 6204

NATIONAL SECURITY RESOURCES BOARD: Page
- Organization and functions 6204

NATIONAL SHIPPING AUTHORITY:
- Organization and functions; Office of Ship Requirements and Allocations, redesignation of divisions within 7910

NAVIGATION LAWS AND REGULATIONS:
- Airways. *See* Civil Aeronautics Administration; *and* Civil Aeronautics Board.
- Waterways. *See* Coast Guard; *and* Engineers, Corps of.

NAVY DEPARTMENT:
- Aircraft danger areas over military installations, designation in coordination with Navy. *See main heading* Civil Aeronautics Administration.
- Authority, delegations of:
  - From Secretary to Chief, Bureau of Supplies and Accounts; elimination of excessive profits under Renegotiation Act of 1948 7791
  - Redelegation to Officer in Charge, Regional Accounts Office 8308
  - To Secretary, from Secretary of Defense; respecting loyalty certifications of civilian personnel assigned to United States Missions to Greece and Turkey 6718
- Civil courts, proceedings in, respecting Navy or Marine Corps personnel; revision 6410
- Civilian personnel assigned to United States Missions to Greece and Turkey, authority of Secretary respecting loyalty certifications of 6718
- Contracts. *See* Procurement.
- Disability benefits (hospitalization and re-examination) of certain members and former members of service under section 414 (b) of Career Compensation Act, functions respecting (Executive Order 10400) 8648
- Greece and Turkey, United States Missions to; authority of Secretary respecting loyalty certifications of civilian personnel assigned to 6718
- Hospitalization. *See* Disability benefits.
- Lands, public, withdrawn for use of Department in Florida. *See main heading* Land Management Bureau.
- Loyalty certifications of civilian personnel assigned to United States Missions to Greece and Turkey; authority of Secretary respecting 6718
- Marine Corps, disability benefits. *See* Disability benefits, *above*.
- Oil, crude, public sale of; Petroleum Reserve Number 1, Elk Hills, Kern County, California 8277
- Organization; Bureau of Supplies and Accounts 7677
- Palmyra Island; revocation of order placing Island under control and jurisdiction of Secretary of Navy (Executive Order 10388) 7877
- Petroleum Reserve Number 1, Elk Hills, Kern County, California; notice of public sale of crude oil 8277
- Price control regulations respecting sales to Defense Agencies. *See main heading* Price Stabilization, Office of.
- Prisoners as witnesses or parties in civil courts 6410
- Procurement, property, patents and contracts:
  - Contracts, defective, informal, and quasi; payment of fair compensation under, revocation 6411
  - Disposition of property, revision 6555
  - Real estate, acquisition of; reimbursement to owners and tenants of land acquired by Department 8210
- Real estate, acquisition of; reimbursement to owners and tenants of land acquired by Department 8210
- Records, naval, correction of; temporary approval of procedures 6232
- Reserve forces, Naval Reserve:
  - Correspondence Course Center, United States Naval 6410
  - Transfers of enlisted personnel between classes of Naval Reserve 6410
- Turkey and Greece, United States Missions to; authority of Secretary respecting loyalty certifications of civilian personnel assigned to 6718

O

OIL AND GAS. *See* Petroleum and petroleum products. Page

OLD-AGE AND SURVIVORS INSURANCE BUREAU:
- Federal old-age and survivors insurance (1950 —); evidence as to adoption 8455

P

PANAMA CANAL COMPANY:
- Employment in Canal Zone; suspension of certain statutory provisions relating to (Executive Order 10394) 8143
- Military protection of Canal Zone during emergency; appeal by Governor of Canal Zone to President through Board of Directors of Company in connection with (Executive Order 10398) 8647

PAROLE BOARD FOR WAR CRIMINALS. *See* Clemency and Parole Board for War Criminals.

PASSPORTS. *See* State Department.

PATENT COMPENSATION BOARD, ATOMIC ENERGY COMMISSION; hearings. *See* Atomic Energy Commission.

PATENT OFFICE:
- Authority, delegation of, from Secretary of Commerce to assistant commissioners, solicitor and law examiners, executive officer, head of General Services Division, head and assistant head of Issue and Gazette Branch to attest name of Commissioner of Patents on patent grants and on certificates of registration of trade-marks 5969
- Patents:
  - Patent grants, attestation of name of Commissioner of Patents on; authority of various officials respecting 5969
  - Rules of practice in patent cases. *See* Rules of practice in patent cases.
- Rules of practice in patent cases:
  - Allowance and issue of patent, proposed rule 314 7824
  - Appeals:
    - Action following decision, proposed rule 197 7824
    - Appeal to Board of Appeals, proposed rule 191 7824
    - Appeal to United States Court of Customs and Patent Appeals, notice and reason of appeal; proposed rule 302 7824
    - Time for filing appeal, proposed rule 304 7824
  - Application for patents:
    - Serial number and filing date of application, proposed rule 55 7822
    - Signatures, proposed rule 57 7822
    - Single signature form, proposed deletion 7822
  - Civil action under 35 U. S. C. 145, 146, redesignation, proposed rule 303 7824
  - Time for appeal or civil action, proposed rule 304 7824
  - Correction of errors in patent:
    - Certificate of correction, proposed rule 322 7825
    - Certificate of correction of applicants mistake, proposed rule 323 7825
    - Correction of error in joining inventor, proposed rule 324 7825
    - Other mistakes not corrected, proposed rule 325 7825
  - Disclaimer, statutory disclaimer in patent; proposed rule 321 7824
  - Drawings:
    - Signature to drawing, proposed rule 84 7823
    - Standards for drawings, proposed rule 86 7823
  - Fees and charges to Government agencies for various items and services:
    - Policy respecting 5969
    - Proposed miscellaneous amendments to rule 21 7822
  - General information and correspondence:
    - Receipt of letters and papers, proposed rule 6 7822
    - Times for taking action, expiration on Sunday or holiday, proposed rule 7 7822
  - Interferences:
    - Motions to amend, proposed rule 233 7824
    - Preliminary statement:
      - Effect of statement, proposed rule 223 7824
      - Notice and access to applications, proposed rule 226 7824

PATENT OFFICE—Continued Page

Rules of practice in patent cases—Continued
Interferences—Continued
Preliminary statement—Continued
Reliance on prior application, proposed rule 224 7824
Termination; statutory disclaimer by patentee, proposed rule 263 7824
Trial:
Assignment of times for taking testimony, proposed rule 251 7824
Final hearing, proposed rule 256 7824
Joinder of inventions in one application division:
Appeal from requirement for division, proposed rule 144 7823
Different inventions in one application, proposed rule 141 7823
Reconsideration of requirement, proposed rule 143 7823
Requirement for division, proposed rule 142 7823
Subsequent presentation of claims for different invention, proposed rule 145 7823
Miscellaneous changes in citations, references, etc.; proposed changes in various rules 7825
Oath:
Oath of applicant, proposed rule 65 7823
Officers authorized to administer oaths, proposed rule 66 7823
Petition; proposed rule 61 7823
Reissues:
Applicants, assignees; proposed rule 172 7823
Reissue oath; proposed rule 175 7823
Specifications:
Cross-references to other applications, proposed rule 78 7823
Signature to specification, proposed rule 76 7823
Specimens required, proposed rule 93 7823
Who may apply for patent:
Applicant for patent, proposed rule 47 7822
Assigned inventions and patents, proposed rule 47 7822
Filing by other than inventor, proposed rule 47 7822
Joint inventors, proposed rule 45 7822
Proof of authority, proposed rule 44 7822
When inventor is insane, or legally incapacitated, proposed rule 43 7822
Rules of practice in trade-mark cases:
Appeals:
Appeal to Commissioner from decision of Examiner of Interferences, proposed rule 26.3 7825
Appeal to Court, proposed changes in rule 24.4 7825
Time and manner of ex parte appeals, proposed trade-mark rule 26.2 7825
Attorneys and representation by attorneys, suspension or exclusion from practice; proposed rule 46 7825
Fees and charges to Government agencies for various items and services, policy respecting 5969
Waiver of fees in certain cases 5969
Times for taking action, expiration on Saturday, Sunday or holidays; proposed rule 1.6 7825
Trade-marks:
Certificates of registration, attestation of name of Commissioner of Patents on certificates; authority of various officials respecting 5969
Rules of practice in trade-mark cases. *See* Rules of practice in trade-mark cases.

PAY, COMPENSATION, ALLOWANCES, ETC.:
See also Wages and hours.
Civil service pay regulations. *See* Civil Service Commission.
Foreign duty of Federal personnel:
Allowances for living, quarters, etc., functions of Secretary of State respecting (EO 10391) 8033
Compensation for designated areas. *See* State Department.
Hospitals, Government, stipends for certain positions in. *See* Civil Service Commission.
Salary and wage stabilization. *See* National Enforcement Commission; Salary Stabilization Board; *and* Wage Stabilization Board.
Seaman discharged from United States vessel in foreign port, medium of payment. *See* State Department.
Unemployment compensation for veterans. *See* Employment Security Bureau.

PERSONNEL MANAGEMENT, LIAISON OFFICE FOR. Page
See Liaison Office for Personnel Management.

PETROLEUM ADMINISTRATION FOR DEFENSE:
Committees and supply directors, establishment of (PAD Instruction 2):
Committee duties and functions; termination 6128
Committee organization; termination 6128
Foreign nations, petroleum supply to friendly nations; voluntary agreement, Plan of Action No. 1, termination 6166
Natural gas, limitation on delivery for space heating and large volume use 7786
Voluntary agreement relating to supply of petroleum to friendly foreign nations; Plan of Action No. 1, termination 6166

PETROLEUM AND PETROLEUM PRODUCTS:
Compressed gases; transportation or storage on board vessels. *See* Coast Guard.
Foreign nations; voluntary plan for petroleum supply to friendly foreign nations, termination of Plan of Action No. 1 6166
Interstate transportation of; tariffs and schedules. *See* Interstate Commerce Commission.
Leases and sales, oil and gas lands. *See* Indian Affairs Bureau; *and* Land Management Bureau.
Natural gas, limitations on delivery. *See* Petroleum Administration for Defense.
Naval petroleum reserves, sale of oil from. *See* Navy Department.

Producing oil and gas fields. *See* Geological Survey.
Public Contracts Act, dealer in petroleum under. *See* Public Contracts Division.

PHYSICALLY HANDICAPPED PERSONS. *See* Handicapped persons.

PORTS OF ENTRY. *See* Customs Bureau.

POST OFFICE DEPARTMENT:
Appointments, field personnel. *See* Personnel.
Armed forces; postal regulations respecting A. P. O.'s 5952, 8509
Delivery service, special delivery mail; registered, insured or sent c. o. d., treatment of 7572
Department and Postal Service:
Orders, contracts and bonds, employees interested in mail contracts:
Mail-messenger service, exception for; deletion 7818
Prohibitions, note 7818
Postage stamps and other stamped paper and securities; special-request envelopes, requirement for advance deposit by purchaser 6857
Disbursements and accounts; recovered moneys, transittal to Department 8487
Domestic mail matter:
Classification and rates of postage; parcels addressed to certain A. P. O.'s 5952, 8509
Insurance service. *See* Registry system.
Registration of domestic mail matter. *See* Registry system.
Several classes of mail matter, provisions applicable to; matter liable to damage mail or injure person:
Non-mailable articles and compositions, provisions of law respecting poisons for scientific use 7818
Special packing of certain matter where admissible, insecticides, fungicides and germicides; redesignation 5952
Treatment of domestic mail matter. *See* Treatment of domestic mail matter.
Field service personnel, appointments. *See* Personnel.
Holidays. *See* Post offices, general provisions relating to.
International postal service:
Importations prohibited:
Articles prohibited by copyright law:
Sealed matter 8487
Treatment of 8487
Unsealed matter 8487
Gold-imports having value in excess of $50 8487
Other matter prohibited:
Examination of foreign mails 8487
Gold imports; rescission 8487

Iron and steel—Continued
Resellers of iron and steel products (CPR 98):
Authority of Regional and District Directors. *See* Authority, delegations of.
Coverage:
General pricing instructions; recalculations of ceiling prices, supplemental instructions respecting 5947, 8350
Persons and transactions covered 5944
General pricing provisions; record-keeping and filing requirements 5946
Industrial steel products:
Domestic industrial steel products listed in Tables A, B, and C, ceiling warehouse prices for 5944
Exceptions for certain small warehouse resellers 5946
Excess stock of products 5946
General pricing provisions 5944
Prime, secondary or rejected new domestic products which have not been put through warehousing operation; emergency exceptions 5945, 6267
Secondary or rejected domestic steel products, ceiling warehouse prices for 5945
Merchant trade wire and tubular products and oil country tubular goods:
Merchant trade pipe and tubular products, ceiling jobber prices 5946
Merchant wire and roofing and siding products, ceiling jobber prices for 5946
Re-usable products:
Boiler and pressure tubes, used; reconditioned quality 7724
Industrial steel products; pricing of blanks, punchings or similar residue of industrial fabrication (Int. 1) 6904
Scrap, iron and steel (CPR 5):
Ceiling prices:
Basing point prices for steel scrap of dealer and industrial origin 6955
Delivered prices, ceiling, for shipment by rail, vessel, or combination thereof, for steel scrap of dealer and industrial origin 6955
Shipping point prices, ceiling, for steel scrap of dealer and industrial origin; shipping points in New York City 6957
Switching charge deductions, basing point; Warren, Ohio, in lieu of Warren, Pennsylvania 6955
Definitions:
"Iron and steel scrap" 6956
"Unprepared scrap" 6956
General provisions:
Intransit preparation 6955
Premiums for alloy content, nickel alloy 6146
Scope; all sales and deliveries of prepared and unprepared iron and steel scrap 6955
Specifications; steel grades of dealer and industrial origin; unprepared grades 6956
Steel drums, used; sold in Alaska. *See* Containers.
Steel mill products; ceiling price increases:
Adjustments for producers of certain carbon, alloy, and stainless steel mill products (GCPR, SR 100) 7585
Special adjustable pricing order for steel mill producers (Steel Special Order 1) 7046
Steel, structural, miscellaneous and ornamental iron, and vessel shop products for field assembly or erection (CPR 156) 6216
Jacks and jack screws 5882

Kitchen equipment, commercial. *See* Consumer goods.
Lamb. *See* Livestock and meat.
Lamps, lamp bulbs, tubes, and portable shades. *See* Consumer goods.
Leather:
Scrap, not suitable for producing cut parts; exemption (GOR 4) 7277
Tanning, finishing and currying services; suspension of services performed, except in United States, territories, and possessions (GOR 14) 8347

PRICE STABILIZATION, OFFICE OF—Continued Page

Lighting equipment, commercial, industrial, marine, highway, etc 5832
Linen supply services, certain. *See under* Services.
Liquors, distilled spirits, malt beverages, wines, etc.:
Malt beverages (CPR 117):
Authority of District Directors. *See* Authority, delegations of.
Brewers; determination of ceiling prices:
Base period, determining prices for special packs sold in 8578
Items of different container size, container type or case size than those dealt with during base period 7075
Newly labeled malt beverages; optional method 7075
Notification of ceiling prices 7076
Sales of items when prices cannot be determined under any other section 7075
Sole distributors and wholly owned distributors, sales to; optional method 7075
Coverage, geographical; extended to sales in Territory of Hawaii of malt beverages produced in Hawaii 7427
General provisions:
Definitions; "home distributor" 7078
Fractional parts of a cent; treatment, in figuring ceiling prices 7078
Retailers; determination of ceiling prices:
Initial prices for sales that cannot be determined under any other section 7077
Items sold between December 19, 1950 and October 31, 1951; calculation and recalculation of prices 7077
Recalculation of prices initially determined under other sections 7078
Scope 7075
Wholesalers; determination of ceiling prices:
Base period, determining ceiling prices for items dealt in during 8578
Items of different container size, container type or case size than those dealt in during base period 7076
Newly labeled items, certain 7076
Notification of prices 7077
Sales of items when prices cannot be determined under other sections 7076
Suspension of controls applicable to domestic and imported distilled spirits and wines (GOR 7); bulk distilled spirits 6668
Livestock and meat:
Beef:
Allocation of beef to the military. *See* Distribution.
Hawaii, wholesale and retail sales of island beef and offal in. *See under* Foods.
Retail:
Beef sold at retail (CPR 25); general provisions:
Evasions, respecting wholesale beef cuts; permissible additions on retail sale of primal cuts (Int. 4) 6761
Non-graded and improperly cut cuts; necessity for grading of beef where required to be sold at no more than utility grade prices (Int. 5) 6761
Kosher beef sold at retail (CPR 26); authority of Regional and District Directors. *See* Authority, delegations of.
Wholesale, beef sold at (CPR 24):
Authority of District Directors. *See* Authority, delegations of.
Combination distributors and hotel supply house 6148
Definitions:
Boneless beef cuts (Appendix 3) 6257
Carcasses and wholesale cuts, beef (Appendix 2); dressing beef carcass 8266
Cured, dried, and smoked beef products (Appendix 7); tongues, short cut, cured, or smoked, and dried and barrel beef 8267
Fabricated beef cuts (Appendix 4) 6257, 8266
General definitions:
Frozen food distributor, independent 6257
Hotel supply house 8266
Intermediate distributor 6149
Wholesaler 6149

FEDERAL REGISTER

VOLUME 17 NUMBER 172

Washington, Wednesday, September 3, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10389

RESTORING CERTAIN LAND RESERVED FOR MILITARY PURPOSES OF THE UNITED STATES TO THE JURISDICTION OF THE TERRITORY OF HAWAII

WHEREAS a tract of land at Ka Lae, Kamoa, Kau, Island of Hawaii, Territory of Hawaii, which forms a part of the public land ceded and transferred to the United States by the Republic of Hawaii under the joint resolution of annexation of July 7, 1898, 30 Stat. 750, was reserved for military purposes of the United States in part by Presidential Executive Order No. 4635 of April 21, 1927, and in part by Executive Order No. 869 of February 6, 1940, of the Governor of the Territory of Hawaii; and

WHEREAS such land is no longer needed for military purposes, and it is deemed advisable and in the public interest that it be restored to the possession, use, and control of the Territory of Hawaii:

NOW, THEREFORE, by virtue of the authority vested in me by section 91 of the act of April 30, 1900, 31 Stat. 159, as amended by section 7 of the act of May 27, 1910, 36 Stat. 447, it is ordered as follows:

The following-described tract of land situated at Ka Lae, Kamoa, Kau, Island of Hawaii, Territory of Hawaii, is hereby restored to the possession, use, and control of the Territory of Hawaii:

Beginning at point "B" on the east boundary of Ka Lae Light House Reservation, said point "B" marked by a drilled hole in solid rock is situated 724.72 feet south, and 174.41 feet east of U. S. Coast Guard and Geodetic Survey triangulation station "Ka Lae"; thence from said point of beginning by azimuths, measured clockwise, from true south, the following courses and distances as follows: 174° 49' 00", 1028.00 feet along the Ka Lae Light House Reservation boundary to a point; thence 134° 17' 00", 670.38 feet along the same to a point intersecting the high water line; thence following the sea pali to a point which is the northwest corner of this reservation, said point bears 90° 00' 00", 50.00 feet from a 2 inch pipe set in cement, the coordinates of said point referred to Government Survey triangulation station "Ka Lae" being 4424.46 feet north and 345.22 feet west; thence 270° 00' 00", 8031.10 feet to a Railroad spike set in concrete and stone ahu, said point being the northeast corner of this reservation; thence 360° 00' 00", 1570.00 feet to a point on the sea coast at the high water line; thence along the sea coast and the high water line in a southwesterly direction to a point at the southeast corner of the Ka Lae Lighthouse Reservation, the direct azimuth and distance being 64° 08' 06", 8341.60 feet; thence 174° 49' 00", 60.00 feet along the Ka Lae Lighthouse Reservation boundary to the point of beginning; containing 699.38 acres, more or less.

HARRY S. TRUMAN

THE WHITE HOUSE,
August 30, 1952.

[F. R. Doc. 52-9683; Filed, Sept. 2, 1952; 10:27 a. m.]

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[1952 C. C. C. Grain Price Support Bulletin 1, Amdt. 2 to Supp. 1, Rye]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1952-CROP RYE LOAN AND PURCHASE AGREEMENT PROGRAM

SUPPORT RATES

The regulation issued by Commodity Credit Corporation and the Production and Marketing Administration, published in 17 F. R. 3777 and 4835, and containing the specific requirements for the 1952-crop rye price support program is hereby amended as follows:

1. Section 601.1908 (a) (5) is amended by changing certain states in the four areas so that the amended subparagraph reads as follows:

(Continued on p. 7961)

§ 601.1908 *Support rates.* • • •

(a) *Basic support rates at designated terminal markets.* • • •

(5) For rye received by truck and stored at any designated terminal market, the support rate shall be determined by making a deduction from the applicable terminal rate as follows:

Terminal located in—	*Amount of deduction (cents per bushel)*
Area I: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington	12½
Area II: Minnesota, Montana, North Dakota, South Dakota, also Superior, Wisconsin	12½
Area III: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin, except Superior	13
Area IV: All States not listed in Areas I, II, and III above	14

2. Section 601.1908 (b) (1) is amended to include a provision with respect to rye shipped at other than the domestic interstate freight rate so that the amended subparagraph reads as follows:

§ 601.1908 *Support rates.* • • •

(b) *Support rates for rye in approved warehouse-storage at other than designated terminal markets.* (1) The support rate for rye stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water, shall be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax) of the through-freight rate from point of origin for such rye to such terminal market: *Provided*, That on any rye shipped at other than the domestic interstate freight rate, the support rate shall be further reduced by the difference between the freight paid (plus tax) and the domestic interstate freight rate (plus tax) from the point of origin of such rye to the point of storage: *And provided further*, That in the case of rye stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing rye in such position.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053; 1054; 15 U. S. C. Sup 714c, 7 U. S. C. Sup. 1447, 1421)

Issued this 27th day of August 1952.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter D—Exportation and Importation of Animals and Animal Products

[BAI Order 373]

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), AND NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS): PROHIBITED AND RESTRICTED IMPORTATIONS

NON-EXISTENCE OF RINDERPEST AND FOOT-AND-MOUTH DISEASE IN MEXICO

On August 23, 1952, there was published in the FEDERAL REGISTER (17 F. R. 7742) a notice of proposed determination of the non-existence of rinderpest and foot-and-mouth disease in Mexico and of a proposed amendment of the regulations relating to prohibitions and restrictions on the importation of certain animals and animal products on account of such diseases. After due consideration of all relevant material submitted in connection with the notice, the Secretary of Agriculture, pursuant to the authority vested in him by section 306 of the Tariff Act of 1930 (19 U. S. C. 1306), has determined and notified the Secretary of the Treasury that rinderpest and foot-and-mouth disease do not now exist in Mexico, and hereby amends § 94.1, Part 94, Subchapter D, Chapter 1, Title 9 of the Code of Federal Regulations (§ 94.1 of BAI Order 373) by striking therefrom the word "Mexico".

The determination, notification, and amendment, remove the present prohibitions under section 306 of the Tariff Act upon importation into the United States of cattle, sheep, other domestic ruminants, and swine, and of fresh, chilled, or frozen beef, veal, mutton, lamb, or pork from Mexico and renders the commodities specified in Part 94, Subchapter D, Chapter 1, Title 9 of the Code of Federal Regulations (BAI Order 373), and originating in said country, no longer subject to the provisions of that part.

Since the foregoing amendment relieves restrictions heretofore imposed, it may be made effective under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) less than 30 days after publication in the FEDERAL REGISTER. Accordingly, it shall become effective immediately.

(Sec. 306, 46 Stat. 689; 19 U. S. C. 1306)

Done at Washington, D. C., this 1st day of September 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 21-11]

PART 21—AIRLINE TRANSPORT PILOT RATING

AIRLINE TRANSPORT PILOT CERTIFICATE, DURATION

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of August 1952.

Prior to May 1, 1949, airline transport pilots were issued horsepower ratings which specified the power range of aircraft for which the holder was rated. Effective May 1, 1949, Part 21 of the Civil Air Regulations was amended to require in lieu of horsepower ratings the issuance of type ratings for each type of civil aircraft having a maximum certificated weight exceeding 12,500 pounds. The amendment also permitted the holder of an airline transport pilot certificate to continue until May 1, 1953, to pilot those aircraft that were covered by his horsepower ratings without holding a type rating. In addition, May 1, 1953, is the designated date upon which the United States is obligated to bring its outstanding pilot certificates into conformity with Annex 1 to the Convention on International Civil Aviation or to place an endorsement upon each certificate specifying wherein the holder has not met the ICAO standards if, in fact, any such standards have not been met. The amendment is designed for two purposes: (1) It provides a means whereby horsepower ratings can be deleted from airline transport pilot ratings, (2) until May 1, 1953, it enables airline transport pilots who hold appropriate horsepower ratings to obtain type ratings for aircraft exceeding 12,500 pounds maximum certificated weight without further demonstration of competency.

This amendment provides that all airline transport pilot certificates having a horsepower rating, that is, all certificates, whether originally issued prior to May 1, 1949, or reissued after that date which have horsepower ratings, shall expire May 1, 1953. However, upon application prior to May 1, 1953, such certificates will be reissued with category, class, and appropriate type ratings for each aircraft, without further demonstration of competency, to applicants who can produce evidence that they either have passed an official rating test in the type aircraft, or have served 10 hours since May 1, 1949, within these ratings as pilot in command and sole manipulator of the controls of the type aircraft. Presently effective certificates having horsepower ratings will not be valid after May 1, 1953.

It is desired that each pilot affected by this amendment make application for the exchange of his certificate as soon as possible, because it is anticipated that the Civil Aeronautics Administration will require the better part of 9 months in order to effect the reissuance of all affected certificates.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 21 of the Civil Air Regulations (14 CFR Part 21, as amended) effective immediately.

By adding a new paragraph (e) to § 21.24 to read as follows:

§ 21.24 *Duration.* • • •

(e) All airline transport pilot certificates showing horsepower ratings shall expire May 1, 1953. Upon application to the Administrator prior to May 1, 1953, such valid certificates may be exchanged, without further showing of competency, for new certificates with ratings coinciding with those held; except that in lieu of horsepower ratings, type ratings for aircraft exceeding 12,500 pounds maximum certificated weight shall be issued upon presentation of reliable evidence that the certificate holder either has passed an official rating test, as prescribed by the Administrator, in that type aircraft; or has served as pilot in command and sole manipulator of the controls of that type aircraft for at least 10 hours since May 1, 1949, and such aircraft was within his category, class, and horsepower ratings.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, as amended; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 52-9615; Filed, Sept. 2, 1952; 8:53 a. m.]

[Civil Air Regs., Amdt. 43-8]

PART 43—GENERAL OPERATIONS RULES

RATING REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of August 1952.

Prior to May 1, 1949, aircraft category and class ratings issued to private or commercial pilots did not include provisions for differentiating between large and small aircraft. A rating, such as airplane multiengine land, applied equally to a twin-engine Cessna or a four-engine Constellation. Effective May 1, 1949, Part 43 of the Civil Air Regulations was amended to require the holding a type rating to pilot an aircraft exceeding 12,500 pounds maximum certificated weight when carrying passengers. However, the amendment permitted the holder of a certificate issued prior to May 1, 1949, to continue until May 1, 1953, to pilot all types of aircraft within his category and class rating without weight limitation. Thus, after May 1, 1953, the present regulations will prohibit the holder of a pilot certificate with class and category ratings but without a type rating from serving as pilot in command of aircraft exceeding 12,500 pounds maximum certificated weight while carrying passengers.

One of the purposes of this amendment is to provide a means whereby the holder of appropriate category and class ratings can obtain, without further demonstration of competency, a type rating for those aircraft exceeding 12,500 pounds maximum certificated weight in which he either has had at least 10 hours of flying time since May 1, 1949, as pilot in command and sole manipulator of the controls or at any time has passed an official rating test.

In addition, this amendment modifies present rating requirements by prescribing that the pilot in command of large aircraft shall hold an appropriate aircraft type rating not only for the carriage of passengers, but also when cargo is carried for hire in an aircraft. It does not affect the privileges of a pilot to fly in command of aircraft of 12,500 pounds or less maximum certificated weight, nor does it affect his present copilot privileges. This change will also bring the regulation into conformity with the requirements of Annex 1 to the Convention on International Civil Aviation. Article 38 of the Chicago Convention requires the United States either to take such action or to file a notice of deviation with ICAO.

It is desired that each private or commercial pilot who is eligible to obtain a type rating by reason of the provisions of this amendment make application as soon as possible to the nearest CAA office for the issuance of appropriate type rating, because it is anticipated that the CAA will require the better part of 9 months in order to accomplish this changeover.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 43 of the Civil Air Regulations (14 CFR Part 43, as amended) effective immediately.

By deleting footnotes 1 and 2 to § 43.63 and by amending this section to read as follows:

§ 43.63 *Rating requirements.* A private or commercial pilot shall not serve as pilot in command of an aircraft carrying passengers or operated for remuneration other than in aircraft of the category and class for which he is rated. After May 1, 1953, a private or commercial pilot shall not serve as pilot in command of aircraft exceeding 12,500 pounds maximum certificated weight when carrying passengers or operated for remuneration unless, in addition to proper category and class ratings, he also held an appropriate type rating. Upon application to the Administrator prior to May 1, 1953, by the holder of a valid private or commercial pilot certificate, type ratings for each aircraft exceeding 12,500 pounds maximum certificated weight will be issued to such holder, without further showing of competency, upon presentation of reliable evidence that the certificate holder either has passed an official rating test, as prescribed by the Administrator, in that type aircraft; or has served as pilot in command and sole manipulator of the controls for at least 10 hours since May 1, 1949, and such aircraft was within his category and class ratings. A private or commercial pilot may serve as pilot in command of aircraft for which he is not rated when it is being flown without passengers and is not being operated for remuneration, unless other limitations placed on his certificate prohibit him from doing so.

NOTE: Nothing contained in this section shall be construed as relieving the restrictions with respect to private pilots operating aircraft for hire.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602, 52 Stat. 1007, 1008, as amended; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5800]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

DOESKIN PRODUCTS, INC.

Subpart—*Advertising falsely or misleadingly:* § 3.110 *Indorsements, approval and testimonials.* Subpart—*Tests and investigations:* § 3.265 Subpart—*Claiming or using indorsements or testimonials falsely or misleadingly:* § 3.330—*Claiming or using indorsements or testimonials falsely or misleadingly.* Subpart—*Misbranding or mislabeling:* § 3.1235 *Indorsements, approvals or awards:* § 3.1340 *Tests.* In connection with the offering for sale, sale and distribution of sanitary napkins in commerce, representing, directly or by implication, (1) that tests conducted by the organization known as Consumers Union have shown respondent's product to be the safest or most absorbent of all sanitary napkins tested; or (2) that respondent's product has been endorsed or approved by any stylist or fashion authority, unless the person referred to is in fact an independent stylist not connected with respondent, and unless such person has in fact endorsed or approved said product; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and Desist Order, Doeskin Products, Inc., New York, N. Y., Docket 5800, May 15, 1952]

In the Matter of Doeskin Products, Inc., a Corporation

This proceeding was heard by William L. Pack, hearing examiner, upon the complaint of the Commission, respondent's answer, and hearings at which testimony and other evidence in support of and in opposition to the allegations of the complaint, duly recorded and filed in the office of the Commission, were introduced before said examiner, therefore duly designated by the Commission.

Thereafter the proceeding regularly came on for final consideration by said examiner, upon the complaint, answer, testimony and other evidence, proposed findings and conclusions submitted by counsel, and oral argument of counsel, and said examiner, having duly considered the record, and having found that the proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts,[1] conclusion[1] drawn therefrom, and order to cease and desist.

Thereafter the matter was disposed of by the Commission's "Order denying appeals from initial decision of the hearing examiner, decision of the Commission and order to file report of compliance", Docket 5800, May 15, 1952, as follows:

This matter came on to be heard by the Commission upon appeals by both the respondent and counsel supporting the complaint from the initial decision of the hearing examiner, briefs filed in support of and in opposition to both appeals and oral argument of counsel.

This proceeding relates to respondent's advertising claims for its product "Sanapak", a sanitary napkin. These appeals are concerned with the meaning and truthfulness of respondent's representations as to the results of a test of the comparative absorbency of its product and other brands of sanitary napkins conducted by Consumers Union and published in the magazine "Consumer Reports."

The representations referred to are as follows:

(1) As set out on one side of the carton in which respondent's product was sold:

Consumers Union Tests Report Sanapak Safest!

(2) As set out on another side of its cartons:

Amazing Results of Independent, Impartial, Unsolicited Research Consumers Union Tests Report Sanapak Safest Sanitary Napkin Proved Most Absorbent of all Leading Brands by Scientific Fact-Finding Service Report Published in "Consumer Reports" Magazine.

(3) As set out in an advertisement published in a Chicago newspaper of wide circulation and in an advertising circular widely distributed by respondent to its dealers:

Amazing Results of Independent, Impartial, Unsolicited Research! Consumers Union Tests Report Sanapak Safest Sanitary Napkin.

Proved Most Absorbent of all Leading Brands by Scientific Fact-Finding Service.

Report published in "Consumer Reports" Magazine These startling tests published in the August 1949 issue of "Consumer Reports", official publication of Consumers Union, rated Sanapak most absorbent—thus, safest—of all leading sanitary napkins tested. The report stated: "In Sanapak • • • water-repellent paper was used between cores of filler; Sanapak had excellent absorbency."

This water-repellent material—both in the center of the napkin, plus three full layers at the back (Sanapak's famous "Pink Safety Back")—is the reason for Sanapak's amazing extra safety. It is the reason, too, why thousands of women have learned by actual experience that they prefer Sanapak to all other brands. Sanapak is so much safer—so much more comfortable. You know you're safe with Sanapak.

[1] Filed as part of the original document.

We publish this news independent of Consumers Union, because we believe it to be of vital importance to the vast majority of American women. Consumers Union is a subscription service for members only, and was not trying to increase Sanapak sales. It was testing solely to determine the facts, the unvarnished truth. Sanapak's amazing superiority was demonstrated solely on its merit.

Prove it to yourself. Get Sanapak today—without risking a single penny. Sanapak is the safest and most comfortable sanitary napkin you ever wore, or its makers guarantee double your money back!

The report of the results of the tests referred to in these advertisements, as published in "Consumer Reports" magazine, stated that the absorbency of respondent's product and of two other brands was excellent and that they were superior in this respect to the other brands tested. The magazine article did not contain any comparison of the results of the test as among these three brands rated excellent. The records of the actual test reveal, however, that respondent's product rated third in absorbency in this group. Upon this record the hearing examiner, in his initial decision, found that respondent had falsely represented that this test showed its product to be the safest and most absorbent of all sanitary napkins tested and prohibited it from making such representation in the future.

Respondent appealed from this decision upon the grounds that (1) respondent did not represent that the Consumers Union test did find Sanapak to be the most absorbent of all sanitary napkins; (2) these tests did find that Sanapak was the most absorbent of all sanitary napkins available to the average consumer; and (3) there is no public interest in this proceeding.

In support of its first ground for appeal respondent contends that a consideration of the complained of advertisements as a whole shows respondent represented that the tests found Sanapak to be the most absorbent of all leading brands of sanitary napkins, not that they found it to be the most absorbent of all brands. This contention is believed to be of no merit. The Commission is of the opinion that the representation "Consumers Union Tests Report Sanapak Safest" clearly means that Sanapak was found by these tests to be the safest of all brands tested in the sense of having superior absorbency. Thus, this representation standing alone on one side of the carton in which respondent's product was sold, is clearly false.

As to those advertisements in which the representation "Consumers Union Tests Report Sanapak Safest Sanitary Napkin" was accompanied by the statement that these tests proved Sanapak to be the most absorbent of all leading brands, it is believed that this accompanying statement does not have the effect of showing that the tests found Sanapak to be superior to the largest selling brands only. The Commission is of the opinion that these advertisements considered in their entirety represent that these tests proved that Sanapak is the safest from a standpoint of absorbency of those brands of san-

tary napkins tested, which brands included the best brands sold. This representation is false and misleading.

Respondent further contends that even if its advertisements were interpreted as representing that these tests found Sanapak to be the most absorbent of all sanitary napkins, that such representation would be true as the tests found that Sanapak was the most absorbent of all sanitary napkins available to the average consumer. The record does show that sales of Aimcee, one of the brands testing higher than respondent's product, had been discontinued prior to the publication of the results of said tests. However, the record shows that Sanflex, the other brand testing higher than respondent's product, was available to consumers in New York, Detroit and St. Louis. There is no evidence that it was not also available in many other areas. The record is silent as to the total sales of Sanflex or its position in the industry. The record does show that compared to Kotex and Modess, whose combined sales comprise ninety-five percent of total sales in the United States, all of the other brands sales are small. Among these other brands Sanapak excels in total sales. However, inasmuch as Sanflex is available to consumers, respondent's contention that the test results as to it should be ignored is of no merit.

Respondent further contends that there is not sufficient public interest in this proceeding to support the Commission's jurisdiction because the proceeding is moot and involves only a private controversy. In support of its claim that this proceeding is moot, respondent contends that the practice has been stopped and that respondent offered to consent to an order to cease and desist. The record shows that prior to the publication of the complained of advertisements, respondent was informed by the organization which had conducted the tests that its proposed representation that the tests showed Sanapak to be safest was false. Even after the Commission's investigation in this matter respondent continued to sell its product in cartons on which were printed the complained of representations and told the Commission that it intended to continue to do so until its supply of cartons on hand was used up. At that time respondent had approximately 450,000 of such cartons on hand. After issuance of the complaint herein respondent stopped the complained of practice and offered to consent to an order to cease and desist, but at all times it has maintained that its advertisements were legal. The Commission is of the opinion that this record does not provide sufficient assurance that respondent may not at some time in the future resume such representations unless it is prohibited from doing so by an order of the Commission.

In support of its contention that this proceeding is only a private controversy, respondent states that this proceeding arose out of a complaint by Consumers Union, which organization was concerned with respondent's unauthorized use of its material rather than the truth or falsity of respondent's reports of the results of the tests conducted by it. Respondent further states that the proper forum for determination of this controversy is the District Court of the United States for the Southern District of New York in which Consumers Union has brought a private suit against respondent, seeking damages for the use of its test results and further seeking an injunction against the republication of the complained of representation. In fact this proceeding does not relate to respondent's unauthorized use of the results of the Consumers Union tests, but relates to the false and misleading nature of respondent's advertisements. The Commission is of the opinion that the hearing examiner correctly held that these advertisements contained false and misleading representations which had the tendency and capacity to mislead and deceive a substantial portion of the purchasing public, and to cause them to purchase respondent's product as a result of the erroneous and mistaken belief so engendered. Therefore, the Commission is of the further opinion that the hearing examiner correctly concluded that the public interest is served by this proceeding and that respondent's contention to the contrary is of no merit.

Respondent's exceptions to Paragraphs Three (d), Three (e), Six (a), Six (b) and Nine of the findings contained in the initial decision are rejected for the reasons stated hereinabove.

Counsel supporting the complaint appeals from the failure of the hearing examiner to find that respondent's product is not the most absorbent sanitary napkin. The complaint alleges that respondent represented that Sanapak is superior for use under ordinary and usual conditions to other sanitary napkins. It further alleges that "the alleged superiority in absorbency of Sanapak does not render it superior to many other sanitary napkins" and that respondent's product "is also inferior in that respect (i. e. absorbency) to many other sanitary napkins." Upon this issue the hearing examiner found that the evidence as to the relative absorbency of the various brands of sanitary napkins tested is at best inconclusive and that, therefore, this charge in the complaint has not been sustained. From this finding counsel supporting the complaint appeals contending that every test in the record shows that respondent's product is not the most absorbent, with the exception of certain tests by respondent which were improperly and unscientifically conducted.

The Commission is of the opinion that the hearing examiner properly concluded that on a basis of the evidence contained in this record the comparative absorbency of the brands of sanitary napkins tested cannot be determined. The variations in the results of the tests by Consumers Union and of the test by Foster D. Snell, Inc., are so great as to permit no conclusion to be based upon them as to the comparative absorbency of the brands tested.

The Commission is of the further opinion that all of the findings as to the facts contained in the initial decision are supported by the reliable, substantial, and probative evidence of record; that the conclusion contained therein is correct; and that the order to cease and desist is proper upon this record and is required to provide proper relief from respondent's illegal practices.

The Commission, therefore, being of the opinion that both of the appeals herein are without merit and that the hearing examiner's initial decision is appropriate in all respects to dispose of this proceeding:

It is ordered, That the appeal of counsel supporting the complaint and the appeal of respondent from the initial decision of the hearing examiner be, and they both hereby are, denied.

It is further ordered, That the initial decision of the hearing examiner shall, on the 15th day of May, 1952, become the decision of the Commission.

It is further ordered, That respondent Doeskin Products, Inc., a corporation, shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist contained in said initial decision,[1] a copy of which is attached hereto.

The order in said initial decision, thus made the decision of the Commission, is as follows:

It is ordered, That the respondent, Doeskin Products, Inc., a corporation, and its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of sanitary napkins in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication:

1. That tests conducted by the organization known as Consumers Union have shown respondent's product to be the safest or most absorbent of all sanitary napkins tested.

2. That respondent's product has been endorsed or approved by any stylist or fashion authority, unless the person referred to is in fact an independent stylist not connected with respondent, and unless such person has in fact endorsed or approved said product.

Issued: May 15, 1952.

By the Commission.

[Docket 5911]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

RAY MERTZ & CO.

Subpart—*Using or selling lottery devices:* § 3.2475 *Devices for lottery selling.* Selling or distributing in commerce, push cards, punchboards, or other lottery devices, which are to be used or may be used in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Ray Mertz & Company, Chicago, Ill., Docket 5911, May 5, 1952]

In the Matter of Ray Mertz, an Individual, Trading as Ray Mertz & Company

This proceeding was heard by Frank Hier, hearing examiner, theretofore duly designated by the Commission, upon the complaint of the Commission, respondent's answer thereto, and hearings at which testimony and other evidence were introduced in support of the allegations of the complaint, and were duly recorded and filed in the office of the Commission. Certain testimony, the proffer of which appears in the record, was rejected by said examiner for immateriality and irrelevance.

Thereafter the proceeding came on for final consideration by said examiner on the complaint, the answer thereto, and testimony and other evidence, no proposed findings or conclusions having been filed by any counsel; and said examiner, having duly considered the record in the matter and having found that the proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts,[1] conclusions [1] drawn therefrom, and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on May 5, 1952.

The said order to cease and desist is as follows:

It is ordered, That the respondent, Ray Mertz, an individual trading as Ray Mertz & Company, or under any other name or trade name, directly or through any corporate or other device, do forthwith cease and desist from selling or distributing in commerce, as "commerce" is defined in the Federal Trade Commission Act, punchboards, push cards or any other lottery devices which are to be used or may be used in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise or lottery scheme.

By "Decision of the Commission and order to file report of compliance", Docket 5911, May 5, 1952, which announced and decreed fruition of said initial decision—and noted Commissioner Mason's concurrence in the findings as to the facts and conclusion, but not in the form of order to cease and desist, for the reasons stated in his opinion, concurring in part and dissenting in part in Worthmore Sales Co., Docket 5203, March 10, 1950, 46 F. T. C. 606—report of compliance with the said order was required as follows:

[1] Filed as part of the original document.

It is ordered, That the respondent herein shall, within sixty (60) days after after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

By the Commission, Commissioner Mason concurring in the findings as to the facts and conclusions but not concurring in the form of order to cease and desist, for the reasons stated in his opinion concurring in part and dissenting in part in Docket 5203—Worthmore Sales Company.

Issued: May 5, 1952.

[SEAL] D. C. DANIEL, *Secretary.*

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53087]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

FREE ENTRY OF ARTICLES FOR INSTITUTIONS

Paragraph 1774, Tariff Act of 1930, prior to its amendment by Public Law 392, 82d Congress, provided for free entry of the articles listed therein only when imported for presentation to and for the use of any corporation or association organized and operated exclusively for religious purposes. Public Law 392 amended paragraph 1774 to provide for free entry of such articles not only when imported for presentation to such a corporation or association but also when imported by order of the corporation or association. In accordance with this change in the law, and also to eliminate the requirement of a certificate of delivery in cases where the customs examination of the articles listed in paragraph 1774 and certain other free entry paragraphs is made on the institution's premises, the following changes are made in §§ 10.43, 10.44, and 10.51, Customs Regulations of 1943 (19 CFR 10.43, 10.44, 10.51):

1. Section 10.43 (a), as amended, is amended to read as follows:

§ 10.43 *Requirements on entry.* (a) The importer of articles claimed to be exempt from duty under paragraph 1631,[39] 1773,[40] or 1817,[40a] Tariff Act of 1930, or under the provision in paragraph 1774,[40b] Tariff Act of 1930, for articles imported by order of an institution, shall file, as evidence that such articles are entitled to free entry, a declaration on customs Form 3321 of an executive officer or other authorized representative of the institution for which the articles are imported. In the case of articles claimed to be free under paragraph 1817, the affidavit required by that paragraph shall also be furnished.

2. In § 10.43 (a), footnote 40b is inserted after footnote 40a and reads as follows:

[40b] Altars, pulpits, communion tables, baptismal fonts, shrines, or parts of any of the foregoing, and statuary (except casts of plaster of paris, or of compositions of paper or papier-mâché), imported in good faith for the use of, either by order of or for presentation (without charge) to, any corporation or association organized and operated exclusively for religious purposes. (Tariff Act of 1930, par. 1774 (free list); 19 U. S. C. 1201, par. 1774)

3. The citation of authority for § 10.43 is amended to read as follows:

(Sec. 201 (pars. 1631, 1773, 1774, 1817) 46 Stat. 672, as amended; 19 U. S. C. 1201 (pars. 1631, 1773, 1774, 1817))

4. Section 10.44 (c), as amended, is amended to read as follows:

§ 10.44 *Declaration of dealer or agent; certificate of delivery; stipulation.* * * *

(c) Unless the importation is consigned to the institution, the receipt of the articles is acknowledged by the institution on customs Form 3321, or the appraising officer reports that the articles were examined on the institution's premises, a certificate of delivery, customs Form 3337, signed by an executive officer or other authorized representative of the institution, shall be filed within 6 months from the date of entry. (See § 25.16 (c) of this chapter.)

(Sec. 201 (pars. 1631, 1773, 1774, 1817) 46 Stat. 672, as amended; 19 U. S. C. 1201 (pars. 1631, 1773, 1774, 1817))

5. Section 10.51 is amended to read as follows:

§ 10.51 *Articles for institutions.* When articles for institutions are claimed to be free of duty under the provisions in paragraph 1774 or 1810, Tariff Act of 1930," for articles imported for presentation to institutions, there shall be filed, in connection with the entry of such articles, a declaration on customs Form 3331 showing that the articles were expressly imported for presentation to the institution named in the entry, together with letters of presentation and acceptance from the donors and donees, respectively.

(Sec. 201 (pars. 1774, 1810), 46 Stat. 682, as amended, 685, sec. 624, 46 Stat. 759; 19 U. S. C. 1201 (pars. 1774, 1810), 1624)

6. In § 10.51, footnote 46, the quotation from paragraph 1774 is amended to read as follows:

[46] PAR. 1774. Altars, pulpits, communion tables, baptismal fonts, shrines, or parts of any of the foregoing, and statuary (except casts of plaster of paris, or of compositions of paper or papier-mâché), imported in good faith for the use of, either by order of or for presentation (without charge) to, any corporation or association organized and operated exclusively for religious purposes.

[SEAL] FRANK DOW, *Commissioner of Customs.*

Approved: August 27, 1952.

JOHN S. GRAHAM, *Acting Secretary of the Treasury.*

[F. R. Doc. 52-9603; Filed, Sept. 2, 1952; 8:51 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[Regs. 111, T. D. 5928]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

Subchapter F—Records and Procedure

PART 601—PROCEDURE

TAXATION OF BUSINESS INCOME OF CERTAIN TAX-EXEMPT ORGANIZATIONS FOR TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1950

On January 8, 1952, notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 204), in order to conform Regulations 111 (26 CFR Part 29) to Part I of Title III of the Revenue Act of 1950, approved September 23, 1950, to section 201 (d) and (e) of the Excess Profits Tax Act of 1950, approved January 3, 1951, and to sections 121 (e), 125, 339, 347, and 348 of the Revenue Act of 1951, approved October 20, 1951. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendments to Regulations 111 (26 CFR Part 29) set forth below are hereby adopted. A technical amendment is also made to 26 CFR 601.17 (a), respecting forms required of organizations exempt from taxes imposed under chapter 1 of the Internal Revenue Code.

PARAGRAPH 1. Section 29.52–1, as amended by Treasury Decision 5458, approved June 15, 1945, is further amended by inserting immediately after the third sentence thereof the following: "For returns of certain corporations, otherwise exempt from tax under section 101 (1), (6), (7), or (14), which are subject to the tax imposed by section 421 (a) (1) upon their Supplement U net income for any taxable year beginning after December 31, 1950, see § 29.421–5. For returns of certain governmental colleges or universities and corporations wholly owned by such colleges or universities, which are subject to the tax imposed by section 421 (a) (1) upon their Supplement U net income for any taxable year beginning after December 31, 1951, see § 29.421–5."

PAR. 2. Section 29.54–1, as amended by Treasury Decision 5838, approved April 17, 1951, is further amended by striking the word "Every" at the beginning of the second sentence thereof, and by inserting in lieu of such word the following: "In addition to such permanent books and records as are required under the preceding sentence with respect to the tax imposed by Supplement U, every".

PAR. 3. Section 29.101–2, as amended by Treasury Decision 5838, is further amended by inserting at the end thereof the following:

(k) *Supplement U tax returns.* In addition to the foregoing requirements of this section, certain organizations otherwise exempt from tax under section 101 (1), (6), (7), or (14), that are subject to tax on Supplement U net income, are also required to file returns on Form 990–T for taxable years beginning after December 31, 1950. See § 29.421–5 for requirements with respect to such returns.

PAR. 4. Section 29.101 (1)–1 and § 29.101 (7)–1 are each amended by adding at the end thereof the following: "For taxable years beginning after December 31, 1950, organizations otherwise exempt from tax under this section are taxable upon their Supplement U net income. See sections 421 through 424, and the regulations thereunder."

PAR. 5. Section 29.101 (6)–1 is amended by striking paragraph (d) and inserting in lieu thereof the following:

(d) Since an organization exempt under section 101 (6) must be organized and operated exclusively for one or more of the specified purposes, an organization organized or operated for the primary purpose of carrying on a trade or business for profit is not exempt thereunder. Thus, such an organization is not exempt under section 101 (6) even though it has certain religious purposes, its property is held in common, and its profits do not inure to the benefit of individual members of the organization. See section 101 (18) as to religious or apostolic associations or corporations. For taxable years beginning after December 31, 1950, organizations, including trusts, otherwise exempt from tax under this section (other than a church, or a convention or association of churches) are taxable on Supplement U net income. See sections 421 through 424, and the regulations thereunder.

PAR. 6. Paragraph (14) of section 101 is stricken from that portion of section 101 which is set forth immediately after § 29.101 (13)–1, and there is inserted immediately after § 29.101 (13)–1 the following:

[SEC. 101. EXEMPTIONS FROM TAX ON CORPORATIONS—AS AMENDED BY SEC. 217 (a), REV. ACT 1939; SECS. 137 (a), 165 (a), REV. ACT 1942.]

[The following organizations shall be exempt from taxation under this chapter—]

(14) Corporations organized for the exclusive purpose of holding title to property, collecting income therefrom, and turning over the entire amount thereof, less expenses, to an organization which itself is exempt from the tax imposed by this chapter;

§ 29.101 (14)–1 *Corporations organized to hold title to property for exempt organizations.* (a) For taxable years beginning after December 31, 1950, a corporation otherwise exempt from tax under section 101 (14) is taxable upon its Supplement U net income if the income is payable to an organization which is itself subject to the tax imposed by Supplement U or if the income is payable to a church or to a convention or association of churches. Since a corporation to be exempt under section 101 (14) must not engage in any business other than that of holding title to property and collecting income therefrom, it cannot have unrelated business net income as defined in section 422 (a) other than Supplement U rental income described in section 423.

(b) A corporation exempt under section 101 (14) cannot accumulate income and retain its exemption, but it must turn over the entire amount of such income, less expenses, to an organization which is itself exempt from tax under chapter 1 of the Internal Revenue Code.

PAR. 7. There is inserted immediately preceding § 29.117–1 the following:

SEC. 301. INCOME OF EDUCATIONAL, CHARITABLE, AND CERTAIN OTHER EXEMPT ORGANIZATIONS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * * * *

(c) *Technical amendments.* * * *

(2) Section 117 (c) (1) is hereby amended by inserting before "and 500" the following: "421,".

(3) Section 117 (c) (2) is hereby amended by inserting after "sections 11 and 12" the following: "(or, in the case of certain tax-exempt trusts, in lieu of the tax imposed by section 421)".

* * * * * * *

SEC. 303. EFFECTIVE DATE OF PART I (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amendments made by this part (sections 301, 302, and 303 of the Revenue Act of 1950) shall be applicable only with respect to taxable years beginning after December 31, 1950. * * *

PAR. 8. Section 29.117–1 is amended as follows:

(A) By inserting in paragraph (a) thereof immediately after "sections 11 and 12", in each place where those words appear, the following: "(or, in the case of certain tax-exempt trusts, the tax imposed by section 421)".

(B) By inserting in paragraph (b) thereof immediately before "and 500", in each place where that phrase appears, the following: "421,".

(C) By inserting immediately after paragraph (b) thereof the following undesignated paragraph:

In applying section 117 (c) in the case of tax-exempt trusts or organizations subject to the tax imposed by section 421, the only amount which is taken into account as capital gain or loss is that which is taken into account in computing unrelated business net income under section 422. Under section 422, the only amount taken into account as capital gain or loss is that resulting from the application of section 117 (k) (1).

PAR. 9. Section 29.142–1, as amended by Treasury Decision 5687, approved February 16, 1949, is further amended by inserting at the end thereof the following:

(e) *Supplement U tax returns.* For returns on Form 990–T by certain trusts otherwise exempt from tax under section 101 (6), which trusts are subject to the tax imposed by section 421 (a) (2) upon Supplement U net income, see § 29.421–5.

PAR. 10 There is inserted immediately preceding § 29.143–1 the following:

SEC. 301. INCOME OF EDUCATIONAL, CHARITABLE AND CERTAIN OTHER EXEMPT ORGANIZATIONS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * * * *

(c) *Technical amendments.* * * *

(4) Section 143 is hereby amended by adding at the end thereof the following new subsection:

(h) *Withholding on certain foreign tax-exempt organizations.* In the case of income of a foreign organization subject to the tax imposed by section 421 (a), the provisions of this section and section 144 shall apply to rents includible under section 422 in computing its unrelated business net income, but only to the extent and subject to such conditions as may be provided under regulations prescribed by the Secretary.

* * * * * * *

SEC. 303. EFFECTIVE DATE OF PART I (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amendments made by this part [sections 301, 302, and 303 of the Revenue Act of 1950] shall be applicable only with respect to taxable years beginning after December 31, 1950. * * *

PAR. 11. Section 29.143–1 (a), as amended by Treasury Decision 5709, approved June 27, 1949, is further amended by adding immediately after the subparagraph (6) thereof the following undesignated paragraph:

The gross amount of rents paid under a Supplement U lease to an organization subject to the tax imposed by section 421 (a) with respect to rents includible under section 422 in computing unrelated business net income is subject to withholding.

PAR. 12. Section 29.144–1 is amended by adding immediately after paragraph (e) the following: "For withholding in the case of rents under a Supplement U lease paid to a foreign corporation subject to the tax imposed by section 421 (a), see section 143 (h) and § 29.143–1 (a)."

PAR. 13. Section 29.217–2, as amended by Treasury Decision 5687 and § 29.235–2 are each amended by inserting at the end thereof the following:

(c) *Supplement U tax.* For returns with respect to the tax imposed by section 421 (a) upon Supplement U net income for any taxable year beginning after December 31, 1950, see § 29.421–5.

PAR. 14. There is inserted immediately after § 29.220–1, as added by Treasury Decision 5893, approved April 4, 1952, the following:

SEC. 301. INCOME OF EDUCATIONAL, CHARITABLE, AND CERTAIN OTHER EXEMPT ORGANIZATIONS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * * * *

(c) *Technical amendments.* * * *

(5) Supplement H is hereby amended by adding at the end thereof the following new section:

SEC. 221. FOREIGN EDUCATIONAL, CHARITABLE AND CERTAIN OTHER EXEMPT ORGANIZATIONS.

For special provisions relating to foreign educational, charitable and other exempt trusts, see section 421 (d).

* * * * * * *

SEC. 303. EFFECTIVE DATE OF PART I (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amendments made by this part (sections 301, 302, and 303 of the Revenue Act of 1950) shall be applicable only with respect to taxable years beginning after December 31, 1950. * * *

PAR. 15. There is inserted immediately after section 237, which section is set forth immediately after § 29.236–1, the following:

SEC. 301. INCOME OF EDUCATIONAL, CHARITABLE, AND CERTAIN OTHER EXEMPT ORGANIZATIONS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * * * *

(c) *Technical amendments.* * * *

(6) Supplement I is hereby amended by adding at the end thereof the following new section:

SEC. 238. FOREIGN EDUCATIONAL, CHARITABLE AND CERTAIN OTHER EXEMPT ORGANIZATIONS.

For special provisions relating to foreign educational, charitable and certain other exempt organizations, see section 421 (d).

* * * * * * *

SEC. 303. EFFECTIVE DATE OF PART I (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amendments made by this part (sections 301, 302, and 303 of the Revenue Act of 1950) shall be applicable only with respect to taxable years beginning after December 31, 1950. * * *

PAR. 16. The title of Supplement U, which title is set forth immediately after § 29.404–1, is amended to read as follows:

SUPPLEMENT U (TAXABLE YEARS BEGINNING BEFORE JANUARY 1, 1948) ABATEMENT OF TAX FOR MEMBERS OF ARMED FORCES ON DEATH.

PAR. 17. There is inserted immediately after § 29.421–1 the following:

SUPPLEMENT U (TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1950)—TAXATION OF BUSINESS INCOME OF CERTAIN SECTION 101 ORGANIZATIONS.

SEC. 421. IMPOSITION OF TAX (APPLICABLE TO TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1950—AS AMENDED BY SEC. 301, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950, BY SEC. 201 (d) AND (e), EXCESS PROFITS TAX ACT OF 1950, APPROVED JANUARY 3, 1951, AND BY SECS. 121 (e) AND 339 (a), REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

NOTE: For effective date of the last clause of section 421 (a) (1), see section 125 of the Revenue Act of 1951, set forth below, and for the effective date of section 421 (b) (1) (B), see section 339 (c) of the Revenue Act of 1951, set forth below.

(a) *In general.* There shall be levied, collected, and paid for each taxable year beginning after December 31, 1950—

(1) Upon the Supplement U net income (as defined in subsection (c)) of every organization described in subsection (b) (1), a normal tax of 25 per centum of the supplement U net income, and a surtax of 22 per centum of the amount of the Supplement U net income in excess of $25,000; except that (A) in the case of taxable years beginning before April 1, 1951, and ending after March 31, 1951, the normal tax shall be 28¾ per centum of the Supplement U net income, and (B) in the case of taxable years beginning after March 31, 1951, and before April 1, 1954, the normal tax shall be 30 per centum of the Supplement U net income.

(2) Upon the supplement U net income of every trust described in subsection (b) (2), a normal tax computed at the rate and in the manner provided in section 11 and a surtax computed at the rates and in the manner provided in section 12 (b). In making such computations for the purposes of this section, the term "the amount of the net income in excess of the credits against net income provided in section 25" as used in section 11 shall be read as "the amount of the supplement U net income" and the term "surtax net income" as used in section 12 (b) shall be read as "supplement U net income."

(b) *Organizations subject to tax*—(1) *Organizations taxable as corporations*—(A) *Organizations exempt under section 101 (1), (6), (7) and (14).* The taxes imposed by subsection (a) (1) shall apply in the case of any organization (other than a church, a convention or association of churches, or a trust described in paragraph (2)) which is exempt, except as provided in this supplement, from taxation under this chapter by reason of paragraph (1), (6), or (7) of section 101. Such taxes shall also apply in the case of a corporation described in section 101 (14) if the income is payable to an organization which itself is subject to the tax imposed by subsection (a) or to a church or to a convention or association of churches.

(B) *State colleges and universities.* The taxes imposed by subsection (a) (1) shall apply in the case of any college or university which is an agency or instrumentality of any government or any political subdivision thereof, or which is owned or operated by a government or any political subdivision thereof or by any agency or instrumentality of any one or more governments or political subdivisions. Such taxes shall also apply in the case of any corporation wholly owned by one or more such colleges or universities.

(2) *Trusts taxable at individual rates.* The taxes imposed by subsection (a) (2) shall apply in the case of any trust which is exempt, except as provided in this supplement, from taxation under this chapter by reason of paragraph (6) of section 101 and which, if it were not for such exemption, would be subject to the provisions of supplement E.

(c) *Definition of Supplement U net income.* The term "supplement U net income" of an organization means the amount by which its unrelated business net income (as defined in section 422) exceeds $1,000.

(d) *Foreign organizations.* The supplement U net income of an organization described in subsection (b) (1) or (2) which is a foreign organization shall be its supplement U net income derived from sources within the United States determined in accordance with the rules of section 119 and sections 212, 213 (a), 231 (c) and (d), and 232 (a).

SEC. 125. EFFECTIVE DATE (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * the amendments made to sections * * * 421 [by section 121 (e) which adds to section 421 (a) (1) the clause beginning "; except that * * *"] of the Internal Revenue Code shall be applicable to taxable years beginning after December 31, 1950, and ending after March 31, 1951. * * *

SEC. 339. TAXATION OF BUSINESS INCOME OF STATE COLLEGES AND UNIVERSITIES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * * *

(c) *Effective date.* The amendments made by this section [which adds subparagraph (B) to section 421 (b) (1)] shall be applicable only with respect to taxable years beginning after December 31, 1951.

(Section 29.421–1, relating to abatement of tax for members of armed forces on death, is set forth above immediately preceding section 421 as amended by the Revenue Act of 1950 and subsequent acts.)

§ 29.421–2 *Section 421 as applicable to taxable years beginning before 1948 and as applicable to taxable years beginning after 1950.* The provisions of Supplement U, and section 421 of such Supplement, for taxable years beginning before January 1, 1948, are entirely different from those applicable for taxable years beginning after December 31, 1950. For certain taxable years beginning before 1948, Supplement U and section 421 relate to the abatement of tax for members of the armed forces on death. For taxable years beginning after 1950, Supplement U and section 421 relate to the imposition of tax upon income of certain otherwise tax-exempt organizations. In order to avoid confusion as to the regulations applicable under these two different provisions of Supplement U and section 421, the regulations under Sup-

plement U and section 421 applicable for taxable years beginning before 1948 (that is, the regulations relating to the abatement of tax for members of the armed forces on death) are contained in § 29.421–1, and the regulations under Supplement U and section 421 for taxable years beginning after 1950 (that is, the regulations relating to the imposition of tax on the income of certain otherwise tax-exempt organizations) are set forth in § 29.421–3 and the sections of the regulations immediately following such section.

§ 29.421–3 *Imposition of tax*—(a) *Rates of tax.* Section 421 (a) imposes a tax, applicable only with respect to taxable years beginning after December 31, 1950, upon the Supplement U net income of certain organizations otherwise exempt from Federal income tax by reason of section 101 (1), (6), (7), or (14). Effective only with respect to taxable years beginning after December 31, 1951, the taxes imposed by section 421 (a) shall also apply in the case of any college or university which is an agency or instrumentality of any government or any political subdivision thereof, or which is owned or operated by a government or any political subdivision thereof or by any agency or instrumentality of any one or more governments or political subdivisions, and to any corporation wholly owned by one or more such colleges or universities. Under section 421 (a) (1), organizations described in section 421 (b) (1) (A) and in § 29.421–4 (a) (1) are, for taxable years beginning after December 31, 1950, and organizations described in section 421 (b) (1) (B) and in § 29.421–4 (a) (2) are, for taxable years beginning after December 31, 1951, subject to:

(1) A normal tax of 25 percent on their Supplement U net income, except that (i) in the case of taxable years beginning before April 1, 1951, and ending after March 31, 1951, the normal tax shall be 28¾ percent of the Supplement U net income, and (ii) in the case of taxable years beginning after March 31, 1951, and before April 1, 1954, the normal tax shall be 30 percent of the Supplement U net income, and

(2) A surtax of 22 percent on the amount of such income in excess of $25,000.

Under section 421 (a) (2), trusts described in section 421 (b) (2) and § 29.421–4 (b) are, for taxable years beginning after December 31, 1950, subject to tax at the individual rates prescribed in sections 11 and 12 (b). For the purpose of computing the tax imposed by section 11 and section 12 (b), the term "the amount of the net income in excess of the credits against net income provided in section 25", as used in section 11 and the term "surtax net income" as used in section 12 (b) shall each be read as "Supplement U net income". The credit of $100 against net income provided in section 163 (a) (1) in the case of a trust taxable under Supplement E is not allowed as a credit against Supplement U net income.

(b) *Definition of Supplement U net income.* The term "Supplement U net income" means the amount by which the unrelated business net income (as defined in section 422) of an organization exceeds $1,000.

§ 29.421–4 *Organizations subject to tax.* (a) (1) The taxes imposed by section 421 (a) (1) apply in the case of any organization (other than a church, a convention or association of churches, or a trust described in section 421 (b) (2) and in (b) of this section) which is exempt, except as provided in Supplement U, from taxation under chapter 1 by reason of paragraph (1), (6), or (7) of section 101. A corporation exempt from taxation under section 101 (14), holding property for an organization which itself is subject to the tax or for a church or a convention or association of churches, is also subject to the Supplement U tax under section 421 (a) (1).

(2) The taxes imposed by section 421 (a) (1) apply in the case of any college or university which is an agency or instrumentality of any government or any political subdivision thereof, or which is owned or operated by a government or any political subdivision thereof or by any agency or instrumentality of any one or more governments or political subdivisions. Such taxes also apply in the case of any corporation wholly owned by one or more such colleges or universities. As here used, the word "government" includes any foreign government (to the extent not contrary to any treaty obligation of the United States) and all domestic governments (the United States and any of its Territories or possessions, any State, and the District of Columbia). Elementary and secondary schools operated by such governments are not subject to the Supplement U tax.

(3) Churches and associations or conventions of churches are exempt from the Supplement U tax. The exemption is applicable only to an organization which itself is a church or an association or convention of churches. Religious organizations, including religious orders, if not themselves churches or associations or conventions of churches, and all other organizations which are organized or operated under church auspices, are subject to the Supplement U tax, whether or not they carry out a religious, educational, or charitable function approved by a church. For example, an incorporated university exempt from tax under section 101 (6) is subject to the Supplement U tax whether or not it was organized by or is operated under the auspices of a church.

(b) The taxes imposed by section 421 (a) (2) shall apply in the case of any trust which is exempt, except as provided in Supplement U, from taxation under chapter 1 by reason of paragraph (6) of section 101 and which, if it were not for such exemption under section 101 (6), would be subject to the provisions of Supplement E of such chapter.

§ 29.421–5 *Provisions generally applicable to Supplement U tax*—(a) *Assessment and collections.* Since the taxes imposed by section 421 are taxes imposed by chapter 1 of the Internal Revenue Code, all provisions of law and of these regulations applicable to the taxes imposed by chapter 1 are applicable to the assessment and collection of the taxes imposed by section 421. See paragraph (b) of this section for the requirement as to the filing of returns. Organizations subject to the tax imposed by section 421 (a) (1) are subject to the same provisions, including penalties, as are provided in the case of the income tax of other corporations. In the case of a trust subject to the tax imposed by section 421 (a) (2), the fiduciaries for such trust are subject to the same provisions, including penalties, as are applicable to fiduciaries in the case of the income tax of other trusts. See sections 52, 53, 56, and 142, and the regulations prescribed thereunder, with respect to provisions applicable to returns and payment of tax.

(b) *Returns.* The return of Supplement U tax shall be on Form 990–T. The return shall be filed for each taxable year beginning after December 31, 1950, by every organization, otherwise exempt from tax under section 101 (1), (6), (7), or (14) and subject to the Supplement U tax, which has gross income, included in computing unrelated business net income for such taxable year, of $1,000 or more. A return shall also be filed for each taxable year beginning after December 31, 1951, by every governmental college or university and by every corporation wholly owned by such a college or university, which is subject to the Supplement U tax and which has gross income, included in computing unrelated business net income for such taxable year, of $1,000 or more. The filing of Form 990–T does not relieve the organization of the duty of filing other returns required under chapter 1 of the Internal Revenue Code.

(c) *Taxable years, method of accounting, etc.* The taxable year (fiscal year or calendar year, as the case may be) of an organization shall be determined without regard to the fact that such organization may have been exempt from tax during any prior period. See sections 41 and 48, and the regulations thereunder. Similarly, in computing unrelated business net income, the determination of the taxable year for which an item of income or expense is taken into account shall be made under the provisions of sections 41, 42, and 43, and the regulations thereunder, whether or not the item arose during a taxable year beginning before, on, or after December 31, 1950. If a method for treating bad debts was selected in a return of income (other than an information return) for a previous taxable year, the taxpayer must follow such method in its returns under Supplement U, unless such method is changed in accordance with the provisions of § 29.23 (k)–1. A taxpayer which has not previously selected a method for treating bad debts may, in its first return under Supplement U, exercise the option granted in § 29.23 (k)–1.

(d) *Foreign tax credit.* See section 424 for provisions applicable to the credit for foreign taxes provided in section 131.

SEC. 422. UNRELATED BUSINESS NET INCOME (APPLICABLE TO TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1950—AS ADDED BY SEC. 301, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950, AND AS AMENDED BY SECS. 339 (b), 347, AND 348, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951)

NOTE: For the provisions of section 422 inserted by the amendments made by sections 339 (b), 347, and 348 of the Revenue Act of 1951, and for the effective dates of such amendments, see sections 339 (c), 347 (b), and 348 (b) of the Revenue Act of 1951, set forth below.

(a) *Definition.* The term "unrelated business net income" means the gross income derived by any organization from any unrelated trade or business (as defined in subsection (b)) regularly carried on by it, less the deductions allowed by section 23 which are directly connected with the carrying on of such trade or business, subject to the following exceptions, additions, and limitations:

(1) There shall be excluded all dividends, interest, and annuities, and all deductions directly connected with such income.

(2) There shall be excluded all royalties (including overriding royalties) whether measured by production or by gross or net income from the property, and all deductions directly connected with such income.

(3) There shall be excluded all rents from real property (including personal property leased with the real property), and all deductions directly connected with such rents.

(4) Notwithstanding paragraph (3), in the case of a supplement U lease (as defined in section 423 (a)) there shall be included, as an item of gross income derived from an unrelated trade or business, the amount ascertained under section 423 (d) (1) and there shall be allowed, as a deduction, the amount ascertained under section 423 (d) (2).

(5) There shall be excluded all gains or losses from the sale, exchange, or other disposition of property other than (A) stock in trade or other property of a kind which would properly be includible in inventory if on hand at the close of the taxable year, or (B) property held primarily for sale to customers in the ordinary course of the trade or business. This paragraph shall not apply with respect to the cutting of timber which is considered, upon the application of section 117 (k) (1), as a sale or exchange of such timber.

(6) The net operating loss deduction provided in section 23 (s) shall be allowed, except that—

(A) The net operating loss for any taxable year, the amount of the net operating loss carry-back or carry-over to any taxable year, and the net operating loss deduction for any taxable year shall be determined under section 122 without taking into account any amount of income or deduction which is excluded under this supplement in computing the unrelated business net income; and

(B) The terms "preceding taxable year" and "preceding taxable years" as used in section 122 shall not include any taxable year for which the organization was not subject to the provisions of this supplement.

(7) There shall be excluded all income derived from research for (A) the United States, or any of its agencies or instrumentalities, or (B) any State or political subdivision thereof; and there shall be excluded all deductions directly connected with such income.

(8) (A) In the case of a college, university, or hospital, there shall be excluded all income derived from research performed for any person, and all deductions directly connected with such income.

(B) In the case of an organization operated primarily for the purposes of carrying on fundamental research the results of which are freely available to the general public, there shall be excluded all income derived from research performed for any person, and all deductions directly connected with such income.

(9) (A) In the case of any organization described in section 421 (b) (1), the so-called "charitable contribution" deduction allowed by section 23 (q) shall be allowed (whether or not directly connected with the carrying on of the trade or business), but shall not exceed 5 per centum of the unrelated business net income computed without the benefit of this subparagraph.

(B) In the case of any trust described in section 421 (b) (2), the so-called "charitable contribution" deduction allowed by section 23 (o) shall be allowed (whether or not directly connected with the carrying on of the trade or business), and for such purpose a distribution made by the trust to a beneficiary described in section 23 (o) shall be considered as a gift or contribution. The deduction allowed by this subparagraph shall not exceed 15 per centum of the unrelated business net income computed without the benefit of this subparagraph.

If a trade or business regularly carried on by a partnership of which an organization is a member is an unrelated trade or business with respect to such organization, such organization in computing its unrelated business net income shall, subject to the exceptions, additions, and limitations contained in paragraphs (1) through (9) above, include its share (whether or not distributed) of the gross income of the partnership from such unrelated trade or business and its share of the partnership deductions directly connected with such gross income. If the taxable year of the organization is different from that of the partnership, the amounts to be so included or deducted in computing the unrelated business net income shall be based upon the income and deductions of the partnership for any taxable year of the partnership (whether beginning on, before, or after January 1, 1951) ending within or with the taxable year of the organization. In the case of an organization described in section 3813 (a) (2) which is a member of a partnership all of whose members are organizations described in section 3813 (a) (2), if a trade or business regularly carried on by such partnership is an unrelated trade or business with respect to such organization, such organization shall, for taxable years beginning before January 1, 1954, be allowed a deduction in an amount equal to the portion of the gross income of such partnership from such unrelated trade or business which such organization is required (by a provision of a written contract executed by such organization prior to January 1, 1950, which provision expressly deals with the disposition of the gross income of the partnership) to pay within the taxable year in discharge of indebtedness incurred by such organization in acquiring its share of such trade or business, or to irrevocably set aside within the taxable year for the discharge of such indebtedness (to the extent that such amount has been so paid or set aside) if (i) such partnership was formed prior to January 1, 1950, for the purpose of carrying on such trade or business, and (ii) substantially all the assets used in carrying on such trade or business were acquired by it or by its members prior to such date. As used in the preceding sentence, the word "indebtedness" does not include indebtedness incurred after January 1, 1950.

(b) *Unrelated trade or business.* The term "unrelated trade or business" means, in the case of any organization subject to the tax imposed by section 421 (a), any trade or business the conduct of which is not substantially related (aside from the need of such organization for income or funds or the use it makes of the profits derived) to the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 101 (or, in the case of an organization described in section 421 (b) (1) (B), to the exercise or performance of any purpose or function described in section 101 (6)), except that such term shall not include any trade or business—

(1) In which substantially all the work in carrying on such trade or business is performed for the organization without compensation; or

(2) Which is carried on, in the case of an organization described in section 101 (6) or in the case of a college or university described in section 421 (b) (1) (B), by the organization primarily for the convenience of its members, students, patients, officers, or employees; or

(3) Which is the selling of merchandise, substantially all of which has been received by the organization as gifts or contributions.

The term "unrelated trade or business" means, in the case of a trust computing its unrelated business net income under this section for the purposes of section 162 (g) (1), any trade or business regularly carried on by such trust or by a partnership of which it is a member. If a publishing business carried on by an organization during a taxable year beginning before January 1, 1953, is, without regard to this sentence, an unrelated trade or business, but before the beginning of the third succeeding taxable year the business is carried on by it (or by a successor who acquired such business in a liquidation which would constitute a tax-free exchange under section 112 (b) (6)) in such manner that the conduct thereof is substantially related to the exercise or performance by such organization (or such successor) of its educational or other purpose or function described in section 101 (6), such publishing business shall not be considered, for the taxable year, as an unrelated trade or business.

SEC. 339. TAXATION OF BUSINESS INCOME OF STATE COLLEGES AND UNIVERSITIES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * *

(c) *Effective date.* The amendments made by this section [which adds to section 422 (b) the phrase: "(or, in the case of an organization described in section 421 (b) (1) (B), to the exercise or performance of any purpose or function described in section 101 (6))", and inserts in paragraph (2) thereof the phrase: "or in the case of a college or university described in section 421 (b) (1) (B)"] shall be applicable only with respect to taxable years beginning after December 31, 1951.

SEC. 347. PUBLISHING BUSINESS CARRIED ON BY TAX EXEMPT ORGANIZATIONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * *

(b) *Effective date.* The amendment made by this section [which adds to section 422 (b) the sentence beginning: "If a publishing business carried on by an organization * * *"] shall be applicable with respect to taxable years beginning after December 31, 1950, and prior to January 1, 1953.

SEC. 348. DEDUCTION WITH RESPECT TO CERTAIN UNRELATED BUSINESS NET INCOME (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * *

(b) *Effective date.* The amendment made by this section [which adds to section 422 (a) the sentence beginning: "In the case of an organization described in section 3813 (a) (2) * * *" and the sentence following such sentence] shall be applicable with respect to taxable years beginning after December 31, 1950, and prior to January 1, 1954.

§ 29.422–1 *Definition of unrelated business net income*—(a) *General rule.* The unrelated business net income which is subject to the Supplement U tax is the gross income, derived by any organization to which Supplement U applies, from any unrelated trade or business regularly carried on by it, less the deduc-

tions allowed by section 23 of the Code which are directly connected with the carrying on of such trade or business, subject to certain exceptions, additions, and limitations referred to below. In the case of an organization which regularly carries on two or more unrelated businesses, its unrelated business net income is the aggregate of its gross income from all such unrelated businesses, less the aggregate of the deductions allowed with respect to all such unrelated businesses. For provisions generally applicable to the computation of unrelated business net income, see § 29.421–5, and for rules applicable to the determination of the adjusted basis of property, see § 29.423–3 (a).

(b) *Exceptions, additions, and limitations.* Whether a particular item of income falls within any of the exceptions, additions, and limitations provided in section 422 shall be determined by all the facts and circumstances of each case. For example, if a payment termed "rent" by the parties is in fact a return of profits by a person operating the property for the benefit of the tax-exempt organization or is a share of the profits retained by such organization as a partner or a joint venturer, such payment is not within the exception for rent. The exceptions, additions, and limitations provided in section 422 are as follows:

(1) *Dividends, interest, and annuities.* All dividends, interest, and annuities, and the deductions directly connected therewith, shall be excluded in computing unrelated business net income.

(2) *Royalties.* Royalties, including overriding royalties, and all deductions directly connected with such income shall be excluded in computing unrelated business net income. Mineral royalties shall be excluded whether measured by production or by gross or net income from the mineral property. However, where an organization owns a working interest in a mineral property, and is not relieved of its share of the development costs by the terms of any agreement with an operator, income received from such an interest shall not be excluded. In-oil payments shall be treated in the same manner as royalty payments for the purpose of computing unrelated business net income.

(3) *Rents.* (i) Rents from real property (including personal property leased with the real property) and the deductions directly connected therewith shall also be excluded in computing unrelated business net income, except that certain rents from, and certain deductions in connection with, a Supplement U lease (as defined in section 423 (a)) shall be included in computing unrelated business net income. See §§ 29.423–3 and 29.423–4.

(ii) Payments for the use or occupancy of rooms or other space where services are also rendered to the occupant, such as for the use or occupancy of rooms or other quarters in hotels, boarding houses, or apartment houses furnishing hotel services, or in tourist camps or tourist homes, or for the use or occupancy of space in parking lots, warehouses, or storage garages, do not constitute rentals from real estate. Generally, services are considered rendered to the occupant if they are primarily for his convenience and are other than those usually or customarily rendered in connection with the rental of rooms or other space for occupancy only. The supplying of maid service, for example, constitutes such service; whereas the furnishing of heat and light, the cleaning of public entrances, exits, stairways and lobbies, the collection of trash, etc., are not considered as services rendered to the occupant. Payments for the use or occupancy of entire private residences or living quarters in duplex or multiple housing units, of offices in an office building, etc., are generally rentals from real estate.

(4) *Gains and losses from the sale, etc., of property.* There shall also be excluded from the computation of unrelated business net income gains or losses from the sale, exchange, or other disposition of property other than (i) stock in trade or other property of a kind which would properly be included in the inventory of the organization if on hand at the close of the taxable year, or (ii) property held primarily for sale to customers in the ordinary course of the trade or business. This exclusion does not apply with respect to the cutting of timber which is considered, upon the application of section 117 (k) (1), as a sale or exchange of such timber. The exclusion under section 422 (a) (5) applies with respect to gains and losses from involuntary conversions, casualties, etc.

(5) *Net operating losses.* The net operating loss deduction provided in section 23 (s) shall be allowed in computing unrelated business net income. However, the net operating loss carry-back or carry-over (from a taxable year for which the taxpayer is subject to the provisions of Supplement U) shall be determined under section 122 without taking into account any amount of income or deduction which is not included under Supplement U in computing unrelated business net income. For example, a loss attributable to an unrelated trade or business shall not be diminished by reason of the receipt of dividend income. For the purpose of computing the net operating loss deduction, the terms "preceding taxable year" and "preceding taxable years" as used in section 122 shall not include any taxable year for which the organization was not subject to the provisions of Supplement U. Thus, if the organization was not subject to the provisions of Supplement U for the immediately preceding taxable year, the net operating loss is not a carry-back to any preceding taxable year, and the net operating loss carry-over to succeeding taxable years is not reduced by the net income for any preceding taxable year. No net operating loss carry-back or carry-over shall be allowed only from a taxable year for which the taxpayer is subject to the provisions of Supplement U.

(6) *Research.* (i) Income derived from research for the United States or any of its agencies or instrumentalities or a State or political subdivision thereof, and all deductions directly connected with such income, shall be excluded in computing unrelated business net income.

(ii) In the case of a college, university, or hospital, all income derived from research performed for any person and all deductions directly connected with such income shall be excluded in computing unrelated business net income.

(iii) In the case of an organization operated primarily for the purpose of carrying on fundamental research (as distinguished from applied research) the results of which are freely available to the general public, all income derived from research performed for any person and all deductions directly connected with such income shall be excluded in computing unrelated business net income.

(iv) For the purpose of this section, the term "research" does not include activities of a type ordinarily carried on as an incident to commercial or industrial operations, for example, the ordinary testing or inspection of materials or products or the designing or construction of equipment, buildings, etc. The term "fundamental research" does not include research carried on for the primary purpose of commercial or industrial application.

(7) *Charitable, etc., contributions.* (i) In computing the unrelated business net income of a trust described in section 421 (b) (2) or of an organization described in section 421 (b) (1), there shall be deducted from gross income the amount allowed by section 23 (o) or 23 (q), whichever is applicable, whether or not the contribution is directly connected with the carrying on of the trade or business. This deduction shall be limited to 15 percent, if computed under section 23 (o), or 5 percent, if computed under section 23 (q), of the unrelated business net income computed without benefit of such deduction. In the case of a trust described in section 421 (b) (2), distributions made pursuant to the trust instrument to a beneficiary described in section 23 (o) shall be treated in the same manner as gifts or contributions.

(ii) The contribution, whether made by a trust or other exempt organization, must be paid to another organization to be allowable. For example, a university exempt from tax under section 101 (6), operating an unrelated business, shall be allowed a deduction, not in excess of 5 percent of its unrelated business net income, for gifts or contributions to another university for educational work but shall not be allowed any deduction for amounts expended in administering its own educational program.

§ 29.422–2 *Organizations that are members of partnerships.*—(a) *In general.* In the event an organization to which Supplement U applies is a member of a partnership regularly engaged in a trade or business which is an unrelated trade or business with respect to such organization, the organization shall include in computing its unrelated business net income so much of its share (whether or not distributed) of the partnership gross income as is derived from that unrelated business and its share of the deductions attributable thereto. For this purpose, both the gross income and the deductions shall be computed with

the necessary adjustments for the exceptions, additions, and limitations referred to in section 422 (a) and in § 29.422–1. For example, if an exempt educational institution is a partner in a partnership which operates a factory and if such partnership also holds stock in a corporation, the exempt organization shall include in computing its unrelated business net income its share of the gross income from the operation of the factory, but not its share of any dividends received by the partnership from the corporation. If the taxable year of the organization differs from that of the partnership, the amounts included or deducted in computing unrelated business net income shall be based upon the income and deductions of the partnership for each taxable year of the partnership (whether beginning on, before, or after January 1, 1951) ending within or with the taxable year of the organization.

(b) *Special rule.* For a special rule, applicable only with respect to taxable years beginning after December 31, 1950, and prior to January 1, 1954, with respect to unrelated trades or businesses carried on in partnership by certain educational organizations described in section 3818 (a) (2), see the last two sentences of section 422 (a) as amended by section 348 of the Revenue Act of 1951.

§ 29.422–3 *Definition of unrelated trade or business.*—(a) *In general.* (1) The term "unrelated business net income" as used in section 422 (a) includes only income from an unrelated trade or business regularly carried on. As used in section 422 (a), the term "trade or business" has the same meaning as it has in section 23 (a) (1).

(2) The income of an exempt organization is subject to the Supplement U tax only if two conditions are present with respect to such income. The first condition is that the income must be from a trade or business which is regularly carried on by the organization. The second condition is that the trade or business must not be substantially related (aside from the need of the organization for income or funds or the use it makes of the profits derived) to the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 101, or, in the case of an organization described in section 421 (b) (1) (B) (governmental colleges, etc.), to the exercise or performance of any purpose or function described in section 101 (6). Whether or not an organization is subject to the Supplement U tax shall be determined by the application of these tests to the particular circumstances involved in each individual case. See paragraph (b) of this section for certain exceptions from the term "unrelated trade or business."

(3) A trade or business is regularly carried on when the activity is conducted with sufficient consistency to indicate a continuing purpose of the organization to derive some of its income from such activity. An activity may be regularly carried on even though its performance is infrequent or seasonal.

(4) Ordinarily, a trade or business is substantially related to the activities for which an organization is granted exemption if the principal purpose of such trade or business is to further (other than through the production of income) the purpose for which the organization is granted exemption. In the usual case the nature and size of the trade or business must be compared with the nature and extent of the activities for which the organization is granted exemption in order to determine whether the principal purpose of such trade or business is to further (other than through the production of income) the purpose for which the organization is granted exemption. For example, the operation of a wheat farm is substantially related to the exempt activity of an agricultural college if the wheat farm is operated as a part of the educational program of the college, and is not operated on a scale disproportionately large when compared with the educational program of the college. Similarly, a university radio station or press is considered a related trade or business if operated primarily as an integral part of the educational program of the university, but is considered an unrelated trade or business if operated in substantially the same manner as a commercial radio station or publishing house. A trade or business not otherwise related does not become substantially related to an organization's exempt purpose merely because incidental use is made of the trade or business in order to further the exempt purpose. For example, the manufacture and sale of a product by an exempt college would not become substantially related merely because students as part of their educational program perform clerical or bookkeeping functions in the business. In some cases, the business may be substantially related because it is a necessary part of the exempt activity. For example, in the case of an organization exempt under section 101 (6) and engaged in the rehabilitation of handicapped persons, the business of selling articles made by such persons as a part of their rehabilitation training would not be considered an unrelated business since such business is a necessary part of the rehabilitation program.

(b) *Exceptions.* Section 422 (b) specifically states that the term "unrelated trade or business" does not include:

(1) Any trade or business in which substantially all the work in carrying on such trade or business is performed for the organization without compensation; or

(2) Any trade or business carried on by an organization exempt under section 101 (6) or by a governmental college or university described in section 421 (b) (1) (B), primarily for the convenience of its members, students, patients, officers, or employees; or

(3) Any trade or business which consists of selling merchandise, substantially all of which has been received by the organization as gifts or contributions.

An example of the operation of the first of the exceptions mentioned in subparagraphs (1), (2), and (3) of this paragraph would be an exempt orphanage operating a retail store and selling to the general public, where substantially all the work in carrying on such business is performed for the organization by volunteers without compensation. An example of the second limitation would be a laundry operated by a college for the purpose of laundering dormitory linens and the clothing of students. The third exception applies to so-called "thrift shops" operated by a tax-exempt organization where those desiring to benefit such organization contribute old clothes, books, furniture, etc., to be sold to the general public with the proceeds going to the exempt organization.

(c) *Special rule respecting publishing businesses.* For a special rule, applicable only with respect to taxable years beginning after December 31, 1950, and prior to January 1, 1953, with respect to publishing businesses carried on by an organization, see section 422 (b) as amended by section 347 of the Revenue Act of 1951.

SEC. 423. SUPPLEMENT U LEASE (APPLICABLE TO TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1950—AS ADDED BY SECTION 301, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) *Definition of Supplement U Lease.* The term "supplement U lease" means a lease for a term of more than five years of real property by an organization (or by a partnership of which it is a member), if at the close of the lessor's taxable year there is a supplement U lease indebtedness (as defined in subsection (b)) with respect to such property. In computing the term of a lease which contains an option for renewal or extension, the term of such lease shall be considered as including any period for which such option may be exercised; and the term of any lease made pursuant to an exercise of such option shall include the period during which the prior lease was in effect. If real property is acquired subject to a lease, the term of such lease shall be considered to begin on the date of such acquisition. No lease shall be considered a supplement U lease if (A) such lease is entered into primarily for purposes which are substantially related (aside from the need of such organization for income of funds or the use it makes of the rents derived) to the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 101, or (B) the lease is of premises in a building primarily designed for occupancy, and occupied, by the organization. If a lease for more than five years to a tenant is for only a portion of the real property, and space in the real property is rented during the taxable year under a lease for not more than five years to any other tenant of the organization, leases of the real property for more than five years shall be considered as supplement U leases during the taxable year only if—

(1) The rents derived from the real property during the taxable year under such leases represent 50 per centum or more of the total rents derived during the taxable year from the real property; or the area of the premises occupied under such leases represents, at any time during the taxable year, 50 per centum or more of the total area of the real property rented at such time; or

(2) The rent derived from the real property during the taxable year from any tenant under such a lease, or from a group of tenants (under such leases) who are (A)

members of an affiliated group (as defined in section 141) or (B) partners, represents more than 10 per centum of the total rents derived during the taxable year from such property; or the area of the premises occupied by any one such tenant, or by any such group of tenants, represents at any time during the taxable year more than 10 per centum of the total area of the real property rented at such time.

(b) *Supplement U Lease indebtedness.* The term "Supplement U Lease indebtedness" means, with respect to any real property leased for a term of more than five years, the unpaid amount of—

(1) The indebtedness incurred by the lessor in acquiring or improving such property;

(2) The indebtedness incurred prior to the acquisition or improvement of such property if such indebtedness would not have been incurred but for such acquisition or improvement; and

(3) The indebtedness incurred subsequent to the acquisition or improvement of such property if such indebtedness would not have been incurred but for such acquisition or improvement and the incurrence of such indebtedness was reasonably foreseeable at the time of such acquisition or improvement.

Where real property is acquired subject to a mortgage or other similar lien, the amount of the indebtedness secured by such mortgage or lien shall be considered (whether the acquisition was by gift, devise, or purchase) as an indebtedness of the lessor incurred in acquiring such property even though the lessor did not assume or agree to pay such indebtedness, except that where real property was acquired by gift, bequest, or devise prior to July 1, 1950, subject to a mortgage or other similar lien, the amount of such mortgage or other similar lien shall not be considered as an indebtedness of the lessor incurred in acquiring such property. Where real property was acquired by gift, bequest, or devise prior to July 1, 1950, subject to a lease requiring improvements in such property upon the happening of stated contingencies, indebtedness incurred in improving such property in accordance with the terms of such lease shall not be considered as an indebtedness for purposes of this subsection. In the case of a corporation described in section 101 (14), all of the stock of which was acquired prior to July 1, 1950, by an organization described in paragraph (1), (6), or (7) of section 101 (and more than one-third of such stock was acquired by such organization by gift or bequest), any indebtedness incurred by such corporation prior to July 1, 1950, and any indebtedness incurred by such corporation on or after such date in improving real property in accordance with the terms of a lease entered into prior to such date, shall not be considered as an indebtedness with respect to such corporation or such organization for purposes of this subsection. In determining the amount of the supplement U lease indebtedness where only a portion of the real property is subject to a supplement U lease, proper allocation to the premises covered by such lease shall be made of the indebtedness incurred by the lessor with respect to the real property.

(c) *Personal property leased with real property.* For the purposes of this section, the term "real property" and the term "premises" include personal property of the lessor leased by it to a lessee of its real estate if the lease of such personal property is made under, or in connection with, the lease of such real estate.

(d) *Treatment of supplement U lease rents and deductions.* In computing under section 422 (a) the unrelated business net income for any taxable year—

(1) *Percentage of rents taken into account.* There shall be included with respect to each supplement U lease, as an item of gross income derived from an unrelated trade or business, an amount which is the same percentage (but not in excess of 100 per centum) of the total rents derived during the taxable year under such lease as (A) the supplement U lease indebtedness, at the close of the taxable year, with respect to the premises covered by such lease is of (B) the adjusted basis, at the close of the taxable year, of such premises.

(2) *Percentage of deductions taken into account.* There shall be allowed with respect to each supplement U lease, as a deduction to be taken into account in computing unrelated business net income, an amount which is the same percentage (but not in excess of 100 per centum) of the sum determined under paragraph (3) as the amount determined under clause (A) of paragraph (1) is of the amount determined under clause (B) of such paragraph.

(3) *Deductions allowable.* The sum referred to in paragraph (2) is the sum of the following deductions allowable under section 23:

(A) Taxes and other expenses paid or accrued during the taxable year upon or with respect to the real property subject to the supplement U lease.

(B) Interest paid or accrued during the taxable year on the supplement U lease indebtedness.

(C) A reasonable allowance for exhaustion, wear and tear (including a reasonable allowance for obsolescence) of the real property subject to such lease.

Where only a portion of the real property is subject to the supplement U lease, there shall be taken into account under subparagraphs (A), (B), or (C) only those amounts which are properly allocable to the premises covered by such lease.

§ 29.423–1 *Definition of Supplement U lease*—(a) *In general.* The term "Supplement U lease" means any lease, with certain exceptions discussed in paragraph (c) of this section, for a term of more than five years of real property by an organization subject to Supplement U (or by a partnership of which it is a member) if at the close of the organization's taxable year there is a Supplement U lease indebtedness as defined in section 423 (b) and § 29.423–2, with respect to such property. For the purpose of section 423, the term "real property" and the term "premises" include personal property of the lessor tax-exempt organization leased by it to a lessee of its real estate if the lease of such personal property is made under, or in connection with, the lease of such real estate. For amounts of Supplement U rents and deductions to be included in computing unrelated business net income, see § 29.423–3.

(b) *Special rules.* (1) In computing the term of the lease, the period for which a lease may be renewed or extended by reason of an option contained therein shall be considered as part of the term. For example, a 3-year lease with an option for renewal for another such period is considered a lease for a term of 6 years. Another example is the case of a 1-year lease with option of renewal for another such term, where the parties at the end of each year renew the arrangement. In this case, during the fifth year (but not during the first 4 years), the lease falls within the 5-year rule, since the lease then involves 5 years and there is an option for the sixth year. In determining the term of the lease, an option for renewal of the lease is taken into account whether or not the exercise of the option depends upon conditions or contingencies.

(2) If the property is acquired subject to a lease, the term of such lease shall be considered to begin on the date of such acquisition. For example, if an exempt organization purchases, in whole or in part with borrowed funds, real property subject to a 10-year lease which has 3 years left to run, and such lease contains no right of renewal or extension, the lease shall be considered a 3-year lease and hence does not meet the definition of a Supplement U lease in section 423 (a) and paragraph (a) of this section. However, if this lease contains an option to renew for a period of 3 years or more, it is a Supplement U lease.

(c) *Exceptions.* (1) A lease shall not be considered a Supplement U lease if such lease is entered into primarily for a purpose which is substantially related (aside from the need of such organization for income or funds) or the use it makes of the rents derived) to the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption. For example, where a tax-exempt hospital leases real property owned by it to an association of doctors for use as a clinic, the rents derived under such lease would not be included in computing unrelated business net income if the clinic is substantially related to the carrying on of hospital functions. See § 29.422–3 for principles applicable in determining whether there is a substantial relationship to the exempt purposes of an organization.

(2) A lease is not a Supplement U lease if the lease is of premises in a building primarily designed for occupancy and occupied by the tax-exempt organization.

(3) If a lease for more than 5 years to a tenant is for only a portion of the real property, and space in the real property is rented during the taxable year under a lease for not more than 5 years to any other tenant of the tax-exempt organization, leases of the real property for more than 5 years shall be considered as Supplement U leases during the taxable year only if:

(i) The rents derived from the real property during the taxable year under such leases represent 50 percent or more of the total rents derived during the taxable year from the real property; or the area of the premises occupied under such leases represents, at any time during the taxable year, 50 percent or more of the total area of the real property rented at such time; or

(ii) The rent derived from the real property during the taxable year from any tenant under such a lease, or from a group of tenants (under such leases) who are either members of an affiliated group (as defined in section 141) or are partners, represents more than 10 percent of the total rents derived during the taxable year from such property; or the area of the premises occupied by any one such tenant, or by any such group of tenants, represents at any time during the taxable year more than 10 percent of the total area of the real property rented at such time.

(4) The application of subparagraph (3) of this paragraph, may be illustrated by the following example: In 1951 an educational organization, which is on the calendar year basis, begins the erection of an 11-story apartment building using funds borrowed for that purpose, and immediately leases for a 10-year term the first floor to a real estate development company to sublet for stores and shops. As fast as the new apartments are completed, they are rented out on an annual basis. At the end of 1956, all except the tenth and eleventh floors are rented. Those two floors are completed during 1957 and rented out. Assume that for 1951 and each subsequent taxable year through 1956, and for the taxable year 1960, the gross rental for the first floor represents more than 10 percent of the total gross rents derived during the taxable year from the building. Under this set of facts the 10-year lease of the first floor would be considered to be a Supplement U lease for all except the taxable years 1958, 1959, and 1961.

§ 29.423–2 *Supplement U lease indebtedness*—(a) *Definition.* The term "Supplement U lease indebtedness" means, with respect to any real property leased by a tax-exempt organization for a term of more than 5 years, the unpaid amount of:

(1) The indebtedness incurred by the lessor tax-exempt organization in acquiring or improving such property;

(2) The indebtedness incurred by the lessor tax-exempt organization prior to the acquisition or improvement of such property if such indebtedness would not have been incurred but for such acquisition or improvement; and

(3) The indebtedness incurred by the lessor tax-exempt organization subsequent to the acquisition or improvement of such property if such indebtedness would not have been incurred but for such acquisition or improvement and the incurrence of the indebtedness was reasonably foreseeable at the time of such acquisition or improvement.

See paragraph (f) of this section with respect to subsidiary corporations.

(b) *Examples.* The rules of paragraph (a) of this section, respecting Supplement U leases also cover certain cases where the leased property itself is not subject to an indebtedness. For example, they apply to cases such as the following:

Example (1). A university pledges some of its investment securities with a bank for a loan and uses the proceeds of such loan to purchase (either directly or through a subsidiary corporation) a building, which building is subject to a lease that then has more than 5 years to run. This would be an example of a Supplement U lease indebtedness incurred prior to the acquisition of the property which would not have been incurred but for such acquisition.

Example (2). If the building itself in example (1), above, is later mortgaged to raise funds to release the pledged securities, the lease would continue to be a Supplement U lease.

Example (3). If a scientific organization mortgages its laboratory building to replace working capital used in remodeling another one of its buildings or a building held by its subsidiary corporation, which other building is free of indebtedness and is subject to a lease that then has more than 5 years to run, the lease would be a Supplement U lease inasmuch as the indebtedness though incurred subsequent to the improvement of such property would not have been incurred but for such improvement, and the incurrence of the indebtedness was reasonably foreseeable when, to make such improvement, the organization reduced its working capital below the amount necessary to continue current operations.

(c) *Lease of part of property.* Where only a portion of the real property is subject to a Supplement U lease, proper allocation of the indebtedness applicable to the whole property must be made to the premises covered by the lease.

(d) *Property acquired subject to lien.* Where real property is acquired subject to a mortgage or similar lien, whether the acquisition be by gift, bequest, devise, or purchase, the amount of the indebtedness secured by such mortgage or lien is a Supplement U lease indebtedness (unless paragraph (e) (1) of this section applies) even though the lessor does not assume or agree to pay the indebtedness. For example, a university pays $100,000 for real estate valued at $300,000 and subject to a $200,000 mortgage. For the purpose of the Supplement U tax, the result is the same as if $200,000 of borrowed funds had been used to buy the property.

(e) *Exceptions.* (1) Where real property was acquired by gift, bequest, or devise, prior to July 1, 1950, subject to a mortgage or other similar lien, the amount of such mortgage or other similar lien shall not be considered as an indebtedness of the lessor tax-exempt organization incurred in acquiring such property. An indebtedness not otherwise covered by this exception is not brought within the exception by reason of a transfer of the property between a parent and its subsidiary corporation.

(2) Where real property was acquired by gift, bequest, or devise, prior to July 1, 1950, subject to a lease requiring improvements in such property upon the happening of stated contingencies, indebtedness incurred in improving such property in accordance with the terms of such lease shall not be considered as indebtedness described in section 423 (b) and in this section. An indebtedness not otherwise covered by this exception is not brought within the exception by reason of a transfer of the property between a parent and its subsidiary corporation.

(3) In the case of a corporation described in section 101 (14), all of the stock of which was acquired prior to July 1, 1950, by an organization described in paragraph (1), (6), or (7), of section 101 (and more than one-third of such stock was acquired by such organization by gift or bequest), any indebtedness incurred by such corporation prior to July 1, 1950, and any indebtedness incurred by such corporation on or after such date in improving real property in accordance with the terms of a lease entered into prior to such date, with respect to either such section 101 (14) corporation or such section 101 (1), (6), or (7) organization, shall not be considered an indebtedness described in section 423 (b) and in this section.

(f) *Subsidiary corporations.* The provisions of section 423 are applicable whether or not a subsidiary corporation of the type exempt under section 101 (14) is availed of in making the Supplement U lease. For example, assume a parent organization borrows funds to purchase realty and sets up a separate section 101 (14) corporation as a subsidiary to hold the property. Such subsidiary corporation leases the property for a period of more than 5 years, collects the rents and pays over all of the income, less expenses, to the parent organization, the parent organization being liable for the indebtedness. Under these assumed facts, the lease by the section 101 (14) subsidiary corporation would be a Supplement U lease with respect to such subsidiary corporation, and the rental income would be subject to the tax, whether or not the subsidiary itself assumes the indebtedness and whether or not the property is subject to the indebtedness.

§ 29.423–3 *Treatment of rent from Supplement U lease*—(a) *General rule.* There shall be included with respect to each Supplement U lease, as an item of gross income derived from an unrelated trade or business, an amount which is the same percentage (but not in excess of 100 percent) of the total rents derived during the taxable year under such lease as:

(1) The amount of the Supplement U lease indebtedness at the close of the taxable year of the lessor tax-exempt organization, with respect to the premises covered by such lease, is of

(2) The adjusted basis of such premises at the close of such taxable year.

The basis (unadjusted) of property is determined under section 113 (a), and the adjusted basis of property is determined under section 113 (b). The determination of the adjusted basis of property is not affected by the fact that the organization was exempt from tax for prior taxable years. Proper adjustment must be made under section 113 (b) for the entire period since the acquisition of the property. Thus, adjustment must be made for depreciation for all prior taxable years whether or not the organization was exempt from tax for any of such years. Similarly, for taxable years during which the organization is subject to Supplement U, the fact that only a portion of the deduction for depreciation is taken into account under section 423 (d) does not affect the amount of the adjustment for depreciation.

(b) *Examples.* In each of the following examples it is assumed that the taxpayer makes its returns under Supplement U on the basis of the calendar year, and that the lease is not substantially related to the purpose for which the organization is granted exemption from tax.

Example (1). Assume that a tax-exempt educational organization purchased property in 1941 for $600,000, using borrowed funds, and leased the building for a period of 20 years. Assume further that the adjusted basis of such building at the close of 1951 is $500,000. If, at the close of 1951, $200,000 of the indebtedness incurred to acquire the property remains outstanding, since this is two-fifths of the adjusted basis of the building at the close of 1951, two-fifths of the

gross rental received from the building during 1951 shall be included as an item of gross income in computing unrelated business net income. If, at the close of a subsequent taxable year, the outstanding indebtedness is $100,000 and the adjusted basis of the building is $400,000, one-fourth of the gross rental for such taxable year shall be included as an item of gross income in computing unrelated business net income for such taxable year.

Example (2). Assume that a tax-exempt organization owns a 4-story building, that in 1951 it borrows $100,000 which it uses to improve the whole building, and that it thereafter in 1951 rents the first floor of the building under a 6-year lease at a rental of $4,000 a year. The second, third, and fourth floors of the building are leased on a yearly basis during 1951. Assume, also, that the adjusted basis of the real property at the end of 1951 (after reflecting the expenditures for improving the building) is $200,000, allocable equally to each of the 4 stories. Under these facts, only one-fourth of the real property is subject to a Supplement U lease. The percentage of the rent under such lease which is taken into account is determined by the ratio which the allocable part of the Supplement U lease indebtedness bears to the allocable part of the adjusted basis of the real property, that is, the ratio which one-fourth of the $100,000 of Supplement U lease indebtedness outstanding at the close of 1951, or $25,000, bears to one-fourth of the adjusted basis of the Supplement U lease premises at the close of 1951, or $50,000. The percentage of rent which is Supplement U lease income for 1951 is, therefore, one-half (the ratio of $25,000 to $50,000) of $4,000, or $2,000, and this amount of $2,000 is considered an item of gross income derived from an unrelated trade or business.

§ 29.423–4 *Percentage of deductions taken into account.* (a) The same percentage is used in determining both the portion of the rent and the portion of the deductions taken into account with respect to the Supplement U lease in computing unrelated business net income. See § 29.423–3 for the determination of such percentage. Such percentage is applicable only to the sum of the following deductions allowable under section 23:

(1) Taxes and other expenses paid or accrued during the taxable year upon or with respect to the real property subject to the Supplement U lease;

(2) Interest paid or accrued during the taxable year on the Supplement U lease indebtedness;

(3) A reasonable allowance for exhaustion, wear and tear (including a reasonable allowance for obsolescence) of the real property subject to such lease.

Where only a portion of the real property is subject to the Supplement U lease, there shall be taken into account only those amounts of the above-listed deductions which are properly allocable to the premises covered by such lease.

(b) The deductions allowable under section 423 (d) and under paragraph (a) of this section with respect to a Supplement U lease are not limited by the amount included in gross income with respect to the rent from such lease, but any excess of such deductions over such gross income shall be applied against other items of gross income in computing unrelated business net income taxable under section 421 (a).

Example. Assume the same facts as those in example (1) of § 29.423–3 (b). Assume also that for 1951 the organization pays taxes of $4,000 on the property, interest of $6,000 on its Supplement U lease indebtedness, and that the depreciation allowable for 1951 under section 23 (1) is $10,000. Under the facts set forth in example (1) of § 29.423–3 (b) and in the preceding sentence, the deductions to be taken into account for 1951 in computing unrelated business net income would be two-fifths of the total of the deductions of $20,000, that is, $8,000.

SEC. 424. TAXES OF FOREIGN COUNTRIES AND POSSESSIONS OF THE UNITED STATES (APPLICABLE TO TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1950—AS ADDED BY SECTION 301, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amount of income, war-profits, and excess-profits taxes imposed by foreign countries or possessions of the United States shall be allowed as a credit against the tax of an organization subject to the tax imposed by section 421 (a) to the extent provided in section 131; and in the case of the tax imposed by section 421 (a), the term "normal-tax net income" and the term "net income" as used in section 131 shall be read as "supplement U net income".

PAR. 18. The statement of procedure contained in F. R. Doc. 46–15357, appearing at page 177A–22, Part II, section 1, of the issue for September 11, 1946, as amended (26 CFR, Part 601; 14 F. R. 2063, 15 F. R. 6888), is hereby further amended by changing the part of § 601.17 *Forms*, paragraph (a) *Description*, relating to Form 990 to read as follows:

Form 990. Information return of organizations exempt from income tax (other than under sec. 101 (6), I. R. C., for accounting periods beginning after December 31, 1949).

Form 990–A. Information return of certain organizations exempt from income tax under sec. 101 (6), I. R. C., to be used for accounting periods beginning after December 31, 1949.

Form 990–T. Exempt organization business income tax return, to be filed by organizations subject to tax under Supplement U of chapter 1, I. R. C.

(53 Stat. 32; 26 U. S. C. 62)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: August 28, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 149, Amdt. 1]

CPR 149—SOUTHERN YELLOW PINE LUMBER

EXEMPTION OF CERTAIN SALES OF UNGRADED ROUGH SOUTHERN YELLOW PINE LUMBER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Ceiling Price Regulation 149 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation 149 exempts from the ceiling price restrictions of this and other regulations all sales of ungraded rough Southern Yellow Pine lumber by the original producer to a sawmill, planing mill or concentration yard which buys such lumber to dry, or dress, or sort it for size, and to grade and thereafter sell it under the provisions of Ceiling Price Regulation 149. All other sales of Southern Yellow Pine lumber by original producers remain subject to all provisions of Ceiling Price Regulation 149.

Sales covered by this amendment are removed from the invoicing provisions of OPS regulations, but remain subject to a modified form of the record-keeping provisions of this regulation.

CPR 149 does not establish a ceiling price for ungraded rough lumber. Such a provision was omitted because of the difficulty of determining a ceiling that would be generally fair and equitable to the industry. The difficulty arises from the great variation in the quality of rough lumber cut by thousands of small mills. These variations in quality create wide dispersion of prices of ungraded rough lumber, even in normal times. It was recognized by the Director of Price Stabilization that the omission of ceiling prices for ungraded rough lumber in CPR 149 would require a change in business practice for those mills that customarily sold on a mill-run or ungraded basis. These mills would be required to sell their rough lumber as graded or partially graded, and it did not appear to OPS or to the Industry Advisory Committee that this change of industry practice would be burdensome. In view of the administrative difficulties that are being encountered and the complaints received by OPS, however, it appears necessary to conform the regulation to trade practices.

By exempting from the CPR 149 ceilings certain sales of ungraded rough lumber by the original producers to sawmills, planning mills, or concentration yards, the price of such lumber will be left open to negotiation between buyer and seller. In such transactions, the buyer is necessarily limited as to what he can pay by the controlled prices under which he must resell the lumber when it has been graded or remanufactured. No over all increase in the level of prices is anticipated under this amendment because when resold the lumber remains subject to the ceiling prices established by CPR 149.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 149 is hereby amended in the following respects:

1. The heading of Article III is changed to read as follows: Article III—Grade Terms and Grading, Optional Methods of Selling Rough Lumber, Pricing Rules, and Exempt Sales.

2. A new section, 3.4, is added to Article III immediately following section 3.3, to read as follows:

SEC. 3.4 *Exemption of certain sales of ungraded rough Southern Yellow Pine lumber.* Notwithstanding any other provision of this regulation, all sales of ungraded rough Southern Yellow Pine lumber by the original manufacturer (producer) to a sawmill, planing mill or concentration yard which buys such lumber to dry, or dress, or sort it for size, and to grade and thereafter sell it under the provisions of Ceiling Price Regulation 149 are exempted from the ceiling price restrictions and invoicing provisions of this and any other ceiling price regulation. Such sales of ungraded rough lumber shall remain, however, subject to the record-keeping provisions of section 9.1 of this regulation, except that the records of such sales need not comply with the provisions of section 9.1 (a) (5).

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Ceiling Price Regulation 149 is effective August 29, 1952.

NOTE: The record-keeping requirements of this amendment have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

[F. R. Doc. 52–9652; Filed, Aug. 29, 1952; 4:06 p. m.]

[General Ceiling Price Regulation, Amdt. 4 to Supplementary Regulation 11, Revision 2]

GCPR, SR 11—SOFT SURFACE FLOOR COVERINGS

SUSPENSION OF PRICE CONTROL ON FLOOR COVERINGS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Supplementary Regulation 11, Revision 2 to General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment suspends price controls on floor coverings covered by Supplementary Regulation 11, Revision 2, to the General Ceiling Price Regulation. The reasons for this action are set forth in the Statement of Considerations to an amendment being made concurrently in GOR 5, Exemptions and Suspensions of Certain Durable Goods and Related Items, suspending controls over these floor coverings at all levels of distribution.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Ceiling Price Regulation, Supplementary Regulation 11, Revision 2, as amended, is hereby amended by adding a new section, to follow section 13 and be numbered section 14, to read as follows:

SEC. 14. *Suspension of price controls on floor coverings.* (a) All provisions of this regulation are suspended on and after August 29, 1952. This suspension will continue until the Director of Price Stabilization terminates or modifies it. The suspension of this regulation does not operate to place the floor coverings affected under any other ceiling price regulation.

(b) You must, however, continue to comply with the record-keeping requirements of General Ceiling Price Regulation, section 16, as to all records you were required to have on August 28, 1952.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective August 29, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

[General Overriding Regulation 5, Revision 1]

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Revision 1 of General Overriding Regulation 5 is hereby issued.

STATEMENT OF CONSIDERATIONS

General Overriding Regulation 5 is an across-the-board regulation intended to exempt certain consumer durable goods and related commodities from price control. Most of the commodities thus exempted have been removed from price control because they are insignificant in the cost of living, in business costs, or in the cost of the defense effort, their prices have little or no effect upon the price ceilings of other commodities which are important to such costs, and because retaining them under control would have involved administrative burdens out of proportion to their importance. More detailed statements of the reasons for exempting the particular commodities previously exempted may be found in the Statements of Considerations accompanying the original regulation and its amendments.

These exemptions are continued in Article II of this revised GOR 5. In addition, Article III is now added and will be used to suspend the application of all ceiling price regulations to sales of specified commodities. The addition of Article III to GOR 5 makes it a suitable vehicle for carrying out the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceilings and not expected to reach ceiling prices in the foreseeable future. In the judgment of the Director of Price Stabilization, price controls with respect to the sales of the commodities whose ceiling prices are suspended by this revision are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. However, all records which were required to be prepared and preserved under applicable ceiling price regulations in effect prior to this suspension must continue to be preserved.

Since GOR 5 affects the commodities covered by it at all levels, it has seemed desirable to conform it in format to the extent possible with CPR 7, Retail Ceiling Prices for Certain Consumer Goods. To do this the listing of the items already in GOR 5 has been revised to conform more closely with the categories listed in the appendix to CPR 7. This, however, is a change only in form and not in substance. No new items are decontrolled by this revision.

Sections 100 and 101 which are the first sections in the new Article III suspend price controls over cotton linters.

Cotton linters are the residual fibers removed from cottonseed in the oil mills. It is estimated that 1,226,000 bales of linters valued at $116,000,000 were produced by the 350 cottonseed oil mills in operation in the United States during the 1950–51 season. Linters fall into two general types, felting linters used in making cotton felt and wadding, and chemical linters which are used in the preparation of cellulose for use in plastics, rayon, and explosives, as well as many other products.

Current ceiling prices established under the General Ceiling Price Regulation, are 152 percent above the June 1950 level. In March 1951 the market broke and prices declined steadily until August 1951. From that date until the present, prices have continued steady with very little fluctuation. On June 24, 1952, average prices of both felting and chemical linters were more than 50 percent below GCPR ceilings, and were slightly below the support prices set for this product under the 1951 Cottonseed Price Support Program formulated by the Commodity Credit Corporation and the Production and Marketing Administration of the U. S. Department of Agriculture. It is probable that prices would have gone lower if the support program had not been in effect.

This downward movement in prices in the latter part of 1950–51 crop year took place in spite of the fact that a short cotton crop reduced the year-end carryover of linters from 452,000 bales on August 1, 1950, to 265,000 bales on August 1, 1951. The large cotton crop in the 1951–52 season, coupled with a decline of 18 percent in the domestic consumption of felting grades of linters will result in a carryover on August 1, 1952 considerably greater than the preceding year. In view of the estimates of cotton acreage in cultivation on July 1, 1952,

the declining exports of cotton linters, and the reduced consumption of chemical linters by the rayon industry, it is expected that adequate supplies of linters will be available for consumption needs in the 1952–53 season.

Accordingly, in the absence of radical changes in the international situation or in the size of the 1952–53 cotton crop, it is anticipated that cotton linters will not approach their GCPR prices during the next season.

Price support of linters in the 1952–53 season by the Commodity Credit Corporation will be at the same levels as for the past season.

For the foregoing reasons, in the judgment of the Director, price controls on cotton linters are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. In accordance with section 412 of the Defense Production Act, as amended, the Director may, at any time, terminate or modify this suspension if he determines that such action is necessary in the interest of the stabilization program. In any event, the suspension will be terminated if the "Weekly Cotton Linters Review" by the U. S. Department of Agriculture reports that the current price for No. 2 linters has reached 19.5 cents per pound or that the current price for No. 6 linters has reached 11.5 cents per pound. These are roughly two weeks' maximum movement below the GCPR ceilings of 25.25 and 15 percent respectively.

All records which were required to be prepared and preserved under applicable ceiling price regulations in effect before this suspension must continue to be preserved.

As cotton linters do not fall in the category of consumer durable goods but are only used in the manufacture of certain consumer durable goods, the title of this revised CPR 5 is modified so as to cover consumer durable goods and related commodities.

In the formulation of this revised regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

ARTICLE I—GENERAL PROVISIONS

Sec.
1. What this revised regulation does.

ARTICLE II—EXEMPTIONS

2. Exemptions.
3. Infants novelties.
4. Household furniture.
5. Floor coverings.
6. Musical instruments.
7. General housewares.
8. Hair goods.
9. Buttons and buckles.
10. Notions and novelties.
11. Sporting goods.
12. Silverware, china, and glassware.
13. Jewelry and precious stones.
14. Christmas home decorations.
15. Equipment and supplies.
16. Pet supplies.
17. Smoker's items.
18. Miscellaneous.

ARTICLE III—SUSPENSIONS

Sec.
100. Suspensions.
101. Cotton linters.

AUTHORITY: Sections 1 to 101 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

ARTICLE I—GENERAL PROVISIONS

SECTION 1. *What this revised regulation does.* The sections contained in Article II of this revised regulation exempt from any ceiling price regulation all sales of the commodities listed therein. The sections contained in Article III suspend the application of any ceiling price regulation, except for certain record keeping requirements, to all sales of the commodities listed therein.

ARTICLE II—EXEMPTIONS

SEC. 2. *Exceptions.* No ceiling price regulation heretofore issued or which may hereafter be issued by the Office of Price Stabilization shall apply to sales of the commodities listed in this article.

SEC. 3. *Infants' novelties.* The following infants' novelties: Self-feeding baby bottle holders.

SEC. 4. *Household furniture.* The following items of household furniture:

(a) Custom built household furniture. This exemption, however, does not apply to:

(1) Any sales of more than twelve dining chairs to a single purchaser.

(2) Any sale, other than dining chairs, or more than two articles of the same specifications to a single purchaser.

(3) More than two sales of articles, sets or suites of the same specifications. For the purpose of this exemption a change in the cover material or finish or an article of household furniture or any minor change shall not be considered as a change in specifications, or as constituting that article a custom built article.

(b) Hand decorated articles of furniture rebuilt from substantially different articles of used furniture.

(c) Spinning wheels.

(d) Custom made picture frames, when no more than four frames are made to the same specifications for any one customer.

(e) Hand painted pictures.

SEC. 5. *Floor coverings.* The following floor coverings: Hand-woven, imported Oriental rugs.

SEC. 6. *Musical instruments.* The following musical instruments: Custom built pipe organs. A custom built pipe organ is one designed, manufactured, assembled and installed specially upon the order and to meet the specifications of a particular purchaser. Such design, manufacture, assembly, and installation must be made with reference to the architecture and structure of the building in which installation is intended and will generally require structural and acoustical studies and general consideration of all architectural features so that the pipe organs when installed will function satisfactorily in accordance with the purchaser's specifications and as an integral part of the building.

SEC. 7. *General housewares.* The following general housewares:

Household hand bells and hand chimes.
Coffee and pepper grinders (household, hand operated).
Toothpicks.
Novelty glass ice cubes for chilling food and beverages without diluting.
Cork stoppers.

SEC. 8. *Hair goods.* The following hair goods:

Comb cleaners (household).
Hair rolls and wood hair curlers.
Wigs and toupees.

SEC. 9. *Buttons and buckles.* The following staple and novelties buttons and buckles:

Nonmetallic buttons for apparel.

SEC. 10. *Notions and novelties.* The following notions and novelties:

Comforter grippers.
Wood carved figures and animals.
Hand-made candles.
Hand fans.
Pin cushions.
Shoe horns.
Cork wire swabs.
Incense burners.
Place card holders.
Reading racks, except metal.
Party novelties made in part of candy or nuts.
Advertising novelties (such as pens, pencils, tooth picks, knives, cigarette lighters, leather back calendar pads, writing kits, playing cards) which are sold by a manufacturer to an advertiser who gives them away for purposes of publicity without cost to the recipient. These articles must be imprinted with the name of the advertiser or the name of the recipient before delivery by the manufacturer.
Figurines and ornamental statuary designed solely for ornamental use, but not including articles which may be used for any other purpose.
Novelty wall plaques, wall masks, and wall decorations designed solely for ornamental use, but not including framed pictures, or articles which may be used for any purpose other than ornamentation.
Minature size novelties made of glass, china, wood, plaster, etc., which have no tableware use and are made for collectors' purposes only, including miniature size decorative glass bottles other than perfume bottles.
Novelties made of alabaster, marble, onyx, shell, bark, bone, horn, butterfly wings, gourds and sea shells for decorative household use or for collectors' purpose.

SEC. 11. *Sporting goods.* The following sporting goods:

Bowling pins.
Clay targets used in artificial shooting.
Traps for clay target shooting.

SEC. 12. *Silverware, china and glassware.* The following silverware, china and glassware:

Ceramic decorative tiles for use as table ornaments.
Hand-decorated, used bottles.

SEC. 13. *Jewelry and precious stones.* The following jewelry and precious stones:

"Precious stones" and "precious jewelry". "Precious stone" means a natural pearl, diamond, ruby, sapphire or emerald. The term "precious stone" also includes any other genuine stone, including a semi-precious stone, any synthetic stone or any cultured pearl or group of cultured pearls (combined in a single article, when the selling price for any such item by the cutter, wholesale dealer or importer is $25.00 or more. "Precious jewelry" means any article or mounting, a component part of which is a "precious stone" (or "precious stones") as defined in the preceding sentence when the value of the "precious stone" (or "precious stones") exceeds the value of the total of the other component parts of the finished article.
Costume jewelry made from sea shells or from nuts, seeds, pods or other natural vegetable products.

SEC. 14. *Christmas home decorations.* The following Christmas home decorations:

Christmas decorations made of natural vegetable products, cones, berries, pods, leaves, etc.
Christmas tree holders.

SEC. 15. *Equipment and supplies.* The following equipment and supplies:

Sphygmo-oscillometers. Devices for measuring blood pressure and patency of arteries, known as sphygmo-oscillometers.
Three dimensional sculptured, case or carved anatomical models (human, botanical, zoological) used for educational purposes.
Wire forms for floral wreaths and wire easels for floral displays.
Geographical and live or preserved biological material (human, botanical and zoological) used exclusively for educational purposes, including microscopic slides prepared with such material.

SEC. 16. *Pet supplies.* The following pet supplies:

Bird cages.
Bird cage stands.
Bird houses.
Dog and cat beds, cushions, mattresses and diners.
Dog license tags.
Pet toys.

SEC. 17. *Smoker's items.* The following smoker's items:

Cigarette rolling machines for home use.
Novelty wood cigarette boxes, when sold separately and not as a part of a set.

SEC. 18. *Miscellaneous.* The following miscellaneous items:

Sun dials.
Artificial or non-edible preserved grass, plants, stems, vines, fruits, flowers, leaves and foods.
Finished film strips and finished projection slides.
Figure ballons for advertising, display, publicity and similar purposes.
Non-electronic devices sold for the aid of hearing.

ARTICLE III—SUSPENSIONS

SEC. 100. *Suspensions.* The application of any ceiling price regulation heretofore or hereafter issued to sales of the commodities listed in this article shall be suspended until further notice by the Director of Price Stabilization. However, any record relating to a commodity as to which price control is suspended which you were required to have on the day of such suspension shall continue to be preserved and made available for examination by the Office of Price Stabilization for whatever period the regulation requiring you to have such record stipulated.

SEC. 101. *Cotton linters.* Cotton linters.

Effective date. This revised regulation is effective August 29, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

[General Overriding Regulation 5, Revision 1, Amdt. 1]

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

SUSPENSION OF RADIO AND TELEVISION

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment to General Overriding Regulation 5, Revision 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 5, Revision 1 extends the coverage of Article III to suspend controls at all levels of distribution on the following additional commodities: Radios, radio-phonograph combinations, television receivers, television combinations, television antennae, boosters, accessories, record player attachments and phonographs.

This action is being taken in line with the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceilings and are not expected to reach ceiling prices in the foreseeable future. In the judgment of the Director, price controls on the commodities covered by this amendment are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. However, all records which were required to be prepared and preserved under the applicable ceiling price regulations in effect prior to this suspension must continue to be preserved.

Examination of the current selling prices and of the price movement of these commodities indicate that in general current selling prices are below the peak prices of January 1951, which in turn were lower than those in effect in June 1950. A composite weighted average wholesale price index of radio and television sets based on Bureau of Labor Statistics figures shows a decline from 100 in June, 1950 to 96.1 by January 1951 and 89.8 in June 1952. Since under CPR 22 and CPR 30 manufacturers could elect to use their highest selling prices in effect in the April 1–June 24, 1950, period as ceiling prices, it appears that the current selling prices average 10.2 percent below the ceiling prices which manufacturers have or may elect to establish. Retail prices have declined to an even greater extent.

Information available on television and radio parts indicates that their price behavior has closely followed that of radio receivers.

The information available on phonographs and the other commodities covered by this amendment other than radio and television sets, indicates that although they do not reflect price decreases of the same magnitude as radio and television, their prices have remained at the same level for the past 15 to 18 months. This area constitutes less than 3 percent of the radio and television industry and shows no indication of price increases out of proportion to the rest of the industry.

At present supply and demand of the commodities included in this action appear, in general, to be reasonably in balance. Current inventories are believed to be adequate to meet any foreseeable increase in demand. In addition, sufficient capacity and material is available to expand production above the levels currently programmed. Thus, there is no likelihood of rapid or significant rises in prices in the foreseeable future.

The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interests of the stabilization program. In any event, the suspension will be terminated on the basis of the criteria described below.

The Office of Price Stabilization will construct a composite wholesale price index for radio and television receivers weighted in proportion to their respective sales volume based on price information to be supplied by the industry.

Suspension on all items covered by this amendment will be terminated when the composite price index for radio and television receivers reaches 97 percent of the January 1951 level. Based on current prices, the index would have to rise 3.8 percent to reach the point for termination of suspension. Special attention will be given to table model radios because their prices have been somewhat firmer than prices for other products of this industry.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 5, Revision 1, is hereby amended by adding new sections 102 through 104 to read as follows:

SEC. 102 *Radios.*

Radio receivers.
Radio-phonograph combinations.
Parts of the foregoing, including radio cabinets and parts thereof.

SEC. 103 *Television sets and television accessories.*

Television receivers.
Television combinations, including combinations with radio or phonograph or both.
Television antennae, boosters, accessories.
Parts of the foregoing, including television cabinets and parts thereof.

SEC. 104. *Phonographs, recorders and related commodities.*

Record player attachments.
Phonographs.
Magnetic recorders, tape or wire (not including office equipment).
Tape and wire for magnetic recording.
Parts of the foregoing.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective August 29, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

[F. R. Doc. 52-9654; Filed, Aug. 29, 1952; 4:07 p. m.]

[General Overriding Regulation 5, Revision 1, Amdt. 2]

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

SUSPENSION OF WOOL AND WOVEN FLOOR COVERINGS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment to General Overriding Regulation 5, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 5, Revision 1, suspends controls at all levels of distribution for all soft surface floor coverings made entirely of wool or falling within the categories of chenille, wilton, velvet, axminster, and punched felt. These are the same floor coverings as are now covered at the manufacturer's level by Supplementary Regulation 11 to the General Ceiling Price Regulation.

This action is taken in line with the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceiling prices and are not expected to reach ceiling prices in the forseeable future. In the judgment of the Director, price controls on the commodities covered by this amendment are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. However, all records which were required to be prepared and preserved under applicable ceiling price regulations in effect prior to this suspension must continue to be preserved.

The General Ceiling Price Regulation established ceiling prices for soft surface floor coverings upon the basis of prices in effect between December 19, 1950 and January 25, 1951. Because of the sharp increase in carpet wool prices, new ceiling prices were established for manufacturers for woven soft surface floor coverings at a level 15 percent higher than their highest selling prices between December 19, 1950, and January 15, 1951. This was accomplished by SR–11 to the GCPR, effective on March 13, 1951. On December 19, 1951, because of the drop in carpet wool prices below their pre-Korean level, ceiling prices were reduced by withdrawing the increase of 15 percent previously granted. At the retail level, CPR–7 replaced the General Ceiling Price Regulation.

According to the best available information, manufacturers' prices of the woven floor coverings covered by SR–11 to the GCPR have dropped over 30 percent from their peak of April and May 1951. They are currently about 23 percent below ceiling. At retail, the two types of woven floor coverings on which the Bureau of Labor Statistics collects retail price data, are more than 15 percent below their peak of June 1951.

The price softness is caused by declines in the prices of raw materials, a shift to substitute materials for imported carpet wool and consumer resistance to high prices of soft surface floor coverings. The decline in the price of imported carpet wool may be illustrated by a typical grade of India carpet wool, the price of which climbed from $0.946 per pound in bond clean basis in May of 1950, to $2.225 in March of 1951, and then dropped to $0.628 in May of 1952. The July 1952 level was $0.738. The shift from the use of imported carpet wools to the use of rayon was marked. In 1949, the industry used only 2,700,000 pounds of carpet rayon; in 1951, it used 31,600,000 pounds. The price of rayon remained relatively steady.

Soft market conditions have been reflected in all available data on production and sales of soft surface floor coverings. Production has dropped from 7 million square yards in May 1950 to 5 million in May 1952. Manufacturers' inventories were 13.4 million square yards in May 1952, or substantially more than 2 months' current production.

Although a general increase in the price of woven floor coverings has been announced by some manufacturers as the result of recent wage increases and relatively minor increases in the cost of carpet wool, selling prices are still far below ceiling prices and are not expected to approach the ceiling level within the foreseeable future.

The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interests of the stabilization program. Similarly, the Director may terminate this suspension in case of significant price increase of important raw materials, such as carpet wool, or rayon and cotton carpet yarns. In any event, the suspension will be terminated on the basis of the criteria described below.

The Office of Price Stabilization will compile a monthly index of manufacturers' prices of woven floor coverings. If the price level of January 1951 is taken as 100, the index for June 1952 was 77. The announced increases are expected to bring the index to about 81. The suspension on all items covered by this amendment will be terminated when this index reaches the figure of 88.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 5, Revision 1, is hereby amended by adding a new section to read as follows:

SEC. 105. *Floor coverings.* The following floor coverings: Soft surface floor coverings made entirely of wool or falling within the categories of chenille, wilton, velvet, axminster, and punched felt.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective August 29, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

[F. R. Doc. 52-9655; Filed, Aug. 29, 1952; 4:07 p. m.]

[General Overriding Regulation 5, Revision 1, Amdt. 3]

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

SUSPENSION OF BEDDING

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment 3 to General Overriding Regulation 5, Revision 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 5, Revision 1, extends the coverage of Article III to suspend controls at all levels of distribution on the following additional commodities: Upholstered dual purpose sleeping equipment such as sofa-beds, and studio-couches, metal beds, bedding, and bed pillows.

This action is being taken in line with the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceilings and are not expected to reach ceiling prices in the foreseeable future. In the judgment of the Director, price controls on the commodities covered by this amendment are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. However, all records which were required to be prepared and preserved under the applicable ceiling price regulations in effect prior to this suspension must continue to be preserved.

Current selling prices of these commodities are substantially below the peak prices of January 1951. A composite weighted average wholesale index using Bureau of Labor Statistics figures on innerspring mattresses, coil bedsprings, metal beds, and sofa beds, which comprise the bulk of the production in the bedding and related industries covered by this amendment shows a decline of 6.7 percent from 121.7 in January 1951 to 113.5 in July 1952. Innerspring mattresses declined 8.6 percent, coil bedsprings declined 3.3 percent, metal beds declined 7.8 percent, and sofa beds declined 1.6 percent. The decline from ceiling prices is even greater. Most manufacturers of these products are under the General Ceiling Price Regulation, but have the option of establishing ceiling prices under Ceiling Price Regulation 22 which, generally, would yield higher prices. However, the selling prices never exceeded the GCPR levels and have subsequently declined. Retail prices have declined at least to the same extent.

Studies made by the Office of Price Stabilization indicate that bedding manufacturers have no backlog of unfilled orders, that unit volume of sales has fallen from that of 1951 and that the prices of most raw materials used in bedding have stabilized below the levels existing at the time of the issuance of the GCPR. There are no indications of increases in the foreseeable future which would raise prices to the level where recontrol would be necessary.

In order to keep informed of the trend of prices, a composite index will be maintained of the prices of the principal products of the bedding and related industries based on data to be supplied by manufacturers. A separate index will be maintained of the prices of dual purpose sleeping equipment alone. In both indices the present ceiling price level will be taken as 100.

The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interests of the stabilization program. In any event this suspension will be terminated if the composite index reaches the figure of 97. This index is now approximately 93. Suspension on dual purpose sleeping equipment will also be terminated if the separate index of this group of commodities reaches 97. This separate index is now approximately 94.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 5, Revision 1, is hereby amended by adding the following new sections 106–109:

SEC. 106. *Upholstered dual purpose sleeping equipment.* All upholstered dual purpose sleeping equipment, including upholstered sofa-beds, single and double studio couches, and, if they open into beds, love seats, chairs, and davenports.

SEC. 107. *Metal beds.* Individual metal beds.

SEC. 108. *Bedding.*

Mattresses, including rubber mattresses.
Bed springs.
Box springs.
Mattress pads.
Headboards.
Cots, wood and metal, including bunks.

SEC. 109. *Bed pillows.* All bed pillows.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective August 29, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

[F. R. Doc. 52-9656; Filed, Aug. 29, 1952; 4:07 p. m.]

[General Overriding Regulation 5, Revision 1, Amdt. 4]

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

ADDITIONAL EXEMPTIONS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 4 to General Overriding Regulation 5, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

In line with the need for focusing the interests and energies of the Office of Price Stabilization on the major areas of commodities and services affecting the cost of living and business costs, this amendment to GOR 5, Rev. 1, decontrols various commodities which do not enter significantly into the cost of living of the average American family or into business costs and the continued control of which involves difficulties either for this agency or the sellers of these commodities which are disproportionate in relationship to the value of such control to the stabilization program.

Included in this amendment are sterling silverware, sterling hollowware, and jewelry. While total dollar volume sales of all these commodities is substantial, they are luxury products which do not affect the cost of living of the average American family. The changing shifts in style in jewelry and the necessity arising therefrom of constantly establishing ceiling prices for new models and reporting thereon has made price control particularly burdensome to this industry. Decontrol of these luxury items will not affect the price control program and will be of substantial benefit to the sellers of these commodities.

All non-metallic buttons have already been decontrolled. Since these buttons constitute the largest portion of the button industry, continued control over buckles and the small balance of buttons not included within the previous exemption would create considerable administrative difficulties for the sellers of such buttons and buckles. Consequently, it has been decided to broaden the previous exemption and to decontrol all staple and novelty buttons and buckles.

For similar reasons, all Christmas home decorations are now decontrolled. All hand-made glassware has already been decontrolled. Many Christmas tree decorations are made of hand-made glassware. Also decontrolled are Christmas decorations made of natural vegetable products. To leave under control the small balance of Christmas home decorations not included within the two previous actions seems unnecessarily burdensome. Consequently, all Christmas home decorations are placed outside control.

Signs are decontrolled because of the tremendous administrative burden price control imposes on the industry. For some period of time the sign industry has been requesting decontrol of all signs. In the case of outdoor signs, a tremendous volume of business is represented by signs made to individual specifications. Establishing a ceiling price for each new sign under our regulations by relating the new sign to a base period sign imposes a tremendous accounting and clerical burden on the industry. Since for most businesses the purchase of a sign is a one-time occurrence the cost of a sign does not enter significantly into their cost of operation. In view, therefore, of the small effect which can be anticipated upon business costs if signs are decontrolled and the burden continued control represents, it has been decided to exempt all signs from further control. Display and display fixtures are so closely related to signs it has been thought desirable to give them parallel treatment.

Among the other commodities included within this amendment as meeting the criteria for decontrol are fireplace equipment, chalk, lead pencils, name plates, textile color cards not sold for resale, artists' supplies and ecclesiastical ware including statuary and church goods. The reasons for the action are self evident in the case of all these commodities.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

1. Section 7 is amended to read as follows:

SEC. 7. *Housewares.* The following housewares:

Fireplace equipment. This includes among other things all portable mantles, portable artificial fireplaces, screens, andirons, pokers, fireplace shovels, and electric logs.
Household hand bells and hand chimes.
Coffee and pepper grinders (household, hand operated).
Toothpicks.
Novelty glass ice cubes for "chilling without diluting" food and beverages.
Cork stoppers.

2. Section 9 is amended to read as follows:

SEC. 9. *Staple and novelty buttons and buckles.* All buttons and buckles.

3. Section 12 is amended by adding the following unnumbered paragraphs at the end thereof:

Sterling flatware.
Sterling hollowware.

4. Section 13 is amended to read as follows:

SEC. 13. *Jewelry and precious stones.*

Jewelry: This includes all precious jewelry and precious metal jewelry, costume jewelry, jewelry mountings, wedding rings, religious jewelry, watch attachments, dresser sets and military sets, and men's jewelry. It also includes unfitted compacts, cigarette cases, and miscellaneous cases used as personal accessories such as cigar cases, match cases, pill boxes and snuff boxes. It does not include watches or old clocks. "Precious Jewelry" means any article or mounting, a component part of which is a "precious stone" (or "precious stones") as defined in the subparagraph immediately following when the value of the "precious stone" (or "precious stones") exceeds the value of the

total of the other component parts of the finished article.

Precious stones: "Precious stone" means a natural pearl, diamond, ruby, sapphire or emerald. The term "precious stone" also includes any other genuine stone, including a semi-precious stone, any synthetic stone or any cultured pearl or group of cultured pearls (combined in a single article), when the selling price for any such item by the cutter, wholesale dealer or importer is $25.00 or more.

5. Section 14 is amended to read as follows:

SEC. 14. *Christmas home decorations.* All Christmas home decorations, including stands.

6. Section 15 is amended by adding the following unnumbered paragraphs at the end thereof:

Chalk.
Wood cased and paper wrapped pencils.
Signs and advertising displays.
Name plates.
Textile color cards, not sold for resale.
Artists' supplies.

7. Section 18 is amended by adding the following unnumbered paragraph at the end thereof:

Ecclesiastical ware, including statutory and church goods.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment to General Overriding Regulation 5, Revision 1, is effective August 29, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

[F. R. Doc. 52-9657; Filed, Aug. 29, 1952; 4:07 p. m.]

[General Overriding Regulation 5, Revision 1, Amdt. 5]

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

ADDITIONAL EXEMPTIONS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to General Overriding Regulation 5, Revision 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds vitrified chinaware and hand-made table, kitchen and art glassware manufactured in the United States, its territories and possessions, to the commodities exempted from price control by Article II, General Overriding Regulation 5, Revision 1.

These commodities, although not insignificant, are, when used for household purposes, minor luxury items for which there are available lower cost substitutes in good supply. Annual sales of each are less than 45 million dollars. Over the past several years both commodities have tended to lose their market and suffer a decline in sales volume; in one case to machine-made glassware and in the other to semi-vitreous and plastic dinnerware. Sales of hand-made glassware in 1950, for example, were 17 percent lower than sales in 1948, which may be contrasted with an increase of 13 percent in sales of machine-made glassware.

There is little likelihood that exemption would result in any significant changes in the price levels of these commodities. Further, these items are not significant in business costs, the cost of living, or the defense program. Exemption would not cause any diversion of manpower or materials from other uses, especially in view of the declining trends of production, increased inventories, and less expensive competitive products. Furthermore, the administrative burdens outweigh the benefits to the stabilization program from maintaining controls on these items.

In the opinion of the Director, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable requirements of that act. In view of the nature of this amendment the Director has not found it necessary or practicable to consult formally with industry representatives. In the formulation of this amendment, however, there has been consultation with industry representatives, including trade association representatives and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Section 12 of General Overriding Regulation 5, Revision 1, is amended by adding the following unnumbered paragraphs:

Nitrified chinaware manufactured in the United States, its Territories and Possessions.
Hand-made table, kitchen and art glassware and hand-made blanks for such glassware, manufactured in the United States, its Territories and Possessions. Glassware and blanks are "hand-made" if they are gathered from a furnace by hand and mouth-blown or hand-pressed.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 5 to GOR 5, Revision 1, is effective August 29, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

GOR 14—EXCEPTED AND SUSPENDED SERVICES

SUSPENSION OF RENOVATING AND REPAIRING BEDDING

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 21 to General Overriding Regulation 14, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds to the list of services suspended from controls those services involved in the renovating and repairing of upholstered dual purpose sleeping equipment such as sofa beds and studio couches, metal beds, bedding, and bed pillows.

By Amendment 3 to General Overriding Regulation 5, which is being issued simultaneously with this amendment, controls on the sale of the foregoing commodities are suspended because their selling prices are substantially below ceilings and are not expected to reach ceilings in the foreseeable future. The reasons for that suspension action are more fully stated in the Statement of Considerations of Amendment 3 to GOR 5.

The service charges for renovating and repairing these products are generally also below ceilings. In general, a low level of selling prices of commodities has a depressing effect on the charges for services connected with the manufacture or processing of these commodities. As long as the prices of these commodities do not rise to any significant degree, resistance against increased charges for the services will continue. And since it is not anticipated that the prices of the commodities will reach ceilings in the foreseeable future, it appears that market forces will operate to prevent appreciable increases in the service charges as well.

Cleaning services, such as dry cleaning and laundering, are supplied by an independent industry from the one affected by this amendment and remain subject to price control.

In the judgment of the Director, the continuance of controls over the services suspended by this amendment is not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. Should sudden unwarranted increases result from this relaxation of control, this suspension may be terminated or modified at any time. In any event the Director of Price Stabilization will terminate this suspension if controls are reactivated over bedding.

In view of the nature of this action, special circumstances have made consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is amended by adding a new subparagraph (3) to paragraph (b) of section 4, to read as follows:

(3) Renovating and repairing of the following commodities:

Upholstered dual purpose sleeping equipment. All upholstered dual purpose sleeping equipment, including upholstered sofa-beds, single and double studio couches, and, if they open into beds, love seats, chairs, and davenports.

Metal beds. Individual metal beds.

Bedding. Mattresses, including rubber mattresses, bed springs, box springs, mattress pads, headboards, cots, wood and metal, including bunks.

Bed pillows. All bed pillows.

The foregoing services do not include mere cleaning, such as dry cleaning and laundering.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective August 29, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

[F. R. Doc. 52-9659; Filed, Aug. 29, 1952; 4:08 p. m.]

[General Overriding Regulation 34]

GOR 34—EXEMPTION OF CERTAIN LUMBER AND WOOD PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this General Overriding Regulation No. 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This General Overriding Regulation 34 is issued to provide a vehicle for exempting certain lumber, wood products, and connected services from price controls. All lumber items, wood products, and connected services totally exempted from price control will be included in this General Overriding Regulation. It is contemplated that OPS will publish a number of exemption actions pertaining to lumber, wood products, and connected services, and the issuance of this GOR at this time serves to establish a single document for the listing of such actions.

The present action specifically exempts from price control all softwood and hardwood logs and bolts, except excelsior bolts, produced in the United States east of the 100th meridian. Logs and bolts are tree segments suitable for manufacture into lumber, veneers, poles, piling, or other wood products, such as the turned and shaped wood products covered by Ceiling Price Regulation 95, shingles, staves, heading, turning squares, or small dimension. The action does not apply to sales of pulpwood, or chemical or extract wood.

There are several reasons for the present action. First, effective grading standards have not been developed east of the 100th meridian for logs or bolts. The absence of appropriate grading standards has made the establishment of tailored ceilings unfeasible and the enforcement of general ceilings most difficult. Complex factors affecting values have impeded the development of effective standards. These factors include the industry practice of selling logs and bolts on an unsorted or ungraded basis; the variable distribution and significance of detectable defects; size variations; and quality differences resulting from varying climatic and soil conditions. Moreover, even if appropriate grading rules of general applicability could be devised by OPS, it would take considerable time to achieve their proper use by the thousands of buyers and sellers concerned. Second, this action will not be inflationary, since log and bolt prices will be stabilized by ceilings in effect on products produced from them. Third, this exemption makes the treatment of the logs and bolts covered by this action consistent with the action taken in Supplementary Regulation 17 to the General Ceiling Price Regulation, whereby stumpage (standing timber) was exempted from price controls because the unique and complex character of the commodity made the administration of controls unfeasible.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization, the provisions of this General Overriding Regulation are generally fair and equitable and are consistent with the purposes of the Defense Production Act of 1950, as amended.

In formulating this General Overriding Regulation, the Director has consulted with representatives of industry and has given consideration to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this General Overriding Regulation does.
2. Exemptions.
3. Definitions.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

SECTION 1. *What this General Overriding Regulation does.* This General Overriding Regulation exempts from all price controls the lumber, wood products, and services specified in this regulation.

SEC. 2. *Exemptions.* No price regulation issued heretofore and no price regulation which may be issued in the future by the Office of Price Stabilization shall apply to sales of the following commodities or services:

(a) Logs or bolts, but not services connected therewith, produced in the United States east of the 100th Meridian and sold for manufacture into lumber, veneer, poles, piling, or other wood products such as the turned or shaped wood products covered by CPR 95, shingles, staves, heading, turning squares, or small dimension.

SEC. 3. *Definitions.* The terms used in this General Overriding Regulation shall be construed as follows:

(a) As used in paragraph (a) of section 2:

(1) "Log" or "bolt" means a tree segment suitable for manufacture into lumber, veneer, poles, piling, or other wood products such as the turned or shaped wood products covered by CPR 95, shingles, staves, heading, turning squares, or small dimension. These terms do not include pulpwood, excelsior bolts, or chemical or extract wood.

Effective date. This General Overriding Regulation is effective August 29, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART C—TRAINING FACILITIES

MISCELLANEOUS AMENDMENTS

1. Section 21.433 is revised to read as follows:

§ 21.433 *Payment to institutions.* The manager of a Veterans' Administration regional office is authorized to pay to the approved institution for each eligible veteran enrolled therein for a full-time or part-time course of education or training the proper charge for tuition and incidental fees or other allowable expense and for such books, supplies, and equipment issued to the trainee as are generally required for the successful pursuit and completion of the course by other students in the institution for the period covered by the properly certified voucher or invoice, subject to the provisions of §§ 21.442 through 21.449 and 21.539 for Part VII trainees and §§ 21.467 through 21.479, 21.484, 21.485, 21.493 through 21.495, 21.503 through 21.511, 21.516 through 21.519, 21.520, 21.530 through 21.532, 21.539, 21.540, 21.548, 21.549, and 21.557 through 21.559 for Part VIII trainees.

2. In § 21.446, the headnote and paragraph (d) are amended to read as follows:

§ 21.446 *Adjustment of tuition payments to nonprofit educational institutions (see limitations in § 21.479).* • • •

(d) *Additional facilities.* If the above information shows that the institution is exceeding its normal program as is evidenced by an increase in the enrollment over that for the school year 1939–40, and the institution is being required to furnish additional facilities, personnel, or supplies, which are required for veterans under Part VII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), the manager of the Veterans' Administration regional office is authorized to contract for such additional facilities and to provide for payment of adjusted tuition on any one of the bases set forth in §§ 21.473, 21.474, and 21.475, except as provided in § 21.479, provided the basis selected has been approved for Part VIII trainees in that institution. Where there has not been an increase in enrollment over that for the school year 1939–40, the institution is not considered to be exceeding its normal program nor furnishing additional facilities, and there is no authority to provide for payment of adjusted tuition as set forth in §§ 21.473, 21.474, and 21.475.

• • • • •

3. Section 21.473 is revised to read as follows:

§ 21.473 *Tuition on the basis of $15 a month, $45 a quarter, or $60 a semester.* Institutions which do not charge any tuition or whose "customary cost of tuition" is insufficient compensation to permit the furnishing of education and training for veterans, if they elect, may be paid in accordance with Veterans' Administration regulations as much as $15 a month, $45 a quarter, or $60 a semester for each veteran enrolled in a full-time course under Part VIII (or Part VII), Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), or the pro rata portion thereof for a part-time course: *Provided,* That the proper official requests such payment in accordance with the provisions of § 21.478. (See also § 21.479.) Institutions which are permitted to receive adjusted tuition payments on this basis may, in addition, be paid such customary fees and other charges as are set forth in § 21.471 (c).

4. In § 21.474, paragraph (a) is amended to read as follows:

§ 21.474 *Adjusted tuition on the basis of the nonresident tuition.* (a) Educational institutions which have nonresident tuition applicable to all nonresident students and whose "customary cost of tuition" is insufficient compensation to permit the institution to furnish education and training for veterans may, in accordance with the provisions of paragraph 5, Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12) apply to the Administrator for an adjustment of tuition, and the Administrator, if he finds that the customary tuition charges are insufficient to permit the institution to furnish education or training to eligible veterans or inadequate compensation therefor, may provide for the payment of such adjusted tuition as will not exceed the estimated cost of teaching personnel and supplies for instruction. Effective September 1, 1949, applications for adjustment of tuition on the nonresident tuition basis will be made by educational institutions in accordance with § 21.478. (See also §21.479.) If the application is approved by the Veterans' Administration and it is determined that such nonresident tuition rates are not in excess of the cost of teaching personnel and supplies for instruction, the Veterans' Administration will make payment of adjusted tuition on the basis of the approved nonresident tuition for each veteran enrolled in a full-time course under Part VIII, in an amount equivalent to such nonresident tuition or the pro rata portion thereof, for a veteran enrolled in a part-time course: *Provided,* That the charges are not in conflict with existing laws or other legal requirements. Institutions which are permitted to receive adjusted tuition payments on this basis may, in addition, be paid such customary fees and other charges as are set forth in § 21.471 (c). Where an institution requests and is permitted to charge adjusted tuition on the basis of the nonresident fee under this section for the ordinary school year, it may also charge adjusted tuition for a summer quarter or session equivalent to the customary nonresident fee charged for the summer session: *Provided,* That in no case will the payment of adjusted tuition based on the nonresident fee for a summer session exceed the pro rata portion of the nonresident fee for the ordinary school year that the length of the summer session or the normal number of hours of credit for the summer session bears to the length of the ordinary school year or the normal number of hours of credit for the ordinary school year as determined by the institution, whichever is the greater.

• • • • •

5. Section 21.475 is revised to read as follows:

§ 21.475 *Adjusted tuition on basis of estimated cost of teaching personnel and supplies for instruction.* Where charges permitted under §§ 21.472, 21.473, or 21.474 are claimed by the institution to be insufficient compensation to permit the institution to furnish education or training to eligible veterans, the institution, upon proper application in accordance with § 21.478 (see § 21.479), may request and the manager is authorized to contract for the payment on the basis of the estimated cost of teaching personnel and supplies for instruction. Educational institutions which are permitted to receive adjusted tuition payments on the basis of the estimated cost of teaching personnel and supplies for instruction may, in addition, be paid such customary fees and other charges as are set forth in § 21.471 (c).

6. Section 21.477 is revised to read as follows:

§ 21.477 *Veterans' Administration consideration of request made by educational institution which has no customary fees but has an over-all customary tuition charge (see limitations in § 21.479).* Where an educational institution has no customary fees but has an over-all customary tuition charge for resident students which includes charges normally covered in other institutions by separate fee (not tuition) charges, the institution may request consideration of a further adjustment to compensate for that portion of the customary tuition which would be paid if the tuition and fee charges were separate. Such a request should be submitted with a full statement of the facts to the director, training facilities service, vocational rehabilitation and education, central office, Veterans' Administration, Washington 25, D. C., through the appropriate Veterans' Administration regional office. Upon consideration of all the necessary facts, the director, training facilities service, may find that a further adjustment of compensation is appropriate, and the regional office will be advised as to the amount of the adjusted compensation which may be authorized: *Provided however,* That the provisions of § 21.479 are for application.

7. In § 21.478, the headnote and paragraphs (c), (d), and (g) are amended to read as follows:

§ 21.478 *Request for adjusted tuition (see limitations in § 21.479).* • • •

(c) Where the educational institution applies for adjusted tuition on the basis of § 21.473 and it is determined to be eligible to receive adjusted compensation in accordance with Veterans' Administration regulations, the institution's application will be approved except as provided in § 21.479 if otherwise in order and the institution will be notified accordingly, since it has been determined administratively that the payment of other than customary tuition charges to nonprofit institutions on the basis of § 21.473 does not exceed the estimated cost of teaching personnel and supplies for instruction prescribed in paragraph 5, Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 32).

(d) Where the adjustment in tuition is requested on the basis of the nonresident tuition, the institution will provide a certified statement of the nonresident tuition fee or fees which were in effect on June 22, 1944. Where such nonresident tuition fees in effect June 22, 1944, have not been increased more than 25 percent subsequent to June 22, 1944, it has been determined administratively that the payment of adjusted tuition on the basis of such nonresident tuition fees to a nonprofit institution generally does not exceed the estimated cost of teaching personnel and supplies for instruction. Educational institutions which are permitted to receive adjusted tuition payments on the basis of the estimated cost of teaching personnel and supplies for instruction may, in addition, be paid such customary fees and other charges as are set forth in § 21.471 (c).

6. Section 21.477 is revised to read as follows:

§ 21.477 *Veterans' Administration consideration of request made by educational institution which has no customary fees but has an over-all customary tuition charge (see limitations in § 21.479).* Where an educational institution has no customary fees but has an over-all customary tuition charge for resident students which includes charges normally covered in other institutions by separate fee (not tuition) charges, the institution may request consideration of a further adjustment to compensate for that portion of the customary tuition which would be paid if the tuition and fee charges were separate. Such a request should be submitted with a full statement of the facts to the director, training facilities service, vocational rehabilitation and education, central office, Veterans' Administration, Washington 25, D. C., through the appropriate Veterans' Administration regional office. Upon consideration of all the necessary facts, the director, training facilities service, may find that a further adjustment of compensation is appropriate, and the regional office will be advised as to the amount of the adjusted compensation which may be authorized: *Provided however,* That the provisions of § 21.479 are for application.

7. In § 21.478, the headnote and paragraphs (c), (d), and (g) are amended to read as follows:

§ 21.478 *Request for adjusted tuition (see limitations in § 21.479).* • • •

(c) Where the educational institution applies for adjusted tuition on the basis of § 21.473 and it is determined to be eligible to receive adjusted compensation in accordance with Veterans' Administration regulations, the institution's application will be approved except as provided in § 21.479 if otherwise in order and the institution will be notified accordingly, since it has been determined administratively that the payment of other than customary tuition charges to nonprofit institutions on the basis of § 21.473 does not exceed the estimated cost of teaching personnel and supplies for instruction prescribed in paragraph 5, Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 32).

(d) Where the adjustment in tuition is requested on the basis of the nonresident tuition, the institution will provide a certified statement of the nonresident tuition fee or fees which were in effect on June 22, 1944. Where such nonresident tuition fees in effect June 22, 1944, have not been increased more than 25 percent subsequent to June 22, 1944, it has been determined administratively that the payment of adjusted tuition on the basis of such nonresident tuition fees to a nonprofit institution generally does not exceed the estimated cost of teaching personnel and supplies for instruction. Educational institutions which are permitted to receive adjusted tuition payments on the basis of the estimated cost of teaching personnel and supplies for instruction may, in addition, be paid such customary fees and other charges as are set forth in § 21.471 (c).

6. Section 21.477 is revised to read as follows:

§ 21.477 *Veterans' Administration consideration of request made by educational institution which has no customary fees but has an over-all customary tuition charge (see limitations in § 21.479).* Where an educational institution has no customary fees but has an over-all customary tuition charge for resident students which includes charges normally covered in other institutions by separate fee (not tuition) charges, the institution may request consideration of a further adjustment to compensate for that portion of the customary tuition which would be paid if the tuition and fee charges were separate. Such a request should be submitted with a full statement of the facts to the director, training facilities service, vocational rehabilitation and education, central office, Veterans' Administration, Washington 25, D. C., for review and decision as to whether such nonresident tuition fees may be accepted without further justification under the provisions of § 21.531. Where the nonresident tuition fee for any educational institution has been increased by more than 25 percent subsequent to June 22, 1944, or where the nonresident tuition fee has been established subsequent to June 22, 1944, or the charges are found excessive by the director, training facilities service, vocational rehabilitation and education, Veterans' Administration central office, the educational institutions affected will be notified to submit the necessary data for testing the nonresident tuition under the formula in § 21.531 to determine whether the tuition on the basis of teaching personnel and supplies for instruction equals or exceeds the nonresident tuition rate. Where such a nonresident tuition rate is tested and it is determined to be not in excess of the tuition rate under the formulary computation in § 21.531, the Veterans' Administration is authorized to pay such nonresident tuition rate, and the application of the institution for the nonresident tuition fee in such a case will be approved except as provided in § 21.479.

• • • • •

(g) Where the educational institution submits an application for adjusted compensation on the basis of § 21.475 and is determined to be eligible to receive such adjusted compensation in accordance with Veterans' Administration regulations, the institution's application will be approved if otherwise in order except as provided in § 21.479.

• • • • •

8. A new § 21.479 is added as follows:

§ 21.479 *Limitations on payment of adjusted compensation to nonprofit educational institutions.* (a) In view of the declining enrollment of veterans under Part VII and Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), a terminal arrangement for the payment of tuition on an adjusted basis to nonprofit educational institutions is considered necessary as provided in paragraphs (b) and (c) of this section.

(b) Those educational institutions which received adjusted tuition for veterans enrolled under Part VII, Veterans Regulation 1 (a), as amended (including veterans under Pub. Law 894, 81st Cong., as amended), for the school year 1951–1952, and which qualify under § 21.446 for adjusted tuition for the school year 1952–1953, will be given the option of (1) continuing to receive for the school year 1952–1953 (on the same basis and at the same rate), the adjusted tuition rate paid for the last quarter, term, or semester of the school year 1951–1952, or (2) in the case of institutions receiving payment on the basis of cost of teaching personnel and supplies, submitting cost data as provided in § 21.531 to determine a new adjusted tuition rate for the school year 1952–1953, including the summer session of 1953. Beginning with the school year 1953–1954, no adjusted tuition will be paid for disabled veterans enrolled in such institutions except where special services are required under Veterans' Administration regulations by reason of the veteran's disability.

(c) Effective with the beginning of the school year 1952–53, educational institutions which apply and are eligible for adjusted tuition payments in accordance with § 21.478 will be paid an adjusted tuition rate based at the option of the institution on either (1) the rate paid for the last quarter, term, or semester of the school year 1951–52, or (2) the credit hour rate determined applicable for the school year 1952–53, pursuant to § 21.531. Beginning with the school year 1953–54, there will be no further computation of adjusted tuition rates. Any educational institution which is eligible for adjusted tuition payments for Part VIII veterans and which applies for adjusted tuition payments for the school year 1953–54 and after, will be paid at the rates applicable to the school year 1952–53, and will not be required nor permitted to receive any other adjusted rate. It is administratively determined that such rate does not exceed the estimated cost of teaching personnel and supplies for instruction.

9. In § 21.531, that portion of paragraph (a) preceding subparagraph (1) is amended to read as follows:

§ 21.531 *Adjustment of tuition on the basis of the cost of teaching personnel and supplies for instruction*—(a) *Basis for calculation.* Effective as of the date of its first contract required to be negotiated subsequent to May 5, 1950, an educational institution may elect any one of the three bases in subparagraphs (1), (2), and (3) of this paragraph for determining the estimated cost of teaching personnel and supplies for instruction except as provided in § 21.479. After selecting one of such bases, the educational institution will not be permitted to change the basis of computation from time to time but will be required to use the elected basis so long as it is entitled and permitted to receive adjusted compensation for training veterans under Public Law 346, 78th Congress, as amended.

• • • • •

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interpret or apply secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697–697d, 697f, g, ch. 12 note)

This regulation is effective September 3, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter B—Hunting and Possession of Wildlife

PART 6—MIGRATORY BIRDS AND CERTAIN GAME MAMMALS

MISCELLANEOUS AMENDMENTS

Correction

In Federal Register Document 52-9506, appearing at page 7903 of the issue for Friday, August 29, 1952, the entries for Tennessee and Wisconsin in the table under § 6.4 (e) (6) should read as follows:

Tennessee.....	Nov. 17-Jan. 10....	
Wisconsin [1].....	Oct. 4-Nov. 27....	Oct. 4-Nov. 2

Subchapter C—Management of Wildlife Conservation Areas

PART 31—PACIFIC REGION

SUBPART—CHARLES SHELDON ANTELOPE RANGE, NEVADA

DEER HUNTING PERMITTED

Basis and purpose. On the basis of observations and reports of field representatives of the Fish and Wildlife Service and the Nevada Fish and Game Commission, it has been determined that the deer population on certain portions of the Charles Sheldon Antelope Range is sufficient so that the periodic removal of a portion of the herd by controlled public hunting can be permitted. This action will not interfere with the primary purpose for which the range was established.

Since the following regulation is a relaxation of existing regulations applicable to the Charles Sheldon Antelope Range, publication prior to the effective date is not required (60 Stat. 237; 5 U. S. C. 1001, et seq.).

Effective immediately upon publication in the FEDERAL REGISTER, § 31.46 is added:

§ 31.46 *Deer hunting permitted.* Until further notice, the controlled public hunting of deer in accordance with the provisions of §§ 31.43 to 31.45, inclusive, is permitted on that portion of the Charles Sheldon Antelope Range, situated east and south of the County road (State Highway 8A), otherwise known as the Vya-Denio Road, in accordance with State law and regulations, at such times and under such restrictions as the refuge officer in charge determines to be in accord with the proper management of wildlife on the refuge, based on investigations to be conducted annually. Special requirements and restrictions as may be issued by the Refuge Manager pursuant to this section shall be clearly indicated by posting and shall be available at the Range headquarters, and strict compliance therewith is required.

(Sec. 10, 45 Stat. 1224; 16 U. S. C. 715i)

Dated: August 26, 1952.

O. H. JOHNSON,
Acting Director.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 990]

[Docket No. AO-241]

HANDLING OF MILK IN NEW YORK-NEW JERSEY METROPOLITAN MARKETING AREA

NOTICE OF EXTENSION OF TIME FOR FILING BRIEFS

Pursuant to the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900) notice is hereby given that the time heretofore fixed by me (September 15, 1952) within which interested persons may file proposed findings and conclusions, and written arguments or briefs, based upon the evidence received at the hearing held beginning on June 2, 1952 pursuant to notice thereof issued on May 6, 1952 (17 F. R. 4257, 4465), is hereby extended to October 15, 1952.

Filed at Washington, D. C., this 27th day of August 1952.

[SEAL] GLEN J. GIFFORD,
Presiding Officer.

[F. R. Doc. 52-9612; Filed, Sept. 2, 1952; 8:53 a. m.]

NOTICES

ACTIONS IN THE DIVISION OF ENGINEERING

2.14 Surveys.

ACTIONS IN THE DIVISION OF ADMINISTRATION

2.5 Copies of records.

PART 3—APPEALS

3.1 Right of appeal.

PART 4—EFFECT ON PRIOR ORDERS

4.1 Revocation.

[1] The section numbers in this order correspond, so far as possible, with related section numbers in Order No. 2583, August 16, 1950 (15 F. R. 5643).

PART 1—AUTHORITY IN GENERAL

SECTION 1.1 *Functions of chiefs of divisions and chiefs of subdivisions of divisions.* (a) Pursuant to the authority and subject to the limitations contained in Order No. 2583 of August 16, 1950 (15 F. R. 5643) of the Secretary of the Interior, the chiefs of divisions and chiefs of subdivisions of divisions of the Bureau of Land Management are hereby authorized to perform, in accordance with the existing policies, regulations and procedures of the Department of the Interior, the functions of the Director, Bureau of Land Management, as provided in this order. This shall include all types of actions in the matters listed, unless otherwise provided. No action shall be taken by any such officer affecting the lands or activities of any other agency in this Department, or other Federal agency, until the matter has been cleared with that agency. No decision shall be rendered by any such officer involving a determination as to the proper use or value of land or its resources, unless such decision has been endorsed in the division or divisions of the Bureau having jurisdiction in the matter.

(b) The assistant chief of a division may exercise all the powers and authority of the chief of that division and the assistant chief of a subdivision of a division may exercise all the powers and authority of the chief of that subdivision.

(c) In case of the death, resignation, absence or sickness of the chief or assistant chief of a division or of a subdivision of a division, the duties of such officer may be performed under the title "acting chief" or "acting assistant chief" by any qualified employee authorized to do so by this order, or authorized in writing to do so by the Chief of the division.

SEC. 1.2 *Limitations.* The authority delegated by this order does not include any authority reserved to the Secretary of the Interior by his Order No. 2583 of August 16, 1950. No action shall be taken involving a new or novel question of law or a commitment not previously authorized.

The authority delegated by this order does not include any authority concerning Congressional correspondence.

PART 2—AUTHORITY IN SPECIFIED MATTERS

Subject to the provisions of Part 1 of this order and the exceptions hereinafter set forth, the chiefs of divisions, and the chiefs of subdivisions of divisions, are hereby authorized to act in the classes of matters listed below, so far as they pertain to the work of their respective divisions or subdivisions of divisions.

GENERAL

SEC. 2.1 *Amendment of entries and patents.* (a) Amendment of entries and patents, based upon errors shown by the records.

(b) Decisions rejecting applications or requiring additional evidence in the amendment of entries and patents not based upon errors shown by the records.

SEC. 2.9 *Government contest decisions.* Government contest decisions in all kinds of cases in which the proposed decision is not adverse to the United States.

SEC. 2.20a. *Applications for patented or reserved lands.* Applications for patented or reserved lands, not subject to disposal under the applications.

SEC. 2.20b *Elimination from leases and permits of lands erroneously included therein.* The elimination from leases and permits of all types of patented or reserve lands erroneously included therein.

SEC. 2.20c *Extensions of time.* Applications for extensions of time within which to meet requirements made by decisions of the Bureau.

SEC. 2.20d *Appeals to the Director.* Decisions involving appeals to the Director filed pursuant to 43 CFR Part 221, from actions of any regional officer, in cases where only land status or classification is involved.

SEC. 2.20e *Closing of cases.* The closing of cases, where proper, pursuant to Bureau or departmental decision.

ACTIONS IN THE DIVISION OF MINERALS

SEC. 2.31 *Oil and gas leases.* (a) Competitive oil and gas leases on public and acquired lands.

(b) Noncompetitive oil and gas leases in acquired lands, pursuant to 43 CFR Part 200.

(c) The authority delegated by this section shall not include any function pertaining to oil and gas deposits that involve approval or execution of unit or cooperative agreements, communitization agreements, subsurface storage agreements, operating, drilling, or development contracts without regard to acreage limitations, or the sale of royalty oil taken in amount of production. Neither shall it include any function relating to the grant, approval, or termination of the waiver, suspension, or reduction of rental or minimum royalty, the reduction of royalty, or the suspension of operations or production.

SEC. 2.32 *Coal permits and leases and asphalt leases.* (a) Permits and noncompetitive coal leases based upon permits under the act of August 7, 1947 (30 U. S. C. Sup. 351–359); and permits and noncompetitive coal leases based on permits, and coal leases and asphalt leases, under the acts of June 28, 1944 (58 Stat. 483–485), June 24, 1948 (62 Stat 596), and May 24, 1949 (63 Stat. 76).

(b) The authority granted by this section shall not include any function relating to the grant, approval or termination of the waiver, suspension, or reduction of rental or minimum royalty, the reduction of royalty, or the suspension of operations or production.

SEC. 2.33 *Oil shale leases.* (a) Oil shale leases under section 21 of the act of February 25, 1920 (30 U. S. C. 241), and under the act of August 7, 1947 (30 U. S. C. secs. 351–359).

(b) The authority granted by this section shall not include any function relating to the grant, approval or termination of the waiver, suspension, or reduction of rental or minimum royalty, the reduction of royalty, or the suspension of operations or production.

SEC. 2.33b *Potassium permits.* Potassium permits under the act of February 7, 1927 (30 U. S. C. secs. 281-285), as amended, and potassium permits in acquired lands, pursuant to 43 CFR Part 200, except recommendations to the Secretary of the Interior for the approval of such permits.

SEC. 2.34. *Sodium permits.* Sodium permits under section 23 of the act of February 25, 1920 (30 U. S. C. sec. 261), as amended, and sodium permits in acquired lands, pursuant to 43 CFR Part 200.

SEC. 2.35 *Sulphur permits.* Sulphur permits under the act of April 17, 1926 (30 U. S. C. sec. 271), as amended, and sulphur permits in acquired lands, pursuant to 43 CFR Part 200.

SEC. 2.43 *Gold, silver, and quicksilver leases.* Leases of gold, silver, and quicksilver to the owners of confirmed private land claims, pursuant to 43 CFR Part 187.

SEC. 2.44 *Minerals subject to lease under special laws.* Leases of sand, gravel and other minerals under special laws pursuant to 43 CFR Part 199; also leases of certain mineral deposits in acquired lands pursuant to 43 CFR 200.31 to 200.36 inclusive.

SEC. 2.45 *Mineral entries.* Approval of mineral entries for patenting, except where such entries involve leaseable minerals.

ACTIONS IN THE DIVISION OF LANDS

SEC. 2.10 *Patents.* Patents for grants of land under authority of the Government, to be issued in the name of the United States, other than patents or other conveyances which require the approval or signature of the President. Patents may be signed for the Director by the Chief of the Patents Section of the Bureau, and, in his absence, by the Acting Chief of the Section.

SEC. 2.63 *Exchanges.* Forest and State exchanges of lands, in accordance with 43 CFR Parts 147 and 148, Part 149, other than §§ 149.35 to 149.43, inclusive, and Parts 150 to 152, inclusive, except matters involving the validity of titles.

SEC. 2.76 *State grants and grants to Territory of Alaska.* State grants and selections, and grants to and selections by the Territory of Alaska, when authorized by law, except orders for patent under the act of June 21, 1934 (48 Stat. 1185; 43 U. S. C. 871a), in which a mineral question is involved.

SEC. 2.90a. *Cash and credit-system entries.* (a) Cash and credit-system and preemption entries when full payment has been made.

(b) Decisions rejecting applications or requiring additional evidence in connection with cash and credit system and preemption entries where full payment has not been made.

SEC. 2.90b *Private land and small holding claims.* (a) (1) Confirmed private land claims, and (2) decisions rejecting applications in connection with unconfirmed private land claims.

(b) Small holding claims.

SEC. 2.90c *Drainage entries.* Arkansas and Minnesota drainage entries, in accordance with 43 CFR Parts 117 and 118, respectively.

SEC. 2.90d *Certificates, scrip and lieu selections.* Certificates and scrip under 43 CFR Parts 130 to 133, inclusive; also forest lieu selections, except matters in-

volving the validity of titles, in accordance with footnote 1, to Part 130.

SEC. 2.90e *Timber and stone entries.* Timber and stone entries pursuant to 43 CFR Part 285.

SEC. 2.90f *Quitclaim deeds.* Decisions rejecting quitclaim deeds or requiring additional evidence in connection with applications for the issuance of quitclaim deeds under section 6 of the act of April 28, 1930 (46 Stat. 257; 43 U. S. C. 872).

ACTIONS IN THE DIVISION OF ENGINEERING

SEC. 2.14 *Surveys.* The acceptance of all types of surveys.

ACTIONS IN THE DIVISION OF ADMINISTRATION

SEC. 2.5 *Copies of records.* The making of copies and exemplifications of patents, plats and other records of the Bureau of Land Management.

PART 3—APPEALS

SEC. 3.1 *Right of appeal.* All actions taken pursuant to this order will be subject to appeal to the Secretary of the Interior, pursuant to the Rules of Practice (43 CFR Part 221).

PART 4—EFFECT ON PRIOR ORDERS

SEC. 4.1 *Revocation.* This order supersedes Order No. 309, May 19, 1948 (13 F. R. 2953), Order No. 428 of August 16, 1950 (15 F. R. 5643), and Order No. 438, March 29, 1951 (16 F. R. 3019), which are hereby revoked.

MARION CLAWSON,
Director.

Approved: August 27, 1952.

JOEL D. WOLFSOHN,
Acting Secretary of the Interior.

LA BARGE PROJECT, WYOMING

ORDER OF CORRECTION TO FIRST FORM RECLAMATION WITHDRAWAL

JULY 24, 1952.

First form reclamation withdrawal of May 8, 1951, concurred in by the Acting Director, Bureau of Land Management, on February 28, 1952, erroneously described Township 26 North, Range 113 West, Sixth Principal Meridian, Wyoming, as being Range 113 East.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937) I hereby amend First Form Withdrawal of May 8, 1951, to correct Township 26 North, Range 113 East, Sixth Principal Meridian, Wyoming, to read as follows:

Township 26 North, Range 113 West

G. W. LINEWEAVER,
Assistant Commissioner.

I concur. The records of the Bureau of Land Management will be noted accordingly.

WILLIAM ZIMMERMAN, JR.,
Associate Director,
Bureau of Land Management.

Notice for Filing Objections to Order Withdrawing Public Lands for the Winslow Project, Arizona

JUNE 3, 1952.

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Arizona, for use in connection with the proposed Wilkins Dam and Reservoir, Winslow Project, Arizona, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

G. W. LINEWEAVER,
Assistant Commissioner.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[Notice No. 1 of Requirement of Certification—1952]

SUGAR REQUIREMENTS AND QUOTAS

ENTRY OF SUGAR INTO CONTINENTAL UNITED STATES; CUBA

Pursuant to § 817.2, Rev. 1 (13 F. R. 127, 14 F. R. 1169, 16 F. R. 12847), notice is hereby given that the 1952 sugar quota for Cuba, amounting to 2,744,308 short tons of sugar, raw value, has been filled to the extent of 80 per centum or more. Accordingly, pursuant to § 817.2, Rev. 1, for the remainder of the calendar year 1952 Collectors of Customs shall not permit the entry into the continental United States from Cuba of any sugar unless and until the certification described in § 817.3 (a) is issued.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153)

Issued this 28th day of August 1952.

[SEAL] LAWRENCE MYERS,
Director, Sugar Branch, Production and Marketing Administration.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.166, as amended December 31, 1951; 16 F. R. 12043, and June 2, 1952; 17 F. R. 3818).

Alexander Manufacturing Co., 702 West Seventh Street., Lancaster, Tex., effective 8-23-52 to 8-22-53; five learners (children's underwear).

Ambra Manufacturing Co., 1015 Dewey Street., Freeland, Pa., effective 8-25-52 to 8-3-53; five learners (jackets and snow suits).

Barrow Manufacturing Co., Winder, Ga., effective 8-20-52 to 8-19-53; 10 percent of the productive factory force (work pants and sport shirts).

Big Ace Corp., Athens, Ga., effective 8-25-52 to 8-24-53; 10 percent of the productive factory force (overalls, dungarees, and shirts).

Blue Jeans Corp., Box 566, Whiteville, N. C., effective 8-21-52 to 12-5-52; 25 additional learners for expansion purposes (work clothing) (supplemental certificate).

Melrose Hosiery Mills, Inc., High Point, N. C., effective 8-18-52 to 8-17-53; 5 percent of the productive factory force.

Quitman Manufacturing Co., Quitman, Miss., effective 9-1-52 to 8-31-53; 5 percent of the productive factory force.

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952; 16 F. R. 12866).

Leininger Knitting Mills, Orwigsburg, Pa., effective 8-21-52 to 8-20-53; two learners (underwear and outerwear).

Shoe Industry Learner Regulations (29 CFR 522.250 to 522.260, as amended March 17, 1952; 17 F. R. 1500).

Trego's Westwear, 1001–03 Seventh Street, Woodward, Okla., effective 8–20–52 to 8–19–53; five learners in the production of moccasins only.

The following special learner certificates were issued to the school-operated industries listed below:

Auburn Academy, Auburn, Wash., effective 9–1–52 to 8–31–53; woodwork shop—assembler (furniture), machine operator, furniture finisher helper, and related occupations; 60 learners; 250 hours at 55 cents per hour, 250 hours at 60 cents per hour, 250 hours at 70 cents per hour.

Cedar Lake Academy, Cedar Lake, Mich., effective 9–1–52 to 8–31–53; woodwork shop—assembler, machine operator, clerk and related skilled and semi-skilled occupations; 30 learners; 250 hours at 55 cents per hour, 250 hours at 60 cents per hour, 250 hours at 70 cents per hour.

Glendale Union Academy, 700 Kimlin Drive, Glendale, Calif., effective 9–1–52 to 8–31–53; print shop—compositer, pressman, finisher and related skilled and semi-skilled occupations; four learners; 350 hours at 55 cents per hour, 325 hours at 60 cents per hour, 325 hours at 70 cents per hour (unless State law sets higher standards).

La Sierra College, La Sierra Heights, Arlington, Calif., effective 9–1–52 to 8–31–53; print shop—pressman, compositor, linotype operator, bindery worker and related skilled and semi-skilled occupations; 15 learners; 675 hours at 65 cents per hour, 325 hours at 70 cents per hour (unless State law sets higher standards).

Maplewood Academy, Hutchinson, Minn., effective 9–1–52 to 8–31–53; print shop—pressman, compositor and related skilled and semi-skilled occupations; six learners; 350 hours at 55 cents per hour, 325 hours at 60 cents per hour, 325 hours at 70 cents per hour; woodwork shop (craftshop)—assembler, sawyer, machine operator and related skilled and semi-skilled occupations; 20 learners; 250 hours at 55 cents per hour, 250 hours at 60 cents per hour, 250 hours at 70 cents per hour; bookbindery—bookbinder, bindery worker and related skilled and semi-skilled occupations; 20 learners, 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour; clerical-typist, bookkeeper and related skilled and semi-skilled occupations; five learners; 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour.

Oak Park Academy, Nevada, Iowa, effective 9–1–52 to 8–31–53; broomshop—broom maker (winder), stitcher, sorter, and related skilled and semi-skilled operations; eight learners; 150 hours at 55 cents per hour, 125 hours at 60 cents per hour, 125 hours at 70 cents per hour; print shop—compositor, pressman and related skilled and semi-skilled occupations; six learners; 350 hours at 55 cents per hour, 325 hours at 60 cents per hour, 325 hours at 70 cents per hour.

Southern Missionary College, Collegedale, Tenn., effective 9–1–52 to 8–31–53; print shop—compositor, pressman and related skilled and semi-skilled occupations; 28 learners; 350 hours at 55 cents per hour, 325 hours at 60 cents per hour, 325 hours at 70 cents per hour; broom shop—broom maker, sorter, winder, stitcher and related skilled and semi-skilled occupations; 75 learners; 150 hours at 55 cents per hour, 125 hours at 60 cents per hour, 125 hours at 70 cents per hour; woodwork shop—machine operator, kiln worker, assembler, finisher and other related skilled and semi-skilled occupations; 160 learners; 250 hours at 55 cents per hour, 250 hours at 60 cents per hour, 250 hours at 70 cents per hour; clerical work—typist, stenographer and related skilled and semi-skilled occupations; 20 learners; 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour.

Southwestern Junior College, Keene, Tex., effective 9–1–52 to 8–31–53; woodwork shop (college mill)—assembler, machine operator, painter, clerk and related skilled and semi-skilled occupations; 35 learners; 250 hours at 55 cents per hour, 250 hours at 60 cents per hour, 250 hours at 70 cents per hour; chenille shop—sewing machine operators and related skilled and semi-skilled occupations; 25 learners; 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour; print shop—compositor, pressman, bindery worker and related skilled and semi-skilled occupations; 10 learners; 350 hours at 55 cents per hour, 325 hours at 60 cents per hour, 325 hours at 70 cents per hour; clerical work—typist, file clerk, bookkeeper, stenographer, timekeeper and other related skilled and semi-skilled occupations; 8 learners; 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour.

Spanish-American Academy, Sandoval, N. Mex., effective 9–1–52 to 8–31–53; broom shop—broom maker (winder), sorter, stitcher, and related skilled and semi-skilled occupations; 30 learners; 150 hours at 55 cents per hour, 125 hours at 60 cents per hour, 125 hours at 70 cents per hour; laundry—laundry worker (semi-skilled occupations only); 6 learners; 100 hours at 55 cents per hour, 100 hours at 60 cents per hour, 100 hours at 70 cents per hour.

Union College, Lincoln 6, Nebr., effective 9–1–52 to 8–31–53; print shop—compositor, pressman, and related skilled and semi-skilled occupations; 6 learners; 350 hours at 55 cents per hour, 325 hours at 60 cents per hour, 325 hours at 70 cents per hour; bookbinding shop—bookbinder, bindery workers, and related skilled and semi-skilled occupations; 10 learners; 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour; broom shop—broom maker and related skilled and semi-skilled occupations; 8 learners; 150 hours at 55 cents per hour, 125 hours at 60 cents per hour, 125 hours at 70 cents per hour; furniture shop—furniture maker, furniture finisher and related skilled and semi-skilled occupations; 25 learners; 250 hours at 55 cents per hour, 250 hours at 60 cents per hour, 250 hours at 70 cents per hour; clerical—bookkeeper, file clerk, business machines operator and related skilled and semi-skilled occupations; 5 learners; 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour.

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

El Mundo, Inc., San Juan, P. R., effective 8–20–52 to 2–19–53; eight learners; teletype operators; 240 hours at 35 cents per hour, 240 hours at 40 cents per hour, 240 hours at 50 cents per hour, 240 hours at 55 cents per hour (daily newspaper).

Rio Mode Hosiery Mills, Inc., Caguas, P. R., effective 8–20–52 to 11–1–52; eight learners; seamers, 160 hours at 25 cents per hour, 320 hours at 30 cents per hour, 320 hours at 35 cents per hour; menders, 160 hours at 25 cents per hour, 160 hours at 30 cents per hour, 160 hours at 35 cents per hour; examiners, 80 hours at 25 cents per hour, 80 hours at 30 cents per hour, 80 hours at 35 cents per hour (full fashioned hosiery).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 26th day of August 1952.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL POWER COMMISSION

[Project No. 1967]

WHITING-PLOVER PAPER CO.

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE

AUGUST 21, 1952.

Public notice is hereby given that Whiting-Plover Paper Company, of Stevens Point, Wisconsin, has made application for amendment of license for Project No. 1967, to authorize replacement of the present project dam, consisting of two parts separated by an island, with two concrete gravity overflow sections located just downstream from the present sections. The rebuilt dam will maintain present water levels under normal conditions.

Any protest against the approval of this application or request for action thereon, with the reasons for such protest or request, and the name and address of the party or parties so protesting or requesting should be submitted on or before October 15, 1952, to the Federal Power Commission, Washington 25, D. C.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27353]

DENATURED ALCOHOL AND RELATED ARTICLES FROM KANSAS CITY, MO., TO MICHIGAN, MINNESOTA, WISCONSIN, AND SOUTH DAKOTA

APPLICATION FOR RELIEF

AUGUST 28, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. E. Kipp, Agent, for carriers parties to schedules listed below.

Commodities involved: Denatured alcohol and related articles, carloads.

From: Kansas City, Mo.

To: Points in Michigan, Minnesota, Wisconsin, and South Dakota.

Grounds for relief: Rail competition, circuity, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates:

	Tariff I. C. C. No.	Supplement No.
L. E. Kipp, Agent	A–3733	68
C&NW Ry	11222	1
CMStP&P RR	B–7674	20
GN Ry	A–8051	203
	A–8034	98
M&StL RR	74	

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-716]

CINCINNATI ADVERTISING PRODUCTS CO.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

AUGUST 26, 1952.

The Cincinnati Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from listing and registration the Common Stock, $5 Par Value, of The Cincinnati Advertising Products Company.

The application alleges that the reasons for striking this security from listing and registration on this exchange are as follows:

(1) On March 17, 1952, all shareholders of the above security were notified that the president of the issuer and other stockholders owning approximately 34,000 shares of the 48,000 shares outstanding, had agreed to sell all their shares to Oliver L. Bardes of Cincinnati, Ohio, at $9 Per share.

(2) All other stockholders were offered the privilege of depositing their shares with the First National Bank of Cincinnati for sale to the same purchaser at the same price.

(3) As a result of these transactions, in excess of 95 percent of the outstanding shares of the above security are now owned by one shareholder; to wit, Cook Well Strainer Company.

(4) No transactions have been effected in the above security on the applicant exchange during the year 1952.

(5) The applicant exchange is of the opinion that there is not now sufficient distribution of the above security in the hands of the public to warrant listing and registration of this security on the exchange.

Upon receipt of a request, prior to September 18, 1952, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 52-9595; Filed, Sept. 2, 1952; 8:48 a. m.]

[File No. 54-158]

EASTERN UTILITIES ASSOCIATES

NOTICE OF FILING OF AMENDED PLAN OF REORGANIZATION NO. 4 AND ORDER RECONVENING HEARING

AUGUST 27, 1952.

Notice is hereby given that Eastern Utilities Associates ("EUA"), a registered holding company, has filed with this Commission an Amended Plan of Reorganization No. 4 ("Amended Plan No. 4") for it and its direct public-utility subsidiary companies, Blackstone Valley Gas and Electric Company ("Blackstone"), Brockton Edison Company ("Brockton"), and Fall River Electric Light Company ("Fall River"), and its indirect public-utility subsidiary company, Montaup Electric Company ("Montaup"), pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("the act"). On July 10, 1952, representatives of all of the committees and groups participating in this proceeding agreed to a compromise proposal with respect to a modification of the then pending amended reorganization plan. The stated purpose of Amended Plan No. 4 is to comply with the order of this Commission, dated April 4, 1950, issued in proceedings under section 11 (b) of the act. (See Eastern Utilities Associates and its Subsidiary Companies, Holding Company Act Release No. 9784.) It is stated that Amended Plan No. 4 is designed to put into effect the substance of said compromise agreement and thereby expedite this proceeding.

All interested persons are referred to Amended Plan No. 4, which is on file at the offices of this Commission, for a full statement of the proposals contained therein which are summarized hereinafter.

Under Amended Plan No. 4, EUA will be recapitalized to provide for an authorized capital of 2,000,000 single class common shares of $10 par value per share, 989,407.0628 of which shares will be allocated to its present common and convertible shareholders with the common shareholders being entitled to receive 69.3 percent thereof and the convertible shareholders receiving 30.7 percent thereof. It is proposed that the holders of Common shares shall be entitled to receive one new EUA common share for each common share held and the holders of Convertible shares shall receive .3846 of a new EUA common share for each Convertible share held, with scrip to be issued for fractional shares. This amounts to the establishment of a per-share allocation ratio of 2.6 to 1 between the common and convertible shareholders. Provision is made for the cancellation of presently outstanding scrip after a period of five years. Provision is also made for bar dates with respect to scrip to be issued under this plan.

EUA proposes to retire $7,000,000 of its bank indebtedness by the issuance of debentures in a like principal amount. Such debentures will mature in twenty-five years and will carry an annual sinking fund of 1 percent during the first three years, 2 percent during the second three years, 3 percent during the third three years, 4 percent during the fourth three years and 5 percent thereafter. This will leave 10 percent of the issue to be retired at maturity. The present bank indebtedness of EUA in the amount of $9,094,000 matures October 19, 1952, and, subject to Commission approval, may be renewed for one year. EUA contemplates that, on or about October 1, 1953, it will issue a sufficient number of its new common shares to raise approximately $2,000,000 and use so much of the proceeds as is necessary to retire its then outstanding bank indebtedness.

EUA will reduce the carrying values of its investments in its subsidiaries to the underlying book values thereof as of the effective date of the plan.

The direct subsidiary companies of EUA contemplate the issuance of mortgage bonds, the proceeds of which will be used to pay off their outstanding bank loans and the bank loans of Montaup.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of Amended Plan No. 4 and that, upon the basis thereof and without prejudice to additional matters or questions being specified upon further examination, the following matters and questions are presented for consideration;

(1) Whether Amended Plan No. 4, as submitted or as it may hereafter be modified, is necessary to effectuate the provisions of section 11 (b) of the act;

(2) Whether Amended Plan No. 4, as submitted or as it may hereinafter be modified, is fair and equitable to the holders of the outstanding securities of EUA and to all other persons who may be affected thereby;

(3) Whether the terms and provisions relating to the securities proposed to be issued by EUA are consistent with the public interest and the interest of investors and consumers and with the applicable standards of the act and particularly whether such securities are reasonably adapted to the security structure of EUA and its subsidiary companies;

(4) Whether the transactions proposed in Amended Plan No. 4, as submitted or as it may hereafter be modified, in all respects comply with the applicable provisions of the act and the rules promulgated thereunder and whether such transactions are fair and equitable to all persons affected thereby and are necessary and appropriate to effectuate the provisions of section 11 (b) of the act;

(5) Whether the accounting entries in connection with Amended Plan No. 4, as submitted or as it may hereafter be modified, are appropriate and in accordance with sound accounting practice; and

(6) What terms and conditions, if any, should be contained in the Commission's order with respect to Amended Plan No. 4, as submitted or as it may hereafter be modified:

It is ordered, That the hearing in this matter be reconvened on September 16, 1952, at 10:30 a. m., e. d. s. t., at the offices of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. Any person, other than those who previously have been granted the right to participate in this proceeding, who desires to be heard in connection therewith or proposes to intervene in this proceeding should file, on or before September 12, 1952, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That attention shall be directed at said hearing to the foregoing matters and questions specified above.

It is further ordered, That jurisdiction be, and it hereby is, reserved to separate, in whole or in part, whether for hearing or for disposition, any issues or questions which may arise in these proceedings and to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.

It is further ordered, That the Secretary of the Commission shall mail a copy of this notice and order by registered mail to Eastern Utilities Associates, Blackstone Valley Gas and Electric Company, Brockton Edison Company, Fall River Electric Light Company, Montaup Electric Company, The Massachusetts Department of Public Utilities, the Public Utility Administrator of Rhode Island, The Federal Power Commission and all parties and persons who have been permitted to participate in the hearings and that notice be given to all other interested persons by general release of the Commission and by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That Eastern Utilities Associates shall mail a copy of this notice and order to all of its shareholders of record, at least 10 days prior to September 16, 1952.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-1371]

FEDERAL LIGHT AND TRACTION CO. ET AL.

ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

AUGUST 27, 1952.

In the matter of Federal Light & Traction Company, Cities Service Company, Public Service Company of New Mexico, Federal Liquidating Corporation; (File No. 70-1371).

The Commission having by orders dated September 11, 1947, and June 19, 1950, approved a plan filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") by Cities Service Company ("Cities"), a registered holding company, Federal Light & Traction Company ("Federal"), formerly a registered holding company subsidiary of Cities and its former subsidiary, Public Service Company of New Mexico, proposing the dissolution and liquidation of Federal; and Federal Liquidating Corporation ("Liquidating Corporation"), organized to facilitate the consummation of the plan, having joined in said filing; and said order of September 11, 1947, among other things, having reserved jurisdiction over all fees and expenses to be paid in connection with the plan, the transactions and proceedings relating thereto, and the consummation thereof; and

Liquidating Corporation having filed an application and amendments thereto requesting the Commission to (a) approve the payment of the fees and expenses incurred directly by Federal and Liquidating Corporation for services rendered in connection with the plan and related transactions aggregating $62,259.30 consisting of $45,155.35 for legal fees and expenses to Frueauff, Burns, Ruch & Farrell (now Frueauff, Burns, Farrell, Shanley & Johnsen), counsel for the company; $5,436.50 to Niles & Niles for accounting services; $5,447.31 to The New York Trust Company, as Liquidating and Escrow Agent; $250 to White & Case, counsel for The New York Trust Company, as Escrow Agent; $5,593.52 for costs of transcripts, printing and photostats; and $376.62 for filing fees and other expenses; and (b) fix a date for submission of all other claims for fees and expenses and determine any additional amounts to be paid by Liquidating Corporation as fees and expenses for services rendered in connection with this proceeding.

Due notice having been given of the filing of the said amended application stating that any interested person might, not later than August 18, 1952, request a hearing thereon and requiring any person desiring to assert any claims for compensation or reimbursement for fees and expenses in connection with the section 11 (e) plan of Federal to file such claim or notification of intention to assert such claim on or before August 18, 1952; and no claims or intentions to assert claims having been received; and no request for a hearing having been received and the Commission not having ordered a hearing thereon; and

It appearing to the Commission that the proposed amounts for fees and expenses as above set forth are not unreasonable and that said amounts to the extent not heretofore paid may appropriately be paid by Liquidating Corporation, that upon such payment the jurisdiction heretofore reserved in connection therewith may appropriately be released:

It is ordered, That Federal Liquidating Corporation be, and it is hereby, authorized and directed to pay the amounts of fees and expenses set forth above to the extent that they have not heretofore been paid and that, upon such payment, the jurisdiction heretofore reserved by the Commission in its order of September 11, 1947, with respect to said fees and expenses be, and the same hereby is, released, but only to the extent of the payments hereby authorized.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

ORDER AUTHORIZING CHARTER AMENDMENTS TO INCREASE AUTHORIZED COMMON STOCK AND TO GRANT PREEMPTIVE RIGHTS AND PERMITTING DISTRIBUTION OF ADDITIONAL COMMON STOCK

AUGUST 27, 1952.

Southern Natural Gas Company ("Southern"), a registered holding com-

pany, having filed an application-declaration and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 and 7 thereof as applicable to the proposed transactions, which are summarized as follows:

Southern proposes at a special meeting of its stockholders to be held in October 1952 to submit for their approval a proposal to amend its Certificate of Incorporation so as to increase the number of authorized shares of capital stock from 2,000,000 shares of the par value of $7.50 per share to 4,000,000 shares of the par value of $7.50 per share.

If the increase in authorized capital stock is approved by the stockholders Southern intends to issue to its stockholders one additional share of common stock, par value $7.50 per share, for each share of such stock held by them. The proposed transaction would result in doubling the number of shares held by each stockholder without any change in the par value (i. e., $7.50) of each share. The number of issued shares would thus be increased from 1,711,005 to 3,422,010. The Common Stock Capital account would be increased by an amount equal to the aggregate par value ($12,832,537.50) of the additional shares issued, and this would be effected by a transfer to capital account of $9,075,754.05 from premium on common stock account, of $1,237,573.08 from capital surplus account, and the balance, $2,519,210.37, from earned surplus account.

Southern also proposes to submit for stockholders' approval an amendment to its Certificate of Incorporation to the effect that holders of its shares of common stock shall be granted the right to purchase, pro rata, any common stock, securities convertible into common stock, or to which shall be attached warrants or other instruments conferring the right to subscribe for or purchase common stock, which may be authorized to be sold by the company for cash otherwise than pursuant to a public offering to or through underwriters or investment bankers.

Due notice having been given of the filing of the said application-declaration as amended, and a hearing not having been requested of or ordered by the Commission; and

The Commission finding that the requirements of the applicable provisions of the act and rules thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interests of investors and consumers that said application-declaration as amended be granted and permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration as amended be, and the same hereby is, granted and permitted to become effective forthwith, subject to the provisions of Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2917]

OKLAHOMA GAS AND ELECTRIC CO. AND STANDARD GAS AND ELECTRIC CO.

NOTICE OF PROPOSED AMENDMENTS TO ARTICLES OF INCORPORATION AND BY-LAWS WITH RESPECT TO PREEMPTIVE RIGHTS, MERGERS, SALES OF ASSETS, LIMITATIONS ON AUTHORITY OF DIRECTORS TO ADOPT OR AMEND BY-LAWS; AND OF PROPOSED SOLICITATION OF STOCKHOLDERS

AUGUST 27, 1952.

Notice is hereby given that a declaration has been filed with this Commission by Standard Gas and Electric Company ("Standard"), a registered holding company, and Oklahoma Gas and Electric Company ("Oklahoma"), a public utility subsidiary of Standard. Declarants have designated sections 6 (a), 7 and 11 (b) of the act and Rules U-62 and U-65 promulgated thereunder as applicable to the proposed transactions which are summarized as follows:

It is proposed that the articles of incorporation and the by-laws of Oklahoma be amended in order to bring them into conformity with the standards of the Commission and, in connection with such proposed amendments, Oklahoma proposes to solicit proxies to be used at a special meeting of stockholders to be held on September 30, 1952.

The proposed amendments will:

(1) Set forth the preemptive rights of the holders of the Common Stock and 4 percent Cumulative Preferred Stock to purchase pro rata any additional stock of the particular class held by them offered for sale for cash prior to any sale of such stock to others;

(2) Provide that Oklahoma shall not merge or sell all or substantially all of its assets without the affirmative vote of a majority of the total voting power of the outstanding shares entitled to vote;

(3) Place limitations on the authority of the Board of Directors of Oklahoma to adopt or alter the by-laws of the company without a stockholder vote;

(4) Redefined the Directors' rights to indemnification by the company; and

(5) Afford a liberalized right to the stockholders to initiate the calling of special meetings.

The declaration states that adoption of the amendments to the Amended Articles of Incorporation will require the affirmative vote of a majority of the total voting power of the outstanding shares of 4 percent Cumulative Preferred Stock and Common Stock, and in addition the affirmative vote of the holders of a majority of the outstanding shares of Common Stock by a separate class vote. It is stated that the company will solicit proxies by mail and may also make direct solicitations through its officers and other regular employees of the company. Authority to solicit proxies is not sought in connection with the proposed amendments to the by-laws.

Oklahoma estimates that its total expenses in connection with the proposed transactions will be $5,500, including printing ($1,500), postage ($900), attorneys' fees ($1,800) and miscellaneous $1,300).

Notice is further given that any interested person may, not later than September 10, 1952, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street, NW., Washington 25, D. C. At any time thereafter said declaration, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rule U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2919]

GENERAL PUBLIC UTILITIES CORP.

NOTICE OF FILING REGARDING CAPITAL CONTRIBUTION TO SUBSIDIARY

AUGUST 27, 1952.

Notice is hereby given that General Public Utilities Corporation ("GPU"), a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 and has designated section 12 (b) thereof and Rule U-45 promulgated thereunder as applicable to the proposed transactions which are summarized as follows:

GPU proposes to make cash contributions in the aggregate amount of $1,000,000 to its subsidiary, New Jersey Power & Light Company ("NJP&L"). Said contributions will be credited initially by NJP&L to capital surplus and promptly thereafter transferred to the stated capital applicable to its common stock. Such capital contributions will be made by GPU as NJP&L requires funds for construction purposes or to reimburse its treasury for expenditures therefrom for construction purposes.

The declaration states no State commission or Federal commission, other than this Commission has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than September 12, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 12, 1952, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

F. L. ANDREWS INVESTMENT TRUST

ORDER TERMINATING REGISTRATION

AUGUST 27, 1952.

An application pursuant to section 8 (f) of the Investment Company Act of 1940 (the act), for an order of the Commission declaring that F. L. Andrews Investment Trust (the Trust) has ceased to be an investment company within the meaning of the act, has been filed on behalf of the Trust by Reuben L. Lurie, Receiver of the Trust.

F. L. Andrews Investment Trust, formerly of Fall River, Massachusetts, is registered under the act as a closed-end, nondiversified, management company. In proceedings commenced in the District Court of the United States for the District of Massachusetts by this Commission against the Trust and one Alan H. Andrews, Civil Action File No. 8845, said Court ordered the Trust into receivership and, on November 30, 1949, said Court appointed Reuben L. Lurie as Receiver thereof. The Commission has been furnished evidence that the Trust has been completely liquidated, that all assets of the Trust have been distributed to creditors and stockholders whose claims were allowed, that no further assets remain to be accounted for, that said Receiver's final report to said Court has been allowed and accepted, and that said receivership has been terminated and the Receiver discharged by said Court.

Notice of the filing of said application has been duly given in the manner and form prescribed by Rule N-5 under the act, the Commission has not received a request for a hearing within the period specified in said notice, and a hearing does not appear necessary or appropriate in the public interest.

Wherefore, the Commission having considered the matter, finds that F. L. Andrews Investment Trust has ceased to be an investment company, and it is hereby so declared; and

It is ordered, That the registration of F. L. Andrews Investment Trust under the Investment Company Act of 1940 shall forthwith cease to be in effect.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 811-390]

COMMONWEALTH FUND TRUST CERTIFICATES AND NORTH AMERICAN SECURITIES CO.

NOTICE OF APPLICATION

AUGUST 27, 1952.

Notice is hereby given that North American Securities Company ("North American"), 2500 Russ Building, San Francisco, California, sponsor for Commonwealth Fund Trust Certificates a unit investment trust registered under the Investment Company Act of 1940, has filed an application pursuant to section 8 (f) of the act for an order of the Commission declaring that Commonwealth Fund Trust Certificates has ceased to be an investment company within the meaning of the act.

It appears from the application that Commonwealth Fund Trust Certificates was created under a trust agreement dated June 3, 1935, entered into by North American as sponsor and Title Insurance and Guaranty Company ("Title Insurance") as trustee. On August 1, 1950, Title Insurance gave notice to the sponsor of its desire to terminate its services as trustee. At that time there were only 92 certificates outstanding, the normal maturity date of such certificates had passed and no certificates had been sold for more than 10 years. The trustee, acting pursuant to the terms of the trust agreement, terminated the trust on September 11, 1950, liquidated the underlying securities and held the proceeds of liquidation for distribution to the accounts of the holders of the trust certificates. Prior notice of such proposed action was given to the certificate holders and 60 certificates were tendered for liquidation. The sponsor gave further notice to the holders of the unsurrendered certificates by registered mail on April 3, 1952, advising each such person of the liquidation held for his account and also published a similar notice to the holders of the Commonwealth Fund Trust Certificates in the "San Francisco Examiner" on April 3, 1952. As of May 9, 1952, there remained unsurrendered 20 certificates held by 19 persons and the trustee held for the account of such persons the sum of $3,254.44. The sponsor states that it will continue its efforts to locate the holders of the unsurrendered certificates.

All interested persons are referred to said application which is on file at the Washington, D. C., office of the Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time on or after September 10, 1952, unless a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than September 9, 1952, at 5:30 p. m., e. d. s. t., submit to the Commission in writing his views or any additional facts bearing upon the application, or the desirability of a hearing thereon, or request in writing that the Commission order a hearing to be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street, NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information, or requesting a hearing, the reason for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

FEDERAL REGISTER

VOLUME 17 NUMBER 173

Washington, Thursday, September 4, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10390

AMENDING EXECUTIVE ORDER NO. 10161 OF SEPTEMBER 9, 1950, AS AMENDED, TO PROVIDE FOR CERTAIN ALTERNATE MEMBERS OF THE WAGE STABILIZATION BOARD

By virtue of the authority vested in me by the Defense Production Act of 1950, as amended (50 U. S. C. App. 2061 *et seq.*), and as President of the United States, it is ordered that section 403 of Executive Order No. 10161 of September 9, 1950 (15 F. R. 6105), as amended, be, and it is hereby, further amended by redesignating paragraph (b) thereof as paragraph (c) and by inserting immediately after paragraph (a) thereof the following new paragraph:

"(b) In addition to the members of the Wage Stabilization Board provided for in section 403 (a) of this order, the Board shall have not more than two alternate members who shall be representative of labor and not more than two alternate members who shall be representative of business and industry. Alternate members shall be appointed by the President, by and with the advice and consent of the Senate, at such times as he may deem necessary. Any alternate member shall participate as a member of the Board only in lieu of a member appointed under section 403 (a) of this order who is not participating, and only when called upon by the Chairman of the Wage Stabilization Board to so participate, and when so participating each alternate member shall have the same status and functions as a member appointed under the said section 403 (a). The designation by the Chairman of the Board of alternate members to participate as members of the Board shall be so ordered as to preserve the equal representation required by the provisions of section 403 (a) hereof and of section 403 (b) of the Defense Production Act of 1950, as amended."

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[1952 C. C. C. Grain Price Support Bulletin 1, Amdt. 2 to Supplement 1, Grain Sorghums]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1952-CROP GRAIN SORGHUMS LOAN AND PURCHASE AGREEMENT PROGRAM

SUPPORT RATES

The regulation issued by Commodity Credit Corporation and the Production and Marketing Administration, published in 17 F. R. 3573, 3783 and 4835, and containing the specific requirements for the 1952-crop grain sorghums price support program is hereby amended as follows:

1. Section 601.1758 (a) (5) is amended by changing certain states in the four areas so that the amended subparagraph reads as follows:

§ 601.1758 *Determination of support rates* • • •

(a) *Basic support rates at designated terminal markets.* • • •

(5) For grain sorghums received by truck and stored at any designated terminal market, the support rate shall be determined by making a deduction from the terminal rate as follows:

Terminal located in:	*Amount of deduction (cents per 100 pounds)*
Area I: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington	22
Area II: Minnesota, Montana, North Dakota, South Dakota, also Superior, Wisconsin	22
Area III: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin, except Superior	23
Area IV: All States not listed in Areas I, II, and III above	25

2. Section 601.1758 (b) (1) is amended to include a provision with respect to

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine, Department of Agriculture

PART 319—FOREIGN QUARANTINE NOTICES

MISCELLANEOUS AMENDMENTS

On July 25, 1952, there was published in the FEDERAL REGISTER (17 F. R. 6525) a notice of proposed rule making concerning amendments of the subpart Citrus Canker and Other Citrus Diseases; the subpart Citrus Fruit; the subpart Sweetpotatoes and Yams; the subpart Nursery Stock, Plants, and Seeds; the subpart Fruits and Vegetables; and the subpart Cut Flowers; in Part 319, Title 7, Code of Federal Regulations (7 CFR 319.19, 319.28, 319.29, 319.37 et seq., 319.56 et seq., and 319.74 et seq.). After due consideration of relevant matters presented, and pursuant to sections 5, 7, and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 159, 160, and 162), the Secretary of Agriculture hereby amends the said subparts in the following respects:

1. Sections 319.19 and 319.28 are amended by deleting therefrom the phrase "the continental United States, Puerto Rico and Hawaii" wherever it appears and substituting therefor the phrase "the United States"; and by adding a new paragraph designated as (e) to § 319.19 and as a new undesignated paragraph at the end of § 319.28 to read as follows:

As used in this section unless the context otherwise requires, the term "United States" means the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

2. Section 319.29 is amended by inserting after the word "importation" the phrase "into the United States"; and by deleting the last sentence in the section and substituting therefor the following: "As used in this section unless the context otherwise requires, the term 'United States' means the continental United States only."

3. Section 319.37 is amended by deleting therefrom the phrase "(including the District of Columbia) and its Territories," and the phrase "(including the District of Columbia) or its Territories," and by adding to the section a new paragraph (c) to read as follows:

(c) As used in this section unless the context otherwise requires, the term "United States" means the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

4. Section 319.37–24 is amended by deleting therefrom the phrase "a State or Territory of the United States" and substituting therefor the phrase "a State, Territory, or District of the United States covered by § 319.37"; by adding the phrase "or District" after the word "Territory" the second and third times the latter appears in the section; and by deleting the word "State" from the phrase "State official".

5. The subpart Nursery Stock, Plants, and Seeds is amended by adding thereto a new § 319.37–28 to read as follows:

§ 319.37–28 *Territorial applicability.* The regulations in this subpart shall apply with respect to importations into the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

6. Section 319.56 is amended by adding thereto a new undesignated paragraph to read as follows:

As used in this section unless the context otherwise requires, the term "United States" means the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

7. Section 319.56–2 is amended by inserting after the third undesignated paragraph thereof a new undesignated paragraph to read as follows:

Fruits and vegetables grown in the British Virgin Islands may be imported into the Virgin Islands of the United States without further permit other than the authorization contained in this paragraph but subject to the requirements of the first paragraph of this section, and of §§ 319.56–5, 319.56–6 and 319.56–7, except that such fruits and vegetables are exempted from the notice of arrival requirements of § 319.56–5 when an inspector shall find that equivalent information is obtainable from the United States Collector of Customs.

8. The subpart Fruits and Vegetables is amended by adding thereto a new § 319.56–8 to read as follows:

§ 319.56–8 *Territorial applicability.* The regulations in this subpart shall apply with respect to importations into the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

9. Section 319.74 is amended by deleting therefrom the phrase "the continental United States, Hawaii, and Puerto Rico" and substituting therefor the phrase "the United States"; and by adding a new undesignated paragraph to the section to read as follows:

As used in this section, the term "United States" means the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

10. Section 319.74–2 (c) is amended by deleting therefrom the phrase "a State or Territory of the United States" and substituting therefor the phrase "a State, Territory or District of the United States covered by § 319.74"; by adding the phrase "or District" after the word "Territory" the second and third times the latter appears in the section; and by deleting the word "State" from the phrase "State official".

11. The subpart Cut Flowers is amended by adding thereto a new § 319.74–7 to read as follows:

§ 319.74–7 *Territorial applicability.* The regulations in this subpart shall apply with respect to importations into the continental United States, Alaska, Hawaii, Puerto Rico and the Virgin Islands of the United States.

12. Section 319.74–2a is amended by deleting therefrom the phrase "the continental United States, Hawaii, and Puerto Rico" and substituting therefor the phrase "the United States."

These amendments shall be effective September 5, 1952.

The foregoing amendments correlate the quarantines, regulations, and administrative instructions set forth in the above subparts with a current extension of plant quarantine operations to the Virgin Islands of the United States as authorized by the Plant Quarantine Act.

Inspectors are now in the Virgin Islands ready to start enforcement of certain quarantines, regulations and administrative instructions which do not require amendment to apply in the Virgin Islands. It would be highly desirable from the standpoint of most economical use of funds and most efficient plant quarantine administration to begin enforcement activities at the same time with respect to the quarantines, regulations, and administrative instructions made applicable to the Virgin Islands by the foregoing amendments. Moreover present traffic in plants and plant products between the Virgin Islands and other parts of the United States and foreign countries is sufficiently great to require restriction of imports of certain plants and plant products into the Virgin Islands to prevent the spread of insect pests and plant diseases into these Islands and then to other parts of the United States. Necessary restrictions will be imposed by the foregoing amendments which should be made effective promptly in the public interest. The amendments also clarify the fact that a certain quarantine will not apply in the Virgin Islands or elsewhere except the continental United States and to this extent the amendments should be made effective promptly to avoid confusion. Therefore, good cause is found, in accordance with section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)) for making the foregoing amendments effective less than 30 days after their publication in the FEDERAL REGISTER.

The amendment hereby of the administrative instructions in § 319.74–2a shall not affect the authority of the Chief of the Bureau of Entomology and Plant Quarantine to amend or revoke said instructions.

(Secs. 5, 7, 9, 37 Stat. 316, 317, 318, as amended; 7 U. S. C. 159, 160, 162)

Done at Washington, D. C., this 29th day of August 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 909—HANDLING OF ALMONDS GROWN IN CALIFORNIA

SALABLE AND SURPLUS PERCENTAGES FOR ALMONDS DURING CROP YEAR BEGINNING JULY 1, 1952

Notice of proposed rule making with respect to the fixing of salable and surplus percentages of almonds for the crop year beginning July 1, 1952, was published in the FEDERAL REGISTER of August 14, 1952 (17 F. R. 7398), pursuant to the provisions of Marketing Agreement No. 119 and Order No. 9 regulating the handling of almonds grown in California (7 CFR 1951 Sup., Part 909). In said notice, in which it was proposed to fix the salable and surplus percentages of almonds at 85 percent and 15 percent, respectively, for the crop year beginning July 1, 1952, opportunity was afforded interested persons to submit to the Department written data, views, or arguments for consideration prior to issuance of the final rule fixing the percentages. One objection to the proposed salable and surplus percentages was received, but it did not recommend the adoption of different percentages. The accuracy of estimates used in arriving at the percentages was questioned. However, no data were presented which would justify changing the estimates and percentages set forth in the proposed rule.

It is hereby found and determined that good cause exists for making this administrative rule effective upon its publication in the FEDERAL REGISTER, instead of waiting thirty days after publication, for the reasons that (1) it is desirable that the percentages be fixed prior to or as soon as practicable after growers begin to deliver 1952 crop almonds to handlers, (2) such deliveries of 1952 crop almonds have begun, and (3) compliance with this administrative rule will not require handlers to make any advance preparation of a special nature.

Therefore, after consideration of all relevant matters, the administrative rule is as follows:

§ 909.202 *Salable and surplus percentages for almonds during the crop year beginning July 1, 1952.* The salable and surplus percentages during the crop year beginning July 1, 1952, applicable to almonds, edible kernel weight basis, received by handlers for their own accounts, shall be 85 percent and 15 percent, respectively.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Issued at Washington, D. C., this 29th day of August 1952, to become effective upon publication of this document in the FEDERAL REGISTER.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Branch.

PART 958—IRISH POTATOES GROWN IN COLORADO

APPROVAL OF BUDGET OF EXPENSES AND FIXING RATE OF ASSESSMENT

Notice of proposed rule making regarding rules and regulations relative to a proposed budget and rate of assessment, to be made effective under Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958) regulating the handling of Irish potatoes grown in the State of Colorado, was published in the FEDERAL REGISTER (17 F. R. 7095). This regulatory program is effective under the

Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the rules and regulations set forth in the aforesaid notice, which rules and regulations were adopted and submitted for approval by the administrative committee for Area No. 1, established pursuant to said marketing agreement and order, the following rules and regulations are hereby approved.

§ 958.210 *Budget of expenses and rate of assessment.* (a) The expenses necessary to be incurred by the administrative committee for Area No. 1, established pursuant to Marketing Agreement No. 97 and Order No. 58, to enable such committee to carry out its functions pursuant to the provisions of the aforesaid marketing agreement and order, during the fiscal year ending May 31, 1953, will amount to $900.00;

(b) The rate of assessment to be paid by each handler who first ships potatoes shall be one cent ($0.01) per hundredweight of potatoes handled by him as the first handler thereof during said fiscal year; and

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 29th day of August 1952, to become effective 30 days after publication hereof in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

PART 958—IRISH POTATOES GROWN IN COLORADO

APPROVAL OF BUDGET OF EXPENSES AND FIXING RATE OF ASSESSMENT

Notice of proposed rule making regarding rules and regulations relative to a proposed budget and rate of assessment, to be made effective under Marketing Agreement No. 97 and Order No. 58 (7 CFR, Part 958) regulating the handling of Irish potatoes grown in the State of Colorado, was published in the FEDERAL REGISTER (17 F. R. 7254). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the rules and regulations set forth in the aforesaid notice, which rules and regulations were adopted and submitted for approval by the administrative committee for Area No. 2, established pursuant to said marketing agreement and order, the following rules and regulations are hereby approved.

§ 958.211 *Budget of expenses and rate of assessment.* (a) The expenses necessary to be incurred by the administrative committee for Area No. 2, established pursuant to Marketing Agreement No. 97 and Order No. 58, to enable such committee to carry out its functions pursuant to the provisions of the aforesaid marketing agreement and order, during the fiscal year ending May 31, 1953, will amount to $3,024.00;

(b) The rate of assessment to be paid by each handler who first ships potatoes shall be one-tenth of one cent ($0.001) per hundredweight of potatoes handled by him as the first handler thereof during said fiscal year; and

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 29th day of August 1952, to become effective 30 days after publication hereof in the FEDERAL REGISTER.

PART 958—IRISH POTATOES GROWN IN COLORADO

APPROVAL OF BUDGET OF EXPENSES AND FIXING RATE OF ASSESSMENT

Notice of proposed rule making regarding rules and regulations relative to a proposed budget and rate of assessment, to be made effective under Marketing Agreement No. 97 and Order No. 58 (7 CFR, Part 958) regulating the handling of Irish potatoes grown in the State of Colorado, was published in the FEDERAL REGISTER (17 F. R. 7254). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the rules and regulations set forth in the aforesaid notice, which rules and regulations were adopted and submitted for approval by the administrative committee for Area No. 3, established pursuant to said marketing agreement and order, the following rules and regulations are hereby approved.

§ 958.212 *Budget of expenses and rate of assessment.* (a) The expenses necessary to be incurred by the administrative committee for Area No. 3, established pursuant to Marketing Agreement No. 97 and Order No. 58, to enable such committee to carry out its functions pursuant to the provisions of the aforesaid marketing agreement and order, during the fiscal year ending May 31, 1953, will amount to $2,100.00;

(b) The rate of assessment to be paid by each handler who first ships potatoes shall be $0.0015 per hundredweight of potatoes handled by him as the first handler thereof during said fiscal year; and

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 29th day of August 1952, to become effective 30 days after publication hereof in the FEDERAL REGISTER.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter D—Exportation and Importation of Animals and Animal Products

[BAI Orders 368 and 378]

PART 92—IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS

PART 93—SPECIAL REGULATIONS GOVERNING EXPORT AND IMPORT OF LIVESTOCK, OTHER ANIMALS, AND POULTRY TO AND FROM MEXICO

On August 12, 1952, there was published in the FEDERAL REGISTER (17 F. R. 7342) a notice of proposed intention to amend the regulations governing the importation of certain animals and poultry and certain animal and poultry products. After due consideration of all relevant material submitted in connection with the notice, the Secretary of Agriculture, pursuant to the authority vested in him by sections 6, 7, 8, and 10 of the act of Congress approved August 30, 1890, as amended (26 Stat. 416, as amended; 21 U. S. C. 102–105) and section 2 of the act of Congress approved February 2, 1903, as amended (32 Stat. 792, as amended; 21 U. S. C. 111), revokes the special regulations governing the importation of livestock, other animals, and poultry from Mexico now contained in §§ 93.2 through 93.12, as amended, Part 93, Subchapter D, Chapter I, Title 9, Code of Federal Regulations, and amends the regulations now governing the importation of certain animals and poultry and certain animal and poultry products (except from Mexico) contained in Title 9, Chapter 1, Subchapter D, Part 92, as amended, to read as follows:

GENERAL PROVISIONS

Sec.
92.1 Definitions.
92.2 General prohibition.
92.3 Ports designated for the importation of animals.
92.4 Import permits for ruminants, swine, and poultry and for animal semen.
92.5 Certificate for ruminants, swine, and poultry.
92.6 Diagnostic tests.
92.7 Presentation of papers to collector of customs.
92.8 Inspection at port of entry.
92.9 Articles accompanying animals.
92.10 Movement from conveyances to quarantine station.
92.11 Periods of quarantine.
92.12 Feed and attendants for animals in quarantine.
92.13 Quarantine stations; visiting restricted; sales prohibited.

Sec.
92.14 Milk from quarantined animals.
92.15 Manure from quarantined animals.
92.16 Appearance of disease among animals in quarantine.
92.17 Horses; accompanying forage and equipment.
92.18 Dogs for handling livestock.

CANADA

92.19 Declaration of purpose.
92.20 Cattle.
92.21 Sheep and goats.
92.22 Swine.
92.23 Animals for immediate slaughter.
92.24 Horses.
92.25 In-bond shipments.
92.26 Poultry.

COUNTRIES OF CENTRAL AMERICA AND WEST INDIES

92.27 Permits required.
92.28 Ruminants.
92.29 Swine.
92.30 Horses.

MEXICO

92.31 Permits for ruminants, swine, and poultry.
92.32 Declaration of purpose.
92.33 Inspection at port of entry.
92.34 Detention at port of entry and periods of quarantine.
92.35 Cattle.
92.36 Sheep and goats and wild ruminants.
92.37 Swine.
92.38 Poultry.
92.39 Horses.
92.49 Animals for immediate slaughter.

AUTHORITY: §§ 92.1 to 92.40 issued under secs. 6, 7, 8, 10, 26 Stat. 416, as amended, sec. 2, 32 Stat. 792, as amended; 21 U. S. C. 102–105, 111.

GENERAL PROVISIONS

§ 92.1 *Definitions.* Whenever in this part the following terms are used unless the context otherwise requires, they shall be construed, respectively, to mean:

(a) *Department.* The United States Department of Agriculture.

(b) *Bureau.* The Bureau of Animal Industry of the Department.

(c) *Chief of Bureau.* Chief of the Bureau.

(d) *Inspector.* An inspector of the Bureau.

(e) *Animals.* Cattle, sheep, goats, other ruminants, swine, horses, asses, mules, zebras, dogs, and poultry.

(f) *Cattle.* Animals of the bovine species.

(g) *Ruminants.* All animals which chew the cud, such as cattle, buffaloes, sheep, goats, deer, antelpoes, camels, llamas and giraffes.

(h) *Swine.* The domestic hog and all varieties of wild hogs.

(i) *Horses.* Horses, asses, mules, and zebras.

(j) *Poultry.* Chickens, ducks, geese, swans, turkeys, pigeons, doves, pheasants, grouse, partridges, quail, guinea fowl, and pea fowl, of all ages, including eggs for hatching.

(k) *Accredited areas.* Areas in Canada in which the percentage of cattle infected with tuberculosis is officially declared by the Canadian Government to be less than one-half of 1 percent.

(l) *Restricted areas.* Areas in Canada that are in process of becoming accredited as defined in paragraph (k) of this section.

(m) *Recognized slaughtering center.* Any point where slaughtering operations are regularly carried on and where Federal, State, or local inspection approved by the Bureau, is maintained.

(n) *Immediate slaughter.* Consignment from the port of entry to some recognized slaughtering center and slaughter thereat within 2 weeks from the date of entry.

(o) *Communicable disease.* Any contagious, infectious, or communicable disease of domestic livestock, poultry or other animals.

(p) *Fever tick.* Boophilus annulatus, including, but not limited to, the varieties Americana and Australis.

(q) *Permitted dip.* A dip permitted by the Bureau to be used in the official dipping of cattle and horses for fever ticks and for dipping cattle and sheep for scabies.

§ 92.2 *General prohibition.* No animal or product subject to the provisions of this part shall be imported or brought into the United States except in accordance with the provisions of this part and Part 94; nor shall any such animal or product be handled or moved after physical entry into the United States and before final release from quarantine or any other form of governmental detention except in compliance with such regulations.

§ 92.3 *Ports designated for the importation of animals*—(a) *Ocean ports.* The following ports are hereby designated as quarantine stations and all animals except those from Canada and Mexico shall be entered through said stations, viz: Boston, Massachusetts; New York, New York; Baltimore, Maryland; Jacksonville, Miami, and Tampa, Florida; San Juan, Puerto Rico; New Orleans, Louisiana; Galveston, Texas; San Diego, Los Angeles, and San Francisco, California; Portland, Oregon; Tacoma and Seattle, Washington; and Honolulu, Hawaii.

(b) *Canadian border ports.* The following ports in addition to those specified in paragraph (a) of this section are designated as quarantine stations for the entry of animals from Canada: Eastport, Calais, Vanceboro, Houlton, Monticello, Bridgewater, Fort Fairfield, Limestone, Van Buren, Madawaska, Fort Kent, Jackman and Holeb, Maine; Beecher Falls (Canaan), Island Pond, Derby Line, North Troy, Newport, Richford, St. Albans, Highgate Springs, and Alburg, Vermont; Rouses Point, Mooers Junction, Chateaugay, Malone, Fort Covington, Hogansburg, Rooseveltown, Waddington, Ogdensburg, Morristown, Alexandria Bay, Charlotte, Niagara Falls, and Buffalo, New York; Detroit, Port Huron, and Sault Ste. Marie, Michigan; Noyes, Minnesota; Pembina and Portal, North Dakota; Sweetgrass, Montana; Eastport and Porthill, Idaho; Spokane, Laurier, Oroville, Nighthawk, Sumas, Blaine, and Lynden, Washington; and Juneau and Skagway, Alaska.

(c) *Mexican border ports.* The following ports in addition to those specified in paragraph (a) of this section are designated as quarantine stations for the entry of animals from Mexico: Brownsville, Hidalgo, Rio Grande City, Roma, Laredo, Eagle Pass, Del Rio, Presidio, and El Paso, Texas; Douglas, Naco, and Nogales, Arizona; and Calexico and San Ysidro, California.

(d) The Secretary of the Treasury has approved the designation as quarantine stations of the ports specified in this section. In special cases other ports may be designated as quarantine stations under this section by the Chief of Bureau with the concurrence of the Secretary of the Treasury.

§ 92.4 *Import permits for ruminants, swine, and poultry and for animal semen*—(a) *Ruminants, swine, and poultry.* For ruminants, swine, and poultry intended for importation from any part of the world except Canada and except as provided in §§ 92.27 and 92.31, the importer shall first obtain from the Bureau a permit in two sections. One section will be for presentation to the American Consul in the district which includes the port of shipment and the other for presentation to the collector of customs at the port of entry specified therein. The animals will be received at the specified port on the date prescribed for their arrival or at any time during 3 weeks immediately following, after which time the permit shall be void. Animals will not be eligible for entry if shipped from any foreign port other than designated in the permit.

(b) *Animal semen.* (1) No animal semen may be imported from any part of the world unless the importer first obtains a permit from the Bureau. However, the Chief of Bureau, when he finds that such action may be taken without endangering the livestock industry of the United States, may authorize the importation of animal semen from Canada without such permit. No permit will be issued for the importation of semen derived from domestic ruminants or swine in any country where foot-and-mouth disease or rinderpest has been determined to exist.

(2) The permit will be in two sections, one for presentation to the American Consul in the district which includes the port of shipment and the other for presentation to the collector of customs at the port of entry specified therein. The semen will be received at the specified port on the date prescribed for its arrival or at any time during three weeks immediately following, after which time the permit shall be void.

§ 92.5 *Certificate for ruminants, swine, and poultry*—(a) *Ruminants and swine.* All ruminants and swine offered for importation from any part of the world except as provided in §§ 92.20, 92.21, 92.22, 92.28, 92.29, 92.35, 92.36, 92.37, and 92.40 shall be accompanied by a certificate of a salaried veterinary officer of the national government of the country of origin stating that such animals have been kept in said country at least 60 days immediately preceding the date of movement therefrom and that said country during such period has been entirely free from foot-and-mouth disease, rinderpest, contagious pleuropneumonia, and surra: *Provided, however,* That certificates for wild ruminants or wild swine for exhibition purposes need specify freedom from the said diseases of the district of origin only: *And provided further,* That in the case of sheep, goats, and swine the certificate, as far as it relates to contagious pleuropneumonia, may specify freedom from such disease of the district of origin only. For domestic swine the certificate shall also show that for 60 days immediately preceding the date of movement from the premises of origin no hog cholera, swine plague, or erysipelas has existed on such premises or on adjoining premises.

(b) *Poultry.* All poultry, except eggs for hatching, offered for importation from any country of the world except as provided in §§ 92.26, 92.38, and 92.40, shall be accompanied by a certificate of a salaried veterinary officer of the national government of the country of origin stating that such poultry and their flock or flocks of origin were inspected on the premises of origin immediately before the date of movement from such country and that they were then found to be free of evidence of pullorum disease (bacillary white diarrhea) and other communicable diseases; and that, as far as it has been possible to determine, they were not exposed to any such disease common to poultry during the 60 days immediately preceding the date of such movement. Certificates for such poultry 60 days of age or older shall also state that the poultry have been kept in the country from which they are offered for importation for at least 60 days immediately preceding the date of movement therefrom and that, as far as it has been possible to determine, no case of European fowl pest (fowl plague) or Newcastle disease (avian pneumoencephalitis) occurred in the locality or localities where the poultry were kept during such period. All eggs for hatching offered for importation from any part of the world except as provided in §§ 92.26 and 92.38 shall be accompanied by a certificate of a salaried veterinary officer of the national government of the country of origin stating that the flock or flocks of origin were found upon inspection to be free from evidence of pullorum disease (bacillary white diarrhea) and other communicable disease and that as far as it has been possible to determine such flock or flocks were not exposed to any such disease common to poultry during the preceding 60 days.

§ 92.6 *Diagnostic tests*—(a) *Tuberculosis and brucellosis tests of cattle.* Except as provided in §§ 92.20 and 92.35 (b) and (c) all cattle offered for importation from any part of the world, except for immediate slaughter, shall be accompanied by a satisfactory certificate of a salaried veterinary officer of the national government of the country of origin showing that the animals have been tested for tuberculosis and brucellosis with negative results within 30 days of the date of their exportation: *Provided,* That the brucellosis test will not be required for steers, spayed heifers, or any cattle less than 6 months old. The said certificate shall give the dates and places of testing, names of the consignor and consignee, and a description of the cattle, with breed, ages, and markings.

(b) *Tuberculosis and brucellosis tests of goats.* Except as provided in §§ 92.21 and 92.36 (b), all goats offered for importation, except for immediate slaughter, shall be accompanied by a satisfactory certificate of a salaried veterinary officer of the national government of the country of origin showing that the animals have been tested for tuberculosis and brucellosis with negative results within 30 days of the date of their exportation. The said certificate shall give the dates and places of testing, method of testing, names of consignor and consignee, and a description of the animals, including breed, ages, markings, and tattoo and eartag numbers.

(c) *Further tests during quarantine.* Animals that have been tested as prescribed in the paragraphs (a) and (b) of this section and that are subject to quarantine at the port of entry as provided in § 92.11, shall be retested during the last 10 days of the quarantine period under the supervision of a veterinary inspector, by one or more of the methods approved by the Chief of Bureau.

§ 92.7 *Presentation of papers to collector of customs.* The certificates and affidavits required by the regulations in this part shall be presented by the importer to the collector of customs at the port of entry upon arrival of the animals at such port.

§ 92.8 *Inspection at port of entry.* Inspection shall be made at the port of entry of all horses, ruminants, swine, and poultry offered for importation from any part of the world except as provided in §§ 92.24, 92.25, 92.30, and 92.33. However, the Chief of Bureau, when he finds that such action may be taken without endangering the poultry industry of the United States, may waive inspection at the port of entry or provide for inspection at some other point with respect to importations from Canada of eggs for hatching, newly hatched poultry and poultry consigned for immediate slaughter. All animals found to be free from communicable disease and not to have been exposed thereto within 60 days prior to the offer for importation shall be admitted subject to the other provisions in this part. Animals found to be affected with a communicable disease or to have been exposed thereto within 60 days prior to the offer for importation shall be refused entry. Ruminants and swine refused entry shall be handled thereafter in accordance with the provisions of section 8 of the act of August 30, 1890 (26 Stat. 416; 21 U. S. C. 103), or quarantined or otherwise disposed of as the Chief of Bureau may direct. Horses and poultry refused entry, unless exported within a time fixed in each case by the Chief of Bureau, shall be disposed of as said Chief may direct. Such portions of the transporting vessel, and of its cargo, as have been exposed to any such animals or their emanations shall be disinfected in such manner as may be considered necessary by the inspector in charge at the port of entry, before the cargo is allowed to land.

§ 92.9 *Articles accompanying animals.* No litter or manure, fodder or other ailment, nor any equipment such as boxes, buckets, ropes, chains, blankets, or other things used for or about animals governed by the regulations in this part, shall be landed from any conveyance except under such restrictions as the inspector in charge at the port of entry shall direct.

§ 92.10 *Movement from conveyances to quarantine station.* Platforms and chutes used for handling imported ruminants or swine shall be cleaned and disinfected under Bureau supervision after being so used. The said animals shall not be unnecessarily moved over any highways nor allowed to come in contact with other animals, but shall be transferred from the conveyance to the quarantine grounds in boats, cars, or vehicles approved by the inspector in charge at the port of entry. Such cars, boats, or vehicles shall be cleaned and disinfected under Bureau supervision immediately after such use, by the carrier moving the same. The railway cars so used shall be either cars reserved for this exclusive use or box cars not otherwise employed in the transportation of animals or their fresh products. When movement of the aforesaid animals upon or across a public highway is unavoidable, it shall be under such careful supervision and restrictions as the inspector in charge at the port of entry and the local authorities may direct.

§ 92.11 *Periods of quarantine*—(a) *Cattle.* (1) Cattle imported from any part of the world except Canada, countries of Central America and the West Indies, and Mexico shall be quarantined for not less than 30 days, counting from the date of arrival at the port of entry.

(2) Cattle imported from Canada, countries of Central America and the West Indies, and Mexico shall be subject to the provisions of §§ 92.20, 92.28, 92.34, and 92.35, respectively.

(b) *Other ruminants and swine.* (1) Swine and ruminants other than cattle imported from any part of the world except Canada, countries of Central America and the West Indies, and Mexico shall be quarantined for not less than 15 days, counting from the date of arrival at the port of entry. During their quarantine, wild ruminants and wild swine shall be subject to such inspections, disinfection, blood tests, or other tests as may be required by the Chief of Bureau to determine their freedom from disease and the infection of disease.

(2) Sheep and goats, and swine imported from Canada shall be subject to the provisions of §§ 92.21 and 92.22, respectively. Ruminants and swine imported from countries of Central America and the West Indies shall be subject to the provisions of §§ 92.28 and 92.29, respectively. Swine and ruminants other than cattle imported from Mexico shall be subject to the provisions of §§ 92.34, 92.36, and 92.37.

(c) *Poultry.* Poultry 60 days of age or older imported from any part of the world except Canada and except as provided in § 92.34 (b) shall be quarantined for not less than 15 days, counting from the date of arrival at the port of entry. During their quarantine, such poultry shall be subject to such inspections, disinfections, blood tests or other tests as may be required by the Chief of Bureau

to determine their freedom from disease or the infection of disease. Any other poultry may be quarantined at the port of entry for such period as the Chief of Bureau may require.

§ 92.12 *Feed and attendants for animals in quarantine.* (a) Importers of animals subject to quarantine under the regulations in this part shall arrange for their care, feed, and handling from the time of unloading at the port of entry to the time of release from quarantine. At ports where facilities are not maintained by the Bureau, importers shall provide suitable facilities for the quarantine of such animals, subject in all cases to the approval of the inspector in charge at the port of entry. Each owner, or his agent, shall give satisfactory assurance to the inspector prior to the time of quarantine that such provision will be made. Owners shall keep clean, to the satisfaction of such inspector, the sheds and yards occupied by their animals. If for any cause owners of animals refuse or neglect to arrange for their care, feed, and handling, the service may be furnished by the Bureau in the same manner as though the owner, or his agent, had made arrangements for such service as provided by paragraph (b) of this section, or the animals may be disposed of as the Chief of Bureau may direct.

(b) At a port where quarantine facilities are maintained by the Bureau, the importer, or his agent, may arrange with the inspector in charge for care, feed, and handling of animals from the time they arrive at the quarantine station for the port until the time of release from quarantine. The importer, or his agent, must request such service in writing and agree to reimburse the Bureau or pay in advance for the cost thereof, as may be required, and waive all claim against the Bureau or any employee of the Bureau for damages which may arise from such service. The Chief of Bureau may prescribe reasonable rates for the service provided under this paragraph.

(c) The charge for any service furnished under paragraphs (a) or (b) of this section shall be a lien on the animals. After the expiration of one-third of the quarantine period, if payment has not been made, the owners of the animals will be notified by the inspector that if said charges are not immediately paid, or satisfactory arrangements made for payment, the animals will be sold at public auction at the expiration of the period of quarantine to pay the expense of feed and care during that period. Notice of the sale will be published in a newspaper in the county where the quarantine station is located. The sale will be held after the expiration of the quarantine period, at such place as may be designated by the said inspector. The proceeds of the sale, after deducting the charges for care, feed, and handling of the animals and the expense of the sale, shall be held in a Special Deposit Account in the United States Treasury for 6 months from the date of sale. If not claimed by the owner within 6 months from the date of sale, the amount so held shall be transferred from the Special Deposit Account to the General Fund Account in the United States Treasury.

(d) Amounts collected from importers for service rendered and amounts realized for such purposes under paragraph (c) of this section shall be deposited so as to be available for defraying the expenses involved in this service.

§ 92.13 *Quarantine stations, visiting restricted; sales prohibited.* Visitors shall not be admitted to the quarantine enclosure during any time that animals are in quarantine except that an importer (or his accredited agent or veterinarian) may be admitted to the yards and buildings containing his quarantined aimals at such intervals as may be deemed necessary, and under such conditions and restrictions as may be imposed, by the inspector in charge of the quarantine station. On the last day of the quarantine period, owners, officers or registry societies, and others having official business or whose services may be necessary in the removal of the animals may be admitted upon written permission from the said inspector. No exhibition or sale shall be allowed within the quarantine grounds.

§ 92.14 *Milk from quarantined animals.* Milk or cream from animals quarantined under the provisions of this part shall not be used by any person other than those in charge of such animals, nor be fed to any animals other than those within the same enclosure, without permission of the inspector in charge of the quarantine station and subject to such restrictions as he may consider necessary in each instance. No milk or cream shall be removed from the quarantine premises except in compliance with all State and local regulations.

§ 92.15 *Manure from quarantined animals.* No manure shall be removed from the quarantine premises until the release of the animals producing same.

§ 92.16 *Appearance of disease among animals in quarantine.* If any contagious disease appears among animals during the quarantine period special precautions shall be taken to prevent spread of the infection to other animals in the quarantine station or to those outside the grounds. The affected animals shall be disposed of as the Chief of Bureau may direct, depending upon the nature of the disease.

§ 92.17 *Horses; accompanying forage and equipment.* Horses offered for importation from any part of the world except Mexico, and countries of Central America and the West Indies and except as provided in § 92.24 shall be accompanied by a certificate of a salaried veterinary officer of the national government of the country of origin showing that the animals described in the certificate have been in the said country during the preceding 60 days, and that as far as it has been possible to ascertain no case of dourine, glanders, surra, or epizootic or ulcerative lymphangitis has occurred in the locality or localities where the horse or horses have been kept during such period. Horses arriving at a port of entry unaccompanied by the aforesaid certificate, if otherwise eligible for importation, may upon permission first secured from the Chief of Bureau be landed subject to such quarantine and blood tests or other tests as he may direct. Even though accompanied by said certificate they may be so quarantined and tested when deemed necessary by the Chief of Bureau. Upon inspecting horses at the port of entry and before permitting them to land, the inspector may require their disinfection and the disinfection of their accompanying equipment as a precautionary measure against the introduction of foot-and-mouth disease or any other disease dangerous to the livestock of the United States. When no disease is discoverable in an importation of horses, the hay, straw, or other forage accompanying them may remain on board the ship to be returned: *Provided*, That in the case of a vessel carrying cattle, sheep, other ruminants, or swine from the United States on the return voyage, such material shall be stored in the vessel in a place and manner approved by the said inspector and shall not be used in the feeding or bedding of animals exported.

§ 92.18 *Dogs for handling livestock.* Collie, Shepherd, and other dogs imported from any part of the world except Canada, Mexico, and countries of Central America and the West Indies which are to be used in the handling of sheep or other livestock, shall be inspected and quarantined at the port of entry for a sufficient time to determine their freedom from the tapeworm, Taenia coenurus. If found to be infested with such tapeworm they shall be properly treated under the supervision of a veterinary inspector at the port of entry until they are free from the infestation.

CANADA [1]

§ 92.19 *Animals from Canada; declaration of purpose.* For all cattle, sheep, goats, swine and poultry offered for importation from Canada there shall be presented to the collector of customs at the time of entry a statement signed by the owner or importer showing clearly the purpose for which said animals are to be imported.

§ 92.20 *Cattle from Canada*—(a) *Health certificates; detention at port of entry.* Cattle offered for importation from Canada shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing that said cattle have been inspected and found to be free from any evidence of communicable disease and that, as far as can be determined, they have not been exposed to any such disease during the preceding 60 days. Any such cattle may be detained at the port of entry and there subjected to such tests as may be required by the Chief of Bureau and the importer shall be responsible for the care, feeding, and handling of such cattle during the period of detention.

(b) *Tuberculin-test certificates.* Importations of cattle from Canada, for purposes other than immediate slaughter as provided in § 92.23, shall be in compliance with the following conditions and requirements:

(1) Cattle from Canadian-listed tuberculosis-free accredited herds shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing them to be from such herds and that said herds have been tuberculin tested within 1 year of the date of importation. The date of such tuberculin test shall be shown on the certificate.

(2) Cattle from herds in accredited areas in Canada, other than accredited herds, shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing them to be from herds in such areas and that the animals offered for entry have been tuberculin tested with negative results within 30 days preceding their offer for entry. However, cattle from herds in such areas—other than range herds—in which one or more reactors to the tuberculin test have been disclosed shall not be imported until the said herds have reached full tuberculosis-free status under Canadian regulations.

(3) Cattle from herds in restricted areas in Canada—other than range cattle and cattle from accredited herds—shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing (i) that they have been tuberculin tested with negative results within 30 days preceding their offer for entry, (ii) that all cattle in the herd or herds from which the animals proceed have been tuberculin tested with negative results not more than 12 months nor less than 90 days before the date of the offer for entry, and (iii) that the animals presented for entry, excepting only the natural increase in the herd, were included in the herd or herds of origin at the time of said herd tests. However, cattle from herds in such areas—other than range herds—in which one or more reactors to the tuberculin test have been disclosed shall not be imported until the said herds have reached full tuberculosis-free status under Canadian regulations.

(4) Range cattle [2] shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing them to be range cattle and that they have been tuberculin tested with negative results within 30 days preceding their offer for entry.

(5) No cattle other than range cattle or those from accredited herds shall be imported from areas in Canada that are neither restricted nor accredited under Canadian regulations, except for immediate slaughter as provided in § 92.23.

(c) *Brucellosis test certificates.* Cattle 6 months or older, offered for importation from Canada—except steers, spayed heifers, and all cattle for immediate slaughter—shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing them to have been tested for brucellosis, with negative results within 30 days preceding their being offered for entry. However, such cattle need not have been so tested if they are accompanied by a certificate, similarly issued or endorsed, showing that they were officially vaccinated as calves 6 to 8 months of age, in accordance with Canadian regulations, within 22 months prior to their being offered for entry. The certificate accompanying such vaccinated cattle shall also show the date of vaccination of each animal.

(d) *Certificates; information required.* The certificates prescribed in paragraphs (b) and (c) of this section shall give the dates and places of testing, names of the consignor and consignee, and descriptions of the cattle, including breed, ages, markings, and tatoo and eartag numbers.

(e) *United States cattle returning from expositions in Canada.* Cattle from the United States which have been exhibited at the Royal Agricultural Winter Fair at Toronto or other recognized expositions in Canada and have not been in that country more than 30 days may be returned to the United States within 10 days from the close of such fair or exposition without the certificates specified in paragraphs (b) and (c) of this section, if they are accompanied by copies of the tuberculin and brucellosis-test certificates accepted by the Canadian authorities for their entry into Canada and if it is shown to the satisfaction of the inspector at the United States port of reentry that they are the identical cattle covered by the said certificates.

§ 92.21 *Sheep and goats from Canada*—(a) *For purposes other than immediate slaughter.* Sheep or goats offered for importation from Canada for purposes other than immediate slaughter shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing that they have been inspected on the premises of origin and found free from evidence of communicable disease and that, as far as it has been possible to determine, they have not been exposed to any such disease common to animals of their kind during the preceding 60 days. If unaccompanied by such certificate, the said sheep or goats shall be held in quarantine at the port of entry for not less than 10 days during which they shall be dipped and subjected to such tests or other treatment as may be ordered by the Chief of Bureau.

(b) *For immediate slaughter.* Sheep or goats for immediate slaughter may be imported from Canada without the certificate specified in paragraph (a) of this section but shall be subject to the provisions of §§ 92.8, 92.19, and 92.23.

§ 92.22 *Swine from Canada*—(a) *For purposes other than immediate slaughter.* Swine offered for importation from Canada for purposes other than immediate slaughter shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing (1) that no hog cholera or swine plague has existed within a radius of 5 miles of the premises on which the swine were kept during the 60 days preceding the date of movement therefrom, or (2) that no hog cholera or swine plague has existed on the premises of origin during such period and that the swine have been immunized against hog cholera by the simultaneous method and thereafter disinfected with a 2-percent solution of an approved cresylic disinfectant. If unaccompanied by such certificate, the swine shall be held in quarantine at the port of entry for not less than 2 weeks.

(b) *For immediate slaughter.* Swine for immediate slaughter may be imported from Canada without certification as prescribed in paragraph (a) of this section but shall be subject to the provisions of §§ 92.8, 92.19, and 92.23.

§ 92.23 *Animals from Canada for immediate slaughter.* Cattle, sheep, goats, and swine imported from Canada for immediate slaughter shall be consigned from the port of entry to some recognized slaughtering center and there slaughtered within 2 weeks from the date of entry, or upon special permission obtained from the Chief of Bureau they may be reconsigned to other points and there slaughtered within the aforesaid period.

§ 92.24 *Horses from Canada.* Horses from Canada shall be inspected as provided in § 92.8 and when so ordered by the Chief of Bureau shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing said horses to have been mallein-tested with negative results, or shall be so tested by a veterinary inspector at the port of entry. Those used in connection with local activities along the border may be admitted without inspection for a temporary period not exceeding 10 days, and the same provision shall apply to horses returning to the United States after a stay in Canada of not to exceed 10 days.

§ 92.25 *In-bond shipments from Canada.* Cattle, sheep, swine and poultry from Canada, transported in-bond for export, if accompanied by certificates showing freedom from disease as required by §§ 92.20 (a), 92.21 (a), 92.22 (a) or 92.26, respectively, and also horses from Canada transported in-bond for export, may proceed without inspection at the border port of entry, subject to inspection at the United States port of export: *Provided, however*, That such animals shall be inspected at the port of entry or at points en route at which the Bureau has inspectors stationed, if so directed by the Chief of Bureau.

§ 92.26 *Poultry from Canada.* All poultry offered for importation from Canada shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing that such poultry have been inspected on the premises of origin and that, as far as it has been possible to determine, such poultry are free of evidence of any communicable disease or exposure thereto. However, the Chief of Bureau, when he finds that such action may be taken without endangering the poultry industry of the United States, may authorize the importation from

[1] Importations from Canada shall be subject to §§ 92.19 to 92.26, inclusive, in addition to other sections in this part which are in terms applicable to such importations.

[2] Cattle of the beef breeds raised under range conditions in the western provinces of Canada.

Canada, without such certification, of eggs for hatching, newly hatched poultry, and poultry consigned for immediate slaughter.

COUNTRIES OF CENTRAL AMERICA AND WEST INDIES [3]

§ 92.27 *Animals from Central America and the West Indies; permits required.* A permit as provided in § 92.4 shall be secured for the importation of ruminants and swine from countries of Central America into any port of the United States and for the importation of ruminants and swine from countries of the West Indies into the continental United States. The importation of cattle from any area infested with fever ticks, Boophilus annulatus, is prohibited.

§ 92.28 *Ruminants from Central America and the West Indies.* Ruminants offered for importation from countries of Central America and the West Indies shall be accompanied by a certificate of a veterinary officer of the national government of the country of origin showing that they have been in the said country for a period of at least 60 days immediately preceding the date of shipment therefrom, that he has inspected them and found them to be free from evidence of communicable disease, and that as far as he has been able to determine they have not been exposed to any such disease during that period. If no such veterinary officer is available in the country of origin, the animals may be accompanied by an affidavit of the owner or importer stating that they have been in the country from which they were directly shipped to the United States for a period of at least 60 days immediately preceding the date of shipment therefrom and that during such time no communicable disease has existed among them or among animals of their kind with which they have come in contact. Animals for which such affidavit is presented, unless imported for immediate slaughter, shall be quarantined at the port of entry at least 7 days and during that time shall be subjected to such dipping, blood tests, or other tests as may be ordered by the Chief of Bureau to determine their freedom from communicable disease. If imported for immediate slaughter they shall be handled as provided in § 92.23.

§ 92.29 *Swine from Central America and the West Indies.* Swine offered for importation from countries of Central America and the West Indies shall be accompanied by an affidavit of the owner or importer stating that the said animals have been in the country from which they were directly shipped to the United States for a period of at least 60 days immediately preceding the date of shipment therefrom and that during such time no communicable disease has existed among them or among animals of their kind with which they have come in contact. Unless imported for immediate slaughter, said swine shall be quarantined at the port of entry for not less than 1 week, and in the absence of said affidavit shall be quarantined for not less than 2 weeks. While under quarantine the said swine, with the exception of wild swine, shall be immunized against hog cholera under the supervision of a veterinary inspector, at the owner's expense, by one of the methods recognized by the Department. Wild swine shall be subjected to such blood tests or other tests as may be ordered by the Chief of Bureau in each instance to determine their freedom from communicable disease. Swine imported for immediate slaughter shall be handled as provided in § 92.23.

§ 92.30 *Horses from Central America and the West Indies.* When so ordered by the Chief of Bureau, horses from countries of Central America and the West Indies shall be subjected to such quarantine and blood tests or other tests as he may deem necessary to determine their freedom from communicable disease. Any such horses that are found to be infested with fever ticks, Boophilus annulatus, shall not be permitted entry until they have been freed therefrom by dipping in a permitted arsenical solution or by other treatment approved by the Chief of Bureau. In lieu of inspection at the port of entry as prescribed in § 92.8, race horses returning from the West Indies may be inspected at such points as the Chief of Bureau may direct.

MEXICO [4]

§ 92.31 *Permits for ruminants, swine, and poultry.* (a) For ruminants and swine, intended for importation from the Mexican States of Tamaulipas, Nuevo Leon, Coahuila, Chihuahua, Sonora, Durango, and the Territory of Baja California, the importer or his agent shall deliver to the inspector in charge at the port of entry in writing an application for inspection so that the inspector in charge and representatives of the Bureau of Customs may make mutually satisfactory arrangements for the orderly inspection of the animals. The inspector in charge will provide the importer or his agent with a written statement assigning inspection dates when the animals may be presented for entry.

(b) For ruminants and swine, intended for importation from States of Mexico other than those listed in paragraph (a) of this section and poultry from all of Mexico the importer shall first obtain from the Bureau a permit in two sections. One section will be for presentation to the American Consul in the district which includes the point of origin and the other for presentation to the collector of customs at the port of entry specified therein. The animals will be received at the specified port on the date prescribed in the permit for their arrival or at any time during one week immediately following, after which time the permit shall be void.

§ 92.32 *Declaration of purpose.* For all cattle, sheep, goats, swine, and poultry offered for importation from Mexico, there shall be presented to the collector of customs, at the time of entry, a statement signed by the importer or his agent showing clearly the purpose for which said animals are to be imported.

§ 92.33 *Inspection at port of entry.* (a) All horses, ruminants, swine, and poultry offered for entry from Mexico, including such animals intended for movement through the United States in bond for immediate return to Mexico, shall be inspected at the port of entry, and all such animals found to be free from communicable disease and fever tick infestation, and not to have been exposed thereto, shall be admitted into the United States subject to the other applicable provisions of this part. Animals found to be affected with or to have been exposed to a communicable disease, or infested with fever ticks, shall be refused entry except as provided in § 92.35 (a) (2). Ruminants and swine refused entry shall be handled thereafter in accordance with provisions of section 8 of the act of August 30, 1890 (26 Stat. 416; 21 U. S. C. 103) or quarantined or otherwise disposed of as the Chief of Bureau may direct. Horses and poultry refused entry, unless exported within a time fixed in each case by the Chief of Bureau, shall be disposed of as said Chief may direct.

(b) Animals covered by paragraph (a) of this section shall be imported through ports, designated in § 92.3, which are equipped with facilities necessary for proper chute inspection, dipping, and testing, as provided in this part.

§ 92.34 *Detention at port of entry and periods of quarantine.* (a) Cattle, other ruminants, and swine imported from Mexico and originating in the Mexican States of Tamaulipas, Nuevo Leon, Coahuila, Chihuahua, Sonora, Durango, and the Territory of Baja California, except animals being transported in bond for immediate return to Mexico and except animals imported for immediate slaughter, may be detained at the port of entry and there subjected to such disinfection, blood tests, other tests, and dipping as may be required by the Chief of Bureau to determine their freedom from any communicable disease or infection with such disease and the importer shall be responsible for the care, feed, and handling of the animals during the period of detention.

(b) Cattle, other ruminants, and swine originating in States of Mexico, other than those listed in paragraph (a) of this section, and all poultry, imported from Mexico, except animals being transported in bond for immediate return to Mexico and eggs for hatching, shall be quarantined at the port of entry for not less than 15 days, counting from the date of arrival at such port. During their quarantine cattle, other ruminants, swine, and poultry shall be subjected to such disinfection, blood tests, other tests, and dipping as may be required by the Chief of Bureau to determine their freedom from any communicable disease or infection with such disease. Any offering for entry from Mexico of cattle, other ruminants, and swine which includes any such animals from Mexican States other than those listed in paragraph (a) of this section, shall be subject to the provisions of this paragraph rather than to the provisions of paragraph (a) of this section.

§ 92.35 *Cattle from Mexico*—(a) *Fever ticks.* (1) Except as provided in subparagraph (2) of this paragraph, all cattle offered for importation from Mexico, for purposes other than immediate slaughter, shall be accompanied by a certificate of a salaried veterinarian of the Mexican Government showing that he inspected the said cattle at the time of movement to the port of entry and found them free from any evidence of communicable disease and that, as far as it has been possible to determine, they have not been exposed to any such disease, including splenetic, southern, or tick fever, during the preceding 60 days and if shipped by rail or truck the certificate shall further specify that the cattle were loaded into clean and disinfected cars or trucks for transportation direct to the port of entry. They shall also be accompanied by a certificate of the importer, or his agent supervising the shipment, stating that while en route to the port of entry they have not been trailed or driven through any district or area infested with fever ticks. Notwithstanding such certificates, such cattle shall be detained or quarantined as provided in § 92.34 and shall be dipped at least once, under supervision of an inspector, in an arsenical solution containing a minimum of 0.22 percent of arsenious oxide in solution, or in a permitted scabies dip, depending on the origin of the animals and subject to the discretion of the inspector. The owner or his agent shall first execute an application for inspection and dipping as provided in paragraph (a) (2) (iii) of this section.

(2) Cattle which have been infested with or exposed to fever ticks may be imported from Mexico into the State of Texas, provided the following conditions are strictly observed and compiled with:

(i) The cattle shall be accompanied by a certificate of a salaried veterinarian of the Mexican Government showing that he has inspected the cattle and found them free from fever ticks and any evidence of communicable disease, and that, as far as it has been possible to determine, they have not been exposed to any such disease except splenetic, southern, or tick fever, during the 60 days immediately preceding their movement to the port of entry.

(ii) The cattle shall be shown by a certificate of a salaried veterinarian of the Mexican Government to have been dipped in an arsenical solution containing a minimum of 0.22 percent of arsenious oxide in solution within 7 to 12 days before being offered for entry.

(iii) The importer, or his duly authorized agent, shall first execute and deliver to an inspector at the port of entry an application for inspection and supervised dipping wherein he shall agree to waive all claims against the United States for any loss or damage to the cattle occasioned by or resulting from dipping, or resulting from the fact that they are later found to be still tick infested; and also for all subsequent loss or damage to any other cattle in the possession or control of such importer which may come into contact with the cattle so dipped.

(iv) The cattle when offered for entry shall receive a chute inspection by an inspector. If found free from ticks they shall be given one dipping in a permitted dip under the supervision of an inspector 7 to 14 days after the dipping required by subdivision (ii) of this subparagraph. If found to be infested with fever ticks, the entire lot of cattle shall be rejected and will not be again inspected for entry until 10 to 14 days after they have again been dipped in the manner provided by subdivision (ii) of this subparagraph.

(v) The conditions at the port of entry shall be such that the subsequent movement of the cattle can be made without exposure to fever ticks.

(b) *Tuberculosis.* All cattle offered for importation from Mexico, except strictly range cattle [4] and those offered for immediate slaughter, shall be accompanied by a satisfactory certificate of a salaried veterinarian of the Mexican Government showing that the animals have been tested for tuberculosis with negative results within 30 days preceding their being offered for entry. The said certificate shall give the date and place of such testing, names of the consignor and consignee, and a description of the cattle, including breed, ages, markings, and tatoo and eartag numbers.

(c) *Brucellosis.* All dairy or breeding cattle 6 months of age or older, except steers and spayed heifers, and cattle for immediate slaughter, offered for importation from Mexico shall be accompanied by a satisfactory certificate of a salaried veterinarian of the Mexican Government showing that the animals have been tested for brucellosis with negative results, within 30 days preceding their being offered for entry. The said certificate shall give the date and method of testing, names of the consignor and consignee, and a description of the cattle, including the breed, ages, markings, and tatoo and eartag numbers. Notwithstanding such certification, such cattle shall be detained or quarantined as provided in § 92.34 and a blood sample shall be obtained under the supervision of the inspector and the animals retested for brucellosis. Animals failing to pass said retest with a negative reaction shall be refused entry, and, unless returned to the country of origin, shall be disposed of as provided by section 8 of the act of August 30, 1890 (26 Stat. 416; 21 U. S. C. 103).

§ 92.36 *Sheep and goats and wild ruminants from Mexico.* (a) Except as provided in paragraph (c) of this section, all sheep and goats offered for importation from Mexico, for purposes other than immediate slaughter, shall be accompanied by a certificate of a salaried veterinarian of the Mexican Government showing that, as a result of a careful physical examination by him of such sheep and goats on the premises of origin, no evidence of communicable disease was found, and that, so far as it has been possible to determine, they have not been exposed to any such disease common to animals of their kind during the preceding 60 days; and, if the animals are shipped by rail or truck, the certificate shall further specify that the animals were loaded into cleaned and disinfected cars or trucks for transportation direct to the port of entry. Notwithstanding such certificate, such sheep and goats shall be detained or quarantined as provided in § 92.34, and shall be dipped at least once in a permitted scabies dip under supervision of an inspector.

(b) Except as provided in paragraph (c) of this section, all goats offered for importation from Mexico, for purposes other than immediate slaughter, shall be accompanied by a satisfactory certificate of a salaried veterinarian of the Mexican Government showing them to have been tested for tuberculosis and brucellosis with negative results, within 30 days preceding their being offered for entry. The said certificate shall give the date and method of testing, names of consignor and consignee, and a description of the animals including breed, ages, markings, and tattoo and eartag numbers. Notwithstanding such certification, such goats shall be detained or quarantined as provided in § 92.34 and retested for brucellosis. Animals failing to pass said retest with a negative reaction shall be refused entry and unless returned to the country of origin shall be disposed of as provided by section 8 of the act of August 30, 1890 (26 Stat. 416; 21 U. S. C. 103).

(c) Certificates will not be required for wild sheep, deer, and other wild ruminants originating in and shipped direct from Mexico, but said animals are subject to inspection at the port of entry as provided in § 92.33.

§ 92.37 *Swine from Mexico.* (a) Except as provided for in paragraph (b) of this section, all swine offered for importation from Mexico for purposes other than immediate slaughter, shall be accompanied by a certificate signed by a salaried veterinarian of the Mexican Government showing that for a period of 60 days prior to their movement from the premises on which they were kept no swine plague or hog cholera has existed within a radius of 5 miles therefrom. In addition, all such swine shall be immunized against hog cholera under the supervision of an inspector at the port of entry at the owner's expense in accordance with one of the methods recognized by the Department for preventing the spread of this disease. In the absence of the certificate as herein specified, such swine shall be detained or quarantined as provided in § 92.34 and, in addition to immunization against hog cholera, shall be subjected to such inspections and tests as may be deemed necessary by the Chief of Bureau to determine their freedom from communicable disease.

(b) A certificate as specified in this section will not be required for wild swine

[3] Importations from countries of Central America and the West Indies shall be subject to §§ 92.27 to 92.30, inclusive, in addition to other sections in this part which are in terms applicable to such importations.

[4] Importations from Mexico shall be subject to §§ 92.31 to 92.40, inclusive, in addition to other sections in this part which are in terms applicable for such importations.

[4] It has been determined that the incidence of tuberculosis is much less than one-half of 1 percent among range cattle in the northern states of Mexico, where importations of this class of cattle originate. Such cattle, however, will be subject to the tuberculin-test requirements of the state of destination.

for exhibition purposes, and such animals will not be required to undergo immunization against hog cholera but are subject to inspection at the port of entry as provided in § 92.23.

§ 92.38 *Poultry from Mexico.* Poultry, except eggs for hatching, offered for entry from Mexico, for purposes other than immediate slaughter, shall be accompanied by a certificate of a salaried veterinarian of the Mexican Government stating that such poultry and their flock or flocks of origin were inspected on the premises of origin immediately before the date of movement therefrom; that they were then found to be free of evidence of communicable diseases of poultry; and that, as far as it has been possible to determine, they were not exposed to any such diseases during the 60 days immediately preceding the date of such movement. The certificate shall also state that the poultry have been kept in Mexico for at least 60 days immediately preceding the date of movement therefrom or since they were hatched; that, in so far as it has been possible to determine, no case of European fowl pest (fowl plague) or Newcastle disease (avian pneumoencephalitis), occurred in the localities where the poultry were kept during such period. Eggs for hatching offered for importation from Mexico shall be accompanied by a certificate of a salaried veterinarian of the Mexican Government stating that the flock or flocks or origin of such eggs were inspected on the premises of origin immediately before the date of movement of the eggs therefrom, and found to be free from evidence of communicable diseases of poultry; and that, as far as it has been possible to determine, such flock or flocks were not exposed to any such diseases during the preceding 60 days.

§ 92.39 *Horses from Mexico*—(a) *Horses from tick-infested areas.* Horses offered for importation from tick-infested areas of Mexico shall be chute inspected unless in the judgment of the inspector a satisfactory inspection can be made otherwise. If they are found to be apparently free from fever ticks, before entering the United States they shall be dipped once in a permitted arsenical solution or be otherwise treated in a manner approved by the Chief of Bureau. If they are found to be infested with fever ticks they shall be refused entry but may be reoffered for importation following treatment as prescribed in § 92.35 (a) (2) for cattle from tick-infested areas.

(b) *Horses from dourine-infected areas.* All horses offered for importation from dourine-infected areas in Mexico, other than those moving in bond for immediate reentry into Mexico, those imported for immediate slaughter, and geldings unless judged by the inspector to be capable of serving mares, shall be detained at the border port of entry where a blood sample shall be obtained from each animal under the supervision of the inspector, said samples to be forwarded to the Bureau laboratory where they will be tested by the complement-fixation method for dourine. Any such animal that is found by said test to be affected with dourine shall be refused entry.

§ 92.40 *Animals for immediate slaughter.* Cattle, other ruminants, and swine from the Mexican states of Tamaulipas, Nuevo Leon, Coahuila, Chihuahua, Sonora, Durango, and the Territory of Baja California, and horses and poultry from any part of Mexico, may be imported, subject to the applicable provisions of §§ 92.31, 92.32, 92.33, 92.35 (a) (2) and 92.39 (a), for immediate slaughter if accompanied by a certificate of a salaried veterinarian of the Mexican Government showing that, as a result of a careful physical examination by him of such animals on the premises of origin no evidence of communicable disease was found, and that, so far as it has been possible to determine, they have not been exposed to any such disease common to animals of their kind during the preceding 60 days, and if the animals are shipped by rail or truck, the certificate shall further specify that the animals were loaded into cleaned and disinfected cars or trucks for transportation directly to the port of entry. Such animals shall be consigned from the port of entry to some recognized slaughtering center and there slaughtered within 2 weeks from the date of entry. Such animals shall be moved from the port of entry in conveyances sealed with seals of the United States Government. Cattle, other ruminants, and swine from Mexican States other than those designated above may be imported only in compliance with other applicable sections in this part.

The foregoing amendments revoke the special regulations governing the importation of certain animals and poultry from Mexico (9 CFR 93.2–93.12, as amended), and revise the general regulations governing the importation of certain animals and poultry and certain animal and poultry products (9 CFR Part 92, as amended), to make such regulations applicable to importations from Mexico, to require a more thorough inspection at the port of entry, to prescribe additional quarantine requirements, and to impose other safeguards in order to more effectively prevent the introduction into the United States of communicable diseases of animals and poultry.

For the protection of the livestock industry the foregoing amendments should be made effective as soon as possible. Therefore, good cause is found for making them effective less than 30 days after their publication in the FEDERAL REGISTER.

The foregoing amendments shall become effective upon publication in the FEDERAL REGISTER.

Done at Washington, D. C., this 2d day of September 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-9685; Filed, Sept. 2, 1952; 12:05 p. m.]

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. H]

PART 208—MEMBERSHIP OF STATE BANKING INSTITUTIONS IN THE FEDERAL RESERVE SYSTEM

Effective September 1, 1952, Part 208 is amended to read as follows:

Sec.
208.1 Definitions.
208.2 Eligibility requirements.
208.3 Insurance of deposits.
208.4 Application for membership.
208.5 Approval of application.
208.6 Privileges and requirements of membership.
208.7 Conditions of membership.
208.8 Establishment or maintenance of branches.
208.9 Publication of reports of member banks and their affiliates.
208.10 Voluntary withdrawal from Federal Reserve System.
208.11 Board forms.

AUTHORITY: §§ 208.1 to 208.11 issued under sec. 11, 38 Stat. 262; 12 U. S. C. 248. Interpret or apply sec. 9, 38 Stat. 259, as amended, 49 Stat. 715, 64 Stat. 873; 12 U. S. C. 321–338, 486, 1814, 1816.

§ 208.1 *Definitions.* For the purposes of this part:

(a) The term "State bank" means any bank or trust company incorporated under a special or general law of a State or under a general law for the District of Columbia, any mutual savings bank (unless otherwise indicated), and any Morris Plan bank or other incorporated banking institution engaged in similar business.[1]

(b) The term "mutual savings bank" means a bank without capital stock transacting a savings bank business, the net earnings of which inure wholly to the benefit of its depositors after payment of obligations for any advances by its organizers, and in addition thereto includes any other banking institution the capital of which consists of weekly or other time deposits which are segregated from all other deposits and are regarded as capital stock for the purposes of taxation and the declaration of dividends.

(c) The term "Board" means the Board of Governors of the Federal Reserve System.

[1] Under the provisions of section 19 of the Federal Reserve Act, national banks, or banks organized under local laws, located in Alaska or in a dependency or insular possession or any part of the United States outside the continental United States are not required to become members of the Federal Reserve System but may, with the consent of the Board, become members of the System. However, this Part 208 is applicable only to the admission of banks eligible for admission to membership under section 9 of the Federal Reserve Act and does not cover the admission of banks eligible under section 19 of the act. Any bank desiring to be admitted to the System under the provisions of section 19 should communicate with the Federal Reserve Bank with which it desires to do business.

(d) The term "board of directors" means the governing board of any institution performing the usual functions of a board of directors.

(e) The term "Federal Reserve Bank stock" includes the deposit which may be made with a Federal Reserve Bank in lieu of a subscription for stock by a mutual savings bank which is not permitted to purchase stock in a Federal Reserve Bank, unless otherwise indicated.

(f) The terms "capital" and "capital stock" mean common stock, preferred stock, and legally issued capital notes and debentures purchased by the Reconstruction Finance Corporation which may be considered capital and capital stock for purposes of membership in the Federal Reserve System under the provisions of section 9 of the Federal Reserve Act.

§ 208.2 *Eligibility requirements.* (a) Under the terms of section 9 of the Federal Reserve Act, as amended, to be eligible for admission to membership in the Federal Reserve System:

(1) A State bank, other than a mutual savings bank, must possess capital stock and surplus which, in the judgment of the Board, are adequate in relation to the character and condition of its assets and to its existing and prospective deposit liabilities and other corporate responsibilities: *Provided*, That no bank engaged in the business of receiving deposits other than trust funds, which does not possess capital stock and surplus in an amount equal to that which would be required for the establishment of a national banking association in the place in which it is located, shall be admitted to membership unless it is, or has been, approved for deposit insurance under the Federal Deposit Insurance Act.

(2) A mutual savings bank must possess surplus and undivided profits not less than the amount of capital required for the organization of a national bank in the place where it is situated.

(b) The minimum capital required for the organization of a national bank, referred to hereinbefore in connection with the capital required for admission to membership in the Federal Reserve System, is as follows:

	Minimum capital
If located in a city or town with a population:	
Not exceeding 6,000 inhabitants	$50,000
Exceeding 6,000 but not exceeding 50,000 inhabitants	100,000
Exceeding 50,000 inhabitants (except as stated below)	200,000
In an outlying district of a city with a population exceeding 50,000 inhabitants; provided State law permits organization of State banks in such location with a capital of $100,000 or less	100,000

With certain exceptions not here applicable, a national bank must have surplus equal to 20 percent of its capital in order to commence business.

§ 208.3 *Insurance of deposits.* Any State bank becoming a member of the Federal Reserve System which is engaged in the business of receiving deposits other than trust funds and which is not at the time an insured bank under the provisions of the Federal Deposit Insurance Act, will become an insured bank under the provisions of that Act on the date upon which it becomes a member of the Federal Reserve System.[2] In the case of an insured bank which is admitted to membership in the Federal Reserve System, the bank will continue to be an insured bank.

§ 208.4 *Application for membership*—(a) *State bank, other than a mutual savings bank.* A State bank, other than a mutual savings bank, applying for membership, shall make application on Form F. R. 83A to the Board for an amount of capital stock in the Federal Reserve Bank of its district equal to six percent of the paid-up capital stock and surplus of the applying institution.

(b) *Mutual savings bank.* A mutual savings bank applying for membership shall make application on Form F. R. 83B to the Board for an amount of capital stock in the Federal Reserve Bank of its district equal to six-tenths of one percent of its total deposit liabilities as shown by the most recent report of examination of such institution preceding its admission to membership, or, if such institution be not permitted by the laws under which it was organized to purchase stock in a Federal Reserve Bank, on Form F. R. 83C, for permission to deposit with the Federal Reserve Bank an amount equal to the amount which it would have been required to pay in on account of a subscription to capital stock.

(c) *Mutual savings bank which is not authorized to purchase stock of Federal Reserve Bank at time of admission.* If a mutual savings bank be admitted to membership on the basis of a deposit of the required amount with the Federal Reserve Bank in lieu of payment upon capital stock because the laws under which such bank was organized do not at that time authorize it to purchase stock in the Federal Reserve Bank, it shall subscribe on Form F. R. 83D for the appropriate amount of stock in the Federal Reserve Bank whenever such laws are amended so as to authorize it to purchase stock in a Federal Reserve Bank.[3]

[2] In the case of a State bank which is engaged in the business of receiving deposits other than trust funds and which at the time of its admission to membership in the Federal Reserve System is not an insured bank, the Board is required under the provisions of sections 4 and 6 of the Federal Deposit Insurance Act to issue a certificate to the Federal Deposit Insurance Corporation to the effect that the bank is a member of the Federal Reserve System and that consideration has been given to the financial history and condition of the bank, the adequacy of its capital structure, its future earnings prospects, the general character of its management, the convenience and needs of the community to be served by the bank, and whether or not its corporate powers are consistent with the purposes of the Federal Deposit Insurance Act.

[3] The Federal Reserve Act provides that, if the laws under which any such savings bank was organized be not amended at the the first session of the legislature following the admission of the savings bank to membership so as to authorize mutual savings bank to purchase Federal Reserve Bank stock, or if such laws be so amended and the bank fail within six months thereafter to purchase such stock, all of its rights and privileges as a member bank shall be forfeited and its membership in the Federal Reserve System shall be terminated in the manner prescribed in section 9 of the Federal Reserve Act.

[4] In the case of a mutual savings bank which is not permitted by the laws under which it was organized to purchase stock in a Federal Reserve Bank, it shall deposit with the Federal Reserve Bank an amount equal to the amount which it would have been required to pay in on account of a subscription to capital stock.

(d) *Execution and filing of application.* Each application made under the provisions of this section and the exhibits referred to in the application blank shall be executed and filed, in duplicate, with the Federal Reserve Bank of the district in which the applying bank is located.

§ 208.5 *Approval of application*—(a) *Matters given special consideration by Board.* In passing upon an application, the following matters will be given special consideration:

(1) The financial history and condition of the applying bank and the general character of its management;

(2) The adequacy of its capital structure in relation to the character and condition of its assets and to its existing and prospective deposit liabilities and other corporate responsibilities; and its future earnings prospects;

(3) The convenience and needs of the community to be served by the bank; and

(4) Whether its corporate powers are consistent with the purposes of the Federal Reserve Act.

(b) *Procedure for admission to membership after approval of application.* If an applying bank conforms to all the requirements of the Federal Reserve Act and this part and is otherwise qualified for membership, its application will be approved subject to such conditions as may be prescribed pursuant to the provisions of the Federal Reserve Act. When the conditions prescribed have been accepted by the applying bank, it should pay to the Federal Reserve Bank of its district one-half of the amount of its subscription and, upon receipt of advice from the Federal Reserve Bank as to the required amount, one-half of one percent of its paid-up subscription for each month from the period of the last dividend.[4] The remaining half of the bank's subscription shall be subject to call when deemed necessary by the Board. The bank's membership in the Federal Reserve System shall become effective on the date as of which a certificate of stock of the Federal Reserve Bank is issued to it pursuant to its application for membership or, in the case of a mutual savings bank which is not authorized to subscribe for stock, on the date as of which a certificate representing the acceptance of a deposit with the Federal Reserve Bank in place of a payment on account of a subscription to stock is issued to it pursuant to its application for membership.

§ 208.6 *Privileges and requirements of membership.* Every State bank while

a member of the Federal Reserve System—

(a) Shall retain its full charter and statutory rights subject to the provisions of the Federal Reserve Act and other acts of Congress applicable to member State banks, to the regulations of the Board made pursuant to law, and to the conditions prescribed by the Board and agreed to by such bank prior to its admission;

(b) Shall enjoy all the privileges and observe all the requirements of the Federal Reserve Act and other acts of Congress applicable to member State banks and of the regulations of the Board made pursuant to law which are applicable to member State banks;

(c) Shall comply at all times with any and all conditions of membership prescribed by the Board in connection with the admission of such bank to membership in the Federal Reserve System; and

(d) Shall not reduce its capital stock except with the prior consent of the Board.[6]

§ 208.7 *Conditions of membership.* (a) Pursuant to the authority contained in the first paragraph of section 9 of the Federal Reserve Act, which authorizes the Board to permit applying State banks to become members of the Federal Reserve System "subject to the provisions of this act and to such conditions as it may prescribe pursuant thereto," the Board, except as hereinafter stated, will prescribe the following conditions of membership for each State bank hereafter applying for admission to the Federal Reserve System, and, in addition, such other conditions as may be considered necessary or advisable in the particular case:

(1) Such bank at all times shall conduct its business and exercise its powers with due regard to the safety of its depositors, and, except with the permission of the Board of Governors of the Federal Reserve System, such bank shall not cause or permit any change to be made in the general character of its business or in the scope of the corporate powers exercised by it at the time of admission to membership.[6]

(2) The net capital and surplus funds of such bank shall be adequate in relation to the character and condition of its assets and to its deposit liabilities and other corporate responsibilities.

(b) The acquisition by a member State bank of the assets of another institution through merger, consolidation, or purchase may result in a change in the general character of its business or in the scope of its corporate powers within the meaning of the condition set forth in subparagraph (1) of this paragraph, and if at any time a bank subject to such condition anticipates making any such acquisition a detailed report setting forth all the facts in connection with the transaction shall be made promptly to the Federal Reserve Bank of the district in which such bank is located.

(c) If at any time, in the light of all the circumstances, the aggregate amount of a member State bank's net capital and surplus funds appears to be inadequate, the bank within such period as shall be deemed by the Board to be reasonable for this purpose, shall increase the amount thereof to an amount which in the judgment of the Board shall be adequate in relation to the character and condition of its assets and to its deposit liabilities and other corporate responsibilities.

§ 208.8 *Establishment or maintenance of branches*—(a) *In general.* Every State bank which is or hereafter becomes a member of the Federal Reserve System is subject to the provisions of section 9 of the Federal Reserve Act relating to the establishment and maintenance of branches[7] in the United States or in a dependency or insular possession thereof or in a foreign country. Under the provisions of section 9, member State banks establishing and operating branches in the United States beyond the corporate limits of the city, town, or village in which the parent bank is situated must conform to the same terms, conditions, limitations, and restrictions as are applicable to the establishment of branches by national banks under the provisions of section 5155 of the Revised Statutes of the United States relating to the establishment of branches in the United States, except that the approval of any such branches must be obtained from the Board rather than from the Comptroller of the Currency. The approval of the Board must likewise be obtained before any member State bank establishes any branch after July 15, 1952, within the corporate limits of the city, town, or village in which the parent bank is situated (except within the District of Columbia). Under the provisions of section 9, member State banks establishing and operating branches in a dependency or insular possession of the United States or in a foreign country must conform to the terms, conditions, limitations, and restrictions contained in section 25 of the Federal Reserve Act relating to the establishment by national banks of branches in such places.

(b) *Branches in the United States.* (1) Before a member State bank establishes a branch (except within the District of Columbia), it must obtain the approval of the Board.

(2) Before any nonmember State bank having a branch or branches established after February 25, 1927, beyond the corporate limits of the city, town, or village in which the bank is situated is admitted to membership in the Federal Reserve System, it must obtain the approval of the Board for the retention of such branches.

(3) A member State bank located in a State which by statute law permits the maintenance of branches within county or greater limits may, with the approval of the Board, establish and operate, without regard to the capital requirements of section 5155 of the Revised Statutes, a seasonal agency in any resort community within the limits of the county in which the main office of such bank is located for the purpose of receiving and paying out deposits, issuing and cashing checks and drafts, and doing business incident thereto, if no bank is located and doing business in the place where the proposed agency is to be located; and any permit issued for the establishment of such an agency shall be revoked upon the opening of a State or national bank in the community where the agency is located.

(4) Except as stated in paragraph (b) (3) of this section, in order for a member State bank to establish a branch beyond the corporate limits of the city, town, or village in which it is situated, the aggregate capital stock of the member State bank and its branches shall at no time be less than the aggregate minimum capital stock required by law for the establishment of an equal number of national banking associations situated in the various places where such member State bank and its branches are situated.[8]

(5) A member State bank may not establish a branch beyond the corporate limits of the city, town, or village in which it is situated unless such establishment and operation are at the time authorized to State banks by the statute law of the State in question by language specifically granting such authority affirmatively and not merely by implication or recognition.

(6) Any member State bank which, on February 25, 1927, had established and was actually operating a branch or branches in conformity with the State law is permitted to retain and operate the same while remaining a member of the Federal Reserve System, regardless of the location of such branch or branches.

(7) The removal of a branch of a member State bank from one town to another town constitutes the establishment of a branch in such other town and, accordingly, requires the approval of the Board. The removal of a branch of a member State bank from one location in a town to another location in the same town will require the approval of the Board if the circumstances of the removal are such that the effect thereof is to constitute the establishment of a new branch as distinguished from the mere relocation of an existing branch in the immediate neighborhood without affecting the nature of its business or customers served.

(c) *Application for approval of branches in United States.* Any member State bank desiring to establish a branch should submit a request for the approval by the Board of any such branch to the Federal Reserve Bank of the district in which the bank is located. Any nonmember State bank applying for membership and desiring to retain any branch established after February 25, 1927, beyond the corporate limits of the city, town, or village in which the bank is situated should submit a similar request. Any such request should be accompanied by advice as to the scope of the functions and the character of the business which are or will be performed by the branch and detailed information regarding the policy followed or proposed to be followed with reference to supervision of the branch by the head office; and the bank may be required in any case to furnish additional information which will be helpful to the Board in determining whether to approve such request.

(d) *Foreign branches.* Before a member State bank establishes a branch in a foreign country, or dependency or insular possession of the United States, it must have a capital and surplus of $1,000,000 or more and obtain the approval of the Board.

(e) *Application for approval of foreign branches.* Any member State bank desiring to establish such a branch and any nonmember State bank applying for membership and desiring to retain any such branch established after February 25, 1927, should submit a request for the approval by the Board of any such branch to the Federal Reserve Bank of the district in which the bank is located. Any such request should be accompanied by advice as to the scope of the functions and the character of the business which are or will be performed by the branch and detailed information regarding the policy followed or proposed to be followed with reference to supervision of the branch by the head office; and the bank may be required in any case to furnish additional information which will be helpful to the Board in determining whether to approve such request.

[6] This applies to capital stock of all classes and to capital notes and debentures legally issued and purchased by the Reconstruction Finance Corporation which, under the Federal Reserve Act, are considered as capital stock for purposes of membership.

[6] For many years, the Board prescribed, as standard conditions of membership, a condition which, in general, prohibited banks from engaging as a business in the sale of real estate loans to the public and certain conditions relating to the exercise of trust powers, including one which prohibited self-dealing in the investment of trust funds. The elimination of these conditions as standard conditions of membership does not reflect any change in the Board's position as to the undesirability of the practices formerly prohibited by such conditions; and attention is called to the fact that engaging as a business in the sale of real estate loans to the public or failing to conduct trust business in accordance with the applicable State laws and sound principles of trust administration may constitute unsafe or unsound practices and violate the condition set forth in this subparagraph.

[7] Section 5155 of the Revised Statutes of the United States provides that: "(f) The term 'branch' as used in this section shall be held to include any branch bank, branch office, branch agency, additional office, or any branch place of business located in any State or territory of the United States or in the District of Columbia at which deposits are received, or checks paid, or money lent."

[8] The requirement of this paragraph is met if the aggregate capital stock of a member State bank having branches is not less than the total amount of capital stock which would be required for the establishment of one national bank in each of the places in which the head office and branches of the member State bank are located, irrespective of the number of offices which the bank may have in any such place. There are no additional capital requirements for additional branches within the city, town, or village in which the head office is located.

§ 208.9 *Publication of reports of member banks and their affiliates*[9]—(a) *Reports of member banks.* (1) Each report of condition made by a member State bank, which is required to be made to the Federal Reserve Bank of its district as of call dates fixed by the Board of Governors of the Federal Reserve System, shall be published by such member bank within twenty days from the date the call therefor is issued.

(2) The report shall be printed in a newspaper published in the place where the bank is located or, if there be no newspaper published in the place where the bank is located, then in a newspaper published in the same or in an adjoining county and in general circulation in the place where the bank is located. The term "newspaper", for the purpose of this part, means a publication with a general circulation published not less frequently than once a week, one of the primary functions of which is the dissemination of news of general interest.

(3) The copy of the report for the use of the printer for publication should be prepared on the form supplied or authorized for the purpose by the Federal Reserve Bank. The published information shall agree in every respect with that shown on the face of the condition report rendered to the Federal Reserve Bank, except that any item for which no amount is reported may be omitted in the published statement. All signatures shall be the same in the published statement as in the original report submitted to the Federal Reserve Bank, but the signatures may be typewritten or otherwise copied on the report for publication.

(4) A copy of the printed report shall be submitted to the Federal Reserve Bank attached to the certificate on the form supplied or authorized for the purpose by the Federal Reserve Bank.

(b) *Reports of affiliates.*[10] (1) Each report of an affiliate of a member State bank, including a holding company affiliate, shall be published at the same time and in the same newspaper as the affiliated bank's own condition report submitted to the Federal Reserve Bank, unless an extension of time for submission of the report of the affiliate has been granted under authority of the Board of Governors of the Federal Reserve System. When such extension of time has been granted, the report of the affiliate must be submitted and published before the expiration of such extended period in the same newspaper as the condition report of the bank was published.

(2) The copy of the report for the use of the printer for publication should be prepared on Form F. R. 220a. The published information shall agree in every respect with that shown on the face of the report of the affiliate furnished to the Federal Reserve Bank by the affiliated member bank, except that any item appearing under the caption "Financial relations with bank" against which the word "none" appears on the report furnished to the Federal Reserve Bank may be omitted in the published statement of the affiliate: *Provided*, That if the word "none" is shown against all of the items appearing under such caption in the report furnished to the Federal Reserve Bank the caption "Financial relations with bank" shall appear in the published statement followed by the word "none". All signatures shall be the same in the published statement as in the original report submitted to the Federal Reserve Bank, but the signatures may be typewritten or otherwise copied on the report for publication.

(3) A copy of the printed report shall be submitted to the Federal Reserve Bank attached to the certificate on Form F. R. 220a.

§ 208.10 *Voluntary withdrawal from Federal Reserve System*—(a) *General.* Any State bank desiring to withdraw from membership in a Federal Reserve Bank may do so after six months' written notice has been filed with the Board;[11] and the Board, in its discretion, may waive such six months' notice in any individual case and may permit such bank to withdraw from membership in a Federal Reserve Bank, subject to such conditions as the Board may prescribe, prior to the expiration of six months from the date of the written notice of its intention to withdraw.

[9] Under the provisions of section 9 of the Federal Reserve Act, reports of condition of member State banks which, under that section, must be made to the respective Federal Reserve Banks on call dates fixed by the Board of Governors of the Federal Reserve System "shall be published by the reporting banks in such manner and in accordance with such regulations as the said Board may prescribe".

Section 9 also provides that the reports of affiliates of a member State bank which are required by that section to be furnished to the respective Federal Reserve Banks "shall be published by the bank under the same conditions as govern its own condition reports". The term "affiliates", as used in this provision of section 9, under the express terms of that section, includes "holding company affiliates as well as other affiliates", but a member State bank is not required to furnish to a Federal Reserve Bank the report of an affiliated member bank.

[10] Section 21 of the Federal Reserve Act, among other things, provides as follows: "whenever member banks are required to obtain reports from affiliates, or whenever affiliates of member banks are required to submit to examination, the Board of Governors of the Federal Reserve System or the Comptroller of the Currency, as the case may be, may waive such requirements with respect to any such report or examination of any affiliate if in the judgment of the said Board or Comptroller, respectively, such report or examination is not necessary to disclose fully the relations between such affiliate and such bank and the effect thereof upon the affairs of such bank." Therefore, of course, in any case where the Board of Governors waives the filing of a report of an affiliate of a member State bank, no publication of a report of such affiliate is required.

[11] Under specific provisions of section 9 of the Federal Reserve Act, however, no Federal Reserve Bank shall, except upon express authority of the Board, cancel within the same calendar year more than twenty-five per cent of its capital stock for the purpose of effecting voluntary withdrawals during that year. All applications for voluntary withdrawals are required by the law to be dealt with in the order in which they are filed with the Board.

(b) *Notice of intention of withdrawal.* (1) Any State bank desiring to withdraw from membership in a Federal Reserve Bank should signify its intention to do so, with the reasons therefor, in a letter addressed to the Board and mailed to the Federal Reserve Bank of which such bank is a member. Any such bank desiring to withdraw from membership prior to the expiration of six months from the date of written notice of its intention to withdraw should so state in the letter signifying its intention to withdraw and should state the reason for its desire to withdraw prior to the expiration of six months.

(2) Every notice of intention of a bank to withdraw from membership in the Federal Reserve System and every application for the waiver of such notice should be accompanied by a certified copy of a resolution duly adopted by the board of directors of such bank authorizing the withdrawal of such bank from membership in the Federal Reserve System and authorizing a certain officer or certain officers of such bank to file such notice or application, to surrender for cancellation the Federal Reserve Bank stock held by such bank, to receive and receipt for any moneys or other property due to such bank from the Federal Reserve Bank and to do such other things as may be necessary to effect the withdrawal of such bank from membership in the Federal Reserve System.

(3) Notice of intention to withdraw or application for waiver of six months' notice of intention to withdraw by any bank which is in the hands of a conservator or other State official acting in a capacity similar to that of a conservator should be accompanied by advice from the conservator or other such State official that he joins in such notice or application.

(c) *Time and method of effecting actual withdrawal.* Upon the expiration of six months after notice of intention to withdraw or upon the waiving of such six months' notice by the Board, such bank may surrender its stock and its certificate of membership to the Federal Reserve Bank and request that same be canceled and that all amounts due to it from the Federal Reserve Bank be refunded.[12] Unless withdrawal is thus effected within eight months after notice of intention to withdraw is first given, or unless the bank requests and the Board grants an extension of time, such bank will be presumed to have abandoned its intention of withdrawing from membership and will not be permitted to withdraw without again giving six months' written notice or obtaining the waiver of such notice.

(d) *Withdrawal of notice.* Any bank which has given notice of its intention to withdraw from membership in a Federal Reserve Bank may withdraw such notice at any time before its stock has been canceled and upon doing so may remain a member of the Federal Reserve System. The notice rescinding the former notice should be accompanied by a certified copy of an appropriate resolution duly adopted by the board of directors of the bank.

§ 208.11 *Board forms.* All forms referred to in this part and all such forms as they may be amended from time to time shall be a part of the regulations in this part.

The purpose of these amendments is to make this part conform to recent changes in the law relating to capital requirements for admission of State banks to membership in the Federal Reserve System and to the capital requirements for the establishment of branches by State member banks.

The notice, public participation, and deferred effective date described in section 4 of the Administrative Procedure Act are not followed in connection with these amendments for the reasons and good cause found, as stated in § 262.2 (e) of the Board's Rules of Procedure (Part 262), and especially because such procedures are unnecessary as they would not aid the persons affected and would serve no other useful purpose.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

[F. R. Doc. 52–9621; Filed, Sept. 3, 1952; 8:46 a. m.]

[12] A bank's withdrawal from membership in the Federal Reserve System is effective on the date on which the Federal Reserve Bank stock held by it is duly canceled. Until such stock has been canceled, such bank remains a member of the Federal Reserve System, is entitled to all the privileges of membership, and is required to comply with all provisions of law and all regulations of the Board pertaining to member banks and with all conditions of membership applicable to it. Upon the cancellation of such stock, all rights and privileges of such bank as a member bank shall terminate.

Upon the cancellation of such stock, and after due provision has been made for any indebtedness due or to become due to the Federal Reserve Bank, such bank shall be entitled to a refund of its cash paid subscription with interest at the rate of one-half of one percent per month from the date of last dividend, the amount refunded in no event to exceed the book value of the stock at that time, and shall likewise be entitled to the repayment of deposits and of any other balance due from the Federal Reserve Bank.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5025]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

ALEXANDER AUERBACH, ETC.

Subpart—*Misbranding or mislabeling:* § 3.1190 *Composition: Wool Products Labeling Act;* § 3.1325 *Source or origin—Wool Products Labeling Act.* Subpart—*Misrepresenting oneself and goods—Goods:* § 3.1590 *Composition;* § 3.1685 *Nature.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1845 *Composition—Wool Products Labeling Act;* § 3.1900 *Source or origin: Wool Products Labeling Act.* Subpart—*Offering, unfair, improper and deceptive inducements to purchase or deal:* § 3.2063 *Scientific or relevant facts.* Subpart—*Using misleading name—Vendor:* § 3.2365 *Concealed subsidiary or "alter ego".* I. In connection with the offering for sale, sale or distribution in commerce, as defined in the Federal Trade Commission Act, of fibrous stock composed in whole or in part of fibers reclaimed from wool rags, clippings or other wool waste which have been reclaimed or reworked, (1) using the term "wool" to designate, describe or otherwise refer to such reclaimed or reworked fibers unless such fibers are "wool," as the term is defined in the Wool Products Labeling Act of 1939; (2) using the term "reprocessed wool" to designate, describe or otherwise refer to such reclaimed and reworked fibers unless such fibers are "reprocessed wool," as the term is defined in the Wool Products Labeling Act of 1939; (3) representing, directly or by implication, that fibrous stock composed in whole or in part of fibers reclaimed from wool rags, clippings, or other waste which have been reclaimed and reworked, is or may be described or identified as "wool" under the provisions of the Wool Products Labeling Act of 1939, except to the extent which it contains constituent fibers of "wool" as defined in said act, or is or may be described as "reprocessed wool" except to the extent which it contains constituent fibers of "wool" or "reprocessed wool" as defined therein; or, (4) misrepresenting or concealing, through the use of fictitious names or otherwise, the identity of respondent or his business; and, II, in connection with the introduction or manufacture for introduction into commerce, or the sale, transportation, or distribution in commerce, as defined in the Federal Trade Commission and Wool Products Labeling Acts, misbranding "shoddy" or other "wool products", as defined in and subject to said Wool Products Labeling Act of 1939, which contain, purport to contain, or in any way are represented as containing "wool," "reprocessed wool," or "reused wool," as those terms are defined in said act, by failing to securely affix to or place on each of such products a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner; (a) the percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five per centum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five per centum or more, and (5) the aggregate of all other fibers; (b) the maximum percentage of the total weight of such wool product of any non-fibrous loading, filling or adulterating matter; and, (c) the name of the manufacturer of such wool product, or the manufacturer's registered identification number and the name of a seller of such wool product, or the name of one or more persons introducing such wool product into commerce, or engaged in the sale, transportation, or distribution thereof in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939; prohibited, subject to the provision, however, that nothing contained in prohibitions (1) and (2) of Part I shall be construed as in any way restricting, enlarging or altering the applicability of the provisions of the Wool Products Labeling Act of 1939 and the rules and regulations promulgated thereunder to respondent or his products; and to the further qualification that the above provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and to the further provision, that nothing contained in the order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

(Sec. 6, 38 Stat. 722, sec. 6, 54 Stat. 1131; 15 U. S. C. 46, 68d. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U. S. C. 45, 68–68c) [Modified cease and desist order, Alexander Auerbach, etc., Brooklyn, N. Y., Docket 5025, June 2, 1952]

In the Matter of Alexander Auerbach, an Individual Trading in His Own Name and as Frank Corwin, Frank Corwin Company, Frank Cohen, David Demerer and Hanover Wool Stock Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admitted all the material allegations of fact set forth in the complaint and waived all intervening procedure and further hearing as to said facts, and the Commission, having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act, and the provisions of the Wool Products Labeling Act of 1939, on April 18, 1944, issued and subsequently served upon the respondent said findings as to the facts, conclusion and its order to cease and desist.

Thereafter, this matter came on for reconsideration by the Commission upon a motion by counsel for the Commission's Bureau of Antideceptive Practices to reopen this proceeding for the purpose of altering in certain respects the order to cease and desist herein, an affidavit as to certain facts alleged in said motion, a reply opposing said motion by counsel for respondent and an affidavit by respondent to the matters set out in said reply; and the Commission having reconsidered the matter and being of the opinion that the order to cease and desist should be so modified, and having granted said motion to reopen and alter the order to cease and desist:

It is ordered, That the respondent, Alexander Auerbach, individually and trading in his own name or as Frank Corwin, Frank Corwin Company, David Demerer or Hanover Wool Stock Company, or trading under any other name, his agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of fibrous stock composed in whole or in part of fibers reclaimed from woolen rags, clippings or other wool waste which have been reclaimed and reworked, do forthwith cease and desist from:

(1) Using the term "wool" to designate, describe or otherwise refer to such reclaimed or reworked fibers unless such fibers are "wool", as the term is defined in the Wool Products Labeling Act of 1939.

(2) Using the term "reprocessed wool" to designate, describe or otherwise refer to such reclaimed and reworked fibers unless such fibers are "reprocessed wool", as the term is defined in the Wool Products Labeling Act of 1939:

Provided, however, That nothing herein contained shall be construed as in any way restricting, enlarging or altering the applicability of the provisions of the Wool Products Labeling Act of 1939 and the rules and regulations promulgated thereunder to respondent or his products.

(3) Representing, directly or by implication, that fibrous stock composed in whole or in part of fibers reclaimed from woolen rags, clippings, or other wool waste which have been reclaimed and reworked, is or may be described or identified as "wool" under the provisions of the Wool Products Labeling Act of 1939, except to the extent which it contains constituent fibers of "wool" as defined in said act, or is or may be described as "reprocessed wool" except to the extent which it contains constituent fibers of "wool" or "reprocessed wool" as defined therein.

(4) Misrepresenting or concealing, through the use of fictitious names or otherwise, the identity of respondent or his business.

It is further ordered, That the respondent, Alexander Auerbach, individually and trading in his own name and as Frank Corwin, Frank Corwin Company, Frank Cohen, David Demerer, and Hanover Wool Stock Company, or trading under any other name, and his representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the sale, transportation, or distribution in commerce, as "commerce" is defined in the aforesaid acts, do forthwith cease and desist from misbranding "shoddy" or other "wool products", as defined in and subject to the Wool Products Labeling Act of 1939, which contain, purport to contain, or in any way are represented as containing "wool", "reprocessed wool", or "reused wool", as those terms are defined in said act, by failing to securely affix to or place on each of such products a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers.

(b) The maximum percentage of the total weight of such wool product of any nonfibrous loading, filling, or adulterating matter.

(c) The name of the manufacturer of such wool product, or the manufacturer's registered identification number and the name of a seller of such wool product, or the name of one or more persons introducing such wool product into commerce, or engaged in the sale, transportation, or distribution thereof in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939:

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939: *And provided, further*, That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

Issued: June 2, 1952.

By the Commission.

[SEAL] D. C. DANIEL,
Secretary.

[Docket 5525]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

BORK MANUFACTURING CO., INC., ET AL.

Subpart—*Using or selling lottery devices:* § 3.2475 *Devices for lottery selling.* Selling or distributing in commerce, punch boards, push cards, or other lottery devices, which are to be used in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Modified cease and desist order, Bork Manufacturing Co., Inc., et al., Brooklyn, N. Y., Docket 5525, June 2, 1952]

In the Matter of Bork Manufacturing Co., Inc., a Corporation, and Alvin Borkin, an Individual and President of Bork Manufacturing Co., Inc.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the respondents' substituted answer (no brief having been filed by the respondents); and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act, and having issued an order to cease and desist; and

Respondents Bork Manufacturing Co., Inc., a corporation, and Alvin Borkin, individually and as President of such corporation, having filed in the United States Court of Appeals for the Ninth Circuit their petition to review and set aside the order to cease and desist issued herein, and that Court having heard the matter on briefs and oral argument, having fully considered the matter, and having, thereafter, on February 5, 1952, entered its final decree modifying and

affirming and enforcing, as modified, the aforesaid order to cease and desist pursuant to its opinion announced on February 5, 1952; and

Thereafter, the Commission having reconsidered the matter, and being of the opinion that its order should be modified so as to accord with the aforesaid opinion and final decree of the United States Court of Appeals for the Ninth Circuit:

It is hereby ordered, That the respondents, Bork Manufacturing Co., Inc., a corporation, and Alvin Borkin, individually and as President of such corporation, and their officers, agents, representatives, and employees, directly or through any corporate or other device, do forthwith cease and desist from:

Selling or distributing in commerce, as "commerce" is defined in the Federal Trade Commission Act, punch boards, push cards, or other lottery devices, which are to be used in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme.

It is further ordered, That within the period of time allowed by the aforesaid final decree of the United States Court of Appeals for the Ninth Circuit, the respondents shall file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

Issued: June 2, 1952.

By the Commission.

[Docket 5959]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

ELMO CO., INC.

Subpart—*Advertising falsely or misleadingly:* § 3.90 *History of product or offering;* § 3.170 *Qualities or properties of product or service;* § 3.195 *Safety;* § 3.205 *Scientific or other relevant facts.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1890 *Safety.* I. In connection with the offering for sale, sale and distribution of respondent's preparations known as Elmo Ear Oil No. 1, Elmo Nasal Cleanser No. 2, Elmo Throat Gargle No. 3, Elmo Vapor Inhaler No. 4, Elmo Massage Ointment No. 5, Elmo Nasal Ointment No. 6, Elmo Recharge Liquid No. 9, or any preparations of substantially similar composition or of substantially similar properties; and of respondent's Elmo No. 8 Ear-Vibrator, or any device of substantially similar composition and operation, whether sold under the same name or any other name; (1) disseminating, etc., any advertisments by means of the United States mails, or in commerce, or by any means to induce, etc., directly or indirectly, the purchase in commerce, etc., of said preparations and device, which represent, directly or through inference, (a) that the use of respondent's preparations and device, singly or in combination, as directed, or otherwise, will have any beneficial effect upon deafness not caused by a catarrhal condition of the nose, ear or air passages; (b) that such use will have any beneficial effect in the treatment of deafness, impaired hearing, or head or ear noises caused by discharging catarrh, in excess of affording temporary relief therefrom; (c) that the effects of its preparations in the treatment of deafness or impaired hearing or head or ear noises due to dry catarrh is in excess of softening of the dry exudates, or that any benefit can be expected by reason of this action of respondent's preparations in the treatment of conditions caused by dry catarrh of the ear canal unless the softened exudates are removed by other means; (d) that said preparations and device constitute a method of treatment based upon the findings of accepted medical authorities; (e) that catarrh is the most common cause of deafness; or, (f) that Elmo Ear Oil No. 1 or Elmo No. 8 Ear-Vibrator are harmless or may be used without ill effects; (2) disseminating, etc., any advertisements, etc., which fail to reveal, as respects said Elmo Ear Oil No. 1, that the cotton on which the product is used should not be pushed into the ear so far that it cannot be easily removed with the fingers, and that when infection is present, the use of cotton in connection with said product when pushed deeply into the ear may result in injury to the ear, including the extension of any infection therein present into the deeper structures of the ear; and, (3) disseminating, etc., any advertisements, etc., which fail to reveal, as respects said "Ear-Vibrator", that, when infection is present in the ear, the use of said device may result in extending such infection into the deeper structures of the ear and in serious injury; and, II, in connection with the offering for sale, sale and distribution of the booklet "Diet—Vitamins and Minerals", in commerce, representing that head colds may be prevented by selecting and eating foods which are listed in said booklet as being high in Vitamin A content; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, The Elmo Company, Inc., Davenport, Ia., Docket 5959, June 10, 1952]

In the Matter of The Elmo Company, Inc.

This proceeding was instituted by complaint which charged respondent with the use of unfair and deceptive acts and practices in violation of the provisions of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice", dated June 17, 1952, through the consent settlement procedure provided in Rule V of the Commission's rules of practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith,[1] was accepted by the Commission on June 10, 1952 and ordered entered of record as the Commission's findings as to the facts,[1] conclusion,[1] and order in disposition of this proceeding.

[1] Filed as part of the original document.

The time for filing report of compliance pursuant to the aforesaid order runs from the date of service hereof.

Said order, to cease and desist, thus entered of record, following the findings as to the facts and conclusion, reads as follows:

It is ordered, That the respondent, The Elmo Company, Inc., a corporation, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of its preparations known as Elmo Ear Oil No. 1, Elmo Nasal Cleanser No. 2, Elmo Throat Gargle No. 3, Elmo Vapor Inhaler No. 4, Elmo Massage Ointment No. 5, Elmo Nasal Ointment No. 6, Elmo Recharge Liquid No. 9, or any preparations of substantially similar composition or possessing substantially similar properties, and Elmo No. 8 Ear-Vibrator, or any device of substantially similar construction and operation whether sold under the same name or any other name, do forthwith cease and desist from, directly or indirectly,

1. Disseminating or causing to be disseminated any advertisement (a) by means of the United States mails or (b) by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of said preparations and device, which advertisement represents, directly or through inference:

(a) That the use of its preparations and device, singly or in combination, as directed, or otherwise, will have any beneficial effect upon deafness not caused by a catarrhal condition of the nose, ear or air passages.

(b) That the use of its preparations and device, singly or in combination, as directed, or otherwise, will have any beneficial effect in the treatment of deafness, impaired hearing, or head or ear noises caused by discharging catarrh, in excess of affording temporary relief therefrom.

(c) That the effects of its preparations in the treatment of deafness or impaired hearing or head or ear noises due to dry catarrh is in excess of softening of the dry exudates, or that any benefit can be expected by reason of this action of respondent's preparations in the treatment of conditions caused by dry catarrh of the ear canal unless the softened exudates are removed by other means.

(d) That said preparations and device constitute a method of treatment based upon the findings of accepted medical authorities.

(e) That catarrh is the most common cause of deafness.

(f) That Elmo Ear Oil No. 1 or Elmo No. 8 Ear-Vibrator are harmless or may be used without ill effects.

2. Disseminating or causing to be disseminated any advertisement (a) by means of the United States mails or (b) by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of respondent's aforesaid Elmo Ear Oil No. 1, which advertisement fails to reveal that the cotton on which the product is used should not be pushed into the ear so far that it cannot be easily removed with the fingers, and that when infection is present, the use of cotton in connection with said product when pushed deeply into the ear may result in injury to the ear, including the extension of any infection therein present into the deeper structures of the ear.

3. Disseminating or causing to be disseminated any advertisement (a) by means of the United States mails or (b) by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of Elmo No. 8 Ear-Vibrator, which advertisement fails to reveal that, when infection is present in the ear, the use of this device may result in extending such infection into the deeper structures of the ear and in serious injury.

4. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of said preparations and device in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any representations prohibited in paragraph 1 hereof, or which fails to comply with the affirmative requirement set forth in paragraphs 2 and 3 hereof.

It is further ordered, That respondent, The Elmo Company, Inc., a corporation, its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of the booklet "Diet—Vitamins and Minerals" in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

Representing that head colds may be prevented by selecting and eating foods which are listed in said booklet as being high in Vitamin A content.

It is further ordered, That the respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: June 17, 1952.

By direction of the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Correction

In F. R. Doc. 52-9496, appearing at page 7885 of the issue for Friday, August 29, 1952, the following change should be made:

In the amendatory language of item 4b, "Section 146.5 (c) (1) (v)" should read "Section 146.45 (c) (1) (v)".

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.162]

PART 51—PASSPORTS

SUBPART B—REGULATIONS OF THE SECRETARY OF STATE

LIMITATIONS ON ISSUANCE OF PASSPORTS; NOTIFICATION AND APPEAL

Pursuant to the authority vested in me by paragraph 126 of Executive Order No. 7856, issued on March 31, 1938 (3 F. R. 681; 22 CFR 51.77), under authority of section 1 of the act of Congress approved July 3, 1926 (44 Stat. 887; 22 U. S. C. 211 (a)), the regulations issued on March 31, 1938 (Departmental Order 749) as amended (22 CFR 51.101 to 51.134) are hereby further amended by the addition of new §§ 51.135 to 51.143 as follows:

Sec.

51.135 Limitations on issuance of passports to persons supporting Communist movement.

51.136 Limitations on issuance of passports to persons likely to violate laws of the United States.

51.137 Notification to person whose passport application is tentatively disapproved.

51.138 Appeal by passport applicant.

51.139 Creation and functions of Board of Passport Appeals.

51.140 Duty of Board to advise Secretary of State on action for disposition of appealed cases.

51.141 Bases for findings of fact by Board.

51.142 Oath or affirmation by applicant as to membership in Communist Party.

51.143 Applicability of §§ 51.135 to 51.142.

AUTHORITY: §§ 51.135 to 51.143 issued under sec. 1, 44 Stat. 887; 22 U. S. C. 211a.

§ 51.135 *Limitations on issuance of passports to persons supporting Communist movement.* In order to promote the national interest by assuring that persons who support the world Communist movement of which the Communist Party is an integral unit may not, through use of United States passports, further the purposes of that movement, no passport, except one limited for direct and immediate return to the United States, shall be issued to:

(a) Persons who are members of the Communist Party or who have recently terminated such membership under such circumstances as to warrant the conclusion—not otherwise rebutted by the evidence—that they continue to act in furtherance of the interests and under the discipline of the Community Party;

(b) Persons, regardless of the formal state of their affiliation with the Communist Party, who engage in activities which support the Communist movement under such circumstances as to warrant the conclusion—not otherwise rebutted by the evidence—that they have engaged in such activities as a result of direction, domination, or control exercised over them by the Communist movement.

(c) Persons, regardless of the formal state of their affiliation with the Communist Party, as to whom there is reason to believe, on the balance of all the evidence, that they are going abroad to engage in activities which will advance the Communist movement for the purpose, knowingly and wilfully of advancing that movement.

§ 51.136 *Limitations on issuance of passports to persons likely to violate laws of the United States.* In order to promote the national interest by assuring that the conduct of foreign relations shall be free from unlawful interference, no passport, except one limited for direct and immediate return to the United States, shall be issued to persons as to whom there is reason to believe, on the balance of all the evidence, that they are going abroad to engage in activities while abroad which would violate the laws of the United States, or which if carried on in the United States would violate such laws designed to protect the security of the United States.

§ 51.137 *Notification to person whose passport application is tentatively disapproved.* A person whose passport application is tentatively disapproved under the provisions of § 51.135 or § 51.136 will be notified in writing of the tentative refusal, and of the reasons on which it is based, as specifically as in the judgment of the Department of State security considerations permit. He shall be entitled, upon request, and before such refusal becomes final, to present his case and all relevant information informally to the Passport Division. He shall be entitled to appear in person before a hearing officer of the Passport Division, and to be represented by counsel. He will, upon request, confirm his oral statements in an affidavit for the record. After the applicant has presented his case, the Passport Division will review the record, and after consultation with other interested offices, advise the applicant of the decision. If the decision is adverse, such advice will be in writing and shall state the reasons on which the decision is based as specifically as within the judgment of the Department of State security limitations permit. Such advice shall also inform the applicant of his right to appeal under § 51.138.

§ 51.138 *Appeal by passport applicant.* In the event of a decision adverse to the applicant, he shall be entitled to appeal his case to the Board of Passport Appeals provided for in § 51.139.

§ 51.139 *Creation and functions of Board of Passport Appeals.* There is hereby established within the Department of State a Board of Passport Appeals, hereinafter referred to as the Board, composed of not less than three officers of the Department to be designated by the Secretary of State. The Board shall act on all appeals under § 51.138. The Board shall adopt and make public its own rules of procedure, to be approved by the Secretary, which shall provide that its duties in any case may be performed by a panel of not less than three members acting by majority determination. The rules shall accord applicant the right to a hearing and to be represented by counsel, and shall accord applicant and each witness the

right to inspect the transcript of his own testimony.

§ 51.140 *Duty of Board to advise Secretary of State on action for disposition of appealed cases.* It shall be the duty of the Board, on all the evidence, to advise the Secretary of the action it finds necessary and proper to the disposition of cases appealed to it, and to this end the Board may first call for clarification of the record, further investigation, or other action consistent with its duties.

§ 51.141 *Bases for findings of fact by Board.* (a) In making or reviewing findings of fact, the Board, and all others with responsibility for so doing under §§ 51.135 to 51.143, shall be convinced by a preponderance of the evidence, as would a trial court in a civil case.

(b) Consistent and prolonged adherence to the Communist Party line on a variety of issues and through shifts and changes of that line will suffice, prima facie, to support a finding under § 51.135 (b).

§ 51.142 *Oath or affirmation by applicant as to membership in Communist Party.* At any stage of the proceedings in the Passport Division or before the Board, if it is deemed necessary, the applicant may be required, as a part of his application, to subscribe, under oath or affirmation, to a statement with respect to present or past membership in the Communist Party. If applicant states that he is a Communist, refusal of a passport in his case will be without further proceedings.

§ 51.143 *Applicability of §§ 51.135 to 51.142.* When the standards set out in § 51.135 or § 51.136 are made relevant by the facts of a particular case to the exercise of the discretion of the Secretary under § 51.75, the standards in §§ 51.135 and 51.136 shall be applied and the procedural safeguards of §§ 51.137 to 51.142 shall be followed in any case where the person affected takes issue with the action of the Department in granting, refusing, restricting, withdrawing, cancelling, revoking, extending, renewing, or in any other fashion or degree affecting the ability of a person to use a passport through action taken in a particular case.

Date of issuance: August 28, 1952.

For the Secretary of State.

W. K. SCOTT,
Acting Deputy Under Secretary.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 75, Amdt. 2]

CPR 75—CEILING PRICES FOR CERTAIN PROCESSED SOUPS

REVOCATION OF RECALCULATION PROVISIONS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 2 to Ceiling Price Regulation 75 is hereby issued.

STATEMENT OF CONSIDERATIONS

Ceiling Price Regulation (CPR) 75 contains, among other things, provisions requiring recalculation and lowering of ceiling prices where costs of raw materials and ingredients declined by 5 percent or more. The same provisions also authorize ceiling price increases where these costs increased. This amendment eliminates these provisions.

This action is in line with the general policy of the Office of Price Stabilization to continue present ceiling prices on all foods subject to price control. In accordance with this policy, ceiling prices will not be increased except where, in accordance with the OPS announced industry earnings standard, an entire industry seeks an increase in its ceiling prices by making a satisfactory showing that its current earnings are less than 85 percent of its earnings in the best three years of the four years 1946–1949. On the other hand, since it is also agency policy not to use the earnings standard as a standard for price rollbacks, it has been determined that the recalculation provisions contained in CPR 75 should be revoked.

In the formulation of this amendment, special circumstances have rendered it impractical to consult with industry representatives, including trade association representatives. The provisions of this amendment conform, however, with the recommendations of persons representing substantial segments of the industry.

In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all applicable standards of that act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 75 is amended in the following respects:

1. Paragraph (g) of section 2 is revoked.

2. Paragraph (e) of section 3 is revoked.

3. Paragraph (b) of section 4 is amended to read as follows:

(b) *Recalculation of the uniform price line ceiling price.* If a change in ceiling price resulting from the recalculation of a new ceiling as required in section 2 (i) of this regulation would result in a decrease of 5 percent or more in the ceiling price of any item included in the uniform price line, you shall then immediately recalculate your ceiling price for your uniform price line in accordance with paragraph (a) of this section.

You are not required to recalculate your ceiling price for the uniform price line if the change is an increase.

4. Paragraph (c) of section 7 is amended to read as follows:

(c) If you at any time recalculate your ceiling prices for an item under the provisions of section 2 (i) of this regulation, you shall at that time refigure your weighted average ceiling price under this section.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 2 to Ceiling Price Regulation 75 is effective September 3, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 3, 1952.

[F. R. Doc. 52-9772; Filed, Sept. 3, 1952, 4:00 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 5, Amdt. 5]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 5—CHICAGO MILK MARKETING AREA, STATE OF ILLINOIS

INCREASES IN CEILING PRICES OF FLUID MILK PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), and Delegation of Authority No. 41 (16 F. R. 12679), this area milk price regulation, pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559), is hereby issued.

STATEMENT OF CONSIDERATIONS

Four Chicago dairies have submitted information to this Agency tending to show that the ceiling prices set by AMPR 5 are not generally fair and equitable. This is a temporary sixty-day order providing for a half-cent per sales point increase. The information supplied is not adequate to warrant a permanent order. A representative sample of Chicago dairies are being requested to submit additional data to the Agency within the next thirty days. After this information has been received, appropriate action will be taken in light of all the evidence available. This order will, therefore, be revoked after sixty days unless supported by the requested information.

This amendment also provides that new ceiling prices, and certain other information must be reported to this Agency within five days after the effective date of this amendment.

In the judgment of the Director, the provisions of this amendment to Area Milk Price Regulation No. 5 in Region VII are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended by the Defense Production Act amendments of 1951 and 1952.

The Director gave due consideration to the national effort to achieve the maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to all relevant factors of general applicability. In the formulation of this amendment, the Director has consulted industry representatives, including trade association representatives, to the fullest extent practicable and has given due consideration to the recommendation.

AMENDATORY PROVISIONS

Area Milk Price Regulation 5, issued under Supplementary Regulation 63 to the General Ceiling Price Regulation, is amended in the following respects:

1. The first paragraph of section 4 is amended to read as follows:

Your ceiling prices for any milk product for fluid consumption shall be your ceiling price determined under the provisions of the General Ceiling Price Regulation and in effect on November 15, 1951, plus (except for sales to vendors) one cent per sales point. Your ceiling price for any milk product for fluid consumption sold to vendors shall be your ceiling price determined under the provisions of the General Ceiling Price Regulation and in effect November 15, 1951, plus one-quarter cent per sales point.

2. Section 5 is amended to read as follows:

SEC. 5. *Reporting requirements.* You shall report the ceiling prices resulting from the application of section 4 to the Office of Price Stabilization, 9 West Washington Street, Chicago 2, Illinois, by registered mail, return receipt requested, within five days after the effective date of Amendment 5 to this regulation. The report shall be filed on OPS Public Form 124. Your price lists in effect during any part or all of the General Ceiling Price Regulation base period, including the time during which they were in effect, must accompany the report, unless you have previously mailed such price lists by registered mail to the Director who is issuing this regulation. You shall not sell at the ceiling prices computed pursuant to this section 4 until the Office of Price Stabilization has received the report required by this paragraph (b) as shown by your return postal receipt.

In column (a) of OPS Public Form 124 the description of the product must include the butterfat content. In column (f) the ceiling price shown shall be your ceiling price determined under the General Ceiling Price Regulation and in effect on the day preceding the effective date of this regulation. In column (g) the uniform adjustment shall be the amount of the increases specified in section 4 for those products the ceiling prices of which are increased. All the other portions of OPS Public Form 124 shall be filled in as indicated by the form.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup., 2154)

Effective date. This Amendment 5 to Area Milk Price Regulation 5, pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation shall become effective September 3, 1952.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

L. J. ANDERECK,
Acting Regional Director.

SEPTEMBER 3, 1952.

[F. R. Doc. 52-9771; Filed, Sept. 3, 1952; 1:00 p. m.]

[General Overriding Regulation 2, Revision 1, Amdt. 1]

GOR 2—SALES TO THE UNITED STATES, ITS AGENTS AND SUPPLIERS

STATEMENT REGARDING CEILING PRICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to General Overriding Regulation 2, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

General Overriding Regulation 2, Revision 1, covers all matters of a special and overriding nature applying to sales to the United States, its agents, and suppliers.

This Amendment 1 to General Overriding Regulation 2 (GOR 2), Revision 1, suspends section 31 until October 15, 1952.

As originally issued on July 21, 1952, section 31 required certain defense contractors and subcontractors for commodities to be delivered to Defense Agencies, and persons performing services on such commodities, to state their ceiling prices in the offer or bid and in the contract or subcontract, if the commodities or services were not exempted from price control. The reasons for this action were set forth in the statement of considerations accompanying the regulation.

Since the issuance of GOR 2, Revision 1, certain problems encountered by defense contractors and subcontractors in complying with section 31 have been called to the attention of the Office of Price Stabilization, as a result of which it is deemed appropriate to suspend temporarily the applicability of section 31, pending further study of these problems, thus relieving affected persons from the necessity of complying with its requirements during the suspension period.

Careful consideration will be given to the views expressed by affected parties and agencies, and if certain modifications are indicated, they will become effective at the conclusion of the suspension period. In the event that section 31 as originally issued is continued, additional time will be granted for the purpose of making any necessary computations.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Paragraph (b) of section 31 of General Overriding Regulation 2, Revision 1, is amended to read as follows:

(b) This section does not apply to the following:

(1) Any offer, bid, defense contract, or subcontract submitted or entered into on or before October 15, 1952.

(2) Any offer or bid submitted directly to a Defense Agency pursuant to formal advertising for bids, or any contract with a Defense Agency resulting from any such offer, or bid.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to General Overriding Regulation 2, Revision 1, is effective September 2, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

SEPTEMBER 2, 1952.

[F. R. Doc. 52-9696; Filed, Sept. 3, 1952; 3:30 p. m.]

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter A—Salary Stabilization Board

[General Salary Stabilization Regulation 1, Interpretation 4, Revised]

GSSR–1—STABILIZATION AND GENERAL ADJUSTMENTS OF SALARIES AND OTHER COMPENSATION

INT. 4—TEN (10) PERCENT INCREASES IN SALARIES AND OTHER COMPENSATION UNDER SECTION 22 OF GENERAL SALARY STABILIZATION REGULATION 1, AMENDED

The purpose of this revision of Interpretation 4 is primarily to provide for the substitution of appropriate section references in General Salary Stabilization Regulation 1, Amended, for the superseded provisions of section 8 of General Salary Stabilization Regulation 1, as amended. An interpretative change of substance has been made with respect to the "charge-off" of cost-of-living increases granted on and after January 15, 1951 (paragraphs 11 (d) and 12 (h) of subdivision (b)).

(a) UNDERLYING POLICY

1. Q. What is the maximum percentage of increases permitted under section 22?

A. Ten (10) percent. Under section 22, salaries and other compensation of an appropriate group of employees may be increased in amounts up to, but not in excess of ten percent over the salary level of such employee group for the first regular payroll of such group ending on or after January 15, 1950.

2. Q. May the ten (10) percent increases under section 22 be granted without the prior approval of the Office of Salary Stabilization?

A. Yes. It is the purpose of section 22 to place such increases on a self-administering basis. To substantiate the propriety of the increases granted by him the employer must keep the records and prepare the summary statements, as prescribed in section 101 of General Salary Stabilization Regulation 1, Amended.

(b) GENERAL DEFINITIONS

1. Q. Is the amount available for increases under section 22 computed individually for each employee?

A. No. The amount available for such increases is based on the salaries of an appropriate group of employees.

2. Q. What constitutes an appropriate group of employees under section 22?

A. An appropriate group of employees is composed of employees under the jurisdiction of the Salary Stabilization Board in the establishment or plant of the employer, or in a business division or department thereof, whom the employer has historically or usually treated as a group for the purpose of granting general increases in salaries and other compensation.

Where an employer has, as a matter of past practice, divided his employees into different groups for the purpose of granting general salary increases, he must continue to follow such practice. For instance, if administrative employees have been treated as a separate group distinct from employees in charge of production, the two groups of employees must be treated as separate groups under section 22.

For example, an employer may treat each of the following as an appropriate group of employees if so treating them is in accordance with his past practice in making general salary increases:

(a) The branch managers of a chain of retail food stores; this may be true even though the branch managers are located in many cities in different parts of the country;

(b) Chemists or physicists working in a particular laboratory of a plant or division thereof.

3. Q. Under what conditions may an employer treat all his employees subject to the jurisdiction of the Salary Stabilization Board as a single group?

A. Only where the employer has consistently over a period of time treated all such employees as a single group in raising their salaries and other compensation.

4. Q. May an appropriate group consist of a single employee?

A. Yes, if an employer over a period of time has treated a single employee as a group for purposes of granting salary increases to him. Where this is true, the employer may continue this practice.

5. Q. May an appropriate group be composed of employees subject to the jurisdiction of the Salary Stabilization Board and employees subject to the jurisdiction of the Wage Stabilization Board?

A. No, even though the employer did treat such employees as a single group prior to wage and salary stabilization.

6. Q. On what basis is the 10 percent increase computed?

A. The 10 percent increase is computed on the basis of the aggregate base compensation of the appropriate group of employees for the first payroll period ending on or after January 15, 1950.

7. Q. Is all compensation paid employees in an appropriate group included in the aggregate base compensation of the group?

A. No. The aggregate base compensation of the group comprises the regular salaries of the employees in the group together with time and incentive earnings and shift differentials, if any, but excluded bonuses of the type specified in General Salary Stabilization Regulation 2, as amended, and all other compensation. (For items of other compensation see General Salary Stabilization Regulation 1, Amended, section 2 (c)).

The incentive earnings which may be included in computing the aggregate base compensation of the group are those which are not related to sales or other business transactions. The latter are governed exclusively by General Salary Stabilization Regulation 5, as amended.

8. Q. May a prorated part of bonuses authorized under General Salary Stabilization Regulation 2, as amended, and paid employees in the group be included in the aggregate base compensation of the group?

A. No.

9. Q. May commission earnings be included in aggregate base compensation of the group?

A. No. Such earnings for employees under Salary Stabilization Board jurisdiction are regulated by General Salary Stabilization Regulation 5, as amended, and are not treated as part of the aggregate base compensation of the group under section 22.

10. Q. On what payroll period basis is the aggregate base compensation of the group computed?

A. The aggregate base compensation is computed on the basis of regularly scheduled weekly, biweekly, semimonthly or monthly pay periods in accordance with the employer's practice.

11. Q. An employer desires to grant increases to an appropriate group of employees under section 22. If he has given such employees increases in salaries and other compensation, which of those increases must be taken into account?

A. Increases in salaries and other compensation made subsequent to the first regular payroll period ending January 15, 1950 must be taken into account in computing 10 percent increases authorized under section 22 unless it is otherwise provided in a General Salary Stabilization Regulation, a General Salary Order, or a specific determination of the Office of Salary Stabilization. The following types of increases must be deducted from the 10 percent:

(a) Increases in salaries made since the first regular payroll period ending on or after January 15, 1950, if the employee group's straight time earnings in any payroll period were increased by 1 percent or more.

(b) Increases in salaries after January 25, 1951, even though the amount is less than 1 percent.

(c) Increases in other forms of compensation if made after January 25, 1951.

(d) Cost-of-living increases of the type referred to in Article III of General Salary Stabilization Regulation 1, Amended, made after January 15, 1950, based upon changes in an acceptable index up to and including January 15, 1951.

(e) Increases required to be deducted pursuant to a specific determination of the Office of Salary Stabilization, or of the Wage Stabilization Board either before May 10, 1951 as to any employee or between May 10, 1951 and July 1, 1952 inclusive with regard to any employee transferred to the jurisdiction of the Salary Stabilization Board between such dates.

12. Q. Are there types of increases which need not be taken into account in determining the amount available for increases under section 22?

A. Yes. The following types of increases used need not be deducted from the 10 percent:

(a) Increases in salaries made on or before January 25, 1951 if the employee group's straight time earnings in any payroll period were not increased by 1 percent or more.

(b) Increases in other forms of compensation not included in computing the aggregate base compensation of the group, if made on or before January 25, 1951.

(c) Merit or length of service increases or adjustments as the result of a promotion, transfer, or assignment to a new or changed position under Article V and Article VI, General Salary Stabilization Regulation 1, Amended.

(d) Tandem increases approved under section 43 of General Salary Stabilization Regulation 1, Amended.

(e) Inter-plant inequity increases approved under section 42, General Salary Stabilization Regulation 1, Amended.

(f) Increases representing contributions to or benefits paid under a health and welfare plan which may be modified or put into effect without prior approval of the Office of Salary Stabilization under General Salary Stabilization Regulation 8, Revised.

(g) Increases made pursuant to section 41, General Salary Stabilization Regulation 1, Amended (Maintenance of compensation relationships).

(h) Cost-of-living increases of the type referred to in Article III of General Salary Stabilization Regulation 1, Amended, based upon changes in an acceptable index after January 15, 1951.

(i) Any other increases which are not required to be deducted pursuant to a specific determination of the Office of Salary Stabilization, or of the Wage Stabilization Board either before May 10, 1951 as to any employee or between May 10, 1951 and July 1, 1952 inclusive with regard to any employee transferred to the jurisdiction of the Salary Stabilization Board between such dates.

(c) INCREASES PERMISSIBLE WITHOUT PRIOR APPROVAL

1. Q. A company had an appropriate group consisting of three executives compensated solely by fixed salaries on a monthly basis. For the payroll period for the month of January 1950 A was paid $900; B was paid $1,000; and C was paid $1,100 per month. On July 1, 1951 the company proposes to increase the compensation of these employees by ten (10) percent. The company has not granted any increases to the executives in the group since January 1950, and has not hired any additional executives. How is the increase computed?

A. The total salaries of the employees in the group for the month of January 1950, amounted to $3,000. Ten percent of that amount is $300. This is the dollar amount of the 10 percent increase which the employer may grant per month to this group of executives.[1]

2. Q. May the company grant the entire $300 to C alone, raising his salary to $1,400 per month?

A. Yes. The 10 percent increase may be distributed within the group by the employer in his discretion and need not be uniformly distributed. However, inequities among the compensation of employees created by such unequal distribution cannot later be corrected by requesting the approval of the Office of Salary Stabilization for further increases in salaries and other compensation for the remaining employees in the group.

3. Q. Assume the facts as in questions c–1 and c–2. On September 1, 1951, the company adds a fourth executive, D, to the group at a monthly salary of $900. May the company increase D's salary on November 1, 1951 under section 22?

A. No. The salary increases granted by the employer on July 1, 1951 exhaust the increases permissible under section 22.

4. Q. Assume the same basic facts as in question c–1. However, on April 1, 1951, A had been raised from $900 to $1,050 per month. This increase was not based on merit or length-of-service. How much does the company have available for increases under section 22 on July 1, 1951?

A. $150 per month, or the difference between the total of $300 (see question c–2) and the $150 per month salary increase granted to A on April 1, 1951.

5. Q. Assume the same basic facts as in question c–1. On December 1, 1950, B was given a salary increase of $25 per month. Does this increase have to be taken into account in computing the amount available for the July 1, 1951 increase?

A. No. The increase was less than 1 percent of the straight time earnings of the group during December 1950. However, if the $25 salary increase had been given to B on March 1, 1951 (i. e., after the stabilization date) the amount would have to be deducted in determining the amount available for the July 1, 1951 increase.

6. Q. Assume the same basic facts as in question c–1 and assume further that the company on June 1, 1951, engaged the services of D and E for its executive staff at monthly salaries of $1,000 for each. How much does the company have available on July 1, 1951 for a 10 percent increase to this group, now composed of five executives, none of whom has received any increase in salaries or other compensation since January 1950?

A. The company has available $500 per month.

In January 1950 the company had available $300 per month for three employees (see question c–1), or an average amount of $100 per employee. Since the group is now composed of five employees instead of the original three, the total amount available for monthly salary increases is $500 or five times the average amount of $100 per employee.

The amount available for increases under section 22 in any payroll period is thus always dependent upon the number of employees in the group at the time when the employer makes the decision to grant an increase.

7. Q. Assume the same basic facts as in question c–1. On December 1, 1950, the company added two executives to the group, D and E, at monthly salaries of $1,000 and $1,100 respectively. On March 1, 1951, the company granted each of the five executives a monthly salary increase of $50.00. Assuming that no change occurs in the number of employees thereafter, how much does the employer have left for further salary increases to the executives under section 22?

A. $250 per month. The employer had available $500 per month (an initial average per employee of $100 and five employees at the time of the increase), $250 of which was absorbed in the March 1, 1951 salary increase.

The computation of the amount available for increases under section 22 is not affected by the amount of the salary paid any new employee hired into the group subsequent to the first regular payroll period ending on or after January 15, 1950.

8. Q. Assume the facts as in question c–7. On May 1, 1951, D resigns. On July 1, 1951, the company wants to give the remaining four executives in the group salary increases totaling $250 per month for all. May the company do so?

A. No. The proposed salary increase to the four executives in the group on July 1, 1951, may not exceed $200 per month.

Since the group now has only four members, the total amount of increases to be given to it may not on July 1, 1951, exceed $200 per month. After the March 1, 1951 increase $250 were left available for further increases to the group then having five members, resulting in an average available for further increases of $50 per employee. Since on July 1, 1951, the group has only four members, only four times the amount available per employee ($50) or a total of $200 per month may be spent.

9. Q. Is the employer, under section 22, limited to straight salary increases to his employees?

A. No. In addition to giving straight salary increases, the employer may use the amount available for increases under section 22 to grant his employees fringe benefits. For instance, he may compute the cost of an additional one week's paid vacation and may grant his employees such additional week's paid vacation out of the amount available for the 10 percent increase.

10. Q. If the employer in 1951 used up the entire 10 percent increase which he may give to an appropriate unit by granting the employees in the unit additional paid vacations, may the employer in 1952 discontinue the additional paid vacations and give the employees instead the amount of the 10 percent increase in the form of a straight salary increase?

A. Yes. The employer may use this money in a calendar year for fringe benefits, such as a paid vacation; at the end of the calendar year he may grant paid vacations for the following calendar year or, on the other hand, he may use the money for a permanent addition to his payroll. The amount available to an employer as a 10 percent increase under section 22 is available as a permanent addition to the payroll of an appropriate employee group. However, once the amount available under section 22 for salary increases and other compensation has been used by the employer for a straight salary increase, it cannot be thereafter used for temporary or fringe benefit purposes.

11. Q. May the employer use the unexpended portion of the 10 percent increase for bonuses authorized under General Salary Stabilization Regulation 2, as amended.

A. Yes, within the limits of section 9 of General Salary Stabilization Regulation 2, as amended. For details of application, the employer should consult section 9.01 to 9.05 of Interpretation 3 issued by the Office of Salary Stabilization on December 7, 1951.

12. Q. May the 10 percent increase under section 22 be made retroactively?

A. Only to a very limited extent. Without the prior approval of the Office of Salary Stabilization, 10 percent increases may be made retroactively only to the commencement of the payroll period in which the increase was decided upon, provided that the employer's records contain convincing proof as to when the increase was decided upon. Any unusual lapse of time between that payroll period and the date when the increase is first actually paid is considered a prima facie indication that the decision to grant the increase was not made in the earlier payroll period.

13. Q. Is there any provision in the General Salary Stabilization Regulations or General Salary Orders allowing for retroactive increases upon prior approval of the Office of Salary Stabilization under which ten (10) percent increases may be made retroactively?

A. Yes. Section 43 of General Salary Stabilization Regulation 1, Amended, provides for retroactive increases upon prior approval of the Office of Salary Stabilization where an established compensation relationship between groups of employees has been disrupted. However, in obtaining approval of the Office of Salary Stabilization for retroactive increases under section 43, the employer must meet the requirements of that section.

In other cases, application for retroactivity will be granted only for compelling reasons under unusual circumstances.

(d) BASE PAY PERIOD ABNORMALITIES

1. Q. A company opened its plant on February 1, 1950, but the plant did not go into full operation until April 15, 1950. After that date, the company's payroll reflects normal operations. Scientists employed and paid on a monthly payroll basis at the company's laboratory form an appropriate employee unit which did not reach its normal operating strength

[1] For an example of a 10 percent increase where the number of employees in the group has changed, see question c–6.

until May 1, 1950. What payroll period may the employer use as a basis for computing 10 percent increases for this group under section 22?

A. The first normal payroll period for this group of employees is the payroll period between May 1 and May 31, 1950. The employer may apply to the Office of Salary Stabilization for authorization to use the month of May 1950 payroll as a substitute base pay period for computing the amount of the 10 percent increases available for the scientists at the company's laboratory. As to a possible reduction of the permissible percentage, see question d-4.

2. Q. Are there other circumstances under which an employer may use a substitute base pay period?

A. Yes. An employer may petition the Office of Salary Stabilization for authorization to use a substitute base pay period where the usual base pay period does not reflect normal operations for any one of the following reasons:

(a) The seasonal character of the employer's business;

(b) Broad changes in "product mix," i. e., situations where the employer changes from the manufacture of one product to that of another, or adds a different product to those previously manufactured by him;

(c) Wide swings in employment; or

(d) Other similar circumstances.

3. Q. Is the amount of increases which an employer may grant under section 22 affected by the approval of a substitute base pay period for the employer?

A. Yes. The authorized 10 percent for increases in salaries and other compensation must be reduced by the percentage by which the Consumer's Price Index, published by the Bureau of Labor Statistics has risen between the first regular base pay period ending on or after January 15, 1950, and the substitute base pay period allowed the employer.

4. Q. A company commenced operations on July 1, 1951. Its employees are paid in accordance with a schedule submitted and approved under General Salary Stabilization Regulation 1, Amended, section 83. May the employer on October 1, 1951 grant his employees a general salary increase under section 22?

A. No. Section 22 is not available to employers for a new plant opened since January 25, 1951.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Approved: August 29, 1952.

JOSEPH D. COOPER,
Executive Director.

[F. R. Doc. 52-9775; Filed, Sept. 3, 1952; 12:16 p. m.]

[Interpretation 8, Amdt. 1]

INT. 8—EFFECTS OF CHANGES IN THE LEGAL STRUCTURE OF BUSINESS ENTERPRISES

MISCELLANEOUS AMENDMENTS

The purpose of this amendment to Interpretation 8 is to substitute appropriate section references in General Salary Stabilization Regulation 1, Amended, for references to the superseded provisions of General Salary Stabilization Regulation 1, as amended, and General Salary Stabilization Regulation 3, as amended.

1. The second paragraph of the answer to question 1 is amended to read as follows:

Changes in salary and other compensation of employees are justified only to the extent that new or changed positions are established as the result of such changes in the legal structure of the business enterprise. If such positions are established, salaries for them must be determined in accordance with section 63 of General Salary Stabilization Regulation 1, Amended.

2. The second paragraph of the answer to question 3 is amended to read as follows:

However, to the extent that their duties and responsibilities are substantially changed as a result of the incorporation of the former partnership, changes in their salaries may be made in accordance with section 63 of General Salary Stabilization Regulation 1, Amended.

3. The answer to question 4 is amended to read as follows:

A. The salaries and other compensation of these former partners, who changed their status from co-owners to officers of a corporation, are determined in accordance with the criteria, and paid in accordance with the procedure, contained in sections 82 and 83 of General Salary Stabilization Regulation 1, Amended. Although the new corporation is not a "new plant" within the scope of this section, these new corporate officers (formerly partners) are in the same category as employees of a "new plant" for the purposes of initially determining their salaries and other compensation. Therefore, the provisions relating to employees of a "new plant" are to be applied in the determination and payment of their salaries and other compensation.

4. The last paragraph of the answer to question 9 is amended to read as follows:

However, to the extent that their duties and responsibilities are substantially changed as a result of such conversion, their salaries and other compensation will be determined in accordance with section 63 of General Salary Stabilization Regulation 1, Amended.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Issued by the Office of Salary Stabilization on August 29, 1952.

JOSEPH D. COOPER,
Executive Director.

[F. R. Doc. 52-9776; Filed, Sept. 3, 1952; 12:16 p. m.]

[Interpretation 9, Amdt. 1]

INT. 9—EMPLOYEES SUBJECT TO GENERAL SALARY STABILIZATION REGULATION 5, AS AMENDED

MISCELLANEOUS AMENDMENTS

The purpose of this amendment is to eliminate reference to the transfer of jurisdiction over driver salesmen to the Wage Stabilization Board, which has been returned to the Salary Stabilization Board by the Defense Production Act Amendments of 1952.

1. The answer to question 1 is amended to read as follows:

A. The drivers and the outside salesmen (paragraphs (a) and (b) above) are subject to General Salary Stabilization Regulation 5, as amended.

The "inside" salesmen are not subject to the jurisdiction of the Salary Stabilization Board, since they are not employed in a bona fide executive, administrative or professional or outside salesman capacity within the meaning of the regulations issued under section 13 (a) (1) of the Fair Labor Standards Act of 1938, as amended.

However, General Salary Stabilization Regulation 5, as amended, applies the provisions of General Wage Regulation 20 as in effect on August 26, 1952, to driver salesmen, and adjustments in their compensation must be made in accordance therewith either on a self-administering basis or by application to the Office of Salary Stabilization.

2. Paragraphs 1, 2, 3, 6, 7, and 8, are amended by inserting after the references to General Salary Stabilization Regulation 5 the words "as amended."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Issued by the Office of Salary Stabilization on September 2, 1952.

JOSEPH D. COOPER,
Executive Director.

[F. R. Doc. 52-9777; Filed, Sept. 3, 1952; 12:17 p. m.]

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-80, Schedule 1, as amended September 3, 1952]

M-80—IRON AND STEEL—ALLOYING MATERIALS AND ALLOY PRODUCTS

SCHEDULE 1—NICKEL

This schedule, as amended, is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended schedule, there was consultation with industry representatives, including trade association representatives, and consideration was given to their recommendations. This amended schedule is issued under NPA Order M-80 and is made a part of that order.

EXPLANATORY

This schedule, as hereby amended, affects Schedule 1 to NPA Order M-80 of August 15, 1951, by adding a new paragraph (d) to section 6 to permit use of nickel for nickel strike prior to chromium plating. The use of nickel-bearing stainless steel, high nickel alloy, and nickel silver in the production, manufacture, and assembly of certain products is prohibited in Schedule A of NPA Order M-80.

REGULATORY PROVISIONS

Sec.
1. Definitions.
2. Nickel subject to allocation.
3. Applications for allocation.
4. Exceptions to allocation requirements.
5. Products prohibited.
6. Exceptions.
7. Records.
8. Communications.

AUTHORITY: Sections 1 to 8 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Definitions.* (a) All definitions contained in NPA Order M-80, including the definition of "nickel" in List I of that order, are applicable to this schedule.

(b) As used in this schedule:

(1) "Nickel" means only the following forms of primary nickel: electrolytic nickel, ingots, pigs, rondelles, cubes, pellets, and powder, rolled and cast anodes, shot, oxides, salts, and chemicals and residues derived directly from new nickel, including residues containing nickel derived as a byproduct from copper refinery operations.

(2) "Nickel-plating" means all methods of nickel-plating regardless of plating procedure.

SEC. 2. *Nickel subject to allocation.* Nickel is subject to complete allocation by NPA.

SEC. 3. *Applications for allocation.* Section 10 of NPA Order M-80 prohibits deliveries or use of an alloying material made subject to complete allocation, except in accordance with an allocation authorization. Application for allocation authorizations for deliveries of nickel during the month of October 1951 may be made to NPA on or before September 7, 1951, on Form NPAF-114. Thereafter, such applications may be made on or before the seventh day of any month for delivery in the succeeding month.

SEC. 4. *Exceptions to allocation requirements.* The provisions of sections 2 and 3 of this schedule shall not apply to deliveries to any persons whose total receipts from all sources during any calendar month are not thereby made to exceed 100 pounds of nickel and who delivers a signed certificate to his supplier as follows:

The undersigned, subject to statutory penalties, certifies that acceptance of delivery and use by the undersigned of the nickel herein ordered will not be in violation of NPA Order M-80 or of Schedule 1 of that order.

This certification constitutes a representation by the purchaser to the seller and to NPA that delivery of the nickel ordered may be accepted by the purchaser under NPA Order M-80 and this schedule, and that such nickel will not be used by the purchaser in violation of that order or this schedule.

SEC. 5. *Products prohibited.* No person shall consume any nickel, secondary nickel, or nickel-bearing scrap containing 6 percent or more nickel for nickel-plating any product included in the list at the end of this schedule except products specifically excepted therein. No person shall consume in nickel-plating any product, whether or not included in that list, including any component parts of any product, a greater quantity of nickel, secondary nickel, or nickel-bearing scrap containing 6 percent or more nickel, than is necessary for the functional or operational purposes of such product. No person shall consume any nickel, secondary nickel, or nickel-bearing scrap containing 6 percent or more nickel in nickel-plating any product for decorative or ornamental purposes, and no nickel-plated product shall be used for decorative or ornamental purposes. No person shall use any nickel-plated material in the production, manufacture, or assembly of any product included in the list at the end of this schedule, except products specifically excepted therein.

SEC. 6. *Exceptions.* (a) The prohibitions contained in section 5 of this schedule with respect to products included in subheading A of the list at the end of this schedule shall not apply to the use of nickel anodes in nickel plating if (1) such nickel anodes were in the inventory of the person doing the nickel plating on March 1, 1951, and (2) such anodes cannot be used by such person on a commercially feasible basis for nickel-plating items other than those prohibited by section 5 of this schedule.

(b) The prohibitions contained in section 5 with respect to products included in subheading B of the list shall not apply to the use of nickel anodes in nickel plating if (1) such nickel anodes were in the inventory of the person doing the nickel plating on April 15, 1951, and (2) such anodes cannot be used by such person on a commercially feasible basis for nickel-plating items other than those prohibited by section 5.

(c) Any unassembled component parts produced prior to the effective date of this schedule, or in conformity with this schedule of products subject to the prohibitions of section 5 may be sold at any time, and the purchaser thereof may assemble such component parts into products subject to the prohibitions of section 5 at any time, provided such component parts are wholly unsuitable for use in the production, manufacture, or assembly of any product not subject to such prohibitions.

(d) The prohibitions contained in section 5 of this schedule, with respect to all products included in the list at the end of the schedule, shall not apply to the use of nickel anodes and nickel chemicals in the application of a nickel strike of not more than an average of 0.00005 inch thick, to any item of any product prior to chromium plating.

SEC. 7. *Records.* Every person who relies on the provisions of paragraphs (a), (b), or (c) of section 6 of this schedule shall prepare a detailed record showing: (a) the quantity of nickel-plated materials, or component parts made therefrom, which were in his inventory on December 1, 1950, January, February, March, and April, 1951, which were wholly unsuitable for use by him in the production, manufacture, or assembly of any product not included in the list at the end of this schedule, and (b) the quantity of such nickel-plated materials wholly unsuitable for such use by him which were delivered to him on or after March 1, 1951, with reference to subheading A of that list, or April 15, 1951, with reference to subheading B of that list, the names and addresses of the suppliers thereof, and the dates and acceptances covering such materials. Such records shall be retained for at least 2 years and shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the NPA.

SEC. 8. *Communications.* All communications concerning this schedule shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M-80, Schedule 1.

This schedule, as amended, shall take effect September 3, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

SCHEDULE 1—LIST OF PROHIBITED PRODUCTS NICKEL-PLATING

A

Communications:
- Escutcheon plates.
- Knobs.
- Name plates.
- Radio and television, decorative trim.
- Speaker grilles.

Hardware:
- Bells.
- Boat trim and accessories.
- Builders' finishing hardware (except half trim for bathroom and toilet side of door).
- Casket hardware.
- Chimes.
- Curtain hooks.
- Door catches.
- Door knobs.
- Door knockers.
- Drawer pulls.
- Harnesses.
- Hinges.
- Kick plates.
- Leashes.
- Letter boxes.
- Locks.
- Luggage hardware.
- Nails.
- Picture frames.
- Picture hangers.
- Push plates.
- Screen door and window hardware exclusive of screen.
- Screws.
- Switch plates.
- Tacks.
- Valve handles (except for bathroom and kitchen fixtures).

Household appliances (except parts subject to abrasion or heat and except the strike prior to silver-plating or vitreous enameling) including but not limited to:
- Food mixers.
- Heaters.
- Polishers.
- Refrigerators (except shelving and door handles).
- Washing machines.

Household appliances, etc.—Continued
Waxers.
Vacuum cleaners (except runners).
Jewelry—clocks:
Alarm clocks (except for internal parts).
Clocks (except for internal parts).
Costume jewelry (except for 0.0001 inch thickness or less as an undercoating for gold, silver, or platinum-group metals).
Trim and optical glasses (except frames).
Metal furniture and fixtures:
Commercial furniture, all decorative parts.
Electrical fixtures.
Home furniture, all decorative parts.
Napkin dispensers.
Store display cases.
Store fixtures.
Straw dispensers.
Motor vehicles:
Accessories.
Dash panels (including instruments, controls, and appearance items mounted in or on dash panels).
Escutcheon plates.
Gas caps.
Gravel guards.
Grilles.
Horns.
Interior trim.
Lamp housing.
License frames.
Name plates.
Ornamental trim around windows.
Radiator trim.
Trim rings.
Wheel discs.
All other parts (except for window frames and slide channels, external and internal door handles, ventilator and regulator handles for windows and doors, the bumpers, bumper guards, bumper bolts, rear deck handles, windshield wiper assemblies, hub caps, and exposed screws where no satisfactory substitutes are practicable. The nickel employed for protection of bumper guards and bumpers should not exceed that amount equivalent to an average thickness of 0.001 inch on outside surfaces).
Novelties:
Ash trays.
Coasters.
Cocktail shakers and accessories.
Clothing ornamentation.
Cosmetic containers.
Hair curlers.
Handbag trim.
Humidors.
Ornamental buttons.
Smoking stands.
Plumbing:
Basin supports.
Cabinet trim.
Soap dishes.
Shower curtain rods and rings.
Shower doors and trim.
Tooth brush holders.
Towel racks.
Tumbler holders.
Sheet, strip, and wire products:
All decorative parts fabricated from plated sheets, strips, or wire.
Bird cages.
Clothes hangers.
Display stands.
Lamp shades.
Shopping carts.
Tools:
Drills.
Flexible metal tapes (except measuring tape).
Hammers.
Office machines and business machines, decorative trim.
Planes.
Pliers.
Power tools (except for functional parts).
Punches.
Tools—Continued
Rules.
Saws.
Screw drivers.
Wrenches.
Toys:
Mechanical toys.
Pistols.
Toys.
Trains.
Tricycles.
Wagons.
Utensils (except the strike necessary prior to silver plating or vitreous enameling):
Flatware.
Hollow ware (except for hotel, restaurant, institution, or ecclesiastical use).
Serving dishes.
Serving utensils.
Racks.
Trays.
Miscellaneous:
Bicycles (except handlebars, sprockets, spokes, and hubs).
Electric fans.
Gambling equipment.
Lighters.
Ornamentation on musical instruments.
Pin ball machines.
Slot machines.
Sporting goods.
Tonsorial equipment (except tools).
Vending machines.

B

Hardware:
Collars and tags for pets.
Bolts, washers, and similar fastening devices.
Household appliances (except parts subject to abrasion or heat, and except the strike prior to silver-plating or vitreous enameling), including but not limited to:
Cooking stoves and ranges (except door and drawer handles).
Electric housewares including:
Heating and cooking appliances.
Motor-driven appliances.
Personal appliances.
Home and farm freezers.
Laundry equipment including:
Clothes driers.
Ironing machines.
Sewing machines.
Metal furniture and fixtures:
Commercial furniture.
Home furniture.
Motor vehicles:
Hub caps.
Miscellaneous:
Bicycle handle bars, sprockets and hubs.
Juke boxes.
Insignia, buttons, buckles, decorations, awards, and badges (except military).

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 4—OPERATION AND NAVIGATION OF PANAMA CANAL AND ADJACENT WATERS

PAPERS REQUIRED BY BOARDING PARTY, LIST OF

AUGUST 25, 1952.

Pursuant to the authority vested in me by Rules 9 and 12 of Executive Order No. 4314 of September 25, 1925, establishing rules governing the navigation of the Panama Canal and adjacent waters, § 4.20 of Title 35 of the Code of Federal Regulations, as amended, is hereby further amended by changing from 2 to 4 the number of required copies of item (k) in the second column in the tabular listing of documents required.

Issued at Balboa Heights, Canal Zone, August 25, 1952.

J. S. SEYBOLD,
Governor of the Canal Zone.

Confirmed:

B. F. BURDICK,
Chief of Office,
Panama Canal Company.

August 29, 1952.

[F. R. Doc. 52-9642; Filed, Sept. 3, 1952; 8:49 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

CZECHOSLOVAKIA, MALAYA

a. In § 127.239 *Czechoslovakia* amend paragraph (b) (4) to read as follows:

(4) *Observations.* (i) Gift parcels for Czechoslovakia are in most cases subject to very high duties, exceeding the normal prices of the articles if they were purchased in that country. Freedom from duty is granted only in the case of parcels addressed to persons who can prove to the authorities that they are without means, or to charitable institutions for authorized distribution.

(ii) The importation of antibiotic medicines is strictly controlled in Czechoslovakia, and senders should be advised to ascertain in advance of mailing such articles whether the addressees will be permitted to receive them.

b. In § 127.299 *Malaya* make the following changes:

1. Amend paragraph (a) (5) to read as follows:

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 25 cents per half ounce. Air letter sheets, 10 cents each. Other regular-mail articles, 90 cents first two ounces and 70 cents each additional two ounces or fraction. (See § 127.20.)

2. In paragraph (b) (1), insert new subdivision (ii) after the table of surface parcel rates, and preceeding the tabulated information, appearing under subdivision (i), to read as follows:

(ii) *Air parcels.* Rates: $1.75 first 4 ounces; $1.00 each additional 4 ounces or fraction.

Each air parcel must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b)).

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.)

[SEAL] V. C. BURKE,
Acting Postmaster General.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 151]

WHALING PROVISIONS

NOTICE OF PROPOSED RULE MAKING

In accordance with section 4 (a) of the Administrative Procedure Act, approved June 11, 1946 (60 Stat. 237, 239), notice is hereby given that under the authority contained in section 12 of the Whaling Convention Act of 1949 (64 Stat. 421–425; 16 U. S. C., 1946 ed., Supp. IV, 916–916 l), the Secretary of the Interior intends to adopt regulations affecting the conduct of whaling operations.

All persons who desire to submit written data, views, or arguments in connection with the proposed regulations may do so by filing them with Albert M. Day, Director, Fish and Wildlife Service, Department of the Interior, Washington 25, D. C., not later than 30 days from the publication of this notice in the FEDERAL REGISTER.

The proposed regulations are as follows:

Basis and purpose. Sections 151.1 to 151.61 are issued by the Secretary of the Interior to give effect to articles VI, VII, VIII, and IX of the International Convention for the Regulation of Whaling signed in Washington December 2, 1946 and in furtherance of the obligations of the Secretary under the Whaling Convention Act of 1949 (64 Stat. 421–425; 16 U. S. C. 916–916 l).

DEFINITIONS

Sec.
151.1 Factory ship.
151.2 Land station.
151.3 Secondary processing land station.
151.4 Whale catcher.

LICENSES

151.10 Licenses required to engage in whaling.
151.11 Applications for licenses.

CLOSED SEASONS

151.20 Land stations taking or treating baleen whales.
151.21 Land stations taking or treating sperm whales.

RECORDS AND REPORTS

151.30 Records to be maintained on whale catchers.
151.31 Records to be maintained on factory ships and at land stations.
151.32 Records to be maintained at secondary processing land stations.
151.33 Report on employment, craft, and products of whaling operations.

SALVAGE OF UNCLAIMED WHALES

151.40 No processing license required.
151.41 Reporting of salvage of dead whales required.

MOLESTING OR AUTHORIZED INTERFERENCE WITH WHALES

151.50 Molesting whales prohibited.

INSPECTION AND ENFORCEMENT

151.60 Fish and Wildlife Service employees designated as enforcement officers.
151.61 State officers designated as enforcement officers.

AUTHORITY: § § 151.1 to 151.61 issued under sec. 12, 64 Stat. 425; 16 U. S. C. 916 j.

DEFINITIONS

§ 151.1 *Factory ship.* The words "factory ship" means a vessel in which or on which whales are treated or processed, whether wholly or in part.

§ 151.2 *Land station.* The words "land station" mean a factory on the land at which whales are treated or processed, whether wholly or in part.

§ 151.3 *Secondary processing land station.* The words "secondary processing land station" mean a factory on the land which receives from a land station for further processing any or all of those parts of whales which are required, by paragraph 12 of the Schedule of the Whaling Convention of 1946 as amended (§ 351.12 of Chapter III this title)[1] to be processed by boiling or otherwise.

§ 151.4 *Whale catcher.* The words "whale catcher" means a vessel used for the purpose of hunting, taking, towing, holding on to, or scouting for whales.

LICENSES

§ 151.10 *License required to engage in whaling.* No person shall engage in the taking or processing of blue whales, fin whales, humpback whales, sei whales, minke whales, or sperm whales without first having obtained an appropriate license.

§ 151.11 *Applications for licenses.* Applications for licenses to engage in the taking and processing of whales shall be submitted to the Director of the Fish and Wildlife Service, Department of the Interior, Washington 25, D. C. Such application shall be accompanied by the affidavit or affidavits prescribed in section 6 (d) and (e) of the Whaling Convention Act of 1949 and by a certified check or United States Postal Money Order payable to the Treasurer of the United States in the appropriate amount as prescribed by the scale of license fees in section 6 (b) of the Whaling Convention Act of 1949.

CLOSED SEASONS

§ 151.20 *Land stations taking or treating baleen whales.* It is forbidden to use a land station or a whale catcher attached thereto for the purpose of taking or treating baleen whales except during the period of May 1 to October 31 following, both days inclusive.

§ 151.21 *Land stations taking or treating sperm whales.* It is forbidden to use a land station or a whale catcher attached thereto for the purpose of taking or treating sperm whales except during the period April 1 to November 30 following, both days inclusive.

RECORDS AND REPORTS

§ 151.30 *Records to be maintained on whale catchers.* There shall be maintained on each whale catcher a suitable log book or other record in which shall be recorded the following information, and such record shall be available for inspection by any person authorized by law or by these regulations to act as an inspector or enforcement officer, who shall be permitted to abstract therefrom such information as may be needed by the United States Government:

(a) The date and hour of the killing or capture of each whale;

(b) The point in latitude and longitude where each whale is killed or captured;

(c) The species of each whale killed or captured;

(d) The time of delivery of each whale to the land station or factory ship;

(e) Data specified under paragraphs (a), (b), and (c) of this section for each whale killed and later lost, or for some other reason not delivered to a factory ship or land station for processing, with an account of the circumstances surrounding such loss or non-delivery.

(f) Any observations on migration of whales and on location of calving grounds.

§ 151.31 *Records to be maintained on factory ships and at land stations.*

(a) There shall be maintained in duplicate on board each factory ship and at each land station, on forms provided by the Fish and Wildlife Service for that purpose, a detailed record of all whales received and processed as follows:

(1) Serial number of the whale (begin with number 1 on January 1 of each year).

(2) Species of the whale.

(3) Date and time killed and date and time received by the factory ship or land station.

(4) Sex of the whale.

(5) Length of the whale (length to be measured as specified in paragraph 9 (d) of the Schedule of the Whaling Convention of 1946, § 351.9 (d) of this title).[1]

(6) Sex of embryo if present.

(7) Length of embryo in feet and inches.

(8) A description of the stomach contents of the whale.

(9) Name of whale catcher which took the whale.

(10) Name of gunner who killed the whale.

(11) The exact location in which the whale was taken, stated in degrees and minutes of latitude and longitude.

(12) Under "Remarks" enter, if the whale is a female, whether lactating or milk-filled as well as abnormalities or peculiarities concerning the whale and the character and quantity of any portion of the whale transferred to a secondary processing plant.

(b) Each sheet of such reports shall be verified or approved by a person authorized by law or by these regulations to act as inspector or enforcement officer, and the said duplicate reports for each calendar year shall be submitted to the Director of the Fish and Wildlife Service, Washington 25, D. C., within 30 days after the end of each calendar year.

[1] 17 F. R. 7861.

§ 151.32 *Records to be maintained at secondary processing land stations.*

(a) There shall be maintained by all licensed secondary processing land stations receiving from land stations parts of whales for further processing a suitable ledger or book in which the following information shall be recorded, and such records shall be available for inspection by any authorized person:

(1) The kind and quantity of parts of whales received.

(2) The date of receipt thereof.

(3) The kind and quantity of products derived therefrom.

(b) Said ledger or book or certified true copies thereof shall be submitted in duplicate to the Director of the Fish and Wildlife Service, Washington 25, D. C., within 30 days after the end of each calendar year.

§ 151.33 *Report on employment, craft, and products of whaling operations.* The person or persons responsible for the operation of every factory ship, land station and secondary processing land station shall submit in duplicate annually to the Director of the Fish and Wildlife Service, Washington 25, D. C., within 30 days after the end of each calendar year, a report on employment, craft and products. Such reports shall be submitted on forms provided by the Fish and Wildlife Service and shall be subscribed and sworn to by the person or persons responsible for the operation of said factory ships, land station and secondary processing land station before a notary public or a person authorized by law or by these regulations to act as inspector or enforcement officer.

SALVAGE OF UNCLAIMED WHALES

§ 151.40 *No processing license required.* No license shall be required for the salvage and processing of any dead whale found upon a beach or stranded in shallow water, or of any unclaimed dead whale found floating at sea.

§ 151.41 *Reporting of salvage of dead whales required.* (a) Any person or persons salvaging and/or processing any dead whale of any of the species enumerated in § 151.10 shall submit a report in writing to the Director of the Fish and Wildlife Service, Washington 25, D. C.

(b) Such report shall show the date and exact locality in which such dead whale was found, its length, species if determinable, the disposition made of the whale, the firm utilizing or processing it, the products derived therefrom, and any other relevant facts.

MOLESTING OR UNAUTHORIZED INTERFERENCE WITH WHALES

§ 151.50 *Molesting whales prohibited.* The chasing, molesting, exciting, or interfering, with firearms or by any other manner or means, with any whale of the species listed in § 151.10 or protected by the provisions of the International Convention for the Regulation of Whaling of 1946 is prohibited. Persons violating this section shall, upon arrest and conviction, be subject to the penalties imposed by the Whaling Convention Act of 1949.

INSPECTION AND ENFORCEMENT

§ 151.60 *Fish and Wildlife Service employees designated as enforcement officers.* Any employee of the Fish and Wildlife Service duly appointed and authorized to enforce Federal laws and regulations administered by the Department of the Interior and the Fish and Wildlife Service is authorized and empowered to act as a law enforcement officer for the purposes set forth in the Whaling Convention Act of 1949.

§ 151.61 *State officers designated as enforcement officers.* Any employee of a State government who has been duly designated by the Director of the Fish and Wildlife Service, with the consent of the State government concerned, is authorized and empowered to act as a Federal law enforcement officer for the purposes set forth in the Whaling Convention Act of 1949.

MASTIN G. WHITE,
Acting Secretary of the Interior.

[7 CFR Part 959]

IRISH POTATOES GROWN IN THE COUNTIES OF CROOK, DESCHUTES, JEFFERSON, KLAMATH, AND LAKE IN OREGON, AND MODOC AND SISKIYOU IN CALIFORNIA

PROPOSED BUDGET OF EXPENSES AND RATE OF ASSESSMENT

Notice is hereby given that the Secretary of Agriculture is considering the approval of the budget of expenses and rate of assessment hereinafter set forth, which were recommended by the Oregon-California Potato Committee, established pursuant to Marketing Agreement No. 114 and Order No. 59, as amended (7 CFR, Part 959), regulating the handling of Irish potatoes grown in the counties of Crook, Deschutes, Jefferson, Klamath, and Lake in the State of Oregon, and Modoc and Siskiyou in the State of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

Consideration will be given to any data, views, or arguments pertaining thereto which are filed in triplicate with the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 15 days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

§ 959.204 *Budget of expenses and rate of assessment.* (a) The expenses necessary to be incurred by the Oregon-California Potato Committee, established pursuant to Marketing Agreement No. 114 and Order No. 59, as amended, to enable such committee to perform its functions pursuant to the provisions of the aforesaid marketing agreement and amended order, during the fiscal year ending June 30, 1953, will amount to $14,400.00;

(b) The rate of assessment to be paid by each handler who first ships potatoes shall be one-fourth of one cent ($0.0025) per hundredweight of potatoes handled by him as the first handler thereof during said fiscal year; and

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 114 and Order No. 59, as amended (7 CFR Part 959).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 29th day of August 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

CIVIL AERONAUTICS BOARD

[14 CFR, Parts 40, 41, 42, 45, 61]

EMERGENCY AND EVACUATION EQUIPMENT AND PROCEDURES FOR SCHEDULED AND IRREGULAR PASSENGER AIR CARRIER OPERATIONS

NOTICE OF PROPOSED RULE-MAKING

Notice is hereby given that the Civil Aeronautics Board has under consideration the adoption of proposed amendments to Parts 41, 42, 61, and the proposed revised Part 40 of the Civil Air Regulations in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by September 29, 1952. Copies of such communications will be available after October 1, 1952, for examination by interested persons in the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

Investigations of certain recent air carrier accidents have indicated to the Board the desirability and necessity of making certain changes in the Civil Air Regulations relating to emergency and evacuation equipment and procedures. The following are summaries of the proposals which the Board considers are necessary at this time.

Location of life rafts. Recent accidents and operating experience have pointed out that in many air carrier aircraft life rafts are stowed in such a manner that they are not readily accessible in cases of ditchings when little time is available for preparation. It is appreciated that in many cabin arrangements it is difficult so to install rafts that they can be easily launched by the crew when the aircraft is on the water; however, experience indicates that safety requires that this be done. Although it is understood that the ability of the crew to launch the rafts is dependent upon training and intelligent crew assignment (see paragraph entitled *Crew assignments in cases of emergency and ditching* below), it seems apparent that good positioning in the aircraft is essential. Therefore, it is proposed that all required rafts and life vests not only be equipped for the route to be flown and be approved by the Administrator, but be installed in approved locations and be readily available and easily accessible to the crew and passengers in the event of ditching.

Carriage of emergency evacuation equipment. There are no requirements in any of the operating parts of the Civil Air Regulations for provision of evacuation equipment to assist passengers in evacuating an aircraft on the ground. Experience has shown that in certain instances it is essential that some means be provided in addition to those required by the applicable airworthiness requirements. Part 4b now specifies that for all land-plane emergency exits which are more than six feet from the ground with the airplane on the ground and the landing gear extended means shall be provided to assist the occupants in descent from the aircraft. (This requirement does not apply to emergency exits so located that it can be expected that passengers can gain easy access to the wing and thence to the ground.) It is considered that this same requirement should be applied to aircraft presently in service by its inclusion in the relevant operating parts.

Emergency lighting and marking of emergency exits. At the present time Parts 41 and 61 require that emergency exits for aircraft carrying passengers be clearly marked as such with luminous paint in letters not less than ¾" high, such markings to be located either on or immediately adjacent to pertinent exits and readily visible to passengers. Location and method of operation of the handles is required to be marked with luminous paint. The Board has received a number of comments to the effect that these requirements are not sufficiently stringent to insure that in case of a crash landing or ditching at night the passengers and crew would be able to identify and operate emergency exits. It is proposed therefore that for all air carrier passenger aircraft lights be installed so as to illuminate all exits in such a manner as to attract the attention of the occupants of the aircraft at night. It is further proposed that the lights be equipped with an integral energy supply independent of the main electrical system and so designed as to function manually and, in the event of a crash landing, automatically. In addition, it is proposed that the location of the exit-operating handles be plainly marked on or adjacent to exits, and concise instructions be similarly marked; all of these markings to be in luminous paint.

Crew assignments in cases of emergency and ditching. The Board has always based its rules on the premise that, wherever possible, the air carrier should be responsible for assigning crew duties. It has been brought to the attention of the Board, however, that in certain instances crew duties are not sufficiently delineated and crew training programs are not sufficiently detailed so as to provide proper coordination of the crew in the event of a crash landing or ditching. The Board considers that it is necessary to ensure that assigned crew duties are realistic and do not, for example, require an individual to be assigned certain tasks which are not probable of accomplishment under the conditions anticipated. It is therefore proposed that each air carrier assign specific functions to each crew member to be accomplished in the event of an emergency landing. These functions must be listed in the air carrier operations manual, and all crew members shall be made thoroughly familiar with such functions during both initial and recurrent training. The air carrier must show that the functions so assigned are possible of accomplishment under the conditions anticipated.

Briefing of passengers. The operating parts presently require that passengers on overseas flights be acquainted with the location of emergency exits, with emergency equipment provided for individual use, and with the procedure to be followed in the case of an emergency landing on the water. Many air carriers construe this requirement to permit passenger briefing by means of pamphlets or cards and do not actually demonstrate the use of life vests, etc. The Board has received suggestions to the effect that such a form of briefing is not adequate and that a passenger should be instructed in the operation of vests and the location of the emergency exits, rafts, and other emergency gear. It is proposed therefore, in the case of extended overwater operations, that each air carrier establish procedures for briefing passengers as to the location and method of operation of life vests and emergency exits and the location of life rafts. Such briefing shall include a demonstration of the method of donning a life jacket and shall be completed prior to take-off.

Accordingly it is proposed to amend Parts 41, 42, and 61, of the Civil Air Regulations to include the following requirements. It is also proposed to include these requirements in the proposed revised Part 40 (17 F. R. 6971) to the extent not already provided therein.

1. All required rafts and life vests shall be approved, shall be adequately equipped for the route to be flown, and shall be installed in approved locations. They shall be readily available and easily accessible to the crew and passengers in the event of an unplanned ditching.

2. On all passenger-carrying airplanes, at all doors and emergency exits which are more than six feet from the ground with the airplane on the ground with the landing gear extended, means shall be provided to assist the occupants in descending from the aircraft: *Provided*, That such means need not be provived at emergency exits over the wing where the greatest distance from the exit lower sill to the wing surface does not exceed 36 inches.

3. Doors and emergency exits intended for passenger and crew use during emergencies shall be so lighted as to permit ready identification and so as to attract the attention of the occupants of the aircraft in the event that the main electrical system of the aircraft is inoperative after an emergency landing at night. The lights used for this purpose shall be designed so as to function both manually and, in the event of a crash landing, automatically. The location of the door and exit-operating handles and the method of their operation shall be plainly marked in luminous paint on or adjacent to the doors and exits.

4. Each air carrier shall assign specific functions to each crew member to be accomplished in the event of an emergency landing. The air carrier shall show that the functions so assigned are possible of accomplishment under the conditions anticipated. These functions shall be listed in the air carrier operation manual, and all crew members shall be made thoroughly familiar with such functions during both initial and recurrent training.

5. In the case of extended overwater operations each air carrier shall establish procedures for orally briefing passengers as to the location and method of operation of life vests and emergency exits and the location of life rafts. Such briefing shall include a demonstration of the method of donning a life jacket. Such briefing shall be accomplished prior to take-off on all extended overwater flights on which the aircraft proceeds directly over water. On flights not proceeding directly over water, the briefing shall be accomplished some time prior to reaching the overwater portion of the flight.

These amendments are proposed under the authority of Title VI of the Civil

Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply Secs. 601–610, 52 Stat. 1007–1012; 49 U. S. C. 551–560; 62 Stat. 1216)

Dated: August 28, 1952, at Washington, D. C.

[14 CFR Part 242]

[Economic Regs. Draft Release 56]

FILING OF REPORTS BY IRREGULAR AIR CARRIERS, IRREGULAR TRANSPORT CARRIERS, AIR TAXI OPERATORS AND NONCERTIFICATED CARGO CARRIERS

NOTICE OF PROPOSED RULE MAKING

AUGUST 28, 1952.

Notice is hereby given that the Civil Aeronautics Board has under consideration the amendment of Part 242 of the Economic Regulations (14 CFR Part 242). The proposed amendments are designed to obtain more uniform, and in some respects more detailed, data in response to the reporting requirements of these provisions of the regulations.

It is believed that the lack of uniformity in information obtained under the present requirements and the inadequacy of detailed information on certain matters of importance to the Board in the discharge of its regulatory responsibilities can be remedied through providing standard forms to be filled out in making the required reports, together with detailed instructions for filling out the forms.

Under the proposed rule, the required reports would contain, in standard form, quarterly statements of the type presently required, namely, balance sheet, profit and loss statement, statement of airplanes owned and rented, personnel and transportation data and a flight report. The proposed requirements would include in addition (1) a separation of flight and traffic statistics between domestic and international operations, (2) a report of traffic flow, (3) when applicable, a supplemental statement of revenues and flight and traffic statistics in defense contract operations, (4) an annual statement on general officers, directors and stockholders, and (5) an annual statement of corporate securities data and investments in other companies.

Schedule F of the proposed new form (Flight Report—Large Irregular Carriers and Irregular Transport Carriers) would not apply to noncertificated cargo carriers. It is contemplated that such carriers will continue to submit flight reports in accordance with the provisions of § 242.6, which would remain unchanged.

The proposed forms would discontinue the existing requirement that a separation be made in transportation statistics to distinguish between those operations which are, and those operations which are not, performed under the Letter of Registration. However, the present requirement that carriers indicate in the flight report those flights which, in their opinion, were not in common carriage would be left unchanged.

It will be noted that the proposed rule does not affect in any way the reporting requirements for air taxi operators. It should be further noted that the proposed rule will apply to the so-called "irregular transport carriers," which are air carriers so named in the Board orders granting them economic operating authorization by individual exemption to engage in limited irregular operations. These carriers are all former members of the large irregular carrier class. The proposed reporting requirements are designed to apply to any other air carrier designated as an "irregular transport carrier" pursuant to a Board order in the future.

For the information of any interested persons who do not receive copies of the proposed forms[1] in regular distribution, copies are on file with the FEDERAL REGISTER or may be obtained by addressing a request in writing to the Civil Aeronautics Board, Publications Section, Commerce Building, Washington, D. C.

Interested persons may participate in the making of the proposed rule by submitting such written data, facts, or arguments as they may desire. Communications should be submitted in triplicate and addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All communications received on or before October 3, 1952, will be considered by the Board before taking further action on the proposed rule.

In consideration of the foregoing, it is proposed to amend Part 242 of the Economic Regulations (14 CFR Part 242) as follows:

1. By amending the title of the part to read as follows: "Part 242—Filing of Reports by Large Irregular Carriers, Irregular Transport Carriers, Air Taxi Operators, and Noncertificated Cargo Carriers"

2. By amending § 242.2 to read as follows:

§ 242.2 *Statistical and flight reports required.* Statistical reports, in accordance with the provisions of § 242.3, shall be filed with the Board with respect to operations of aircraft having more than 5 passenger seats by each air taxi operator owning or having the right to operate for compensation or hire any such aircraft. Each large irregular carrier, irregular transport carrier and noncertificated cargo carrier shall file statistical reports in accordance with § 242.4. Flight reports shall be filed with the Board by each large irregular carrier or irregular transport carrier in accordance with § 242.4 and by each noncertificated cargo carrier in accordance with § 242.6. Each such air taxi operator, large irregular carrier, irregular transport carrier and noncertificated cargo carrier shall keep all accounts, records, and memorandums (including the accounts, records and memorandums of the movement of traffic as well as of the receipts and expenditures of money), which are needed in order to accomplish full compliance with the reporting requirements of this part. Such accounts, records, and memorandums as relate to statistical reports shall be preserved for 3 years, and such as relate to flight reports shall be preserved for 1 year. The reports to be filed by such carriers shall be prepared in accordance with the following provisions and shall be certified to be correct by a responsible officer of the reporting carriers.

3. By amending § 242.4 to read as follows:

§ 242.4 *Statistical reports by large irregular carriers, irregular transport carriers and noncertificated cargo carriers, and flight reports by large irregular carriers and irregular transport carriers.* For the calendar quarter ending December 31, 1952, and all succeeding quarters with respect to all reports required to be filed quarterly, and for the calendar year 1952 and all succeeding calendar years with respect to all reports required to be filed annually, each large irregular carrier, irregular transport carrier and noncertificated cargo carrier shall file with the Board the prescribed number of copies of completed CAB Form ------, entitled "Report of Financial and Operating Statistics for Large Irregular Carriers, Irregular Transport Carriers, and Noncertificated Cargo Carriers" in accordance with the instructions accompanying such form: *Provided*, That noncertificated cargo carriers shall not be required to file Schedule F (Flight Report) but shall furnish data of this kind in accordance with the provisions of § 242.6.

4. By amending § 242.5 to read as follows:

§ 242.5 *Filing of copies of agreements, manifests, other flight data and publicity material.* (a) All large irregular carriers and irregular transport carriers shall file with the Board, contemporaneously with filing the flight reports under Schedule F of CAB Form ------, as required by § 242.4, one copy of each of the following:

(1) *Agreements and manifests.* All written agreements, memorandums of all oral agreements, and all passenger and cargo manifests covering flights in the following categories:

(i) Each flight on which persons, either revenue or nonrevenue (other than crew required by applicable Civil Air Regulations), were carried between a point in the United States (as defined by section 1 (32) of the Civil Aeronautics Act) and a point outside thereof.

(ii) Each flight which, in the opinion of the carrier, was not in common carriage.

(2) *Other flight data.* A tabulation of the following data for each flight of the categories designated under subparagraph (1) (i) and (ii) of this paragraph (unless the information is available from instruments filed pursuant to said subparagraph (1) of this paragraph):

[1] Filed as part of the original document.

(i) Name and address of the person for whom the flight was operated.

(ii) Manner in which passengers and cargo transported on such flight were obtained (solicitation, advertising, circular, etc.).

(iii) Nature, terms, and conditions of the arrangements for such flight.

(iv) Obligations and responsibilities of the parties to the arrangement in connection with the transportation.

(v) Number of persons (other than crew required by applicable Civil Air Regulations) carried on each flight of the category designated by subparagraph (1) (i) of this paragraph.

(3) *Agreements with ticket agents.* True and complete copies of every agreement between a large irregular carrier or irregular transport carrier and any ticket agent, if it pertains to any of the following subjects:

(i) The furnishing of passengers or groups of passengers for transportation by air.

(ii) The making of arrangements for flights for the accommodation of passengers or groups of passengers.

(iii) The solicitation or generation of passenger traffic to be transported by the large irregular carrier or irregular transport carrier; or

(iv) The charter or lease of aircraft.

(4) *Publicity material on large irregular carrier and irregular transport carrier operations.* Each advertisement, circular, pamphlet, brochure, or other publicity material and each announcement or notice issued by a large irregular carrier or irregular transport carrier during the preceding 3-month period and pertaining to any of its air transportation services for passengers, and information with respect to each such item showing, if published in a newspaper, magazine or other advertising medium, the place and date or dates of issue, and the name of the publication, or, if distributed otherwise (such as through circulars, bulletins, pamphlets, or brochures), the dates, manner and extent of distribution.

(b) Data reported pursuant to paragraphs (a) (1) and (2) of this section shall be available for official use on behalf of the Civil Aeronautics Board, but shall otherwise be withheld from public disclosure except as disclosure may be necessary in carrying out responsibilities under section 412 of the act.

This amendment is proposed under the authority of section 205 (a) and section 407 of the Civil Aeronautics Act of 1938, as amended. The proposed amendment may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984, 49 U. S. C. 425. Interpret or apply sec. 407, 52 Stat. 1000, 49 U. S. C. 487)

[SEAL] M. C. MULLIGAN, *Secretary.*

NOTICES

DEPARTMENT OF COMMERCE

National Production Authority

[Suspension Order 23; Docket No. 30]

PERMA-SIDE CO.

SUSPENSION ORDER

A hearing having been held in the above-entitled matter on the 15th day of August 1952 before George P. Jones, a Hearing Commissioner of the National Production Authority, on a statement of charges made by the General Counsel, National Production Authority, in accordance with the National Production Authority General Administrative Order 16–06 (16 F. R. 8628), dated July 21, 1951, and Implementation 1 to National Production Authority General Administrative Order 16–06 (16 F. R. 8799), dated August 30, 1951; and

The respondent, Samuel Rosenmutter, doing business as Perma-Side Company, having been duly apprised of the specific violations charged and the administrative action which may be taken, and having been fully informed of the rules and procedures which govern these proceedings, and being represented by William Strong, an attorney at law, 9441 Wilshire Boulevard, Beverly Hills, Calif., and

The respondent having stipulated to a statement of facts to be filed in lieu of the presentation of other evidence in support of and in opposition to the statement of charges, the following findings of fact as stipulated by the parties hereto are found:

Findings of fact: 1. The respondent committed acts prohibited by CMP Regulation No. 1, section 17 (a), as issued May 3, 1951 (16 F. R. 4127), and as amended November 23, 1951 (16 F. R. 11860), in that the said Samuel Rosenmutter, having received an authorized production schedule and related allotment providing for the use of a certain quantity of aluminum during the calendar quarter beginning January 1, 1952, placed authorized controlled material orders with his supplier for 57,600 pounds of aluminum, whereas he was lawfully entitled to order only 16,128 pounds of aluminum.

2. The respondent committed acts prohibited by CMP Regulation No. 1, section 19 (f), as issued May 3, 1951 (16 F. R. 4127), and as amended November 23, 1951 (16 F. R. 11860), in that the said Samuel Rosenmutter, having received an authorized production schedule and related allotment providing for the use of a certain quantity of aluminum during the calendar quarter commencing October 1, 1951, did request delivery from his supplier of controlled material, to wit: 57,600 pounds of aluminum, said amount of aluminum being 41,472 pounds greater than was required to fulfill the said authorized production schedule.

3. The respondent committed acts prohibited by CMP Regulation No. 1, section 17 (a), as issued May 3, 1951 (16 F. R. 4127), and as amended November 23, 1951 (16 F. R. 11860), in that the said Samuel Rosenmutter, having received an authorized production schedule providing for the use of a certain quantity of aluminum during the calendar quarter beginning January 1, 1952, did request delivery from his supplier of controlled material, to wit: 35,913 pounds of aluminum, said amount of aluminum being 29,865 pounds greater than was required to fulfill the said authorized production schedule.

4. The respondent committed acts prohibited by CMP Regulation No. 1, section 19 (f), as issued May 3, 1951 (16 F. R. 4127), and as amended November 23, 1951 (16 F. R. 11860), in that the said Samuel Rosenmutter, having received an authorized production schedule and related allotment providing for the use of a certain quantity of aluminum during the calendar quarter beginning January 1, 1952, placed authorized controlled material orders with his supplier for 35,913 pounds of aluminum, whereas he was lawfully entitled to order only 6,048 pounds of aluminum.

5. The respondent committed acts prohibited by section 17 (b) of CMP Regulation No. 1, as issued May 3, 1951 (16 F. R. 4127), section 3 (c) of CMP Regulation No. 1, as amended July 12, 1951 (16 F. R. 6800), and sections 3 (c) and 17 (b) of CMP Regulation No. 1, as amended November 23, 1951 (16 F. R. 11860), in that Samuel Rosenmutter, having received an authorized production schedule and a related allotment of aluminum for use during the calendar quarter commencing October 1, 1951, used the said allotment to obtain and use at least 41,472 pounds of aluminum more than was required to fulfill the said authorized production schedule.

6. The respondent committed acts prohibited by section 17 (b) of CMP Regulation No. 1, as issued May 3, 1951 (16 F. R. 4127), section 3 (c) of CMP Regulation No. 1, as amended July 12, 1951 (16 F. R. 6800), and sections 3 (c) and 17 (b) of CMP Regulation No. 1, as amended November 23, 1951 (16 F. R. 11860), in that Samuel Rosenmutter, having received an authorized production schedule and a related allotment of aluminum for use during the calendar quarter beginning January 1, 1952, used the said allotment to obtain and use at least 29,865 pounds of aluminum more than was required to fulfill the said authorized production schedule.

Conclusions: During the calendar quarters commencing October 1, 1951, and January 1, 1952, the respondent herein violated the provisions of National Production Authority regulations and orders as hereinabove cited by placing orders with suppliers and requesting delivery from said suppliers of more aluminum than he was entitled to order or to request delivery of during said pe-

riod, by using at least 71,337 pounds of aluminum for unauthorized purposes.

In order to correct the unauthorized use of aluminum occasioned by the violations found herein and in order to prevent future violations of National Production Authority regulations, orders, and directives by this respondent,

It is accordingly ordered: 1. That all priority assistance be withdrawn and withheld from the respondent for a period of 6 months commencing from the 1st day of September 1952.

2. That all allocations and allotments of controlled material and material under the control of the National Production Authority be withheld from the respondent for a period of 6 months commencing from the 1st day of September 1952.

3. That the respondent be prohibited from producing or acquiring Class "A" products and from producing Class "B" products (as defined in National Production Authority CMP Regulation No. 1, as amended November 23, 1951, and as may be amended hereafter), and from acquiring, using, or disposing of any materials under control of the National Production Authority, except as may be directed by the Administrator of the National Production Authority for a period of 6 months commencing from the 1st day of September 1952.

4. That all privileges of self-certification and self-authorization granted by the National Production Authority with respect to controlled materials and materials under control of the National Production Authority be withdrawn and withheld from Samuel Rosenmutter, doing business as Perma-Side Company, for a period of 6 months commencing from the 1st day of September 1952.

Issued this 15th day of August 1952 at Los Angeles, Calif.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE P. JONES,
Hearing Commissioner.

[F. R. Doc. 52-9767; Filed, Sept. 3, 1952; 11:38 a. m.]

[Suspension Order 24; Docket No. 32]

ART METAL CONSTRUCTION CO.

SUSPENSION ORDER

A hearing having been held in the above-entitled matter on the 19th day of August 1952 before Philip E. Hoffman, Esquire, a Hearing Commissioner of the National Production Authority, on a Statement of Charges made by the General Counsel, National Production Authority, in accordance with the National Production Authority General Administrative Order 16-06 (16 F. R. 8628), dated July 21, 1951, and Implementation 1 to National Production Authority General Administrative Order 16-06 (16 F. R. 8799); and

The respondent, Art Metal Construction Co., a Massachusetts corporation, having been duly apprised of the specific violations charged and the administrative action which may be taken, and having been fully informed of the rules and procedures which govern these proceedings; and the National Production Authority being represented by William E. Kennedy, attorney, and the respondent being represented by Hellings, Ulsh, Morey and Stewart, appearing by William P. Stewart, Esquire; and

The respondent, by its attorneys Hellings, Ulsh, Morey and Stewart, appearing by William P. Stewart, Esquire, having entered into a stipulation dated August 18, 1952, wherein it was admitted that the respondent, Art Metal Construction Co., a Massachusetts corporation, did commit the acts charged in Charge 2 of the Statement of Charges filed herein by the General Counsel and dated July 7, 1952; and

The respondent having fully stipulated that the said stipulation be filed in lieu of the presentation of other evidence in support of, and in opposition to, the Statement of Charges, the following Findings of Fact as stipulated by the parties hereto are found:

Findings of fact. 1. The respondent, Art Metal Construction Co., a Massachusetts corporation, during the second quarter commencing April 1, 1951, used in the manufacture of metal office cabinets and cases, metal chairs, metal desks and tables, metal furniture, metal doors, frames, sash and trim, 6,680 tons of carbon steel, when lawfully authorized to use only 5,268.55 tons, thereby using 1,411.45 tons more than was permitted.

Conclusion. 1. The respondent, Art Metal Construction Co., a Massachusetts corporation, has committed acts prohibited by National Production Authority Order M-47, section 5 (a) dated March 7, 1951 (16 F. R. 2186), as amended April 4, 1951 (16 F. R. 3582), and as amended June 1, 1951 (16 F. R. 5267), in that Art Metal Construction Co., a Massachusetts corporation, during the second quarter commencing April 1, 1951, used in the manufacture of metal office cabinets and cases, metal chairs, metal desks and tables, metal furniture, metal doors, frames, sash and trim, 6,680 tons of carbon steel, when lawfully authorized to use only 5,268.55 tons, thereby using 1,411.45 tons more than was permitted by the said section.

There is no evidence establishing that the violations of the National Production Authority regulations, orders, and directives were committed willfully, and it is concluded that there were no willful acts.

In order to correct the unauthorized use of carbon steel occasioned by the violations found herein, by the respondent:

It is accordingly ordered: 1. That all allocations and allotments of carbon steel which may be granted to Art Metal Construction Co., a Massachusetts corporation, its successors and assigns, for use during the third quarter 1952 and fourth quarter 1952, be reduced as follows:

(a) By 700 tons during the period beginning on the date hereof and ending September 30, 1952.

(b) By 711.45 tons during the period beginning October 1, 1952, and ending December 31, 1952.

2. That the respondent, Art Metal Construction Co., a Massachusetts corporation, its successors and assigns, be and they hereby are prohibited during each of the aforementioned periods from acquiring any items of carbon steel in excess of their carbon steel allocations and allotments as so reduced.

3. Nothing herein contained shall be construed to prohibit Art Metal Construction Co., a Massachusetts corporation, its successors and assigns, from obtaining its usual and necessary allotments of carbon steel after December 31, 1952, in accordance with the regulations then in force and effect.

Issued this 19th day of August 1952 at New York City, N. Y.

NATIONAL PRODUCTION AUTHORITY,
By PHILIP E. HOFFMAN,
Hearing Commissioner.

[F. R. Doc. 52-9768; Filed, Sept. 3, 1952; 11:30 a. m.]

[Suspension Order 25; Docket No. 45]

CHERNY-WATSON LUMBER CO.

SUSPENSION ORDER

A hearing having been held in the above-entitled matter on the 21st day of August 1952, at Omaha, Nebr., before Frederick J. Moreau, a Hearing Commissioner of the National Production Authority, on a statement of charges made by the General Counsel, National Production Authority, in accordance with the National Production Authority General Administrative Order 16-06 (16 F. R. 8628), and Implementation 1 to that order; and

The respondent, the Cherny-Watson Lumber Company of North Bend, Nebr., having been duly apprised of the specific violations charged, and the administrative action which may be taken thereon, and having been fully informed of the rules and procedures which govern the proceedings, and it having appeared by John C. Mason, Esquire, a partner in the firm of Beghtol and Rankin, Stuart Building, Lincoln, Nebr., and respondent having by its attorneys filed a general denial to the charges, and the National Production Authority having submitted evidence sustaining the charges set forth in the statement of charges, which evidence was not controverted in any manner by the respondent, and the Commissioner being fully advised in the premises, determines as follows:

Findings of fact: 1. That for the fourth quarter 1951 respondent's original allotments of aluminum, a controlled material under the provisions of CMP Regulation No. 1, of 30,193 pounds of aluminum, which original allotment was reduced or decreased on September 8, 1951, by Form CMP-11 to the extent of 14,193 pounds, leaving respondent's net allotment of 16,000 pounds, and that its receipts of aluminum for such fourth quarter 1951 were 25,166 pounds of aluminum, making an excess of receipts of 9,166 pounds.

2. That for the first quarter 1952 respondent had an original allotment of aluminum of 12,000 pounds, which original allotment was reduced by Form CMP-11, November 13, 1951, by 7,300 pounds, leaving a net allotment for such first quarter 1952 of 4,700 pounds; respondent's receipts for such first quarter 1952 were 11,362 pounds of aluminum, making an excess of receipts of aluminum over the allotment of 6,662 pounds of aluminum.

3. During the periods involved in the above findings, respondent failed to keep its inventories in such condition as to enable it to state what its inventories were with reference to these controlled materials as required by the orders of the National Production Authority.

Conclusion: During the period beginning October 1, 1951, and ending March 31, 1952, the respondent committed acts prohibited by CMP Regulation No. 1, section 19 (f), as issued May 3, 1951, and as amended November 23, 1951, in that during the fourth quarter 1951 it received and accepted delivery of 9,166 pounds of aluminum in excess of the amount it was lawfully entitled to order and receive, and in that during the first quarter 1952 it received and accepted delivery of 6,662 pounds of aluminum in excess of the amount it was lawfully entitled to order and receive under said orders, and respondent also violated section 23 (a) of CMP Regulation No. 1 as issued and as amended in that it failed to maintain at its regular place of business, accurate records of its inventory of aluminum, a controlled material, as listed in said CMP Regulation No. 1.

Accordingly it is ordered: 1. That all allocations and allotments of aluminum which respondent might be entitled to receive, either by application using Form CMP-4B or by self-certification, for use during the third quarter, the current quarter, and fourth quarter 1952, be reduced as follows:

(a) By 9,000 pounds during the period beginning July 1, 1952, and ending September 30, 1952.

(b) By 6,000 pounds during the period beginning October 1, 1952, and ending December 31, 1952.

2. It is further ordered that the respondent make immediate efforts to put its inventory in proper condition so as to enable it to give specific information at all times with reference thereto.

Issued this 21st day of August 1952 at Omaha, Nebr.

CIVIL AERONAUTICS BOARD

[Docket No. 4299]

SERVICE TO PITTSBURG, KANS.

NOTICE OF HEARING

In the matter of the application of the City of Pittsburg, Kansas, the Pittsburg Chamber of Commerce, and the Division of Aeronautics, Kansas Industrial Development Commission under section 401 (h) of the Civil Aeronautics Act of 1938, as amended, of existing certificates of public convenience and necessity to provide the City of Pittsburg, Kansas, with scheduled air transportation of persons, property, and mail.

Notice is hereby given that pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401 (h) and 1001 of the said act, that the above-entitled proceeding is assigned for hearing on September 23, 1952, at 9:00 a. m., c. s. t., in the Besse Hotel, Pittsburg, Kansas, before Examiner Curtis C. Henderson.

Without limiting the scope of the issues presented by the application, particular attention will be directed to whether the public convenience and necessity require amendment of the certificate of public convenience and necessity of Ozark Airlines, Inc., so as to provide air transportation to Pittsburg, Kansas.

For further details of the issues involved in the proceeding, interested persons are referred to the application on file with the Civil Aeronautics Board.

Notice is further given that any person, other than a party of record, desiring to be heard in opposition to the application must file with the Board on or before September 23, 1952, a written statement setting forth the issues of fact or law raised by this proceeding which he desires to controvert.

Dated at Washington, D. C., August 29, 1952.

By the Civil Aeronautics Board.

[SEAL] THOMAS L. WRENN,
Acting Chief Examiner.

FEDERAL POWER COMMISSION

[Docket No. E-6453]

IOWA PUBLIC SERVICE CO.

NOTICE OF APPLICATION

AUGUST 27, 1952.

Take notice that on August 26, 1952, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Iowa Public Service Company, a corporation organized under the laws of the State of Iowa and doing business in the States of Iowa, South Dakota and Nebraska, with its principal business office in Sioux City, Iowa, seeking an order authorizing the issuance of 150,122 shares of Common Stock, a par value $5 per share. The additional Common Stock is to be issued pro rata to existing holders of Common Stock for subscription on the basis of one new share for each eight shares of Common Stock held; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 17th day of September 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27356]

MAHOGANY AND PHILIPPINE WOODS FROM BATON ROUGE, KENNER, AND NEW ORLEANS, LA., TO MOOREFIELD, W. VA.

APPLICATION FOR RELIEF

AUGUST 29, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1214.

Commodities involved: Lumber, logs or flitches or mahogany and Philippine woods, built-up woods, and veneer, carloads.

From: Baton Rouge, Kenner, and New Orleans, La.

To: Moorefield, W. Va.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1214, Supp. 52.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

Office of Price Stabilization

[Ceiling Price Regulation 32, Supplementary Regulation 2, Section 3, Special Order 21]

ROSE CITY FIELD, ORANGE COUNTY, TEXAS

CRUDE PETROLEUM CEILING PRICES ADJUSTED ON AN IN-LINE BASIS

Statement of considerations. This special order adjusts the ceiling price for the purchase of crude petroleum produced from the Rose City Field, Orange County, Texas.

The Office of Price Stabilization has been requested to eliminate the differentials heretofore imposed upon crude petroleum produced from the Rose City Field (Hackberry Formation) Orange County, Texas. During the base period full production had not been attained; installation of adequate low-cost transportation was not then available; and there was a lack of competitive factors. As a result the crude petroleum produced from this field was sold at a lower price than that paid for crude petroleum of comparable quality produced in this same general area. It appears that this condidtion has now been eliminated and these differentials should no longer be imposed.

From the information available to this Office, it appears that the adjusted ceiling price will be in line with the ceiling price of comparable crude petroleum produced in this same area. This price is $2.88 per barrel for 40 degrees API gravity and above with a 2 cents differential less for each degree of gravity below 40 degrees, down to $2.46 per barrel for below 20 degrees API gravity.

Special provision. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of section 3 of SR 2 to CPR 32, *It is ordered:*

1. That the ceiling price at the lease receiving tank for crude petroleum produced from the Rose City Field, Orange County, Texas, shall be: $2.88 per barrel for 40 degrees API gravity and above with a 2 cent differential loss for each degree of gravity below 40 degrees, down to $2.46 per barrel for below 20 degrees API gravity.

2. All provisions of Ceiling Price Regulation 32, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified or revoked at any time by the Director of Price Stabilization.

Effective date. This special order 21 shall become effective on August 28, 1952.

ELLIS ARNALL, *Director of Price Stabilization.*

AUGUST 27, 1952.

OFFICE OF DEFENSE MOBILIZATION

[CDHA 77]

FINDING AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER THE DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951

SEPTEMBER 2, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations and the availability of housing and community facilities and services for such defense workers and military personnel in the area set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Services Act of 1951 (Pub. Law 139, 82d Cong., 1st Sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that said area is a critical defense housing area.

Milwaukee, Wisconsin, Area. (The area consists of all of Milwaukee County, Wisconsin.)

JOHN R. STEELMAN, *Acting Director of Defense Mobilization.*

[F. R. Doc. 52-9691; Filed, Sept. 2, 1952; 12:06 p. m.]

[RC 60]

MILWAUKEE, WIS., AREA

DETERMINATION AND CERTIFICATION OF A CRITICAL DEFENSE HOUSING AREA

SEPTEMBER 2, 1952.

Upon specific data which has been prescribed by and presented to the Secretary of Defense and the Director of Defense Mobilization and on the basis of other information available in the discharge of their official duties, the undersigned find that the conditions required by section 204 (1) of the Housing and Rent Act of 1947, as amended, exist in the area designated as

Milwaukee, Wisconsin, Area. (The area consists of all of Milwaukee County, Wisconsin.)

Therefore, pursuant to section 204 (1) of the Housing and Rent Act of 1947, as amended, and Executive Order 10276 of July 31, 1951, the undersigned jointly determine and certify that the aforementioned area is a critical defense housing area.

ROBERT A. LOVETT, *Secretary of Defense.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2928]

LOWELL ELECTRIC LIGHT CORP.

NOTICE REGARDING FILING OF PROPOSED NOTE ISSUES

AUGUST 28, 1952.

Notice is hereby given that a declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by The Lowell Electric Light Corporation ("Lowell"), a public-utility subsidiary company of New England Electric System, a registered holding company. Lowell has designated sections 6 (a) and 7 of the act and Rules U-23 and U-42 (b) (2) thereunder as applicable to the proposed transactions, which are summarized as follows:

The declaration states that Lowell presently has outstanding $2,700,000 principal amount of promissory notes, due October 1, 1952, issued pursuant to a bank loan agreement with five banks, namely, The First National Bank of Boston ($1,485,000), The Chase National Bank of the City of New York ($351,000), The Hanover Bank ($351,000), Irving Trust Company ($351,000) and The New York Trust Company ($162,000). Lowell proposes to issue to these banks, from time to time but not later than December 31, 1952, additional unsecured six months promissory notes in an aggregate principal amount not in excess of $3,100,000. Lowell further proposes that the principal amount of all of its unsecured promissory notes outstanding at any one time prior to December 31, 1952 will not exceed $3,100,000.

Each of the proposed notes will bear interest at the prime rate of interest at the time of the issuance thereof. It is stated that said interest rate for such notes at the present time is 3 percent per annum. In the event that such interest rate is in excess of 3¼ percent per annum at the time any of said additional promissory notes are to be issued, Lowell will file an amendment to its declaration setting forth therein the name of the bank or banks, the terms of the note or notes and the rate of interest at least five days prior to the issuance of said note or notes. Lowell requests that such amendment become effective at the end of such period unless the Commission notifies it to the contrary within said period.

Lowell will use $2,700,000 of the proceeds derived from the proposed issuance of additional promissory notes to pay the outstanding promissory notes maturing October 1, 1952, and will use the remainder of such proceeds to pay for construction cost incurred or to be incurred. Lowell estimates that its construction expenditures for the period July 1, 1952 to December 31, 1952 will aggregate $620,500. Lowell proposes that if any permanent financing is done, the proceeds therefrom will be applied in reduction of, or in total payment of, promissory notes then outstanding, and the amount of authorized but unissued notes, if any, will be reduced by the amount,

if any, by which such permanent financing exceeds the notes at the time outstanding.

The declaration states that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $900. The declaration further states that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Lowell requests that the Commission's order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than September 18, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-9624; Filed, Sept. 3, 1952; 8:47 a. m.]

[File No. 812-799]

NORTH AMERICAN UTILITY SECURITIES CORP.

NOTICE OF APPLICATION

AUGUST 28, 1952.

Notice is hereby given that North American Utility Securities Corporation ("NAUSCORP") located at No. 60 Broadway, New York 4, New York, an investment company registered under the Investment Company Act of 1940, has filed an application pursuant to section 6 (c) of the act for an order of the Commission exempting NAUSCORP from the provisions of section 30 (d) and Rule N-30D-1 (a) of the general rules and regulations under the act which would require the mailing to stockholders of a semi-annual report for the six months ending June 30, 1952.

The North American Company owns all of the outstanding preferred stock and 80.62 percent of the common stock of NAUSCORP. A plan designed to bring about compliance with the requirements of section 11 (b) of the Public Utility Holding Company Act of 1935 by effecting dissolution of NAUSCORP and the retirement of all its outstanding stock was filed on June 21, 1948, by The North American Company with the Commission. The plan as amended on May 5, 1952, provides for a cash payment of $9 a share to the holders of publicly held NAUSCORP common stock and the distribution of the remaining assets of NAUSCORP to The North American Company as holder of the preferred stock and the remaining common stock following which NAUSCORP is to be dissolved. On July 23, 1952, the Commission approved the Amended Plan subject to certain conditions. Pursuant to the request of The North American Company, the Commission applied to the United States District Court for the District of Maryland for enforcement of the Amended Plan, where the matter is now pending. The Amended Plan is to become effective on a date selected by the board of directors of The North American Company and approved by the Commission and the United States District Court.

The Commission's findings and opinion were released on July 23, 1952, and published as Holding Company Act Release No. 11390 which contains a balance sheet of NAUSCORP as of March 31, 1952, and income and expenses for the 12 months ended March 31, 1952.

Rule N-30D-1 (a) provides in part that at least semi-annually every registered investment company shall mail to each stockholder of record a report containing certain information and shall mail such report within 30 days after the date as of which the report is made.

The Commission's findings and opinion dated July 23, 1952 (Release No. 11390) contain financial information of the applicant for the twelve months ended March 31, 1952. The applicant represents that it has mailed copies of such Release to all public holders of the common stock. It also represents that publication and mailing of the required semi-annual report to stockholders would be an unnecessary expenditure of funds and, therefore, requests that the exemption referred to above be granted.

All interested persons are referred to said application which is on file at the Washington, D. C., office of this Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time on or after September 18, 1952, unless prior thereto a hearing on the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than September 16, 1952 at 5:30 p. m., e. d. s. t., submit in writing to the Commission his views or any additional fact bearing upon the application or the desirability of a hearing thereon or request the Commission, in writing, that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, No. 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[Vesting Order No. 18994]

WILHELM KARL ROLF BARON VON HUNDELSHAUSEN AND ELSE VON HUNDELSHAUSEN

In re: Rights of Wilhelm Karl Rolf Baron von Hundelshausen and Else von Hundelshausen under Insurance Contract. File No. F-28-25125-H-2.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Wilhelm Karl Rolf Baron von Hundelshausen and Else von Hundelshausen, whose last known address is Germany, each of whom on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by Policy No. 235-852 issued by the Pan American Life Insurance Company, New Orleans, Louisiana, to Wilhelm Karl Rolf Baron von Hundelshausen, together with the right to demand, receive and collect said net proceeds, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Wilhelm Karl Rolf Baron von Hundelshausen, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons named in subparagraph 1 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "nationals" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS, *Assistant Attorney General, Director, Office of Alien Property.*

[Vesting Order 18995]

BRINCKMANN, WIRTZ & CO. ET AL.

In re: Securities owned by Brinckmann, Wirtz & Company and others.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Brinckmann, Wirtz & Co., the last known address of which is Hamburg, Germany, and Alsen'sche Portlandzementfabrik, the last known address of which is Bellevue 27, Hamburg, Germany, are corporations, partnerships, associations, or other business organizations which on or since December 11, 1941, and prior to January 1, 1947, were organized under the laws of and had their principal places of business in Germany and are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

2. That the persons whose names and last known addresses are listed below:

Names and addresses

Margarete Pfeffer, Kiel, Damperhofstr. 12, Germany.
F. A. W. Teschner, Hamburg, Germany.
Kurt Hotze, Hamburg-Flottbeck, Germany.

on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947 were, nationals of a designated enemy country (Germany);

3. That the property described as follows:

a. Twenty-four (24) coupons detached from 4½ percent First Mortgage 60-Year Gold Bonds of the Brazil Railway Company numbered 118556 and 165710, said coupons numbered 11 through 22, owned by Brinckmann, Wirtz & Co., together with any and all rights thereunder and thereto,

b. One (1) coupon detached from 4½ percent First Mortgage 50-Year Gold Bond of the Brazil Railway Company, numbered A 10754, said coupon numbered 22, owned by Brinckmann, Wirtz & Co., together with any and all rights thereunder and thereto,

c. One hundred (100) shares of no par value common stock of the Tri-Utilities Corporation evidenced by a certificate numbered NY 2987 registered in the name of Henry Pfeffer owned by Margarete Pfeffer, together with all declared and unpaid dividends thereon,

d. One hundred (100) shares of no par value common stock of the Anglo-Chilean Consolidated Nitrate Corporation evidenced by a certificate numbered 8220, registered in the name of Henry Pfeffer, owned by Margarete Pfeffer, together with all declared and unpaid dividends thereon,

e. Any and all rights and interest in and under a Voting Trust Certificate numbered NP/O, 1838, for 50 shares of $3.00 dividend convertible preferred stock of General Theatres Equipment, Inc., said certificate registered in the name of Henry Pfeffer and owned by Margarete Pfeffer,

f. Eight hundred and fifty-eight (858) coupons detached from 5 percent Mortgage Gold Bonds of Alsen's American Portland Cement Works of New York, numbered 200/224 and 234/241, said coupons numbered 25 through 50 of $25.00 face value each, and owned by Alsen'sche Portlandzementfabrik, together with any and all rights thereunder and thereto,

g. Six (6) coupons detached from San Francisco Terminal First Mortgage Southern Pacific Company Bonds numbered M 10905 and M 13315, said coupons numbered 61/63, each of $20.00 face value owned by F. A. W. Teschner, together with any and all rights thereunder and thereto, and

h. Twenty-seven (27) coupons detached from 5 percent General Mortgage Sinking Fund Gold The Denver and Rio Grande Western Railroad Company Bonds numbered C 2050/52, said coupons numbered 11/19 of $2.50 face value each, owned by Kurt Hotze, together with any and all rights thereunder and thereto,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That the national interest of the United States requires that the persons identified in subparagraphs 1 and 2, thereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1952.

For the Attorney General.

HERBERT SEEBER ET AL.

In re: Securities owned by Herbert Seeber and others.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451, Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945, Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR, 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Herbert Seeber, whose last known address is Lauda, Germany, on or since December 11, 1947, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

2. That the personal representatives, heirs, next of kin, legatees and distributees of Karl Willibald, deceased, who there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947 were residents of Germany, are and prior to January 1, 1947 were, nationals of a designated enemy country (Germany);

3. That Bankhaus Cl. Harlacher, the last known address of which is Frankfurt Main, Germany and Commerzbank A. G., the last known address of which is Frankfurt Main, Germany, are corporations, partnerships, associations or other business organizations which on or since December 11, 1941, and prior to January 1, 1947, were organized under the laws of and had their principal places of business in Germany and are, and prior to January 1, 1947 were, nationals of a designated enemy country (Germany);

4. That the property described as follows:

a. Three (3) 5 percent, 50 year Gold Brazil Railway Company Debentures of $500 face value each, said bonds numbered B10200/1 and B10199, presently in the custody of the Attorney General of the United States and owned by Herbert Seeber, together with any and all rights thereunder and thereto,

b. One (1) 5 percent, 50 year Gold Brazil Railway Company Debenture of $500 face value, numbered B11536, presently in the custody of the Attorney General of the United States and owned by the personal representatives, heirs, next of kin, legatees and distributees of Karl Willibald, deceased, together with any and all rights thereunder and thereto,

c. Two (2) First Mortgage Collateral Trust 6 percent, 10 year Gold Coupon Yukon Milling, Dredging and Power Company Bonds, said bonds numbered 9538 and 9539, presently in the custody of the Attorney General of the United States, and owned by Bankhaus Cl. Harlacher, together with any and all rights thereunder and thereto and

d. Seventeen hundred (1,700) shares of $1.00 par value capital stock of The Gold Belt Development & Reduction Company, evidenced by certificate numbered 484, registered in the name of A. Lotichins and certificate numbered 1505 registered in the name of August and Dr. Alfred Lotichins, said certificates presently in the custody of the Attorney General of the United States and owned by Commerzbank, A. G., together with all declared and unpaid dividends thereon,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

5. That the persons identified in subparagraphs 1 and 3 and referred to in subparagraph 2 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1952.

amended by deleting therefrom the following commodity entry:

Refined copper in cathodes, billets, ingots, wire bars, and other crude forms, Schedule B No. 641200;

3. Part 373—Licensing Policies and Related Special Provisions, is amended by adding thereto a new § 373.40 to read as follows:

Section 373.40 *Special provisions for asbestos.* (a) Asbestos fibers of spinning grades are in critical short supply in the United States, and a restrictive quota has been set up for "Crude asbestos and spinning fibers of grades being procured for the national stockpile."

(b) Under this restrictive quota, the Office of International Trade will not consider an application for export license for asbestos fibers of spinning grades, Schedule B No. 545110, unless and until the applicant has submitted to the General Services Administration a representative five-pound sample of the type covered by the application, and has been advised that the lot represented by the sample is not desired for stockpile purposes. All applications for licenses to export such asbestos shall be accompanied by a true copy of the GSA letter of rejection (see § 372.9 of this subchapter).

(c) The five-pound sample should be sent, carriage prepaid, to General Services Administration, Emergency Procurement Service, Attention: Director, Purchase Division, Seventh and D Streets SW., Washington 25, D. C., together with a letter specifying that the sample is submitted for purposes of securing an export license.

(d) Crude asbestos and spinning fibers, Schedule B No. 545110, will be licensed for export in accordance with the provisions of §§ 373.16 and 373.19 of this subchapter, and the special provisions set forth in this section.

4. Section 373.51 *Supplement 1: Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended in the following particulars:

a. For the Fourth Quarter, 1952, the following entries and related submission dates are added:

Dept. of Commerce Schedule B No.	Commodity	Submission dates—Fourth quarter 1952
619039 664529 915590	Cobalt welding rods Cast cobalt-chromium dental alloys Dental alloys and amalgams containing cobalt	Oct. 1–Oct. 15, 1952.

b. The following submission dates for the First Quarter 1953, are added thereto:

Dept. of Commerce Schedule B No.	Commodity	Submission dates—First quarter 1953
	Controlled materials: Commodities with processing code STEE [4]	Sept. 8–Sept. 22, 1952.

[4] See § 398.5 (b) (5) of this subchapter for exception to these dates under certain conditions.

5. Section 379.2 *Authenticated shipper's export declaration*, paragraph (b) *Use of authenticated shipper's export declaration* is amended in the following particulars:

The note following subparagraph (6) *Limitation of effective period of declaration* of paragraph (b) is amended to read as follows:

NOTE: The validity period of an export license includes any extension provided by any saving clause or regulation. The above subparagraph makes no change in the provisions of § 373.11 (e) or § 372.11 (f) of this subchapter.

6. Section 380.2 *Amendments or alterations of licenses*, paragraph (c) *Procedure for submitting requests for amendments* is amended in the following particulars:

Subdivision (i) of subparagraph (2) *Information required* is amended to read as follows:

(i) (*a*) The reasons for the requested amendment must be clearly stated in answer to item 10.

(*b*) In requesting an amendment for change in the purchaser or ultimate consignee, the licensee must comply where applicable, with the provisions of § 372.3 (d) of this subchapter regarding a statement from the new ultimate consignee or purchaser if the shipment is destined to an R country or with the provisions of § 373.34 (c) of this subchapter regarding the submission of an import certificate. The licensee must also comply with the provisions of § 373.1 (b) of this subchapter regarding evidence and certification of accepted orders, if applicable to the commodity being exported. Such certification shall be made on the back of Form IT–763 or on a sheet attached thereto. In addition, the licensee must submit a copy of the original order placed by the ultimate consignee or purchaser.

(c) Where the request for amendment involves a change in the country of destination as well as a change in the purchaser or ultimate consignee, the applicant must explain fully in item 10 of Form IT–763 any additional circumstances which prevented shipment to the original country of destination.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

This amendment shall become effective as of August 28, 1952.

LORING K. MACY,
Director,
Office of International Trade.

[6th Gen. Rev. of Export Regs., Amdt. P. L. 8 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

WELDING RODS AND WIRES

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

The following entry was inadvertently omitted from the revision of commodity descriptions under Schedule B No. 619039 made in Amendment P. L. 2 (Sixth General Revision) appearing at 17 F. R. 6638:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
619039	Welding rods and wires: Other welding rods and wires [1]	Lb.	None	100	RO

[1] The commodities covered by this Positive List entry require an import certificate (see § 373.34 of this subchapter).

[1] This amendment was published in Current Export Bulletin No. 677, dated August 28, 1952.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for certification of batches of antibiotic and antibiotic-containing drugs (21 CFR, 1951 Supp., Part 146) are amended as indicated below:

1a. In § 146.69 *Dibenzylethylenediamine dipenicillin G oral suspension*, paragraph (a) *Standards of identity*, etc., the first sentence is changed by inserting the words "sulfonamides and suitable" between the word "suitable" and the words "and harmless colorings".

b. Section 146.69 (c) (1) (iii) is amended to read as follows:

(c) *Labeling.* * * *

(1) * * *

(iii) The name of each buffer substance and the name and quantity of each sulfonamide and preservative used in making the batch.

c. Section 146.69 (c) is further amended by renumbering subparagraph (3) as (4) and inserting the following new subparagraph between subparagraph (2) and renumbered subparagraph (4):

(3) On the label and labeling, if sulfonamides are present, after the name "Dibenzylethylenediamine dipenicillin G oral suspension," wherever it appears, the words "with sulfonamides" in juxtaposition with such name.

2. In § 146.303 *Chloramphenicol ointment (chloramphenicol cream)*, paragraph (a) *Standards of identity*, * * *, the first sentence is changed by inserting the words "buffer substances," between the words "harmless" and "dispersing".

3. In § 146.306 *Chloramphenicol palmitate oral suspension*, subparagraph (1) (iv) of paragraph (c) *Labeling* is amended by changing the figure "12" to "18".

4a. In § 146.307 *Chloramphenicol solution*, paragraph (a) *Standards of identity*, * * *, is amended by changing the first sentence to read: "Chloramphenicol solution is chloramphenicol, with or without one or more suitable and harmless buffer substances, dissolved in one or more suitable and harmless solvents."

b. In § 146.307, paragraph (d) *Request for certification; samples*, subparagraph (1) is amended by changing the word "solvent" to read "ingredient" in both places at which it occurs.

c. Section 146.307 (d) (3) (i) is amended to read as follows:

(i) The batch:

(*a*) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 8 or more than 15 immediate containers.

(*b*) For sterility testing; 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

d. Section 146.307 (d) (3) (iii) is amended by changing the word "solvent" to read "ingredient".

e. In § 146.307 (e) *Fees*, subparagraph (1) is amended by changing the words "paragraph (d) (3) (i) of this section;" to read "paragraph (d) (3) (i) (*a*) of this section;".

This order, which provides for the use of sulfonamides in dibenzylethylenediamine dipenicillin G oral suspension; for the use of a buffer substance in chloramphenicol ointment; for a change in the expiration date of chloramphenicol palmitate oral suspension from 12 to 18 months; and for the use of a buffer substance in chloramphenicol solution and the submission of 10 samples of said drug for sterility testing, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the changes set forth above.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Dated: August 29, 1952.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

[F. R. Doc. 52-9712; Filed, Sept. 4, 1952; 8:54 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[Regs. 42; T. D. 5929]

PART 130—TAXES ON SAFE DEPOSIT BOXES AND ON CERTAIN TRANSPORTATION AND COMMUNICATIONS SERVICES

TAX ON TRANSPORTATION WHICH BEGINS AND ENDS IN THE UNITED STATES

On March 4, 1952, notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 1900), in order to conform Regulations 42 (1942 Edition) (26 CFR Part 130), to section 607 of the Revenue Act of 1950 (Pub. Law 814, 81st Cong. 2d sess.), approved September 23, 1950. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendments to Regulations 42 (26 CFR Part 130) set forth below are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 130.50 (26 CFR 130.50) the following:

SEC. 607. TRANSPORTATION WHICH BEGINS AND ENDS WITHIN THE UNITED STATES (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) *Transportation of persons*—(1) *Amendment of section 3469 (a).* So much of section 3469 (a) (relating to tax on transportation of persons) as precedes "10 per centum of the amount so paid" is hereby amended to read as follows:

(a) *Transportation.* There shall be imposed—

(1) Upon the amount paid within the United States for the transportation of persons by rail, motor vehicle, water, or air within or without the United States, and

(2) Upon the amount paid without the United States for the transportation of persons by rail, motor vehicle, water, or air which begins and ends in the United States, a tax equal to.

* * * * *

(c) *Effective date.* The amendments made by this section shall apply to amounts paid on or after the first day of the first month which begins more than ten days after the date of the enactment of this Act for transportation which begins on or after such first day.

PAR. 2. Section 130.51 *Scope of tax* as amended by Treasury Decision 5559, approved April 18, 1947 (26 CFR 130.51), is further amended as follows:

(A) By substituting the following new paragraphs for paragraphs (a) and (b) thereof:

(a) Section 3469 (a) imposes a tax upon payments of more than 35 cents (1) made within the United States on or after October 10, 1941, for the transportation of persons, on or after such date, by rail, motor vehicle, water, or air, and (2) made without the United States on or after November 1, 1950, for the transportation of persons on or after such date, by rail, motor vehicle, water, or air, where such transportation begins and ends in the United States.

(b) (1) The taxability of a payment for transportation made within the United States is determined by whether the transportation service is furnished within or without the northern portion of the Western Hemisphere as provided in § 130.64.

(2) With respect to a payment for transportation made without the United States, the application of the tax is determined not only by whether the transportation service is furnished within or without the northern portion of the Western Hemisphere as provided in § 130.64, but also by whether the transportation service begins and ends within the United States. The tax does not apply to a payment made without the United States for one-way or round-trip transportation between a point within the United States and a point outside the United States.

(B) By changing the period at the end of the first sentence of paragraph (f) to a comma and adding the words: "except that, where the payment is made outside the United States for a prepaid order, exchange order, or similar order for transportation of persons which begins and ends within the United States, the tax is collectible by the person furnishing the initial transportation pursuant to such order."

PAR. 3. Section 130.53, as amended by Treasury Decision 5559 (26 CFR 130.53), is further amended as follows:

(A) By substituting the following new paragraphs for paragraphs (f) and (g) thereof:

(f) *Prepaid orders, exchange orders, or similar orders.* The tax applies to the amount paid in the United States for a prepaid order, exchange order, or similar order for transportation whether within or without the United States. The tax also applies to the amount paid without the United States for a prepaid order, exchange order, or similar order for transportation which begins and ends in the United States. An additional amount paid in the United States in procuring transportation in connection with the use of a prepaid order, exchange order, or similar order, is likewise subject to tax, regardless of whether the original payment for the order is made within or without the United States. (See § 130.54 (b).)

(g) *Tickets.* The tax applies to an amount paid within or without the United States for a ticket for transportation which begins and ends in the United States regardless of where such ticket is issued. (See § 130.54 (b).)

(B) By striking out the words "in the United States" in the first sentence of paragraph (i) thereof.

(C) By revising paragraph (j) thereof to read as follows:

(j) *All-expense tours.* An amount paid for an all-expense tour is subject to tax with respect to that portion representing taxable transportation. (See § 130.54 (h).)

(D) By inserting the following new paragraphs immediately after paragraph (j) thereof:

(k) *Payments remitted to foreign countries by persons in the United States.* Payments for transportation tickets, prepaid orders, exchange orders, or similar orders are subject to the tax where the payment for such tickets or orders is accomplished by the purchaser either (1) by transmission from within the United States via telegraph or mail of cash, checks, postal or telegraphic money orders, and similar drafts to ticket offices or travel agencies, etc., located in any place without the United States, or (2) the delivery of the funds to an agency located in the United States for transmission to ticket offices, or travel agencies, etc., without the United States. Such payments are considered to be payments made within the United States.

(l) *Payments outside the United States.* (1) The tax applies to a payment made outside the United States for transportation which begins and ends within the United States. For purposes of the preceding sentence, a payment made outside the United States for transportation between two or more points in the United States is a payment for transportation which begins and ends in the United States, even though additional transportation to or from a point outside the United States is involved in the entire journey, where at the time of making payment for the transportation between two or more points in the United States it is not definitely established that such transportation is purchased for use in making the journey from or to a point outside the United States, as required by and under the rules set forth in § 130.54 (b). In such case, the fact that the entire journey includes transportation from or to a point outside the United States is not in itself determinative of the liability for tax.

(2) The following examples illustrate the application of this paragraph.

Example (1). W travels from Havana to New York by way of Miami. He purchases in Havana a steamship ticket for his transportation from Havana to Miami and an exchange order for air transportation from Miami to New York. The ticket for the connecting transportation from Havana to Miami, and the order for the transportation from Miami to New York were not appropriately inscribed by the agency or carrier which received the payment for the air transportation involved, at the time such payment was received, so as to clearly show that the ticket and order were purchased for use in conjunction with each other. Therefore, the agency or carrier which accepts the exchange order and issues the ticket for the transportation from Miami to New York is required to collect the tax which applied to the amount paid outside the United States for such transportation.

Example (2). X travels on a round trip from Montreal to Los Angeles by way of New York. He purchases in Montreal air transportation for the round trip between New York and Los Angeles, and uses a private automobile for transportation from Montreal to New York and return to Montreal. The amount paid in Montreal for the round-trip transportation between New York and Los Angeles is a payment for transportation which begins and ends in the United States, and is therefore subject to tax.

PAR. 4. Section 130.54 is amended by substituting the following new paragraph for paragraph (b) thereof:

(b) *Payments outside the United States.* (1) The tax does not apply to a payment made outside the United States for transportation which begins or ends outside the United States. For purposes of the preceding sentence, a payment made outside the United States for transportation between two or more points within the United States (such transportation being referred to hereinafter in this section as "the United States portion"), which is part of transportation from or to a point outside the United States is a payment for transportation which begins or ends outside the United States, where it is definitely established at the time of making payment for the United States portion that such portion is purchased for use in making the journey from or to a point outside the United States. The nontaxable character of the payment made outside the United States for the United States portion shall be established under the rules set forth in subparagraphs (2) through (5) of this paragraph.

(2) Where one ticket (such as one commonly known as a "through ticket") is issued to cover all of the United States portion of a journey which begins or ends outside the United States and to cover also the connecting transportation from or to a point outside the United States, no further evidence of the nontaxable character of the transportation covered by such ticket will be required.

(3) Where separate tickets or orders are issued for the United States portion of a journey which begins or ends outside the United States, the agency or carrier which receives payment for such tickets or orders shall definitely determine at the time of receiving the payment that the United States portion is being purchased for use in conjunction with connecting transportation from or to a point outside the United States, and shall appropriately inscribe the tickets or orders issued outside the United States for the United States portion and for the connecting transportation from or to a point outside the United States to show clearly that such tickets or orders are purchased for use in conjunction with each other. Such tickets or orders shall be inscribed in the following manner:

(i) The ticket or order for the connecting transportation from or to a point outside the United States shall be inscribed or stamped with an appropriate legend (for example, "Not To Be Used Again for Purchase of Tax-Free United States Transportation") to show that the United States portion has been purchased tax free for use in conjunction therewith.

(ii) Where the ticket for the United States portion is issued outside the United States, it shall be inscribed to show (*a*) the identity of the agency or carrier which received payment therefor (unless otherwise shown on the ticket), (*b*) the origin and destination of the connecting transportation, (*c*) the identity of the carrier furnishing the connecting transportation, and (*d*) the serial number of the ticket or order covering such connecting transportation. If the ticket is not large enough to accommodate the prescribed inscription, a statement setting forth the required information shall be attached to such ticket.

(iii) Where an order for the United States portion is issued outside the United States, it shall be inscribed to show (*a*) the origin and destination of the connecting transportation, (*b*) the identity of the carrier furnishing the connecting transportation, and (*c*) the serial number of the ticket or order covering such connecting transportation.

(4) Where the ticket for the United States portion is issued in the United States pursuant to an order which was purchased and properly inscribed outside the United States under the rules set forth in subparagraph (3) (iii) of this paragraph, liability for payment or collection of tax will not be incurred upon the issuance of the ticket provided

the agency or carrier issuing such ticket stamps or inscribes thereon an appropriate legend, for example, "Tax Not Paid—Furnished on Order", or "Exempt—Order".

(5) In any case where a payment for the United States portion is not subject to tax under the rules set forth in this paragraph, the carrier furnishing transportation for the United States portion shall procure and maintain appropriate evidence which will clearly show that the tickets or orders for such transportation were purchased for use in conjunction with connecting transportation from or to a point outside the United States.

(6) The following are examples of nontaxable transportation.

Example (1). Y travels from London to San Francisco by way of New York. He purchases from an agency or carrier in England all of the transportation involved in such journey, which includes air transportation from London to New York and from New York to San Francisco, for which separate tickets are issued. The agency or carrier which receives the payment for Y's transportation from New York to San Francisco will not be required to collect tax with respect to the payment, provided it determines at the time such payment is received that the transportation in question is being purchased for use in conjunction with the connecting transportation from London to New York and it appropriately inscribes both of the tickets for the journey.

Example (2). Z travels from Havana to New York by way of Miami. He purchases in Havana a ticket for his transportation by water from Havana to Miami, and later purchases from a travel agency in Havana air transportation from Miami to New York for which the travel agency issues an exchange order. To establish the nontaxable character of the payment for Z's transportation from Miami to New York it will be necessary for the travel agency which receives the payment for such transportation to determine at the time the payment is received that the transportation in question is being purchased for use in conjunction with the connecting transportation from Havana to Miami, and to make the appropriate inscriptions on the ticket and the order. The carrier which accepts the exchange order and issues the ticket for the transportation from Miami to New York will not be required to collect tax with respect to the ticket so issued if it appropriately inscribes the ticket as provided in subparagraph (4) of this paragraph.

PAR. 5. Immediately preceding § 130.55, there is inserted the following:

SEC. 607. TRANSPORTATION WHICH BEGINS AND ENDS WITHIN THE UNITED STATES (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) *Transportation of persons.* • • •

(2) *Seats, berths, etc.* Section 3469 (c) (relating to tax with respect to seating and sleeping accommodations) is hereby amended by striking out "within the United States".

• • • • • •

(c) *Effective date.* The amendments made by this section shall apply to amounts paid on or after the first day of the first month which begins more than ten days after the date of the enactment of this Act for transportation which begins on or after such first day.

PAR. 6. Section 130.56 is amended to read as follows:

§ 130.56 *Scope of tax.* Section 3469 (c) imposes a tax upon payments of any amount made within the United States on or after October 10, 1941, and made without the United States on or after November 1, 1950, for seating or sleeping accommodations in connection with transportation with respect to which a tax is imposed by section 3469 (a).

PAR. 7. Immediately after section 3469 (d) in Subpart G, there is inserted the following:

SEC. 607. TRANSPORTATION WHICH BEGINS AND ENDS WITHIN THE UNITED STATES (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950)

(a) *Transportation of persons* • • •

(3) *Collection of tax.* So much of the second sentence of section 3469 (d) (relating to returns and payment of tax) as precedes "on or before the last day of each month" is hereby amended to read as follows: "Each person receiving any payment specified in subsection (a) or (c) shall collect the amount of the tax imposed from the person making such payment; except that, if the payment is made outside the United States for a prepaid order, exchange order, or similar order, the person furnishing the initial transportation pursuant to such order shall collect the amount of the tax. Any person required to collect the tax imposed by this section shall,".

• • • • • •

(c) *Effective date.* The amendments made by this section shall apply to amounts paid on or after the first day of the first month which begins more than ten days after the date of the enactment of this Act for transportation which begins on or after such first day.

PAR. 8. Section 130.64, as amended by Treasury Decision 5708, approved June 27, 1949, is further amended by inserting at the end thereof the following: "The rules set forth in the first paragraph of this section for determining the taxable portion of a payment made within the United States for transportation any part of which is outside the northern portion of the Western Hemisphere also apply to payments made without the United States for transportation which begins and ends in the United States but part of which is outside the northern portion of the Western Hemisphere."

PAR. 9. Section 130.70 is amended by changing the period at the end thereof to a comma, and adding the words: "Except that (with respect to paragraphs (e) and (f) of this section) if the payment is made outside the United States for a prepaid order, exchange order, or similar order valid for transportation of persons which begins and ends within the United States, or for seating or sleeping accommodations in connection with such transportation, the person furnishing the initial transportation pursuant to such order must collect the amount of the tax."

PAR. 10. Section 130.72, as amended by Treasury Decision 5672, approved November 23, 1948 (26 CFR 130.72), is further amended as follows:

(A) By revising paragraph (d) (3) to read as follows:

(3) Every person receiving payment in the United States for a prepaid order, exchange order, or similar order, for transportation or seating or sleeping accommodations to be furnished by any carrier within the United States shall collect all of the tax applicable to such transportation or accommodations and remit such tax in the proper amount to those carriers located within the United States furnishing such transportation or accommodations to be included in monthly returns on Form 727, revised.

(B) By inserting the following new subparagraph (5) immediately following subparagraph (4), paragraph (d):

(5) Every person furnishing the initial transportation pursuant to a prepaid order, exchange order, or similar order for transportation which begins and ends in the United States, or for seating or sleeping accommodations in connection therewith, and for which payment is made outside the United States shall collect all of the tax applicable to such transportation or accommodations and include the amount in monthly return on Form 727, revised.

This Treasury decision shall be effective upon the thirty-first day after the date of its publication in the FEDERAL REGISTER.

TITLE 27—INTOXICATING LIQUORS

Chapter I—Bureau of Internal Revenue, Department of the Treasury

[Regs. 1 under the Federal Alcohol Administration Act; T. D. 5930]

PART 1—BASIC PERMITS; ISSUANCE AND PROCEEDINGS TO REVOKE, SUSPEND OR ANNUL

APPLICATIONS FOR PERMITS; TIME AND PLACE OF HEARING

On June 26, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 5735) with respect to certain proposed amendments to Federal Alcohol Administration Act Regulations No. 1 "Relating to the Issuance, Revocation, Suspension, and Annulment of Basic Permits" (27 CFR Part 1) affording interested persons an opportunity to submit written data, facts or arguments thereon.

After consideration of all relevant matter presented, the following amendments to the said regulation are hereby prescribed:

1. Section 1.21 *Applications for permits* of the Federal Alcohol Administration Act Regulations No. 1 "Relating to the Issuance, Revocation, Suspension and Annulment of Basic Permits" (27 CFR Part 1) is amended by adding at the end thereof a new paragraph (c) to read as follows:

(c) The district supervisor shall cause to be maintained currently in his office for public inspection, until the expiration of one year following final action on the application, the following information with respect to each application for basic permit filed:

(1) The name, including trade name or names, if any, and the address of the applicant; the kind of permit applied for and the location of the business; whether the applicant is an individual, a partnership or a corporation; if a partnership, the name and address of each partner; if a corporation, the name and address of each of the principal officers and of each stockholder owning 10 percent or more of the corporate stock;

(2) The time and place set for any hearing on the application;

(3) The final action taken upon the application. In the event a hearing is held upon an application for a basic permit, the district supervisor shall make available for inspection at his office upon request therefor: The transcript of the hearing, a copy of the hearing examiner's recommended decision, a copy of the district supervisor's decision and of his decision upon reconsideration, if any, and, in the event of an appeal to the Commissioner, the decision on appeal with the reasons given in support thereof.

2. Section 1.33 *Time and place of hearing* of the said regulations (27 CFR 1.33) is amended by adding at the end thereof the following new sentence: "Hearings upon applications for basic permits shall be open to the public."

3. The purpose of these amendments is to revise, to the extent indicated, the Bureau's policy with respect to the confidential nature of applications for basic permits under the Federal Alcohol Administration Act (49 Stat. 977 et seq. as amended 27 U. S. C. 201 et seq.) and administrative proceedings upon such applications and to make certain information, heretofore treated as confidential, available for public inspection subject to the limitations and in accordance with the procedures set forth above. The provisions of 26 CFR, Subchapter F—Records and Procedure, Part 600—Records, shall not be construed so as to conflict with the authorization and direction conveyed in paragraphs 1 and 2 above.

4. Because this Treasury Decision constitutes a statement of policy and establishes a rule of Bureau practice, it is found that it is unnecessary to issue this Treasury Decision subject to the effective date limitation of section 4 (c) of the Administrative Procedure Act, approved June 11, 1946.

(49 Stat. 977, 54 Stat. 1232, 53 Stat. 373 and sec. 161 R. S.; 27 U. S. C. 202, 26 U. S. C. 3170, 5 U. S. C. 22)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: September 2, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 54—GOLD REGULATIONS

Correction

In F. R. Doc. 52-9472, appearing in the issue of Friday, August 29, 1952, at page 7888, make the following changes:

1. In § 54.8, the first paragraph should be designated "(a)" and the present paragraph (a) should be redesignated "(b)". The section as corrected will read as follows:

§ 54.8 *General provisions affecting import licenses.* (a) No gold in any form imported into the United States shall be permitted to enter until the person importing such gold shall have satisfied the collector of customs at the port of entry that he holds a license authorizing him to import such gold or that such gold may be imported without a license under the provisions of §§ 54.12 to 54.21, inclusive, or §§ 54.28 to 54.30, inclusive. Postmasters receiving packages containing gold will deliver such gold subject to the instructions of the Postmaster General.

(b) *Certificates with respect to imported gold.* Collectors of customs shall, upon receipt of instructions[2] issued from time to time by the Secretary of the Treasury with the approval of the President, refuse entry into the continental United States of gold in the form and condition described in such instructions, which is exported from the country or countries specified in such instructions, unless there is filed with the collector of customs at the port of entry a certificate duly certified by an officer of the country from which the gold is exported to the effect that such gold was or may be lawfully exported from such country.

2. In § 54.11 (b) (2), line 11, the word "of" should read "or". Subparagraph (2) as corrected will read as follows:

(2) Section 1001 of the United States Criminal Code, which provides:

Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and wilfully falsifies, conceals or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than five years, or both. (18 U. S. C. 1001.)

3. Section 54.25 is corrected so that paragraph (b) (3) and (4) will read as follows:

(3) *Rare coin.* Rare gold coin as defined in § 54.20 may be exported or transported from the continental United States only under license on Form TGL–11 issued by the Director of the Mint. Application for such a license shall be executed on Form TG–11 and filed with the Director of the Mint, Treasury Department, Washington 25, D. C.

(4) *Other exports of gold.* Export licenses may also be issued upon application made on Form TG–15 in the same manner as prescribed in subparagraph (1) of this paragraph, authorizing the exportation of gold in any form for refining or processing subject to the condition that the refined or processed gold (or the equivalent in refined or processed gold) be returned to the United States, or subject to such other conditions as the Director may prescribe.

[2] See Subpart H of this part for instructions issued pursuant to § 54.8 (b).

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 33]

GCPR, SR63—AREA MILK ADJUSTMENTS

AMPR 33—SOUTHERN NEW JERSEY MILK MARKETING AREAS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency General Order No. 2 (16 F. R. 738) this area milk price regulation, in accordance with Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) and pursuant to Delegation of Authority No. 41 (16 F. R. 12679) is hereby issued.

STATEMENT OF CONSIDERATIONS

The General Ceiling Price Regulation, issued on January 26, 1951, pointed out that the general freeze which it imposed on prices at all levels of production and distribution was an emergency measure made imperative by the urgency of bringing the inflationary spiral to a halt. On September 24, 1951, Supplementary Regulation 63 became effective permitting adjustments of ceiling prices for milk products for fluid consumption in individual marketing areas upon petition or upon the initiative of the appropriate Regional or District Director.

Acting under that supplementary regulation, thirteen milk processors and distributors in Southern New Jersey petitioned the Camden District of the Office of Price Stabilization through the South Jersey Milk Dealers Association for an adjustment of ceiling prices on the sale of certain milk and milk products in Milk Marketing Areas land 2 as defined by the Office of Milk Industry for the State of New Jersey. Signatories to the petition represent large, medium and small firms and they account for approximately 52 percent of total sales volume in the Marketing Area involved. The Camden District Director denied the petition and refused to issue an area milk price regulation for the requested marketing area. The petitioners filed a Notice of Review by the Regional Office under section 28 of Price Procedural Regulation 1, Revision 2.

A re-examination of the cost data submitted by the petitioners has convinced

the Regional Director that petitioners are entitled to an adjustment in price for certain fluid milk products and accordingly this regulation is issued in lieu of remanding the record to the Camden District Office for issuance of a regulation in accordance with the Regional Director's determination.

The marketing area where this regulation applies is comprised of Marketing Areas 1 and 2 as established and defined by the Office of Milk Industry of the State of New Jersey.

This regulation is being issued on the basis of data obtained from the petitioners, from other representative milk processors and distributors in the areas covered and from the Office of Milk Industry for the State of New Jersey.

This regulation provides a uniform adjustment of ceiling prices for sales by processors and distributors. This adjustment has been determined by taking prices in effect during the period January 1, 1950, through June 30, 1950, and adding increases and deducting decreases in costs of (1) direct labor, including distribution labor and commission, (2) cans, cases and containers and (3) raw milk and other agricultural commodities or products thereof. Because the increased direct labor cost affected primarily the cost of retail deliveries to the home, the application of the criteria indicated entitlement to a greater increase on retail sales than on non-retail sales. However, to preserve existing price differentials between retail and non-retail sales and to maintain normal marketing practices in the area involved, the regulation establishes a uniform adjustment for both retail and non-retail sales.

The regulation specifies the price for raw milk upon which the adjustment in ceiling prices is based. The price specified is the current official minimum producers price established by the Office of Milk Industry of the State of New Jersey for Class 1 Grade B milk. This price is to be the basis for computing future parity adjustments by processors of the milk items covered. While some of the raw milk utilized is brought in from outside the State of New Jersey, this method has been adopted since the greater portion of milk is produced within that State, and further this policy follows the recommendation of the industry involved.

This regulation does not establish ceiling prices for all milk products, but only for those products for fluid consumption defined in the regulation. Milk products not covered remain subject to the provisions of the General Ceiling Price Regulation. Neither does the regulation attempt to set ceiling prices for sales by operators of retail stores, who shall also remain subject to the provisions of the General Ceiling Price Regulation.

Every effort has been made to conform this regulation to existing business practices, cost practices and methods, and means and aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in the business practices, cost practices and methods, and means and aids to distribution, such provisions are found necessary by the Regional Director of Region III of the Office of Price Stabilization to prevent circumvention or evasion of the regulation.

In the judgment of the Regional Director of Region III of the Office of Price Stabilization, the provisions of this area milk price regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

The Regional Director of Region III of the Office of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to all relevant factors of general applicability.

In the formulation of this regulation, there has been consultation with industry representatives to the extent practicable and due consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this area milk price regulation does.
2. Where this area milk price regulation applies.
3. Sellers and sales covered by this regulation.
4. Ceiling prices.
5. Use of competitor's ceiling prices to establish your ceiling prices.
6. Sellers who cannot price under other sections of this regulation.
7. Producer prices upon which ceiling prices are based.
8. Parity adjustments.
9. Processors reports of parity adjustments.
10. Rounding of fractions.
11. Transfers of business or stock in trade.
12. Applicability of other ceiling price regulations.
13. Prohibitions.
14. Violations.
15. Definitions.

AUTHORITY: Sections 1 to 14 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

SECTION 1. *What this area milk price regulation does.* This area milk price regulation issued in accordance with Supplementary Regulation 63 to the General Ceiling Price Regulation and pursuant to Delegation of Authority 41 (16 F. R. 12679) provides uniform adjustments of ceiling prices for the sale of milk products for fluid consumption as defined in section 15 hereof.

SEC. 2. *Where this area milk price regulation applies.* The provisions of this area milk price regulation are applicable in New Jersey Milk Areas I and II, as defined by the Office of Milk Industry of the State of New Jersey. Area I embraces the counties of Mercer, Burlington, Camden, Gloucester, Salem, Cumberland and certain portions of Cape May and Atlantic counties, not included in Area II. Area II is described as follows: Starting at Brigantine Inlet, across Little Bay, Reeds Bay, then on a northwesterly line to the White Horse Pike at Germania, continuing up the White Horse Pike to and including Egg Harbor City, then southwest on N. J. Route 50 to and including Mays Landing; then continuing on N. J. Route 50 including Estelville, Estelville Manor, Buck Hill and continuing on a straight line to Woodbine, then continuing through North Dennis and a straight line to the Dennis Creek and Delaware Bay.

SEC. 3. *Sellers and sales covered by this regulation.* This area milk price regulation covers sales in the marketing area of milk products for fluid consumption by processors and distributors. A processor is any person who pasteurizes, blends, treats, compounds, manufactures or packages milk products for fluid consumption. A distributor is a person, other than the operator of a retail store, who buys packaged milk products in the same form in which he sells them. For the purpose of this regulation a person may be a processor of some items or some quantities of an item of milk product and a distributor as to other items or quantities of an item of milk product.

SEC. 4. *Ceiling prices*—(a) *How you determine your ceiling prices.* Your ceiling price to each class of purchaser of milk products for fluid consumption shall be your GCPR base period price to that class of purchaser, plus a uniform adjustment of one-fourth ($0.0025) cent per sales point. Sales point is defined in section 15 of this regulation.

(b) *Reporting of ceiling prices.* You shall report the ceiling prices resulting from the application of the uniform adjustment specified in section 4 (a) to the Regional Office of the Office of Price Stabilization, Commercial Trust Building, Philadelphia 2, Pennsylvania, by registered mail, return receipt requested, within 5 days after the effective date of this regulation. The report shall be filed on OPS Public Form 124, which may be obtained from the above mentioned office. You shall not sell at the ceiling price computed pursuant to this section until the Office of Price Stabilization has received the report required by this paragraph as shown by your return postal receipt.

SEC. 5. *Use of competitor's ceiling prices to establish your ceiling prices*—(a) *How to determine your ceiling prices.* If you cannot determine a ceiling price under section 4, your ceiling price for the sale of an item of milk product for fluid consumption to any class of purchaser is the ceiling price determined under this regulation for the sale of the same item by your most closely competitive seller of the same class (as defined in section 22 of GCPR) to the same class of purchaser.

(b) *When you may sell at your competitor's ceiling prices.* You shall not sell an item of milk product for fluid consumption until you have sent the report required by section (c) hereof, by registered mail, return receipt requested, to the Regional Director of Region III of the Office of Price Stabilization, Commercial Trust Building, 15th and Market Streets, Philadelphia 2, Pennsylvania. After OPS has received your reports, as shown by the return postal receipts, you may sell the items for which you have reported prices at your proposed ceiling price unless you are notified by the Regional Director that your proposed ceiling price has been disapproved or that more information is required.

(c) *Report required when you use your competitor's ceiling prices.* Your report shall state the name and address and type of business of your most closely competitive seller of the same class; your reasons for selecting him as your most closely competitive seller; and if you are starting a new business, a statement indicating whether you or the principal owner of the business has engaged in any part of the last twelve months in any capacity in the same or similar business at any other establishment and, if so, the trade name and address of such establishment. Your report should also include the following: A description of the product you are pricing, and if you are a processor, the processing operation involved in the production thereof; the class of purchaser to whom you will be selling, the ceiling price of your nearest competitor and your proposed ceiling price to each class of purchaser.

SEC. 6. *Sellers who cannot price under other sections of this regulation*—(a) *How you obtain your ceiling prices.* If you cannot obtain a ceiling price under sections 4 or 5 of this regulation, you must apply to the Regional Director of Region III of the Office of Price Stabilization for the establishment of a ceiling price for sales by you of that milk product for fluid consumption. The Regional Director, as soon as possible after the receipt of your application or the receipt of such additional information as he may request, will issue an order establishing a ceiling price for the sale by you of that item and specifying a producer price for raw milk from which parity adjustments will be computed. You may not sell such item until the Regional Director has issued a letter order establishing your ceiling price for the sale thereof.

(b) *What your application must contain.* An application under the provisions of this section must contain the following information: An explanation of why you are unable to determine your ceiling price under any other section of this regulation; all pertinent information describing the item; your proposed ceiling price and the method used by you to determine it; and the reason you believe the proposed prices are in line with level of ceiling prices otherwise established by this regulation.

SEC. 7. *Producer prices upon which ceiling prices are based.* The specific producer price for Class I, Grade B Milk, 3.5 percent butterfat, upon which ceiling prices established under this regulation are based is $5.87 per hundredweight.

SEC. 8. *Parity adjustments*—(a) *Processors.* Producer prices specified in section 7 of this regulation must be used as the basis for computing parity adjustments of ceiling prices in accordance with section 8 of Supplementary Regulation 63 to the General Ceiling Price Regulation by all processors except those who establish their ceiling prices under section 5 or 6 hereof.

(b) After the determination of your ceiling price under either section 5 or section 6 of this regulation, you may increase, and you must decrease the ceiling prices so established by parity adjustments in conformity with section 8 (a) of said Supplementary Regulation 63. If your ceiling price was determined under section 5 of this regulation, you shall compute your parity adjustment from the highest price you paid or incurred for your customary purchase of raw milk or products processed therefrom during the most recent paying period prior to the date you mailed your report. If you made no customary purchase prior to the date you mailed your report, the price you paid or incurred for your first customary purchase between the date you mailed your report and the date you first offered your product for immediate delivery shall be your base for computing parity adjustments. If your ceiling price was determined under section 6 of this regulation, you shall compute your parity adjustments from the producer prices specified in the letter order.

(c) *Distributors.* This paragraph applies to you if (1) you are a distributor of an item of milk product for fluid consumption, (2) the cost to you of a current customary purchase of the item differs from the highest ceiling price, applicable to sales to you from a customary source of supply specified in this regulation and (3) the change in the cost to you is due to the operation of the provisions of section 8 (a) (1) of said Supplementary Regulation 63. In such case, on the first day following the effective change in your cost, you may increase and you must decrease your ceiling prices for such items established under sections 4, 5, or 6 of this regulation by the dollar and cents difference per item in these costs.

SEC. 9. *Processors reports of parity adjustments.* Prior to charging any increased prices permitted under section 8 (a) of said Supplementary Regulation 63, you must, if you are a processor, file with the Regional Director of Region III of the Office of Price Stabilization, Commercial Trust Building, 15th and Market Streets, Philadelphia 2, Pennsylvania, a report giving the following information:

(a) The name and description of the item or items of milk product being priced.

(b) The container size of such item or items.

(c) The producer price paid by you for your most current customary purchase of milk.

(d) Your ceiling price for the item or items as determined under section 4 or 5 or established under section 6 of this regulation

(e) Your adjusted ceiling price for each item.

If you are required to decrease your ceiling prices as a result of the operation of section 8 (a) of said Supplementary Regulation 63, you must file the report specified in this paragraph with the Regional Director within 5 days after you are required to make the decreases.

SEC. 10. *Rounding of fractions.* (a) In computing a parity adjustment under section 8 of this area milk price regulation, you shall apply the rounding provisions of section 8 (b) of said Supplementary Regulation 63 to the General Ceiling Price Regulation.

(b) In computing your ceiling prices under section 4 or section 5 of this area milk price regulation or under a letter order issued under section 6, you shall apply the following rounding provisions: Fractions of a cent remaining after you have computed your ceiling price for the total number of units of any milk product for fluid consumption shall be dropped if less than one-half cent or may be increased to the next higher cent if one-half cent or more. If, however, you have customarily billed any particular purchaser or any class of purchasers for milk products for fluid consumption purchased during a month or other billing period, any fraction remaining after the computation of the ceiling price for the total number of units of all milk products for fluid consumption sold during the preceding month, or other billing period, shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more.

SEC. 11. *Transfers of business or stock in trade.* If the business, assets, or stock in trade of any business are sold or otherwise transferred after this regulation becomes effective, and the transferee carries on the business, or continues to deal in the same type of commodities, in an establishment separate from any other establishment previously owned or operated by him, the maximum price of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had been taken, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor will either preserve or make available, and turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of this regulation.

SEC. 12. *Applicability of other ceiling price regulations.* Except as provided in this area milk price regulation you shall remain subject to the provisions of said Supplementary Regulation 63 and to the provisions of the General Ceiling Price Regulation.

SEC. 13. *Prohibition.* After the effective date of this regulation, regardless of any contract or other obligation, you shall not sell, and you shall not buy, in the regular course of trade or business, any milk product for fluid consumption at a price in excess of the ceiling price established by this regulation.

SEC. 14. *Violations*—(a) *Civil and criminal action.* Persons violating any of the provisions of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950, as amended.

(b) *Violations of reporting requirements.* If any person subject to this regulation fails to file the reports required by this regulation, or if any person subject to this regulation fails to establish a ceiling price, or to apply to

the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Regional Director may issue an order fixing ceiling prices for the milk product such person sells. Any ceiling price fixed in this manner will be in line with ceiling prices established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers for which a ceiling price was not established in accordance with the provisions of this regulation, including deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 15. *Definitions*—(a) *Milk products for fluid consumption.* This term means standard milk; homogenized; vitamin and mineral fortified milk; high fat milks; milks of special curd tensions and other milks of special dietary qualities and properties; buttermilk; chocolate milk; skim milk; plain; skim milk, vitamin or mineral fortified; skim milk drinks such as chocolate drinks; and any other milk variation of the foregoing sold, whether such products are to be sold at retail or wholesale, and regardless of whether such products are to be sold in glass, paper or other type of containers, or in bulk. For purposes of this regulation, however, this term does not include half and half; cream of various percentages of butterfat, including sour cream; cottage, pot and bakers cheese; butter cream; filled cream; cream mixed with other ingredients or gases used as whipping cream and other specialized fluid milk products. This definition is not intended to include milk; cream; skim milk; or whey; when such products are exempt from the General Ceiling Price Regulation or to include ice cream; ice cream mix; canned, evaporated or condensed milk; milk powder; butter or other manufactured products not used for fluid consumption. Neither is it intended to include sales of concentrated frozen fresh milk sold by wholesalers, such sales being governed by Ceiling Price Regulation 14. This regulation applies only to milk, and products therefrom, produced by cows.

(b) *Sales point.* A quart of milk product sold is equal to one sales point; sales points for all other sizes of containers are related to the quart unit in direct proportion to the size of the container sold.

(c) *You.* The pronoun "you" as used in this area milk price regulation indicates the person subject thereto.

Effective date. This area milk price regulation is effective September 4, 1952.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH J. MCBRYAN,
Regional Director,
Region III.

SEPTEMBER 4, 1952.

[F. R. Doc. 52-9031; Filed, Sept. 4, 1952; 11:03 a. m.]

[General Ceiling Price Regulation, Supplementary Regulation 95, Amdt. 1 to Revision 1]

GCPR, SR 95—CEILING PRICES FOR PROCESSORS AND DISTRIBUTORS OF FLAXSEED FEED PRODUCTS

ALLOWANCES FOR PELLETING AND SACKS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Revision 1 of Supplementary Regulation 95 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation (SR) 95, Revision 1, which set ceiling prices for processors and distributors of flaxseed feed products, did not provide specific ceiling prices for linseed feed and flaxseed screenings oil feed when these products are sold in the form of pellets or cubes. It has been called to the attention of the Director that linseed feed pellets and flaxseed screenings oil feed pellets are produced by at least one firm in the industry. The process used in pressing linseed feed and flaxseed screenings oil feed into pellets or cubes is identical to that used for converting linseed meal into pellets or cubes. SR 95, Revision 1, established ceiling prices for linseed meal pellets or cubes which are $2.25 per ton higher than the ceiling prices fixed for linseed meal. This amendment adopts the same differential for linseed feed and flaxseed screenings oil feed pellets or cubes. It sets ceiling prices for these products which are $2.25 per ton higher than the ceiling prices for linseed feed and flaxseed screenings oil feed previously established by SR 95, Revision 1.

This amendment also changes the allowance for sacks and sacking set forth in section 8. As amended, this section provides that, for a flaxseed feed product sold in sacks, a seller may add to his bulk ceiling price a specified allowance for sacking plus the cost per sack of his most recent customary purchase of the sacks used for the lot. However, the amount added for sacks may not exceed the dollar-and-cent figure specified in section 8. The change made by this amendment will provide an allowance for sacks and sacking consistent with the actual cost of the containers. Similar provisions will also be made in other regulations.

In the formulation of this amendment there has been consultation with industry representatives, to the extent practicable, and consideration has been given to their recommendations. Special circumstances have rendered consultation with trade association representatives impracticable. In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act.

AMENDATORY PROVISIONS

Supplementary Regulation 95, Revision 1, is amended in the following respects:

1. Table I is amended to read as follows:

TABLE I

Base points	Oil meal or cake (standard protein content 32 percent)	Sized linseed oil cake, linseed pellets or cubes (standard protein content 32 percent)	Linseed feed (standard protein content 30 percent)	Linseed feed pellets or cubes (standard protein content 30 percent)	Flaxseed screenings oil feed (standard protein content 22 percent)	Flaxseed screenings oil feed pellets or cubes (standard protein content 22 percent)
Minneapolis and Red Wing, Minn.	$78.00	$80.25	$73.00	$75.25	$60.00	$62.25
Chicago, Ill.	82.50	84.75	77.50	79.75	64.50	66.75
Cleveland, Ohio	83.50	85.75	78.50	80.75	65.50	67.75
Emporia and Fredonia, Kans.	83.50	85.75	78.50	80.75	65.50	67.75
Buffalo, N. Y.	83.50	85.75	78.50	80.75	65.50	67.75

[1] Standard protein content 28 percent up to 34 percent. For 34 percent or greater protein content, add $2.50 per ton.

2. Subparagraph (2) of section 3 (a) is amended to read as follows:

(2) *Guarantee of less than standard protein content.* If you guarantee at the time of sale, that the lot will contain, at a minimum, any specified protein content lower than the standard protein content set forth in Table I, and if you fulfill such guarantee by delivering a lot with at least the minimum protein content guaranteed, your ceiling price is as follows:

(i) If you deliver a flaxseed feed product (except flaxseed screenings oil feed, flaxseed screenings oil feed pellets or cubes), you subtract from the price listed in Table I for that commodity at that base point $2.40 per ton for each unit of protein or fraction thereof by which the guarantee you give is under the standard protein content.

(ii) If you deliver flaxseed screenings oil feed, flaxseed screenings oil feed pellets or cubes, you subtract from the price listed in Table I for that commodity at that base point $2.60 per ton for each unit of protein or fraction thereof by which the guarantee you give is under the standard protein content.

3. Subparagraph (5) of section 3 (a) is amended to read as follows:

(5) *Sale and delivery of more than standard protein content.* If you sell and deliver a flaxseed feed product of more than the standard protein content set forth in Table I, your ceiling price is the same as your ceiling price for that product of standard protein content. However, if you produce linseed oil meal, linseed oil cake, sized linseed oil cake, linseed pellets or linseed cubes at any point in California, you may add $2.50 per ton to your ceiling price for these products of standard protein content as otherwise determined under this regulation, if you guarantee that these products will contain a protein content of 34 percent or more and you fulfill such guarantee on delivery.

4. Section 8 is amended to read as follows:

SEC. 8. *Allowance for sacks and sacking.* If you are a processor and you sell and deliver a flaxseed feed product in sacks, or if you are a wholesaler or retailer and you sack a flaxseed feed product which you buy in bulk, you may add to your ceiling price, per ton, in bulk, as otherwise determined under this regulation, the following:

(a) $1.00 per ton; plus

(b) The lower of the following:

(1) An amount consisting of the cost per sack of your most recent customary purchase of sacks of the kind, size, and condition (new or used) used for the lot, multiplied by the number of sacks furnished per ton of the flaxseed feed product you deliver; or

(2) The applicable allowance from the following table:

Type of sack used	New sacks (per ton)	Used sacks (per ton)
Cotton	$5.25	$4.25
Burlap	4.25	3.50
Paper	3.25	----

5. Subparagraph (1) of section 9 (b) is amended to read as follows:

(1) "Flaxseed feed products" means linseed oil meal, linseed oil cake, sized linseed oil cake, linseed pellets, linseed cubes; flaxseed screening oil feed, flaxseed screenings oil feed pellets and cubes; linseed feed, linseed feed pellets and cubes.

6. Section 9 (b) is amended to add new subparagraphs (9), (10), (11) and (12) to read as follows:

(9) "Linseed feed pellets" means the product resulting from the processing of linseed feed through a pelleting machine.

(10) "Linseed feed cubes" means the product resulting from the processing of linseed feed through a cubing machine.

(11) "Flaxseed screenings oil feed pellets" means the product resulting from the processing of flaxseed screenings oil feed through a pelleting machine.

(12) "Flaxseed screenings oil feed cubes" means the product resulting from the processing of flaxseed screenings oil feed through a cubing machine.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective September 9, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

SEPTEMBER 4, 1952.

[F. R. Doc. 52-9802; Filed, Sept. 4, 1952; 11:03 a. m.]

[General Ceiling Price Regulation, Supplementary Regulation 116]

GCPR, SR 116—ADJUSTMENTS FOR PIG IRON

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

In accordance with the directive of the Acting Director of the Office of Defense Mobilization of July 24, 1952, the Office of Price Stabilization on August 19, 1952, issued Revision 1 of Supplementary Regulation 100 to the General Ceiling Price Regulation increasing the ceiling prices of producers of carbon alloy and stainless steel mill products. This regulation which increases the ceiling prices of producers of pig iron is a further implementation of that directive which reads in part as follows:

> • • • you are hereby directed to authorize effective upon resumption of steel production, an increase in ceiling prices to basic steel producers for their carbon iron and steel products (with a proportionate increase for alloy and stainless steel) equivalent to $1.66 per ton of carbon steel plus 70¢ per ton of carbon steel to cover the freight increase authorized by the Interstate Commerce Commission effective on May 2, 1952.
>
> This directive is based upon and limited to the facts of the steel industry.

The increase of $2.36 per ton of carbon steel together with the average increase of $2.84 per ton of carbon steel granted by OPS on April 25, 1952, pursuant to the provisions of the Capehart amendment amounts to a total increase of $5.20 or approximately 4.7 percent of the average ceiling prices per ton.

However, if producers of pig iron were permitted to increase the ceiling price of each of the several grades and each of the hundreds of classes of pig iron by this percentage the historic price differentials between these grades and classes which have prevailed in the industry for years would be destroyed. It was necessary therefore to increase the ceiling price of each of the grades and classes by a specific dollar-and-cents amount which would result in an average increase for all grades and classes of approximately 4.7 percent. This is accomplished in this regulation by increasing the ceiling price of each of the grades and classes of pig iron which contains less than 4.99 percent silicon by $2.50 per ton and by increasing the ceiling price of each of the grades and classes of pig iron which contain between 5 percent and 17 percent silicon by $3.00 per ton. These increases are equal to 4.7 percent of the generally prevailing GCPR ceiling prices of No. 2 foundry grade pig iron and silvery pig iron, after rounding in accordance with established industry practice.

In the formulation of this supplementary regulation there has been consultation with industry representatives including trade association and representatives, to the extent practicable, and full consideration has been given their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Ceiling price adjustments.
3. Incorporation of GCPR provisions.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

SECTION 1. *What this supplementary regulation does.* (a) This supplementary regulation permits producers of pig iron, except those producers whose ceiling prices for pig iron are established under the provisions of Supplementary Regulation 38 to the General Ceiling Price Regulation, to increase the ceiling prices established by the General Ceiling Price Regulation or an individual letter order issued prior to the effective date of this regulation for each of the various grades and classes of pig iron. The increases permitted by this regulation are set forth in Section 2 and apply to all deliveries made on or after July 26, 1952.

(b) "Pig iron" as used in this regulation means iron in the form of standard basic shapes or molten metal. It includes all grades of pig iron listed in the Steel Products Manual, Pig Iron and Blast Furnace Ferro-Alloys, published by the American Iron and Steel Institute. It does not include products commonly known as ferro-alloys, including ferro-silicon containing in excess of 17.00 percent silicon, ferromanganese, spiegeleisen or ferrophosphorous.

SEC. 2. *Ceiling price adjustments.* If you are a producer of pig iron, other than a producer whose ceiling prices for pig iron are established under the provisions of Supplementary Regulation 38 to the General Ceiling Price Regulation, your ceiling price for each of the various grades and classes of pig iron is your ceiling price for such grades and classes established by the General Ceiling Price Regulation, or an individual letter order issued prior to the effective date of this regulation plus the following amounts:

	Per ton
(a) All grades and classes containing a maximum of 4.99 percent silicon	$2.50
(b) All grades and classes containing a minimum of 5.00 percent silicon and a maximum of 17.00 percent silicon	3.00

SEC. 3. *Incorporation of GCPR provisions.* Any person subject to this supplementary regulation is also subject to all the provisions of a General Ceiling Price Regulation not inconsistent with the provisions of this supplementary regulation.

Effective date. This supplementary regulation is effective September 4, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

[General Overriding Regulation 4, Revision 1, Interpretation 1]

GOR 4—EXEMPTION AND SUSPENSIONS OF CERTAIN CONSUMER SOFT GOODS

INT. 1—SUSPENSION OF CEILING PRICES ON NON-EXEMPT COMMODITIES FURNISHED WITH BALING AND GINNING SERVICES (SECTION 3 (g) AND (h))

The question has been raised whether the wrapping and ties used in baling cotton have been suspended from price controls (1) when furnished with the service of ginning cotton and (2) when sold as such.

Section 4 (b) (1) of GOR 14, as amended, suspends from price controls the service of ginning, baling and wrapping cotton. Where a commodity is furnished as an integral part of a service and ceiling prices for the service are suspended, the suspension includes the commodity so furnished. Inasmuch as the wrapping and ties furnished with the service of ginning, baling and wrapping are an integral part of such service, they are suspended from price controls—not as commodities but as parts of a service sale—by section 4 (b) (1) of GOR 14, as amended.

On the other hand, the sale of burlap and cotton covers and metal ties used in baling cotton are still subject to price controls when such sale is a separate transaction and is not an integral part of the furnishing of the above services. Section 3 (g) and (h) of GOR 4, Revision 1, as amended, does not suspend burlap and cotton bale covers sold as such from price controls since only laminated covers are included in the commodities suspended by those paragraphs.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

[General Overriding Regulation 14, Interpretation 1]

GOR 14—EXCEPTED AND SUSPENDED SERVICES

INT. 1—SUSPENSION OF CEILING PRICES ON NONEXEMPT COMMODITIES FURNISHED WITH BALING AND GINNING SERVICES SECTION 4 (b) (1))

The question has been raised whether the wrapping and ties used in baling cotton have been suspended from price controls (1) when furnished with the service of ginning cotton and (2) when sold as such.

Section 4 (b) (1) of GOR 14, as amended, suspends from price controls the service of ginning, baling and wrapping cotton. Where a commodity is furnished as an integral part of a service and ceiling prices for the service are suspended, the suspension includes the commodity so furnished. Inasmuch as the wrapping and ties furnished with the service of ginning, baling and wrapping are an integral part of such service, they are suspended from price controls—not as commodities but as parts of a service sale—by section 4 (b) (1) of GOR 14, as amended.

On the other hand, the sale of burlap and cotton covers and metal ties used in baling cotton are still subject to price controls when such sale is a separate transaction and is not an integral part of the furnishing of the above services. Section 3 (g) and (h) of GOR 4, Revision 1, as amended, does not suspend burlap and cotton bale covers sold as such from price controls since only laminated covers are included in the commodities suspended by those paragraphs.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-20, Amdt. 1 of Sept. 4, 1952]

M-20—IRON AND STEEL SCRAP

ALLOCATIONS AND DIRECTIVES

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable because the amendment affects a large number of different trades and industries.

This amendment affects NPA Order M-20, of July 18, 1952, by adding "alloy scrap" to the provisions of section 5. As amended, section 5 now reads as follows:

SEC. 5. *Allocations and directives.* NPA may from time to time allocate scrap and such alloy scrap as is subject to Direction 1 to NPA Order M-20 and specifically direct the manner and quantities in which deliveries to particular persons or classes of persons or for particular uses or classes of uses shall be made or suspended; and from time to time may issue specific directives to any person as to the source, destination, consignee, or amount of scrap or such alloy scrap to be delivered or acquired by such person.

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This amendment shall take effect September 4, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-9814; Filed, Sept. 4, 1952; 11:28 a. m.]

[NPA Order M-43, as amended Sept. 4, 1952]

M-43—CONSTRUCTION MACHINERY: DISTRIBUTION

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this order as amended, consultation with industry representatives has been rendered impracticable because of the need for immediate action.

EXPLANATORY

This order as amended affects NPA Order M-43 as amended July 3, 1952, in the following respects: It restricts the rating limitations of section 6 to the items of construction machinery specified in a new Part 1 to List A, and for this purpose it divides List A into two parts. In addition, clarifying changes have been made in the designation of some of the items on the amended List A.

REGULATORY PROVISIONS

Sec.
1. What this order does.
2. Definitions.
3. Required delivery dates.
4. Rejection of rated orders.
5. Limitation for acceptance of rated orders.
6. Limitation on use of ratings.
7. Effect of this order on NPA Reg. 2.
8. NPA assistance in placing rated orders.
9. Scheduled programs.
10. Request for adjustment or exception.
11. Records and reports.
12. Communications.
13. Violations.

AUTHORITY: Sections 1 to 13 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* This order applies particularly to producers of construction machinery and equipment, as hereinafter defined, and provides rules for placing, accepting, and scheduling rated orders for such machinery and equipment. The purpose of this order is to provide for equitable distribution of such rated orders among producers, in order to reduce to a minimum the disruption of normal distribution. This order affects NPA Reg. 2 in various respects as hereinafter set out.

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or any other government.

(b) "Construction machinery" means any type of construction machinery and equipment as listed and described in List A of this order, and includes parts of such machinery or equipment.

(c) "Producer" means a person engaged in the business of manufacturing construction machinery for sale as such.

(d) "Claimant agency" is a Government agency or NPA division shown in List B of this order.

(e) "NPA" means the National Production Authority.

SEC. 3. *Required delivery dates.* A rated order for construction machinery must specify delivery on a particular date or during a particular month, which in no case may be earlier than required by the person placing the order. The producer shall schedule the order for delivery within the requested month as close to the requested delivery date as is practicable considering the need for maximum production.

SEC. 4. *Rejection of rated orders.* A producer need not accept a rated order which he receives less than 45 days prior to the first day of the month in which delivery is requested unless specifically directed to accept the order by NPA.

SEC. 5. *Limitation for acceptance of rated orders.* Unless specifically directed by NPA, no producer shall be required to accept rated orders for delivery in any one month for any one model of any type of construction machinery including parts, in excess of (a) 50 percent of his production schedule of that model for that month or (b) 50 percent of his average monthly shipments of that model during the 6-month period from January 1, 1950, through June 30, 1950, whichever is greater.

SEC. 6. *Limitation on use of ratings.* (a) On and after the effective date of this amendment, no person shall apply or extend a rating to obtain any item of construction machinery listed in Part 1 of List A of this order, but not including parts of such items, unless the rating bears a program identification consisting of the letter A, B, C, or E, and one digit, or the program identification Z-1 or Z-2. The rating limitation contained in the preceding sentence shall not apply to the items in Part 2 of List A of this order.

(b) Any person unable to obtain any item of construction machinery listed in Part 1 of List A of this order at the time he requires it, and who is not authorized to use an A, B, C, E, or Z-2 rating for the purpose, may apply to NPA in accordance with this paragraph for the right to use a Z-1 rating. He shall apply to NPA through the appropriate claimant agency as shown in List B of this order or, if he is unable to determine the appropriate claimant agency, he may apply directly to NPA which will route the application to the appropriate claimant agency. Except as otherwise provided in this paragraph, application shall be made on Form NPAF-138C. Applicants whose appropriate claimant agency is the Canadian Division of NPA shall file on Canadian Department of Defence Production Form 57-3. Applicants whose appropriate claimant agency is the Office of International Trade or the Mutual Security Agency shall file on Form IT-835. Each application shall state the amounts, makes, models, sizes, and values of the machinery required, the end use to which the machinery will be put, the name of the prospective supplier, and the justification showing why the use of a rating is in the public interest, or in the interest of the national defense, and what efforts, if any, have been made to obtain the machinery without a rating.

(c) No applicant shall, within 1 year of his acquisition of any construction machinery obtained pursuant to an application granted in accordance with this section, sell or otherwise dispose of that machinery without written approval of NPA or of the claimant agency through which application was made: *Provided, however,* That the provisions of this paragraph shall not apply to machinery acquired as the result of any application filed on Form IT-835.

(d) No producer of construction machinery shall treat as a rated order any order received by him after the effective date of this amendment for any item of construction machinery listed in Part 1 of List A of this order, but not including parts of such items, unless it bears a rating permitted by this section.

SEC. 7. *Effect of this order on NPA Reg. 2.* To the extent that the provisions of this order, and particularly the provisions of sections 4 and 5 hereof, are in conflict with the provisions of NPA Reg. 2, the provisions of this order shall prevail. Otherwise, the provisions of NPA Reg. 2 shall continue to apply to the construction machinery industry.

SEC. 8. *NPA assistance in placing rated orders.* Any person who is unable to place a rated order for construction machinery due to the limitations imposed by section 5 of this order should apply to NPA, Ref.: M-43, specifying the producers who refused to accept the order. NPA will arrange to assist him in locating sources of supply.

SEC. 9. *Scheduled programs.* NPA may from time to time approved scheduled programs calling for the production and delivery of one or more types of construction machinery over specified periods of time. Upon approval of any such program, a supplement or supplements to this order will be issued, describing the program and specifying the manner in which it shall be carried out by persons affected thereby.

SEC. 10. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 11. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

SEC. 12. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M-43.

SEC. 13. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect September 4, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

LIST A OF NPA ORDER M-43

PART 1

Bituminous equipment:
- Asphalt plants.
- Distributors.
- Heaters.
- Kettles.
- Mixers.
- Pavers.
- Spreaders, aggregate.

Catch basin cleaners.
Concrete equipment:
- Batchers and batch plants.
- Bins.
- Curb and gutter machines.
- Cutting machines, except masonry.
- Dryers, aggregate.
- Finishers.
- Forms, metal, re-usable.
- Graders, sub and fine.
- Heaters.
- Jacks, slab-raising.
- Mixers, including mortar.
- Pavers.
- Spreaders.
- Towers.
- Vibrators.

Cranes, shovels, and draglines:
- Cranes, construction.
- Cranes, locomotive and rail-truck mounted.
- Cranes, railway, wrecking.
- Crane, shovel, and dragline attachments (not including items in Part 2 below).
- Draglines, construction.
- Draglines, walking.
- Pile drivers and hammers.
- Shovels, power.

Crushing, screening, and washing equipment (portable):
- All types, except food.

Derricks, except oil and gas well.
Discs, wheel-mounted or harrow, construction.
Dredging machinery, except dredge pipe.
Drilling equipment:
- Augers, earth, power-driven.
- Pipe pushers, power-driven.
- Tools, air, contractors.

Flushers, street.
Graders:
- Elevating.
- Pull-type.
- Self-propelled.
- Maintainers.

Grader-mounted equipment.
Haulage units, off-highway:
- Rear-dump trucks.
- Wheel tractors 70 h. p. and over.

Hoists, contractors.
Loaders:
- Bucket, elevating.
- Elevating, shoulder-type.
- Tractor-mounted.

Rollers and compactors, all types.
Rippers, rooters, and scarifiers, drawn.
Scrapers, self-propelled and pull.
Snow plows, all types.
Sweepers and leaf collectors, self-propelled and drawn.
Tractors, crawler.
Tractor-mounted equipment:
- Dozers, power-control units, cranes, shovels, side-booms, back-hoes, loaders, scarifiers, winches, and draglines.

Traffic line marking equipment.
Trailers, construction, off-highway:
- Bottom, rear, and side dump, crawler or wheel-type.
- Logging arches.

Trenchers, all types.

PART 2

Bits, air-drill, removable.
Blades (cutting edges): grader, dozer, scraper, snow plow.
Buckets, concrete equipment.
Buckets and dippers for cranes, shovels, or draglines.
Chutes, concrete equipment.
Grapples, crane.
Hoppers, concrete equipment.
Placers, concrete equipment.
Rock drills, air, including drifters and stopers.
Teeth: bucket, ripper, and scarifier.
Well points, construction.
Wheels, crawler.

LIST B OF NPA ORDER M-43

CLAIMANT AGENCIES AND RESPONSIBILITIES

Agency	Address	Programs and areas of responsibilities
Department of Defense, Department of the Navy, Department of the Army, Department of the Air Force, Associated Agencies of the Department of Defense (National Advisory Committee for Aeronautics, etc.)	Local representative and/or contracting officer of the military department or associated agencies of Department of Defense concerned, from whom you received your government contracts.	The programs of the Department of Defense.
Department of the Army, Corps of Engineers, Panama Canal Co.	District Office, District Engineer, Corps of Engineers.	Civil construction projects under the Department of the Army, except projects having electric power generating capacity or facilities not specifically exempted by the Administrator of Defense Electric Power Administration; the Panama Canal; and the Panama Railroad.
Atomic Energy Commission	Appropriate operations office of the Atomic Energy Commission.	The Atomic Energy Commission with respect to the programs of that agency, including programs for the account of or sponsored by that agency.
Federal Civil Defense Administration.	Federal Civil Defense Administration, Washington 25, D. C.	Buildings, structures, or projects which are to be used exclusively for civil defense purposes, except such structures which are federally owned on Federal property under the control of the Atomic Energy Commission.
Federal Security Agency	Federal Security Agency, Washington 25, D. C.	All school, museum, and library construction; hospital and health facility housing; college and educational institution housing; all hospital and health facility construction other than the Veterans' Administration and military hospitals; all other health and sanitation programs including refuse disposal systems and free-standing incinerators (but not water supply and sewer construction programs), and excluding such types of construction which are federally owned on federally owned property under the control of the Atomic Energy Commission, and such types of construction on military reservations.
General Services Administration.	General Services Administration, Washington 25, D. C.	Requirements for the needs of all Federal Government agencies not covered otherwise for common-use items listed in the GSA Stores Stock Catalog, or procured under Federal Supply Schedule contracts, or otherwise designated as common-use items by the Administrator of General Services, except for such items specifically designated for the Secretary of Defense by agreement between the Secretary of Defense and the Administrator; and requirements for Federal buildings not elsewhere designated.
Defense Materials Procurement Agency.	Defense Materials Procurement Agency, Washington 25, D. C.	Production and processing of the metals and minerals listed in column I of Appendix A of NPA Delegation 5 by or in the respective facilities listed in column III of that appendix.
Veterans' Administration	Veterans' Administration, Washington 25, D. C.	The hospital program of the Veterans' Administration.
Housing and Home Finance	Housing and Home Finance Agency, Washington 25, D. C.	All public and private housing not specifically covered above in this table, including housing under Public Law 211, 81st Congress (Wherry Act) for the Atomic Energy Commission.
Department of Agriculture	County Office, Production and Marketing Administration, Department of Agriculture.	(1) Food and fiber production, including construction of farm ponds and lakes and clearing, draining, reclaiming and conserving land for agricultural purposes, and (2) Food processing and distribution within the limits of the memorandum of agreement between the Administrator of the Production and Marketing Administration and the Administrator of the National Production Authority (NPA) (16 F. R. 3410) as from time to time amended or supplemented.
Department of the Interior	Department of the Interior, Washington 25, D. C.	Facilities for departmental programs of the Department of the Interior.
Department of the Interior	Defense Solid Fuels Administration, Department of the Interior, Washington 25, D. C.	Facilities for the production, preparation, and processing of solid fuels.
Department of the Interior	Defense Fisheries Administration, Department of the Interior, Washington 25, D. C.	Facilities for the production and processing of fishery products.
Department of the Interior	Defense Electric Power Administration, Department of the Interior, Washington 25, D. C.	Facilities for the generation, transmission, and distribution of electric power.
Department of the Interior	Petroleum Administration for Defense, Department of the Interior, Washington 25, D. C.	Facilities for the production, processing, refining, and distribution of petroleum and gas, and facilities for the production, processing, and distribution of the products listed in Appendix A of NPA Delegation 9 (but not filling stations).
Defense Transport Administration.	Defense Transport Administration, Washington 25, D. C.	Domestic transportation, except programs designated for the Secretary of Commerce; storage; and port facilities.
Department of Commerce	Department of Commerce, Washington 25, D. C.	Maritime Administration programs for coastwise, inter-coastal, and overseas shipping, and merchant ship construction and repair; other Departmental programs, except Office of International Trade and National Production Authority programs.

LIST B OF NPA ORDER M-43—Continued

CLAIMANT AGENCIES AND RESPONSIBILITIES—continued

Agency	Address	Programs and areas of responsibilities
Department of Commerce, Bureau of Public Roads.	State Highway Department, (for reference to District Office, Bureau of Public Roads).	Bureau of Public Roads programs for highway construction and maintenance of all rural and urban highways, streets, highway equipment, repair shops, bridges, tunnels, toll road facilities, and appurtenant installations, publicly owned parking facilities incident to a highway or street, regardless of financing, but not garages, filling stations, restaurants, or other commercial facilities; air navigation facilities; civil airports; shipyards.
Department of Commerce	Civil Aeronautics Administration, Department of Commerce, Washington 25, D. C.	Civil aviation programs for which the Civil Aeronautics Administration and the Civil Aeronautics Board are responsible, including air navigation facilities, civil airports, new civil aircraft and concurrent spares, for air carrier and nonair carrier aircraft, and maintenance, repair, and operation of equipment and facilities.
Department of Commerce	Office of International Trade, Department of Commerce, Washington 25, D. C.	All exports not elsewhere designated.
Mutual Security Agency	Mutual Security Agency, Washington 25, D. C.	Requirements for all nonmilitary exports to MSA countries, exports for additional military production under the Mutual Defense Aid Program and common-use items under other approved military programs.
National Production Authority	Office of Civilian Requirements, National Production Authority, Washington 25, D. C.	State and local governments, general contractors, subcontractors, and equipment rental contractors, unless the construction machinery is to be used only in connection with a program or programs under the jurisdiction of another agency on this list.
National Production Authority	Facilities and Construction Bureau, National Production Authority, Washington 25, D. C.	Construction programs for State and local community facilities not elsewhere specifically designated, such as fire and police, penal and administrations; wholesale, retail; and service trades; religious institutions; private industrial facilities not elsewhere designated; and private social recreational activities.
National Production Authority	Canadian Division, National Production Authority, Washington 25, D. C.	Canadian programs.
National Production Authority	Water Resources Division, National Production Authority, Washington 25, D. C.	Facilities for ground and surface water supplies: transmission, pumping, treatment, storage, and distribution, for domestic and industrial use; facilities for domestic and industrial liquid, water, sewage collection, transmission, pumping, treatment, and disposal.
National Production Authority	National Production Authority, Washington 25, D. C.	Facilities for the manufacture of the particular products assigned to each division as shown in the Official Product Assignment Directory published by NPA.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 211—SCOPE OF OPERATING AUTHORITY; ROUTES

USE OF NEW HAMPSHIRE TURNPIKE (TOLL HIGHWAY) BY COMMON AND CONTRACT MOTOR CARRIERS SUBJECT TO THE INTERSTATE COMMERCE ACT

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 25th day of August A. D. 1952.

The above-entitled matter being under consideration:

It appearing, that the State of New Hampshire, through its Department of Public Works and Highways, has petitioned this Commission to enter a general order authorizing the use of the New Hampshire Turnpike between Portsmouth, N. H., and the Massachusetts-New Hampshire State line near Salisbury, Mass., by common and contract motor carriers holding authority to operate over U. S. Highway 1 between those points;

It further appearing, that the New Hampshire Turnpike is a modern toll highway in which there are improvements in design and construction over other highways in that region, including the elimination of cross traffic, reduction in grades, lengthening of curves, and widening of the pavement; that its use as an alternate route by motor carriers holding authority to operate over U. S. Highway 1 between the points specified would promote economical operation, improve the service rendered to the public, serve purposes of national defense, and contribute to the promotion of safety on the highways; and that only in special and unusual instances will there exist reasons for denying to any carrier operating over the parallel highway (U. S. 1) permission to use the Turnpike as an auxiliary highway;

And it further appearing, that in general the use of the said Turnpike as an alternate route as above-indicated is and will be required by public convenience and necessity, in the case of common carriers, and consistent with the public interest and the national transportation policy declared in the Interstate Commerce Act, in the case of contract carriers, and the Commission so finding; therefore,

It is ordered, that the said petition be, and it is hereby, granted. It is further ordered, that:

§ 211.4 *Use of New Hampshire Turnpike by motor carriers authorized to operate over parallel highway (U. S. 1)*—

(a) *Conditions.* The New Hampshire Turnpike and such additional highways as may be required in traveling by the shortest practicable route between the authorized highway and the Turnpike in performing authorized operations, may be used as an alternate route, without obtaining prior authority therefor, by common and contract motor carriers subject to the Interstate Commerce Act who are authorized to operate over U. S. Highway 1 between Portsmouth, N. H., and the Massachusetts-New Hampshire State line near Salisbury, Mass., subject in all instances to the following conditions:

(1) The carrier in each case shall give notice to the Commission, by letter, setting forth (i) a complete description by highway numbers of the carrier's authorized route between the point where it proposes to leave its authorized route and point where it proposes to return to such route, (ii) a complete description by highway numbers of the proposed deviation route, including the portion of the Turnpike to be used, between the point where it proposes to leave its authorized route and the point where it will return to such route, and (iii) a list of all known competitors, with a statement that a copy of such letter notice has been served on each of those listed.

(2) The letter shall state that the carrier filing the notice will continue to furnish reasonable and adequate service at all points it is now authorized to serve, that it will not serve new points or points it is not now authorized to serve, and that the use of the Turnpike will not enable the carrier to engage in transportation between any points where because of the circuity of its present routes, or otherwise, such operation is not now practicable.

(3) The right to use the Turnpike as an alternate route shall continue only so long as the carrier is entitled to use the highway or portion thereof described in its Certificate or Permit which parallels the Turnpike, in performing service authorized under the Interstate Commerce Act, and only so long as the conditions mentioned herein are observed.

(b) *Protests.* Any party in interest may file a protest within 30 days from the date a carrier gives notice of intent to operate over the Turnpike. Such protest may be in the form of a letter, should contain facts and information to support protestant's opinion that the carrier filing such notice cannot meet the terms of the above-specified conditions, and should reflect that a copy of the protest has been furnished to the carrier filing the notice. If such a protest is filed the Commission will give due consideration to all facts of record in the particular case, including the notice and protest, and will make a determination in accordance with those facts.

(c) *When application required.* Motor carriers holding authority to operate over specified regular routes in New Hampshire which do not include U. S. Highway 1 or the New Hampshire Turnpike and who desire to use the Turnpike as an alternate route in performing their authorized service, must apply for and

obtain such authority, using Form BMC 78, before operating over the Turnpike. If it appears that the use of the Turnpike by any such applicant would not result in a substantial change in the service between terminal points or to or from intermediate and off-route points, and would not enable the carrier to render service which is now impracticable because of the circuity of the carrier's presently authorized route, or otherwise, consideration will be given to the granting of authority without hearing and with or without restrictions.

(d) *Irregular-route operations.* If a motor carrier is authorized to operate within or through New Hampshire over irregular routes, no specific authority is required from this Commission to use the New Hampshire Turnpike in performing its authorized service.

And it is further ordered, that this order shall become effective October 3, 1952, unless prior thereto it is otherwise ordered by this Commission.

Notice of this order shall be given to motor carriers and general public by depositing a copy in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy thereof with the Director, Division of Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 552, as amended, 553, as amended; 49 U. S. C. 308, 309)

By the Commission, Division 5.

[SEAL] W. P. BARTEL, *Secretary.*

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 29]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

EXCESS PROFITS TAX; DEDUCTION OF EXPENDITURES FOR ADVERTISING AND GOOD WILL

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 62 of the Internal Revenue Code (53 Stat. 32; 26 U. S. C. 62).

[SEAL] JOHN B. DUNLAP, *Commissioner of Internal Revenue.*

In order to conform Regulations 111 (26 CFR Part 29) to section 303 of the Excess Profits Tax Act of 1950, approved January 3, 1951, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.23 (a)–1 the following:

SEC. 303. EXPENDITURES FOR ADVERTISING AND GOOD WILL (EXCESS PROFITS TAX ACT OF 1950, APPROVED JANUARY 3, 1951).

Section 23 (a) (1) (C) of the Internal Revenue Code (relating to expenditures for advertising and good will) is hereby amended to read as follows:

(C) *Expenditures for advertising and good will.* If a corporation has, for the purpose of computing its excess profits tax credit under Chapter 2E, or subchapter D of this chapter, claimed the benefits of the election provided in section 733 or section 451, as the case may be, no deduction shall be allowable under subparagraph (A) to such corporation for expenditures for advertising or the promotion of good will which, under the rules and regulations prescribed under section 733 or section 451, as the case may be, may be regarded as capital investments.

PAR. 2. Section 29.23 (a)–14, relating to the deduction of expenditures for advertising or promotion of good will, is amended to read as follows:

§ 29.23 (a)–14 *Expenditures for advertising or promotion of good will.* A corporation which has, for the purpose of computing its excess profits credit, elected under section 733 (applicable to the excess profits tax imposed by subchapter E of chapter 2) or under section 451 (applicable to the excess profits tax imposed by subchapter D of chapter 1) to charge to capital account for taxable years in its base period expenditures for advertising or the promotion of good will which may be regarded as capital investments may not deduct similar expenditures for the taxable year. Such a taxpayer has the burden of proving that expenditures for advertising or the promotion of good will which it seeks to deduct for such later taxable years may not be regarded as capital investments under the provisions of the regulations prescribed under section 733 or 451, as the case may be. For rules for determining what expenditures for advertising or the promotion of good will may be regarded as capital investments, and for information required to be submitted with respect to such expenditures, see § 30.733–2 of Regulations 109 and § 35.733–2 of Regulations 112 (which sections are applicable to the excess profits tax imposed by subchapter E of chapter 2) and § 40.451–2 of Regulations 130 (applicable to the excess profits tax imposed under subchapter D of chapter 1).

[F. R. Doc. 52-9709; Filed, Sept. 4, 1952; 8:53 a. m.]

[26 CFR Part 29]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

INFORMATION RETURNS REQUIRED WITH RESPECT TO INTEREST AND FOREIGN ITEMS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JOHN B. DUNLAP, *Commissioner of Internal Revenue.*

In order to prescribe the amount of interest and of foreign items which must be reported on information returns (Forms 1096 and 1099) for 1953 and subsequent years, pursuant to section 147 (b) of the Internal Revenue Code as amended by section 333 of the Revenue Act of 1951, approved October 20, 1951, Regulations 111 (26 CFR Part 29) are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.147–1 the following:

SEC. 333. INFORMATION AT SOURCE ON PAYMENTS OF INTEREST (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 147 (a) is hereby amended by striking out "interest," in the first sentence. Section 147 (b) is hereby amended to read as follows:

(b) *Returns regardless of amount of payment.* Such returns may be required, regardless of amounts, (1) in the case of payments of interest, and (2) in the case of collections of items (not payable in the United States) of interest upon the bonds of foreign countries and interest upon the bonds of and dividends from foreign corporations by persons undertaking as a matter of business or for profit the collection of foreign payments of such interest or dividends by means of coupons, checks, or bills of exchange.

PAR. 2. Section 29.147–1, as amended by Treasury Decision 5859, approved September 20, 1951, is amended further by inserting immediately after "$600 or more in any calendar year after 1947" in the first sentence the following: "(see § 29.147–4 with respect to payments of interest in the calendar year 1953 or any subsequent calendar year)"

PAR. 3. Section 29.147–4 is amended as follows:

(A) By changing the headnote of such section to read as follows: "§ 29.147–4 *Return of information as to payments of interest.*"

(B) By adding immediately after the amended headnote as cited in (A) above the following paragraphs (a) and (b):

(a) *General rule.* All persons making payment to another person of interest of $100 or more in the calendar year 1953 or any subsequent calendar year must render a return thereof for such year on or before February 28 of the following year, except as specified in paragraph (c) of this section, in § 29.147–3, or in § 29.147–5. A return shall be made in each case on Form 1099, accompanied by transmittal Form 1096 showing the number of returns filed. For the rules applicable with respect to the rendering of information returns for calendar years preceding 1953, see § 29.147–1. Returns of information on Forms 1096 and 1099 should be filed with the Commissioner of Internal Revenue, Processing Division, C. C. Station, Kansas City 2, Missouri. The street and number where the recipient of the interest lives should be stated, if possible. If no present address is available, the last known postoffice address must be given.

(b) *Constructive payment of interest.* For the purpose of making the return of information with respect to payments of interest, an amount is deemed to have been paid when it is credited or set apart to the taxpayer without any substantial limitation or restriction as to the time or manner of payment or condition upon which payment is to be made, and which is made available to him so that it may be drawn at any time, and its receipt brought within his own control and disposition.

(C) By designating the paragraph formerly constituting § 29.147–4 as paragraph (c) of such section entitled "(c) *Special rule.*"

PAR. 4. Section 29.147–7, as amended by Treasury Decision 5859, is amended further by striking "and if the amount of the foreign items paid in any taxable year to an individual, a partnership, or a fiduciary is $600 or more" from the first sentence and inserting in lieu thereof the following: "and if the amount of the foreign items paid to an individual, a partnership, or a fiduciary in any taxable year ending after December 31, 1952, is $100 or more, or in any taxable year ending before January 1, 1953, is $600 or more."

[F. R. Doc. 52-9710; Filed, Sept. 4, 1952; 8:53 a. m.]

[26 CFR Part 29]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

REGULATED INVESTMENT COMPANIES

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JOHN B. DUNLAP, *Commissioner of Internal Revenue.*

In order to conform Regulations 111 (26 CFR Part 29) to sections 121 (e) and 222 of the Revenue Act of 1950, approved September 23, 1950, to section 201 (c) and (e) of the Excess Profits Tax Act of 1950, approved January 3, 1951, and to section 121 (d) of the Revenue Act of 1951, approved October 20, 1951, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.362–1 the following:

SEC. 121. INCREASE IN RATE OF CORPORATION INCOME TAXES (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * *

(e) *Regulated investment companies.* (1) Section 362 (b) (3) (relating to normal tax on regulated investment companies) is hereby amended to read as follows:

(3) In the case of taxable years beginning after June 30, 1950, there shall be levied, collected, and paid for each taxable year upon its Supplement Q net income a tax equal to 25 per centum of the amount thereof. In the case of taxable years beginning after December 31, 1949, and before July 1, 1950, there shall be levied, collected, and paid for each taxable year upon its Supplement Q net income a tax equal to 23 per centum of the amount thereof.

(2) Section 362 (b) (4) (relating to surtax on regulated investment companies) is hereby amended to read as follows:

(4) In the case of taxable years beginning after June 30, 1950, there shall be levied, collected, and paid for each taxable year upon its Supplement Q surtax net income a tax equal to 20 per centum of the amount thereof in excess of $25,000. In the case of taxable years beginning after December 31, 1949, and before July 1, 1950, there shall be levied, collected, and paid for each taxable year upon its Supplement Q surtax net income a tax equal to 19 per centum of the amount thereof in excess of $25,000.

(3) The amendments made by this subsection shall be applicable only with respect to taxable years beginning after December 31, 1949.

* * * * *

SEC. 222. REGULATED INVESTMENT COMPANIES (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

Effective with respect to taxable years ending after the date of the enactment of this act, section 362 (b) (relating to method of taxation of regulated investment companies and shareholders) is hereby amended by adding at the end thereof the following:

(8) For the purposes of this subsection, any dividend or portion thereof declared by a company after the close of the taxable year and prior to the time prescribed by law for the filing of its return for the taxable year (including the period of any extension of time granted for filing such return) shall, to the extent the company so elects in such return, be treated as having been paid during such taxable year, but only if distribution of such dividend is actually made to shareholders in the 12-month period following the close of such taxable year and not later than the date of the first regular dividend payment made after such declaration.

SEC. 201. SURTAX ON CORPORATIONS (EXCESS PROFITS TAX ACT OF 1950, APPROVED JANUARY 3, 1951).

* * * * *

(c) *Regulated investment companies.* Section 362 (b) (4) of such code (Internal Revenue Code) (relating to surtax on regulated investment companies) is hereby amended by striking out "20 per centum" and inserting in lieu thereof "22 per centum".

* * * * *

(e) *Effective date.* The amendments made by this section shall be applicable with respect to taxable years beginning on or after July 1, 1950.

SEC. 121. INCREASE IN RATE OF CORPORATION NORMAL TAX (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * *

(d) *Regulated investment companies.* Section 362 (b) (relating to tax on regulated investment companies) is hereby amended by striking out paragraphs (3) and (4) and inserting in lieu thereof the following:

(3) In the case of taxable years beginning after December 31, 1950, and before April 1, 1951, and ending after March 31, 1951, there shall be levied, collected, and paid for each taxable year upon its Supplement Q net income a tax equal to 28¾ per centum of the amount thereof. In the case of taxable years beginning after March 31, 1951, and before April 1, 1954, there shall be levied, collected, and paid for each taxable year upon its Supplement Q net income a tax equal to 30 per centum of the amount thereof. In the case of taxable years beginning after March 31, 1954, there shall be levied, collected, and paid for each taxable year upon its Supplement Q net income a tax equal to 25 per centum of the amount thereof.

(4) In the case of taxable years beginning after December 31, 1950, there shall be levied, collected, and paid for each taxable year upon its Supplement Q surtax net income a tax equal to 22 per centum of the amount thereof in excess of $25,000.

* * * * *

SEC. 125. EFFECTIVE DATE (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

The amendments made by this part shall be applicable only with respect to taxable years beginning after March 31, 1951, and to taxable years beginning on January 1, 1951, and ending on December 31, 1951, except that the amendments made to sections * * * 362 * * * of the Internal Revenue Code shall be applicable to taxable years beginning after December 31, 1950, and ending after March 31, 1951. * * *

PAR. 2. Section 29.362–2, as amended by Treasury Decision 5517, approved June 12, 1946, is further amended as follows:

(A) By striking out that portion of the first sentence thereof which follows the parenthetical phrase "(relating to records required to be kept for the purpose of ascertaining the actual ownership of its outstanding stock)," and inserting in lieu thereof the following:

* * * it is taxable:

(a) Upon its Supplement Q net income (as defined in section 362 (b) (1)):

(1) For taxable years beginning before January 1, 1950, at the rate of 24 percent of the amount thereof;

(2) For taxable years beginning after December 31, 1949, and before July 1, 1950, at the rate of 23 percent of the amount thereof;

(3) For taxable years beginning after June 30, 1950, and before January 1, 1951, and for taxable years beginning after December 31, 1950, and ending before April 1, 1951, at the rate of 25 percent of the amount thereof;

(4) For taxable years beginning after December 31, 1950, and before April 1, 1951, and ending after March 31, 1951, at the rate of 28¾ percent of the amount thereof;

(5) For taxable years beginning after March 31, 1951, and before April 1, 1954, at the rate of 30 percent of the amount thereof;

(6) For taxable years beginning after March 31, 1954, at the rate of 25 percent of the amount thereof.

(b) Upon its Supplement Q surtax net income (as defined in section 362 (b) (2)):

(1) For taxable years beginning before January 1, 1946, at the rate of 16 percent of the amount thereof;

(2) For taxable years beginning after December 31, 1945, and before January 1, 1950, at the rate of 14 percent of the amount thereof;

(3) For taxable years beginning after December 31, 1949, and before July 1, 1950, at the rate of 19 percent of the amount thereof in excess of $25,000;

(4) For taxable years beginning after June 30, 1950, at the rate of 22 percent of the amount thereof in excess of $25,000.

(c) Upon the excess of any net long-term capital gain over the sum of the net short-term capital loss and the amount of capital gain dividends (as defined in section 362 (b) (7)) paid during the year, at the rate of 25 percent of such excess.

(B) By inserting immediately after the fifth sentence thereof (beginning "See § 29.27 (b)-2") the following new sentence: "For certain distributions made after the close of the taxable year which the regulated investment company may elect to treat as paid during the taxable year for purposes of section 362 (b), see § 29.362-6."

PAR. 3. Section 29.362-5 is amended by adding at the end thereof the following new sentence: "For additional rules applicable to certain distributions made after the close of the taxable year which may be designated as capital gain dividends, see § 29.362-6."

PAR. 4. There is inserted immediately after § 29.362-5 the following new section:

§ 29.362-6 *Distribution of dividends after close of taxable year.* (a) Effective with respect to any taxable year ending after September 23, 1950, section 362 (b) (8) provides that:

(1) In determining under section 362 (b) whether a regulated investment company distributes during the taxable year to its shareholders as taxable dividends (other than capital gain dividends) an amount not less than 90 percent of its net income for the taxable year computed without regard to net long-term and net short-term capital gains;

(2) In computing the Supplement Q net income and the Supplement Q surtax net income, and

(3) In determining the amount of capital gain dividends paid during the taxable year, any dividend (or portion thereof) declared by the company after the close of such taxable year and prior to the time prescribed by law for the filing of its return for such taxable year (including the period of any extension of time granted for filing such return) shall, to the extent the company so elects in such return, be treated as having been paid during such taxable year. This rule is applicable only if distribution of the entire amount of such dividend is actually made to shareholders in the 12-month period following the close of such taxable year and not later than the date of the first regular dividend payment made after such declaration.

(b) The election must be made in the return filed by the company for the taxable year. The election shall be made by the taxpayer by treating the dividend (or portion thereof) to which such election applies as a dividend paid during the taxable year in computing its Supplement Q net income and its Supplement Q surtax net income, or if the dividend (or portion thereof) to which such election applies is to be designated by the company as a capital gain dividend, in computing the amount of capital gain dividends paid during such taxable year. The election provided in section 362 (b) (8) may be made only to the extent that the earnings and profits of the taxable year (computed with the application of section 362 (a)) exceed the total amount of distributions out of such earnings and profits actually made during the taxable year (not including distributions with respect to which a prior election has been made under section 362 (b) (8)). The dividend or portion thereof, with respect to which the regulated investment company has made a valid election under section 362 (b) (8), shall be considered as paid out of earnings and profits of the taxable year. However, the dividend or portion thereof subject to the election will be includible in the gross income of shareholders of the regulated investment company for the taxable year in which the dividend is received by them.

Example (1). X Company, a regulated investment company, had a net income (and earnings or profits) for the calendar year 1950 of $100,000. During that year the company distributed to shareholders taxable dividends aggregating $88,000. On March 10, 1951, the company declared a dividend of $37,000 payable to shareholders on March 20, 1951. Such dividend consists of the first regular quarterly dividend for 1951 of $25,000 plus an additional $12,000 representing that part of the net income for 1950 which was not distributed in 1950. On March 15, 1951, X Company files its Federal income tax return and elects therein to treat $12,000 of the total dividend of $37,000 to be paid to shareholders on March 20, 1951, as having been paid during the taxable year 1950. Assuming that X Company actually distributes the entire amount of the dividend of $37,000 on March 20, 1951, an amount equal to $12,000 thereof will be treated for the purposes of section 362 (b) as having been paid during the taxable year 1950. Such amount ($12,000) will be considered a distribution out of the earnings and profits of the company for the taxable year 1950, and will be treated as a taxable dividend to the shareholders for the taxable year in which such distribution is received by them.

Example (2). Y Company, a regulated investment company, had a net income (and earnings or profits) for the calendar year 1950 of $100,000, and for 1951 a net income (and earnings or profits) of $125,000. On January 1, 1950, the company had a deficit in its earnings and profits accumulated since February 28, 1913, of $115,000. During the year 1950 the company distributed to shareholders taxable dividends aggregating $85,000. On March 5, 1951, the company declared a dividend of $65,000 payable to shareholders on March 31, 1951. On March 15, 1951, Y Company files its Federal income tax return in which it includes $40,000 of the total dividend of $65,000 to be paid to shareholders on March 31, 1951, as a dividend paid by it during the taxable year 1950. On March 31, 1951, Y Company distributes the entire amount of the dividend of $65,000 declared on March 5, 1951. The election under section 362 (b) (8) is valid only to the extent of $15,000, the amount of undistributed earnings or profits for 1950. The remainder ($50,000) of the dividend paid on March 31, 1951, may not be the subject of an election, but such amount will be regarded as a distribution by Y Company for the taxable year 1951. Assuming that the only other distribution by the Y Company during 1951 is a distribution of $75,000 paid as a dividend on October 31, 1951, the total amount of the distribution of $65,000 paid to shareholders on March 31, 1951, is to be treated as taxable dividends to the shareholders. Of this amount $15,000 is to be treated as distributed out of the earnings or profits of the company for the taxable year 1950, and the remaining $50,000 as a distribution out of the earnings or profits for the year 1951.

(c) A dividend (or portion thereof) with respect to which an election has been made under section 362 (b) (8) and which the company desires to designate as a capital gain dividend need not be so designated within 30 days after the close of the taxable year, but will be properly designated as a capital gain dividend if it is designated as such in a written notice mailed to the shareholders at the time of the payment of the dividend. Such designated capital gain dividends are to be aggregated with the designated capital gain dividends actually paid during such taxable year (not including such dividends with respect to which a prior election has been made under section 362 (b) (8)) for the purpose of determining whether the aggregate of the designated capital gain dividends with respect to such taxable year of the company is greater than the excess of the net long-term capital gain over the net short-term capital loss of the company.

(d) After the expiration of the time for filing the return for the taxable year for which an election is made under section 362 (b) (8), such election shall be irrevocable with respect to the dividend or portion thereof to which it applies.

[F. R. Doc. 52-9708; Filed, Sept. 4, 1952; 8:52 a. m.]

[26 CFR Part 81]

ESTATE AND GIFT TAXES

TRANSFERS FOR PUBLIC, CHARITABLE, RELIGIOUS, SCIENTIFIC, AND EDUCATIONAL USES

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 3791 of the Internal Revenue Code (53 Stat. 467; 26 U. S. C. 3791) and pursuant to the provisions of Public Law 814, 81st Congress, approved September 23, 1950.

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform Regulations 105 (26 CFR Part 81) to certain provisions of Parts I, II and III of Title III of the Revenue Act of 1950 (Pub. Law 814, 81st Cong.), approved September 23, 1950, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 81.44 the following:

SEC. 302. EXEMPTION OF CERTAIN ORGANIZATIONS FOR PAST YEARS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) *Trade or business not unrelated.* For any taxable year beginning prior to January 1, 1951, no organization shall be denied exemption under paragraph (1), (6), or (7) of section 101 of the Internal Revenue Code on the grounds that it is carrying on a trade or business for profit if the income from such trade or business would not be taxable as unrelated business income under the provisions of Supplement U of the Internal Revenue Code, as amended by this act, or if such trade or business is the rental by such organization of its real property (including personal property leased with the real property).

(b) *Period of limitations.* In the case of an organization which would otherwise be exempt under section 101 of the Internal Revenue Code were it not carrying on a trade or business for profit, the filing of the information return required by section 54 (f) of the Internal Revenue Code (relating to returns by tax-exempt organizations) for any taxable year beginning prior to January 1, 1951, shall be deemed to be the filing of a return for the purposes of section 275 of the Internal Revenue Code (relating to period of limitation upon assessment and collection). In the case of such an organization which was, by the provisions of section 54 (f) of the Internal Revenue Code, specifically not required to file such information return, for the purposes of the preceding sentence a return shall be deemed to have been filed at the time when such return should have been filed had it been so required. The provisions of this subsection shall not apply to a taxable year of such an organization with respect to which, prior to September 20, 1950, (1) any amount of tax was assessed or paid, or (2) a notice of deficiency under section 272 of the Internal Revenue Code was sent to the taxpayer.

(c) *Denial of deductions.* A gift or bequest to an organization prior to January 1, 1951, for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals) otherwise allowable as a deduction under section * * * 812 (d), 861 (a) (3), * * * of the Internal Revenue Code, may not be denied under such sections if a denial of exemption to such organization for the taxable year of the organization in which such gift or bequest was made is prevented by the provisions of subsections (a) or (b) of this section.

SEC. 162. NET INCOME (INTERNAL REVENUE CODE AS AMENDED BY SECTION 321, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The net income of the estate or trust shall be computed in the same manner and on the same basis as in the case of an individual, except that—

(a) Subject to the provisions of subsection (g), there shall be allowed as a deduction (in lieu of the deduction for charitable, etc., contributions authorized by section 23 (o)) any part of the gross income, without limitation, which pursuant to the terms of the will or deed creating the trust, is during the taxable year paid or permanently set aside for the purposes and in the manner specified in section 23 (o), or is to be used exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, or for the establishment, acquisition, maintenance or operation of a public cemetery not operated for profit. Where any amount of the income so paid or set aside is attributable to gain from the sale or exchange of capital assets held for more than six months, proper adjustment of the deduction otherwise allowable under this subsection shall be made for any deduction allowable to the trust under section 23 (ee);

* * * * *

(g) *Rules for application of subsection (a) in the case of trusts.*

* * * * *

(2) *Operations of trusts*—(A) *Limitation on charitable, etc., deduction.* The amount otherwise allowable under subsection (a) as a deduction shall not exceed 15 per centum of the net income of the trust (computed without the benefit of subsection (a)) if the trust has engaged in a prohibited transaction, as defined in subparagraph (B) of this paragraph.

(B) *Prohibited transactions.* For the purposes of this paragraph the term "prohibited transaction" means any transaction after July 1, 1950, in which any trust while holding income or corpus which has been permanently set aside or is to be used exclusively for charitable or other purposes described in subsection (a)—

(i) Lends any part of such income or corpus, without receipt of adequate security and a reasonable rate of interest, to;

(ii) Pays any compensation from such income or corpus, in excess of a reasonable allowance for salaries or other compensation for personal services actually rendered, to;

(iii) Makes any part of its service available on a preferential basis to;

(iv) Uses such income or corpus to make any substantial purchase of securities or any other property, for more than an adequate consideration in money or money's worth, from;

(v) Sells any substantial part of the securities or other property comprising such income or corpus, for less than an adequate consideration in money or money's worth, to; or

(vi) Engages in any other transaction which results in a substantial diversion of such income or corpus to;

the creator of such trust; any person who has made a substantial contribution to such trust; a member of the family (as defined in section 24 (b) (2) (D)) of an individual who is the creator of the trust or who has made a substantial contribution to the trust; or a corporation controlled by any such creator or person through the ownership, directly or indirectly, of 50 per centum or more of the total combined voting power of all classes of stock entitled to vote or 50 per centum or more of the total value of shares of all classes of stock of the corporation.

(C) *Taxable years affected.* The amount otherwise allowable under subsection (a) as a deduction shall be limited as provided in subparagraph (A) only for taxable years subsequent to the taxable year during which the trust is notified by the Secretary that it has engaged in such transaction, unless such trust entered into such prohibited transaction with the purpose of diverting such corpus or income from the purposes described in subsection (a), and such transaction involved a substantial part of such corpus or income.

(D) *Future charitable, etc., deductions of trusts denied deduction under subparagraph (C).* If the deduction of any trust under subsection (a) has been limited as provided in this paragraph, such trust, with respect to any taxable year following the taxable year in which notice is received of limitation of deduction under subsection (a), may, under regulations prescribed by the Secretary, file claim for the allowance of the unlimited deduction under subsection (a), and if the Secretary, pursuant to such regulations, is satisfied that such trust will not knowingly again engage in a prohibited transaction, the limitation provided in subparagraph (A) shall not be applicable with respect to taxable years subsequent to the year in which such claim is filed.

(E) *Disallowance of certain charitable, etc., deductions.* No gift or bequest for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals), otherwise allowable as a deduction under section * * * 812 (d), 861 (a) (3), * * * shall be allowed as a deduction if made in trust and, in the taxable year of the trust in which the gift or bequest is made, the deduction allowed the trust under subsection (a) is limited by subparagraph (A). With respect to any taxable year of a trust in which such deduction has been so limited by reason of entering into a prohibited transaction with the purpose of diverting such corpus or income from the purposes described in subsection (a), and such transaction involved a substantial part of such income or corpus, and which taxable year is the same, or prior to the, taxable year of the trust in which such prohibited transaction occurred, such deduction shall be disallowed the donor only if such donor or (if such donor is an individual) any member of his family (as defined in section 24 (b) (2) (D)) was a party to such prohibited transaction.

(F) *Definition.* For the purposes of this paragraph the term "gift or bequest" means any gift, contribution, bequest, devise, legacy, or transfer.

(3) *Cross reference.* For disallowance of certain charitable, etc., deductions otherwise allowable under subsection (a), see section 3813.

* * * * *

SEC. 322. EFFECTIVE DATE OF PART II (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amendments made by this part [section 321, inserting subsection (g) in section 162 of the Internal Revenue Code] shall be applicable only with respect to taxable years beginning after December 31, 1950, except that subsection (g) (2) (E) of section 162 of the Internal Revenue Code, added by section 321 (a) of this Act, shall apply only with respect to gifts or bequests (as defined in section 162 (g) (2) (F) of the Internal Revenue Code) made on or after January 1, 1951.

* * * * *

SEC. 331. EXEMPTION OF CERTAIN ORGANIZATIONS UNDER SECTION 101 (6) AND DEDUCTIBILITY OF CONTRIBUTIONS MADE TO SUCH ORGANIZATIONS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

Chapter 38 is hereby amended by inserting at the end thereof the following new sections:

SEC. 3813. REQUIREMENTS FOR EXEMPTION OF CERTAIN ORGANIZATIONS UNDER SECTION 101 (6) AND FOR DEDUCTIBILITY OF CONTRIBUTIONS MADE TO SUCH ORGANIZATIONS.

(a) *Organizations to which section applies.* This section shall apply to any organization described in section 101 (6) except—

(1) A religious organization (other than a trust);

(2) An educational organization which normally maintains a regular faculty and curriculum and normally has a regularly enrolled body of pupils or students in attendance at the place where its educational activities are regularly carried on;

(3) An organization which normally receives a substantial part of its support (exclusive of income received in the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 101 (6)) from the United States or any State or political subdivision thereof or from direct or indirect contributions from the general public;

(4) An organization which is operated, supervised, controlled, or principally supported by a religious organization (other than a trust) which is itself not subject to the provisions of this section; and

(5) An organization the principal purposes or functions of which are the providing of medical or hospital care or medical education or medical research.

(b) *Prohibited transactions.* For the purposes of this section, the term "prohibited transaction" means any transaction in which an organization subject to the provisions of this section—

(1) Lends any part of its income or corpus, without the receipt of adequate security and a reasonable rate of interest, to;

(2) Pays any compensation, in excess of a reasonable allowance for salaries or other compensation for personal services actually rendered, to;

(3) Makes any part of its services available on a preferential basis to;

(4) Makes any substantial purchase of securities or any other property, for more than adequate consideration in money or money's worth, from;

(5) Sells any substantial part of its securities or other property, for less than an adequate consideration in money or money's worth, to; or

(6) Engages in any other transaction which results in a substantial diversion of its income or corpus to;

the creator of such organization (if a trust); a person who has made a substantial contribution to such organization; a member of the family (as defined in section 24 (b) (2) (D)) of an individual who is the creator of such trust or who has made a substantial contribution to such organization; or a corporation controlled by such creator or person through the ownership, directly or indirectly, of 50 per centum or more of the total combined voting power of all classes of stock entitled to vote or 50 per centum or more of the total value of shares of all clases of stock of the corporation.

(c) *Denial of exemption to organizations engaged in prohibited transactions*—(1) *General rule.* No organization subject to the provisions of this section which has engaged in a prohibited transaction after July 1, 1950, shall be exempt from taxation under section 101 (6).

(2) *Taxable years affected.* An organization shall be denied exemption from taxation under section 101 (6) by reason of paragraph (1) only for taxable years subsequent to the taxable year during which it is notified by the Secretary that it has engaged in a prohibited transaction, unless such organization entered into such prohibited transaction with the purpose of diverting corpus or income of the organization from its exempt purposes, and such transaction involved a substantial part of the corpus or income of such organization.

(d) *Future status of organization denied exemption.* Any organization denied exemption under section 101 (6) by reason of the provisions of subsection (c), with respect to any taxable year following the taxable year in which notice of denial of exemption was received, may, under regulations prescribed by the Secretary, file claim for exemption, and if the Secretary, pursuant to such regulations, is satisfied that such organization will not knowingly again engage in a prohibited transaction, such organization shall be exempt with respect to taxable years subsequent to the year in which such claim is filed.

(e) *Disallowance of certain charitable, etc., deductions.* No gift or bequest for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals), otherwise allowable as a deduction under section • • • 812 (d), 861 (a) (3), • • • shall be allowed as a deduction if made to an organization which, in the taxable year of the organization in which the gift or bequest is made, is not exempt under section 101 (6) by reason of the provisions of this section. With respect to any taxable year of the organization for which the organization is not exempt pursuant to the provisions of subsection (c) by reason of having engaged in a prohibited transaction with the purpose of diverting the corpus or income of such organization from its exempt purposes and such transaction involved a substantial part of such corpus or income, and which taxable year is the same, or prior to the, taxable year of the organization in which such transaction occurred, such deduction shall be disallowed the donor only if such donor or (if such donor is an individual) any member of his family (as defined in section 24 (b) (2) (D)) was a party to such prohibited transaction.

(f) *Definition.* For the purposes of this section, the term "gift or bequest" means any gift, contribution, bequest, devise, legacy, or transfer.

• • • • •

SEC. 332. TECHNICAL AMENDMENTS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

• • • • •

(e) *Amendment of section 812 (d).* Section 812 (d) is hereby amended by adding at the end thereof the following: "For disallowance of certain charitable, etc., deductions otherwise allowable under this subsection, see sections 3813 and 162 (g) (2)."

(f) *Amendment of section 861 (a).* Section 861 (a) (3) is hereby amended by adding at the end thereof the following: "For disallowance of certain charitable, etc., deductions otherwise allowable under this paragraph, see sections 3813 and 162 (g) (2)."

• • • • •

SEC. 333. EFFECTIVE DATES (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

Subsections (c) and (d) of section 3813 • • • of the Internal Revenue Code, added by section 331 of this Act, shall apply with respect to taxable years beginning after December 31, 1950, and subsection (e) of section 3813 of the Internal Revenue Code shall apply only with respect to gifts or bequests (as defined in section 3813 of the Internal Revenue Code) made on or after January 1, 1951.

PAR. 2. Section 81.44, as amended by Treasury Decision 5351, approved March 27, 1944, is further amended as follows:

(A) By changing the headnotes of such section and of paragraph (a) to read as follows: "§ 81.44 *Transfers for public, charitable, religious, etc., uses*—(a) *In general.*";

(B) By striking the word "Deduction" at the beginning of the first sentence and inserting in lieu thereof the following: "Except as otherwise provided in paragraph (b) of this section, deduction"; and

(C) By adding at the end of paragraph (a) the following paragraph (b).

(b) *Disallowance of certain charitable, etc., deductions.* (1) In the case of a decedent dying on or after January 1, 1951, no deduction which would otherwise be allowable under paragraph (a) of this section for the value of property transferred by the decedent during his lifetime or by will for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals) shall be allowed if (i) the transfer is made in trust and, for income tax purposes for the taxable year of the trust in which the transfer is made, the deduction otherwise allowable to such trust under section 162 (a) is limited by section 162 (g) (2) (A) by reason of the trust having engaged in a prohibited transaction described in section 162 (g) (2) (B); or (ii) the transfer is made to an organization subject to section 3813 which, for its taxable year in which the transfer is made, is not exempt from income tax under section 101 (6) by reason of having engaged in a prohibited transaction described in section 3813 (b).

(2) For the purpose of section 162 (g) (2) (E) and section 3813 (e) the term "transfer" includes any gift, contribution, bequest, devise, legacy, or other disposition. In applying such sections for estate tax purposes, a transfer, whether made before, on or after January 1, 1951, and whether made during the decedent's lifetime or by will, shall be considered as having been made at the moment of the decedent's death.

(3) Part 29 of this chapter, relating to the income tax, contain the rules for the determination of the taxable year of the trust for which the deduction under section 162 (a) is limited by section 162 (g) (2) and for the determination of the taxable year of the organization for which an exemption is denied under section 3813 (c). See §§ 29.162–3 (b) and 29.3813–1 of Regulations 111. Such taxable year must begin after December 31, 1950. Generally, such taxable year is a taxable year subsequent to the taxable year during which the trust or organization has been notified by the Commissioner that it has engaged in a prohibited transaction. However, if the trust or organization after December 31, 1950, and during or prior to the taxable year entered into the prohibited transaction for the purpose of diverting its corpus or income from the purposes described in section 162 (a) or from its exempt purposes, as the case may be, and such transaction involves a substantial part of such income or corpus, then the deduction of the trust under section 162 (a) for such taxable year is limited by section 162 (g) (2), and the exemption of the organization for such taxable year is denied under section 3813 (c), whether or not the organization has previously received notification by the Commissioner that it is engaged in a prohibited transaction. In certain cases, the limitation of section 162 (g) may be removed or the exemption may be reinstated for certain subsequent taxable years under the rules set forth in §§ 29.162–3 (b) and 29.3813–2, of Regulations 111.

(4) In cases in which prior notification by the Commissioner is not required in order to limit the deduction of the trust under section 162 (g) (2) or to deny exemption of the organization under section 3813, the deduction otherwise allowable under paragraph (a) of this section shall not be disallowed in respect to transfers made during the same taxable year of the trust or organization in which such prohibited transaction occurred or in a prior taxable year unless the decedent or a member of his family was a party to the prohibited transaction. For the purpose of the preceding sentence, the members of the decedent's family include only his brothers and sisters, whether by whole or half blood, spouse, ancestors, and lineal descendants.

PAR. 3. Section 81.45 is amended by adding at the end thereof the following: "For further limitations in the case of transfers by decedents dying on or after January 1, 1951, see § 81.44 (b), relating to transfers to trusts and organizations engaged in a prohibited transaction described in sections 162 (g) (2) (B) or 3813 (b)."

BOX SPRING FRAMES

TARIFF CLASSIFICATION

AUGUST 28, 1952.

The Bureau by its letter to the collector of customs at Detroit, Michigan, dated February 12, 1951, ruled that unassembled box spring frames consisting of several wooden pieces, some having rounded ends, are properly classifiable as entireties under the provisions for parts of furniture in paragraph 412, Tariff Act of 1930.

This decision will be effective as to such or similar merchandise entered for consumption or withdrawn from warehouse for consumption on or after 30 days after the date of publication of an abstract thereof in a forthcoming issue of the weekly Treasury Decisions.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CALIFORNIA

CLASSIFICATION ORDER

AUGUST 22, 1952.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427 dated August 16, 1950, I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a), as hereinafter indicated, the following described lands in the Los Angeles land district, embracing approximately 90 acres,

CALIFORNIA SMALL TRACT CLASSIFICATION NO. 347

For lease and sale for homesites only:
T. 10 N., R. 13 W., S. B. M.
Sec. 22, S½SW¼NW¼, SW¼SE¼NW¼, N½NW¼SW¼, NW¼NE¼SW¼, SW¼NW¼SW¼, W½SW¼SW¼.

This land is located in southern Kern County, California, approximately 12 miles southwest of the town of Mojave, California. It is reached by an oiled road from U. S. Highway 6 at Gloster Station. The tract is generally level, with sandy soil, and produces the usual types of desert vegetation. Temperatures range from 30 degrees Fahrenheit in winter to 110 degrees in summer.

2. As to applications regularly filed prior to 9:00 a. m., June 16, 1949, and

are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

3. This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to applications under the Small Tract Act as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to application under the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II, subject to the requirements of applicable law. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to disposal under the Small Tract Act only. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

4. A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 or Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

5. All of the lands will be leased in tracts of approximately 5 acres, each being approximately 330 by 660 feet, the longer dimension to extend north and south.

6. Preference right leases referred to in paragraph 2 will be issued for the land described in the application irrespective of the direction of the tract, provided the tract conforms to or is made to conform to the area and the dimension specified in paragraph 5.

7. Where only one 5-acre tract in a 10-acre subdivision is embraced in a preference right application, an application for the remaining 5-acre tract extending in the same direction will be accepted in order to fill out the subdivision notwithstanding the direction specified in paragraph 5.

8. Leases will be for a period of three years at an annual rental of $5.00 payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase clause at the appraised value of $15.00 per acre. Application to purchase may be filed during the term of the lease but not more than 30 days prior to the expiration of one year from the date of the lease issuance.

9. Tracts will be subject to all existing rights-of-way and to rights-of-way not exceeding 33 feet in width along or near the edges thereof for road purposes and public utilities. Such rights-of-way may be utilized by the Federal Government, or the State, County or municipality in which the tract is situated, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

10. All inquiries relating to these lands should be addressed to the Manager, Land Office, Los Angeles, California.

L. T. HOFFMAN,
Regional Administrator.

CALIFORNIA

NOTICE OF FILING OF PLATS OF SURVEY

AUGUST 27, 1952.

Pursuant to the redelegation of authorthority provided for in Order No. 1, Region II, section 2.14 (b) approved August 20, 1951 (16 F. R. 8614), authorizing the preparation and publication of notices of the official filing of approved plats of survey, notice is given as follows:

The plat of dependent resurvey and extension survey and plats of survey of the following described lands accepted January 2, 1951, will be officially filed in the Land Office at Los Angeles, California, effective at 10:00 a. m., on the 35th day after the date of this notice.

The lands affected by this notice are described as follows:

SAN BERNARDINO MERIDIAN

T. 10 No., R. 26 W.,
T. 10½ No., Rgs. 26 and 27 W.

The area described embraces 4,276.04 acres.

These surveys were made upon the request of the Geological Survey as an administrative measure for the proper supervision of the oil and gas development affecting public lands in the Cuyama Valley area.

In view thereof, the land will not be subject to disposition under the general public land laws by reason of the official filing of the plats.

PAUL B. WITMER,
Manager, Land Office.

DEPARTMENT OF COMMERCE

National Production Authority

[Suspension Order 22; Docket No. 33]

LIFETIME INDUSTRIES, INC.

SUSPENSION ORDER

A hearing having been held in the above-entitled matter on the 4th day of August 1952, before J. Forrester Davison, a Hearing Commissioner of the National Production Authority, on a statement of charges made by the General Counsel, National Production Authority, in accordance with the National Production Authority General Administrative Order 16-06 (16 F. R. 8628), dated July 21, 1951, and Implementation 1 to National Production Authority General Administrative Order 16-06 (16 F. R. 8799); and

The respondents, Lifetime Industries, Inc., John A. Serpell, and Albert B. Cunnington, having been duly apprised of the specific violations charged, and having been fully informed of the rules and procedures which govern these proceedings and the administrative action which may be taken; and

The respondents having appeared herein by their attorney, Joseph P. King, 1028 Connecticut Avenue, Washington, D. C.; and

The respondents and each of them having stipulated on the 30th day of July 1952 to a statement of facts to be filed in these proceedings in lieu of the presentation of other evidence in support of and in opposition to the statement of charges, it is hereby determined:

Findings of fact. 1. During the period beginning April 1, 1951, and ending June 30, 1952, Lifetime Industries, Inc. committed acts prohibited by National Production Authority Order M-7, section 26.25 (b), as amended December 1, 1950 (15 F. R. 8576), section 6 (d), as amended June 1, 1951 (16 F. R. 5259); CMP Regulation No. 1, section 19 (f), dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860), section 3 (c), dated May 3, 1951 (16 F. R. 4127), as amended July 12, 1951 (16 F. R. 6800), section 3 (c), dated May 3, 1951 (16 F. R. 4127), as amended July 12, 1951 (16 F. R. 6800), and November 23, 1951 (16 F. R. 11860); in that Lifetime Industries, Inc. obtained and used in the production of aluminum wall siding approximately 1,186,798 pounds of aluminum more than it was permitted to obtain and use by the said sections.

2. During the period beginning April 1, 1951, and ending June 30, 1952, John A. Serpell and Albert B. Cunnington committed acts prohibited by National Production Authority Order M-7, section 26.25 (b), as amended December 1, 1950 (15 F. R. 8576), section 6 (d), as amended June 1, 1951 (16 F. R. 5259); CMP Regulation No. 1, section 19 (f), dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860), section 3 (c), dated May 3, 1951 (16 F. R. 4127), as amended July 12, 1951 (16 F. R. 6800), section 3 (c), dated May 3, 1951 (16 F. R. 4127), as amended July 12, 1951 (16 F. R. 6800), and November 23, 1951 (16 F. R. 11860); in that John A. Serpell and Albert B. Cunnington owned, dominated, managed, controlled, and were responsible for the direction and supervision of Lifetime Industries, Inc. during the time Lifetime Industries, Inc. obtained and used the unauthorized quantities of aluminum set forth in paragraph 1 above.

Conclusion. During the period beginning April 1, 1951, and ending June 30, 1952, Lifetime Industries, Inc., John A. Serpell, and Albert B. Cunnington violated the provisions of National Production Authority regulations, orders, and directives as hereinabove cited by obtaining and using in the production of aluminum wall siding approximately 1,186,798 pounds of aluminum more than was authorized or permitted by the said provisions.

In order to correct the unauthorized use of aluminum in the manufacture of wall siding occasioned by the violations found herein,

It is accordingly ordered: 1. That all allocations and allotments of materials for use in the manufacture of aluminum wall siding be withdrawn and withheld from Lifetime Industries, Inc., its successors and assigns, John A. Serpell, and Albert B. Cunnington for a period of 6 months commencing from the date of issuance of this order. The period of 6 months stated herein shall be extended or reduced until the quantity of aluminum unused in the third quarter of 1952 and the quantity of aluminum withheld from Lifetime Industries, Inc., for its use in the manufacture of aluminum wall siding becomes equal to 1,186,798 pounds.

And in order to prevent future violations of National Production Authority regulations, orders and directives by the respondents,

It is further ordered: 2. That all priority assistance, allocations, and allotments of materials be withdrawn and withheld from Lifetime Industries, Inc., its successors and assigns, John A. Serpell, and Albert B. Cunnington for a period of 6 months more or less as provided for in paragraph 1 of this order.

3. That the respondents Lifetime Industries, Inc., its successors and assigns, John A. Serpell, and Albert B. Cunnington be prohibited from producing or acquiring "Class A products" and from producing "Class B products" (as defined in National Production Authority CMP Regulation No. 1 as amended November 23, 1951, and as may be hereafter amended), and from acquiring, using, or disposing of any materials under control of the National Production Authority, except as may be directed by the Administrator of the National Production Authority, for a period of 6 months more or less as provided for in paragraph 1 of this order.

4. That all privileges of self-certification granted or authorized by National Production Authority with respect to controlled materials and materials under control of the National Production Authority be withdrawn and withheld from Lifetime Industries, Inc., its successors and assigns, John A. Serpell, and Albert B. Cunnington, for a period of 6 months more or less as provided for in paragraph 1 of this order.

Issued this 5th day of August 1952.

NATIONAL PRODUCTION AUTHORITY,
By J. FORRESTER DAVISON,
Hearing Commissioner.

FEDERAL POWER COMMISSION

[Docket Nos. G-1899, G-2012]

IOWA-ILLINOIS GAS AND ELECTRIC CO.

ORDER DENYING REQUEST FOR SHORTENED PROCEDURE, CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

AUGUST 28, 1952.

On July 28, 1952, at Docket No. G-2012, Iowa-Illinois Gas and Electric Company (Applicant), an Illinois Corporation, with its principal place of business in Davenport, Iowa, filed an application for an order disclaiming jurisdiction or, in the alternative, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 22 miles of 8-inch duplicate-transmission pipe line serving its Ottumwa district in Iowa, should it ultimately be determined that the construction of the said facilities and the operation thereof are subject to the Commission's jurisdiction.

Due notice of filing such application has been given, including publication in the FEDERAL REGISTER on August 15, 1952 (17 F. R. 7439).

Applicant has requested that its application in Docket No. G-2012 be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for noncontested proceedings.

The Commission, by order issued August 12, 1952, denied Applicant's request that its application in Docket No. G-1899[1] be heard under the shortened procedure as provided by the Commission's rules of practice and procedure and fixed the date of hearing thereon to commence on September 9, 1952.

The Commission finds:

(1) Good cause has not been shown for granting Applicant's request that its application in Docket No. G-2012 be heard under the shortened procedure as provided by the Commission's rules of practice and procedure, and said request should be denied as hereinafter ordered.

(2) It is appropriate for carrying out the provisions of the Natural Gas Act and good cause exists for consolidating the above proceedings for purpose of hearing.

(3) It is reasonable and in the public interest and good cause exists for fixing the date of hearing in the proceeding in Docket No. G-2012 less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) Iowa-Illinois Gas and Electric Company's request that its aplication in Docket No. G-2012 be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) be and the same is hereby denied.

(B) The aforesaid proceedings in Docket Nos. G-1899 and G-2012 be and the same hereby are consolidated for purpose of hearing.

(C) Pursuant to authority contained in and by virtue of the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a public hearing be held commencing on September 9, 1952, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., concerning the matters involved and the issues presented by the application.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: August 29, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-9678; Filed, Sept. 4, 1952; 8:47 a. m.]

---

[1] The application of Iowa-Illinois Gas and Electric Company, filed in Docket No. G-1899, requested an order disclaiming jurisdiction or, in the alternative, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the continued operation of 23 miles of 4-inch duplicate-transmission pipe line serving its Ottumwa district in Iowa, and 17 miles of 10-inch duplicate-transmission pipe line serving its Davenport district in Iowa, should it be ultimately determined that such facilities and operation thereof are subject to the Commission's jurisdiction.

[Docket No. G–1947, G–1959]

TEXAS EASTERN TRANSMISSION CORP. AND WILCOX TREND GATHERING SYSTEM, INC.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

AUGUST 28, 1952.

In the matters of Texas Eastern Transmission Corporation, Docket No. G–1947; Wilcox Trend Gathering System, Inc., Docket No. G–1959.

On April 24, 1952, Texas Eastern Transmission Corporation (Texas Eastern), a Delaware corporation having its principal place of business at Shreveport, Louisiana, filed an application, as supplemented on June 11, August 7, and August 12, 1952, and as amended on August 7, 1952, in Docket No. G–1947, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 315 miles of 24-inch pipe line extending from a point near Provident City, Lavaca County, Texas, in a northeasterly direction to a point of connection with its existing 20-inch transmission pipe line at or near its Station E at Cator, Blanville Parish, Louisiana.

The natural-gas facilities proposed to be constructed and operated by Texas Eastern are fullly described in the aforementioned application, as amended and supplemented, now on file with the Commission and open for public inspection.

Due notice of the filing of said application, and the amendment thereto, has been given, including publication in the FEDERAL REGISTER on May 13, 1952 (17 F. R. 4358) and on August 19, 1952 (17 F. R. 7561).

On May 19, 1952, Wilcox Trend Gathering System, Inc. (Wilcox), a Delaware corporation having its principal place of business at 1403 Magnolia Building, Dallas 1, Texas, filed an application, as supplemented on June 9, July 31 and August 11, 1952, in Docket No. G–1959, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 157 miles of natural-gas transmission pipe line consisting of 83 miles of 14-inch pipe line commencing at a point in the Hagist Field in McMullen County, Texas, and extending in a northeasterly direction to a point approximately 8 miles southeast of Nordheim, Goliad County, Texas, and 69 miles of 16-inch pipe line, interconnecting with the aforementioned 14-inch pipe line, extending in a northeasterly direction to the inlet side of the Goliad gasoline plant located in the Provident City field, Lavaca County, Texas. Wilcox also proposes to construct and operate certain lateral pipe lines extending to the proposed 157 miles of pipe line, heretofore described, and certain appurtenant metering and measuring stations and related facilities necessary for the operation of said pipe line. In addition, Wilcox proposes to construct and operate a 2,200 hp compressor station, and all appurtenant facilities to be located in DeWitt County, Texas.

The natural-gas facilities proposed to be constructed and operated by Wilcox are fully described in its aforementioned application, as supplemented, now on file with the Commission and open for public inspection.

Due notice of the filing of said application has been given, including publication in the FEDERAL REGISTER on June 4, 1952 (17 F. R. 5048).

Wilcox proposes to purchase natural gas from the owners of various oil and gas wells located in certain producing fields in the State of Texas, all as fully described in said application; to collect and gather such natural gas, and transport it through the aforementioned natural gas facilities to a point of interconnection with the facilities proposed to be constructed and operated by Texas Eastern in Docket No. G–1947, and at said point of interconnection to sell natural gas to Texas Eastern for transportation and sale of such natural gas in interstate commerce for resale.

The Commission finds:

(1) Good cause exists and it would be in the public interest to consolidate the above-docketed proceedings for purposes of hearing.

(2) It is in the public interest that at the hearing in the proceedings, consolidated for purpose of hearing as hereinafter ordered, testimony to be presented by each of the Applicants herein, e. g., Texas Eastern and Wilcox, shall be heard and completed prior to cross-examination of any or all of the witnesses presented by said Applicants, and to proffer of testimony by any other party to these consolidated proceedings.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, the above-docketed matters be and they are hereby consolidated for purposes of hearing; said hearing to commence on September 24, 1952, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by the aforementioned applications.

(B) The hearing in these consolidated proceedings shall be conducted in the manner and procedure set forth in Finding (2) of this order.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: August 29, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[F. R. Doc. 52–9679; Filed, Sept. 4, 1952; 8:47 a. m.]

[Docket No. G–1995]

MISSISSIPPI RIVER FUEL CORP.

ORDER DENYING REQUEST FOR SHORTENED PROCEDURE AND FIXING DATE OF HEARING

AUGUST 28, 1952.

On July 9, 1952, Mississippi River Fuel Corporation (Applicant), a Delaware corporation having its principal place of business at 407 North Eighth Street, St. Louis 1, Missouri, filed an application, as corrected August 1, 1952, for a declaratory order stating that the proposed facilities and service hereinafter described are not matters requiring a certificate under section 7 of the Natural Gas Act, or, in the alternative, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a pipe line approximately 1.6 miles in length together with related facilities for the purpose of transporting and selling natural gas, on an interruptible basis and in volumes estimated at 4,250,000 Mcf annually, to Union Electric Company in Missouri to be used for firing boilers in an electric power plant, all as more fully described in said application on file with the Commission and open to public inspection.

Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

Due notice of the filing of the application, including publication in the FEDERAL REGISTER on July 23, 1952 (17 F. R. 6753) has been given.

A joint petition to intervene was filed by the National Coal Association, the United Mine Workers of America and the Fuels Research Council, Inc., and on August 19, 1952, the Commission issued an order permitting intervention by these petitioners.

The Commission finds: Good cause has not been shown for granting Applicant's request that its application herein be heard under the shortened procedure as provided by the Commission's rules of practice and procedure and said request should be denied as hereinafter ordered.

The Commission orders:

(A) Applicant's request that its application herein be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure be and the same is hereby denied.

(B) Pursuant to the authority contained in and by virtue of the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held commencing on September 22, 1952, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., concerning the matters involved and the issues presented by said application, as corrected.

(C) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: August 29, 1952.

By the Commission.

[Docket No. G–2025]

TENNESSEE GAS TRANSMISSION CO.

NOTICE OF APPLICATION

AUGUST 29, 1952.

Take notice that on August 6, 1952, Tennessee Gas Transmission Company (Applicant), a Delaware corporation having its principal office in Houston, Texas, filed an application pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of a sales meter station on its main transmission pipe line near Ashland, Mississippi, for the sale and delivery of natural gas to the Village of Ashland for resale in Ashland and environs.

Applicant proposes to sell natural gas for resale to the Village of Ashland in volumes not to exceed 160 Mcf daily. Reference in the application is made to Docket Nos. G–962 and G–1248, wherein delivery capacity of 40,000 Mcf daily was authorized for general distribution to such communities, and of which 38,000 Mcf is being distributed.

The estimated over-all capital cost of the proposed facilities is $3,000, which will be defrayed from cash on hand.

Protests or petitions to intervene should be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 18th day of September 1952. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–2911]

CENTRAL MAINE POWER CO.

NOTICE OF PROPOSED ISSUANCE AND SALE OF SHORT-TERM NOTES

AUGUST 29, 1952.

Notice is hereby given that an application has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), by Central Maine Power Company ("Central Maine"), a public utility subsidiary of New England Public Service Company, a registered holding company. Applicant has designated the first sentence of section 6 (b) of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than September 17, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues, if any, of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 17, 1952, said application, as filed or as amended, may be granted as provided in Rule U–23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U–20 (a) and U–100 thereof.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Central Maine proposes to issue and renew from time to time, up to and including March 1, 1953, notes having a maturity of three months or less up to the maximum amount of $11,000,000 at any one time outstanding (including the renewal of notes outstanding at the date of authorization). Each such note, including the renewal notes, will be made payable to The First National Bank of Boston and will bear interest at the rate of 3 percent per annum, subject to change in interest rates for prime paper.

It is stated that the interest rate for prime paper is presently 3 percent per annum. In case the interest rate should exceed 3¼ percent per annum on any note, the company will file an amendment to its application stating the rate of interest and other details of the note or notes at least five days prior to the execution and delivery thereof, and asks that such amendment become effective without further order of the Commission at the end of the five-day period unless the Commission shall have notified the company to the contrary within said period.

The proceeds from the sales of the notes will be used to finance the company's construction program. The company estimates that expenditures for its construction program for 1952 will amount to $17,000,000. It is further estimated that an aggregate of $11,000,000 (including the $3,500,000 presently outstanding) will be required from outside sources for the period ending March 1, 1953. The application states that the company intends, soon after March 1, 1953, to issue and sell approximately $6,000,000 of First and General Mortgage Bonds and sufficient Common Stock to yield approximately $5,000,000 to refund the then outstanding short-term notes. However, it is stated that market conditions may require some variation of this financing.

It is represented that no regulatory authority, other than this Commission, has jurisdiction over the proposed transactions, and that legal fees and expenses in connection with the proposed transactions will aggregate approximately $125.

Applicant requests that the Commission's order herein become effective upon its issuance.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F. R. Doc. 52-9681; Filed, Sept. 4, 1952; 8:48 a. m.]

SAN FRANCISCO STOCK EXCHANGE

NOTICE OF PROPOSAL TO DECLARE EFFECTIVE A PLAN FILED FOR DISPOSAL OF CERTAIN DOCUMENTS

Notice is hereby given that the Securities and Exchange Commission has under consideration a revised Plan filed on August 18, 1952, by the San Francisco Stock Exchange pursuant to § 240.17a-6 (Rule X-17A-6) under the Securities Exchange Act of 1934, for the disposal of all applications, reports and documents filed with that Exchange prior to January 1, 1947, pursuant to sections 12, 13, 14 and 16 of the Securities Exchange Act of 1934, or any rule or regulation promulgated by the Commission pursuant to any of such sections. The Plan also provides for the regular disposition of similar material which has been on file with the Exchange more than five years, as soon as practicable after January 1st of each year.

Information contained in the material proposed to be disposed of pursuant to the revised plan of the San Francisco Stock Exchange is on file with the Commission where it will continue to be available.

The original Plan of this Exchange, which was declared effective on June 25, 1951, and discussed in Securities Exchange Act Release No. 4621, did not make provision for the disposal of any material filed pursuant to section 14 of the Securities Exchange Act of 1934, and limited the material which could be disposed of under section 12 of that act. Under the revised Plan, the Exchange will be permitted to dispose of all applications, reports and documents filed prior to January 1, 1947, pursuant to sections 12, 13, 14 and 16 of the Securities Exchange Act of 1934, or the rules and regulations thereunder.

The Securities and Exchange Commission proposes to declare the revised Plan of the San Francisco Stock Exchange effective on condition that if at any time it appears to the Commission necessary or appropriate in the public interest or for the protection of investors so to do, the Commission may suspend or terminate the effectiveness of said Plan by sending at least ten days' written notice to the Exchange.

These proposals are made pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections 17 (a), 23 (a) and 24 (b) thereof and Rule X-17A-6 thereunder. All interested persons are invited to submit their views and comments in writing to the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. on or before September 16, 1952.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

AUGUST 27, 1952.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 32, Supplementary Regulation 2, Section 3, Amdt. 1 to Special Order 19]

PLAYA DEL REY FIELD, LOS ANGELES COUNTY, CALIFORNIA

CRUDE PETROLEUM CEILING PRICES ADJUSTED ON AN IN-LINE BASIS

Statement of considerations. This Amendment No. 1 to Special Order No. 19 corrects the ceiling price for the sale of 21 degrees API gravity crude petroleum produced from the Playa Del Rey Field, Los Angeles County, California.

The approved ceiling price at the lease receiving tank as stated in the aforesaid Special Order No. 19, under Special Provision No. 1, is $1.98 per barrel for 21 degrees API gravity crude petroleum.

This price is included in the ceiling price schedule which was set up on a basis of Signal Hill prices less 10 cents per barrel. In order to conform with this schedule the ceiling price for 21 degrees API gravity crude petroleum should be $1.97 per barrel. This difference of 1 cent per barrel in the ceiling price of 21 degrees API gravity crude was due to an error in the ceiling price schedule, which this amendment corrects. All other gravities from 17 degrees to and including 24 degrees API gravity are correctly figured at 10 cents per barrel under corresponding gravities of Signal Hill crude petroleum.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of section 3 of SR 2 to CPR 32, *It is ordered:*

1. That that part of Special Order No. 19 which refers to 21 degrees API gravity crude petroleum be amended to read as follows:

Gravity:	Price
21°-21.9°	$1.97

2. All provisions of Special Order No. 19, except as changed by this amendment thereto, shall remain in full force and effect as far as you are concerned.

3. This amendment may be amended, modified or revoked at any time by the Director of Price Stabilization.

Effective date. This amendment shall become effective on August 30, 1952.

ELLIS ARNALL, *Director of Price Stabilization.*

AUGUST 29, 1952.

[F. R. Doc. 52-9651; Filed, Aug. 29, 1952; 4:06 p. m.]

[Region V, Redelegation of Authority No. 43]

DIRECTORS OF DISTRICT OFFICES, REGION V, ATLANTA, GA.

REDELEGATION OF AUTHORITY TO ACT UNDER SR 39, REVISION 1, TO GCPR

By virtue of the authority vested in the Director of the Regional Office of Price Stabilization, Region V, Atlanta, Georgia, pursuant to Delegation of Authority 25, as amended (16 F. R. 11406; 17 F. R. 7098), this redelegation of authority is hereby issued.

1. Authority is hereby redelegated to the Directors of the District Offices of the Office of Price Stabilization, Region V, located in Montgomery in the State of Alabama, Jacksonville in the State of Florida, Jackson in the State of Mississippi, Columbia in the State of South Carolina, Nashville in the State of Tennessee, to act as follows:

(a) To deny applications for adjustments of ceiling rates or charges made in accordance with the provisions of Supplementary Regulation 39, Revision 1, to the General Ceiling Price Regulation, relating to interstate and intrastate operations;

(b) To make adjustment of ceiling rates or charges in accordance with the provisions of Supplementary Regulation 39, Revision 1, to the General Ceiling Price Regulation, relating to interstate and intrastate operations.

This redelegation of authority shall take effect as of August 25, 1952.

CHARLES B. CLEMENT, *Acting Director of Regional Office V.*

SEPTEMBER 2, 1952.

[Region VII, Redelegation of Authority No. 41]

DIRECTORS OF DISTRICT OFFICES, REGION VII, CHICAGO, ILL.

REDELEGATION OF AUTHORITY TO ACT UNDER GOR 24

By virtue of the authority vested in the Director of the Regional Office of Price Stabilization, No. VII, pursuant to Delegation of Authority No. 50 (17 F. R. 675), this redelegation of authority is hereby issued.

1. Authority is hereby redelegated to the Directors of the District Offices of Price Stabilization located at Milwaukee, Wisconsin, and Indianapolis, Indiana, to issue adopting orders as authorized by GOR 24 and to grant, deny, or revoke the reclassification provided for under section 7 of GOR 24.

2. If the area for which it is deemed appropriate to fix community dollars-and-cents ceiling prices lies within the jurisdiction of more than one regional or district office of the Office of Price Stabilization, the office for the area in which the majority of the sellers to be covered by the order is located shall be the office to issue an order fixing community dollars-and-cents ceiling prices for all sellers in that area.

This redelegation of authority shall take effect on September 3, 1952.

ROGER W. BARRETT, *Acting Director of Regional Office No. VII.*

SEPTEMBER 2, 1952.

[Region XI, Redelegation of Authority No. 13, Amdt. 1]

DIRECTORS OF DISTRICT OFFICES, REGION XI, DENVER, COLO.

REDELEGATION OF AUTHORITY TO MAKE ADJUSTMENTS UNDER SR 39, REVISION 1 TO GCPR

By virtue of the authority vested in the Director of the Regional Office of Price Stabilization, Region XI, pursuant to Delegation of Authority 25, Amendment 1 (17 F. R. 7098), section 1 of Redelegation of Authority No. 13 is amended to read as follows:

SECTION 1. Authority is hereby redelegated to each of the Directors of the District Offices of the Office of Price Stabilization in Region XI:

(a) To deny applications for adjustments of ceiling rates or charges made in accordance with the provisions of Supplementary Regulation 39, Revision 1 to the General Ceiling Price Regulation relating to interstate and intrastate operations;

(b) To make adjustments of ceiling rates or charges in accordance with the provisions of Supplementary Regulation 39, Revision 1 to the General Ceiling Price Regulation relating to interstate and intrastate operations.

This Amendment 1 to Redelegation of Authority No. 13 shall take effect as of August 28, 1952.

ALLEN MOORE, *Acting Regional Director, Region XI.*

[Region XII, Redelegation of Authority No. 53]

DIRECTORS OF DISTRICT OFFICES, REGION XII, SAN FRANCISCO, CALIF.

REDELEGATION OF AUTHORITY TO MAKE AREA ADJUSTMENTS UNDER SECTION 11 (D) OF CPR 17

By virtue of the authority vested in the Director of the Regional Office of Price Stabilization No. XII, pursuant to Delegation of Authority 72 (17 F. R. 7357), this redelegation of authority is hereby issued.

1. Authority is hereby redelegated to the Directors of the District Offices of the Office of Price Stabilization, Region XII;

(a) To request information in accordance with OPS Public Form 151 of tank wagon sellers of fuel oil for the purpose of adjusting ceiling prices under section 11 (d) of Ceiling Price Regulation 17;

(b) To issue area adjustments by special order under the provisions of section 11 (d) of Ceiling Price Regulation 17;

(c) To disapprove area adjustments requested under section 11 (d) of Ceiling Price Regulation 17.

This redelegation of authority shall take effect as of August 31, 1952.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27359]

SAND AND GRAVEL FROM ATTICA, IND., TO PHILO, ILL.

APPLICATION FOR RELIEF

SEPTEMBER 2, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for the Wabash Railroad Company.

Commodities involved: Sand and gravel, carloads.

From: Attica, Ind.

To: Philo, Ill.

Grounds for relief: Wayside pit competition.

Schedules filed containing proposed rates: Wabash R. R. tariff I. C. C. No. 7324, Supp. 297. Wabash R. R. tariff I. C. C. No. 7685, Supp. 1.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

CRANBERRIES FROM POINTS IN WISCONSIN TO SPRINGFIELD, MO.

APPLICATION FOR RELIEF

SEPTEMBER 2, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. E. Kipp, Agent, for carriers parties to his tariff I. C. C. No. A-3366.

Commodities involved: Cranberries, carloads.

From: Eagle River, Lake Tomahawk, Manitowish, and Three Lakes, Wis.

To: Springfield, Mo.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: L. E. Kipp, Agent, I. C. C. No. A-3366, Supp. 42.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

FEDERAL REGISTER

VOLUME 17 NUMBER 175

Washington, Saturday, September 6, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10392

ESTABLISHING THE PRESIDENT'S COMMISSION ON IMMIGRATION AND NATURALIZATION

By virtue of the authority vested in me as President of the United States, it is hereby ordered as follows:

SECTION 1. There is hereby established in the Executive Office of the President a commission to be known as the President's Commission on Immigration and Naturalization, which shall be composed of a Chairman, a Vice Chairman, and five other members, all of whom shall be designated by the President.

SEC. 2. The Commission is authorized and directed to make a survey and evaluation of the immigration and naturalization policies of the United States, and shall make recommendations to the President for such legislative, administrative, or other action as in its opinion may be desirable in the interest of the economy, security, and responsibilities of this country. The Commission shall give particular consideration to:

(a) the requirements and administration of our immigration laws with respect to the admission, naturalization and denaturalization of aliens, and their exclusion and deportation;

(b) the admission of immigrants into this country in the light of our present and prospective economic and social conditions and of other pertinent considerations; and

(c) the effect of our immigration laws and their administration, including the national origin quota system, on the conduct of the foreign policies of the United States, and the need for authority to meet emergency conditions such as the present overpopulation of parts of Western Europe and the serious refugee and escapee problems in such areas.

SEC. 3. In performing its functions under this order, the Commission may prescribe such rules of procedure, and may hold such public hearings and hear such witnesses as it may deem appropriate.

SEC. 4. All executive departments and agencies of the Federal Government are authorized and directed to cooperate with the Commission in its work and to furnish the Commission such assistance, not inconsistent with law, as it may require in the performance of its functions.

SEC. 5. The expenditures of the Commission shall be paid out of an allotment made by the President from the appropriation entitled "Emergency Fund for the President—National Defense" in Title I of the Independent Offices Appropriation Act, 1953 (Public Law 455, 82nd Congress), approved July 5, 1952. Such payments shall be made without regard to the provisions of (a) section 3681 of the Revised Statutes (31 U. S. C. 672), (b) section 9 of the Act of March 4, 1909, 35 Stat. 1027 (31 U. S. C. 673), and (c) such other laws as the President may hereafter specify. The members of the Commission shall receive such compensation and expense allowances, payable out of the said allotment, as the President shall hereafter fix, except that no compensation shall be so fixed with respect to any person while receiving other compensation from the United States.

SEC. 6. The Commission shall make a final written report to the President not later than January 1, 1953, including its recommendations for legislative, administrative or other action. The Commission may also make such earlier reports to the President as it may deem appropriate. The Commission shall cease to exist 30 days after rendition of its final report to the President.

Board). The Board shall consist of three members, appointed by the President, one of whom shall be designated from the Department of State, one from the Department of Defense, and one from the Department of Justice. Each member shall designate an officer or employee of his department as an alternate member of the Board, who while participating as a member of the Board shall have the same status and functions as the member designating him.

2. The Board shall make the necessary investigations in, and advise the President with respect to, those cases in which a decision of the Government of the United States is required on recommendation by the Government of Japan for clemency, reduction of sentence, or parole, with respect to sentences imposed on Japanese war criminals by tribunals established by the Government of the United States or by the International Military Tribunal for the Far East. In making its investigations, the Board may examine witnesses and take testimony to the extent deemed necessary or advisable.

3. The Board shall determine its own procedure and shall act by majority vote. The member designated from the Department of State, or his alternate, shall serve as Chairman. The Board may prescribe rules and regulations deemed necessary or desirable for carrying out the purposes of this Order.

4. Consonant with law, including section 214 of the Act of May 3, 1945, 59 Stat. 134 (31 U. S. C. 691), each member and alternate member of the Board shall receive from the department from which he is designated his compensation as an officer or employee of that department but shall receive no additional compensation by reason of service as a member or alternate member of the Board, and the Department of State shall furnish the Board necessary accommodations and facilities. So much of the other expenditures of the Board (including such travel expenses of, and other expense allowances for, members and alternate members of the Board as the President shall hereafter fix) as may be within the limits of an allotment to be made by the President from the appropriation entitled "Emergency Fund for the President—National Defense" in Title I of the Independent Offices Appropriation Act, 1953 (Public Law 455, 82nd Congress, approved July 5, 1952), shall be paid from the said allotment. Payments from such allotment shall be made without regard to provisions of (a) section 3681 of the Revised Statutes (31 U. S. C. 672), (b) section 9 of the Act of March 4, 1909, 35 Stat. 1027 (31 U. S. C. 673), and (c) such other laws as the President may hereafter specify.

HARRY S. TRUMAN

THE WHITE HOUSE,
September 4, 1952.

RULES AND REGULATIONS

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 27—EXCLUSION FROM PROVISIONS OF THE FEDERAL EMPLOYEES PAY ACT OF 1945, AS AMENDED, AND THE CLASSIFICATION ACT OF 1949, AS AMENDED, AND ESTABLISHMENTS OF MAXIMUM STIPENDS FOR POSITIONS IN GOVERNMENT HOSPITALS FILLED BY STUDENT OR RESIDENT TRAINEES

MISCELLANEOUS AMENDMENTS

1. Effective August 15, 1952, the list of positions excluded from the provisions of the Federal Employees Pay Act

and the Classification Act in § 27.1 is amended by the following addition:

§ 27.1 *Exclusion from provisions of the Federal Employees Pay Act and the Classification Act.* • • •

Clinical psychology interns, U. S. Public Health Service, fifth year approved postgraduate training (post-doctoral).

2. Effective August 15, 1952, the list of positions for which maximum stipends have been prescribed in § 27.2 is amended by including a maximum stipend for clinical psychology interns, fifth year approved postgraduate training, U. S. Public Health Service, and by increasing the maximum stipends for certain other positions listed, to read as follows:

§ 27.2 *Maximum stipends prescribed.* • • •

Clinical psychology interns—U. S. Public Health Service and St. Elizabeths Hospital:	
Second year approved postgraduate training (pre-doctoral)	$2,200
Fifth year approved postgraduate training (post-doctoral)	2,800
Student medical interns—U. S. Public Health Service and St. Elizabeths Hospital:	
Half-time approved training during third and fourth years of medical school, per month	92
Full-time approved training during third and fourth years of medical school, per month	183
Psychiatric nurse interns (postgraduate student nurses)—U. S. Public Health Service and St. Elizabeths Hospital; one year approved postgraduate training	2,000

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter E—Account Servicing

[FHA Instruction 456.1]

PART 364—SETTLEMENT

MISCELLANEOUS AMENDMENTS

1. Section 364.1 (a) (1), Title 6, Code of Federal Regulations (16 F. R. 11799), is revised to exclude settlement actions on debts arising from loans made from the Utah and Wisconsin Rural Rehabilitation Corporation trust funds, and to read as follows:

§ 364.1 *General*—(a) *Purpose and scope.* (1) • • •

(i) Farm Ownership loans;

(ii) Other Real Estate loans, except indebtedness under rent accounts, D–1 and other leases, and cancelled Lease and Purchase Contracts;

(iii) Farm Housing loans made under 63 Stat. 432;

(iv) Water Facilities loans made under 50 Stat. 869, as amended;

(v) 1948 Flood Damage loans made under 62 Stat. 1038, as amended;

(vi) Property Damage loans made under 63 Stat. 82; and

(vii) Disaster, Fur, and other loans made under 63 Stat. 43, as amended;

(viii) Loans made from State Rural Rehabilitation Corporation funds in the States of Utah and Wisconsin.

(R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 2 (d), 64 Stat. 99; 40 U. S. C. 440 (d))

2. Section 364.2 (a) (2), Title 6, Code of Federal Regulations (16 F. R. 11799), is revised to exclude settlement actions on debts arising from loans made from the Utah and Wisconsin State Rural Rehabilitation Corporation trust funds and to read as follows:

§ 364.2 *Compromise and adjustment of debts upon application.* (a) • • •

(2) Rural Rehabilitation loans, including those made from State Rural Rehabilitation Corporation funds except those of the Utah and Wisconsin State Rural Rehabilitation Corporations.

(R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 2 (d), 64 Stat. 99; 40 U. S. C. 440 (d))

3. Section 364.5 (b) (2), Title 6, Code of Federal Regulations (16 F. R. 11800), is revised to specify the State Rural Rehabilitation Corporations whose debts may be charged-off without application if the debt is not in excess of $100, and to read as follows:

§ 364.5 *Cancellation and charge-off of debts without application when the debt is not in excess of $100.* • • •

(b) • • •

(2) Loans made from funds of the California, Iowa, Kansas, Kentucky, Oregon, Tennessee and Wyoming State Rural Rehabilitation Corporations.

(R. S. 161; 5 U. S. C. 22)

4. Section 364.6 (b) (2), Title 6, Code of Federal Regulations (16 F. R. 11801), is revised to specify the State Rural Rehabilitation Corporations whose debts may be charged-off without application and without regard to the amount of the debt, and to read as follows:

§ 364.6 *Cancellation and charge-off of debts without application and without regard to the amount of the debt.* • • •

(b) • • •

(2) Loans made from funds of the California, Iowa, Kansas, Kentucky, Oregon, Tennessee and Wyoming State Rural Rehabilitation Corporations.

(R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 2 (d), 64 Stat. 99; 40 U. S. C. 440 (d))

5. Section 364.8 is amended to add in paragraph (a) the word "charge-off" and to add a new paragraph (f) which requires the prior written consent of the North Carolina Rural Rehabilitation Corporation on debt settlement actions involving the Corporations claims. Paragraphs (a) and (f) read as follows:

§ 364.8 *State Office handling.* (a) Subject to the policies, procedures, and limitations set forth in this part, State Directors are authorized to approve the compromise, adjustment, and cancellation of debts due the Farmers Home Administration upon application by borrowers, and to cancel or charge-off debts due the Farmers Home Administration. This authority may be redelegated to Assistant State Directors and Chiefs responsible for Production Loan operations, upon special authorization from the Administrator.

• • • • • •

(f) State Directors may not compromise, adjust or cancel claims of the North Carolina Rural Rehabilitation Corporation without prior written approval of the Corporation.

(R. S. 161; 5 U. S. C. 22)

[SEAL] DILLARD B. LASSETER,
Administrator,
Farmers Home Administration.

AUGUST 18, 1952.

Approved: September 2, 1952.

CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-9719; Filed, Sept. 5, 1952; 8:46 a. m.]

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 450, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.557 (Lemon Regulation 450, 17 F. R. 7920) are hereby amended to read as follows:

(ii) District 2: 350 carloads.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 4th day of September 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-9845; Filed, Sept. 5, 1952; 9:02 a. m.]

[Lemon Reg. 451]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.558 *Lemon Regulation 451*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 3, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 7, 1952, and ending at 12:01 a. m., P. s. t., September 14, 1952, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 300 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 4th day of September 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53092]

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

INVOICES FOR ARTICLES OF IRON, STEEL, ALUMINUM, AND ALLOYS CONTAINING ALUMINUM

In order to assist collectors of customs in properly classifying the iron and steel articles provided for in the paragraphs enumerated in paragraph 305, Tariff Act of 1930, and the aluminum and alloys containing aluminum provided for in paragraphs 302 (j) and 374 of the tariff act, except the coils, plates, sheets, bars, rods, circles, disks, blanks, strips, rectangles, and squares specified in the last-mentioned paragraph, customs invoices for such products shall contain, in addi-

tion to all other information required by law or regulations, a statement of the percentages by weight of any metallic element used as an alloy in the articles.

This requirement shall be effective as to certified or commercial invoices filed after the expiration of 30 days after the publication of this ruling in the weekly Treasury Decisions.

Section 8.13 (i), Customs Regulations of 1943 (19 CFR 8.13 (i)), as amended, is further amended by adding the following to the list of merchandise with respect to which additional information is required to be furnished on customs invoices, and by placing opposite such addition the number and date of this Treasury Decision:

Articles of iron or steel provided for in any paragraph enumerated in paragraph 305, Tariff Act of 1930, and the aluminum and alloys containing aluminum provided for in paragraphs 302 (j) or 374 of the tariff act, except the coils, plates, sheets, bars, rods, circles, disks, blanks, strips, rectangles, and squares specified in the last-mentioned paragraph.

(Secs. 481, 624, 46 Stat. 720, 759; 19 U. S. C. 1481, 1624)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: August 29, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 52-9783; Filed, Sept. 5, 1952; 8:56 a. m.]

[T. D. 53093]

PART 16—LIQUIDATION OF DUTIES

EFFECTIVE DATE OF CHANGE IN CLASSIFICATION

Whenever it is necessary to issue an administrative ruling imposing a higher rate of duty or charge on an imported article than has been assessed under an established and uniform practice, the ruling is made effective only as to merchandise entered for consumption or withdrawn from warehouse for consumption after the expiration of 30 days after the date of publication of such ruling in the weekly Treasury Decisions. It has been concluded that a period of 30 days is not sufficiently long to accomplish the purposes of section 315, Tariff Act of 1930, as amended, and the applicable customs regulations.

Accordingly, §§ 16.10 (a) and 16.10a (c), Customs Regulations of 1943 (19 CFR 16.10 (a), 16.10a (c)), are amended by deleting the figure "30" and inserting in its place the figure "90."

(Secs. 315, 502, 624, 46 Stat. 695, as amended; 731, 759; 19 U. S. C. 1315, 1502, 1624)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: August 29, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 52-9781; Filed, Sept. 5, 1952; 8:55 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter G—Procurement

ARMY PROCUREMENT PROCEDURE; MISCELLANEOUS AMENDMENTS

PART 590—GENERAL PROVISIONS

Part 590 is amended as indicated below:

1. In § 590.355–3 (d), subparagraph (4) is rescinded.

2. In § 590.603–3, paragraphs (c) and (d) are amended, and paragraph (e) is added, as follows:

§ 590.603–3 *Contracts required to be numbered.* * * *

(c) All contracts shall be unnumbered except in the following instances:

* * * * * *

(2) Where later determination is made that more than one payment and/or collection is involved, payments, not to exceed five in number on any given contract, may be made with respect to partial deliveries under unnumbered contracts: *Provided*, That the original signed contract is attached to the first payment voucher, and the following information is included on each subsequent payment under the contract: Name of Disbursing Officer, period of account, voucher number, amount paid.

(3) Where more than five payments and/or collections become necessary, a number must be assigned to such contract.

(4) Where later determination is made that the amount to be paid or collected equals $5,000 or more, a number must also be assigned to such contract.

(d) In instances cited in paragraph (c) (1), (3) and (4) of this section, in which payments have been made, a citation to the name of the Disbursing Officer, period of account, and number of the disbursement or collection voucher to which the original unnumbered contract was attached will be furnished promptly to the General Accounting Office by the Contract Officer concerned.

(e) The instructions contained in this section do not apply to DA AGO Form 383 used in connection with the Small Purchases Procedure (Subpart G of this part). See §§ 590.603–2 (b), 590.705–1 (b) and 590.705–10 (e) of this part.

3. Section 590.604–1 is rescinded and the following substituted therefor:

§ 590.604–1 *Personal or professional services*—(a) *Contracts for employment of experts or consultants*—(1) *Statutory authority.* (i) Section 15 of the act approved August 2, 1946 (60 Stat. 810; 5 U. S. C. 55a) authorized:

The head of any department, when authorized in an appropriation or other Act, may procure the temporary (not in excess of one year) or intermittent services of experts or consultants or organizations thereof, including stenographic reporting services, by contract, and in such cases such service shall be without regard to the civil-service and classification laws (but as to agencies subject to the Classification Act at rates not in excess of the per diem equivalent of the highest rate payable under the Classification Act, unless other rates are specifically provided in the appropriation or other law) and, except in the case of stenographic reporting services by organizations, without regard to section 3709, Revised Statutes, as amended by this act.

(ii) Section 601 of the Department of Defense Appropriation Act, 1953 (Pub. Law 488, 82d Cong.), approved July 10, 1952, provides that:

During the current fiscal year, the Secretary of Defense and the Secretaries of the Air Force, Army, and Navy, respectively, if they should deem it advantageous to the national defense, and if in their opinions the existing facilities of the Department of Defense are inadequate, are authorized to procure services in accordance with section 15 of the act of August 2, 1946 (5 U. S. C. 55a), but at rates for individuals not in excess of $50 per day, and to pay in connection therewith travel expenses of individuals, including actual transportation and per diem in lieu of subsistence while traveling from their homes or places of business to official duty station and return as may be authorized by law: *Provided*, That such contracts may be renewed annually.

(2) *Approval required.* The following classes of contracts are authorized by section 15 of the act of August 2, 1946, and Section 601 of the Department of Defense Appropriation Act of 1953, and as such require the approval of the Secretary:

(i) Contracts for stenographic reporting services.

(ii) Contracts which provide for performance of personal services by experts or consultants, or organizations thereof, contemplating supervision by Government personnel of the contractor, and not requiring the contractor, as an integral part of the contract, to furnish an end item or product.

Each contract for stenographic reporting services or for personal services of experts and consultants negotiated under the above or any other authority and each supplemental agreement or change order making a material change in such contract, will contain a provision stating that it is subject to the approval of the Secretary and will not be binding until so approved; and the contract or request for award thereof, supplemental agreement, or change order will be forwarded by the Head of the Procuring Activity involved to the Assistant Chief of Staff, G–4, Department of the Army, Attention: Chief, Purchases Branch, for approval by the Secretary. The request for approval will refer specifically to the above-quoted statutory authorities and will furnish a complete statement of facts supporting the determinations required by statute to be made by the Secretary. The request for approval will also include the information required by § 590.605 of this part, if applicable, and will contain a statement as to availability of funds and a reference to the Project Account Number, Appropriation Symbol, and the statutory authority under which appropriated. The request for approval shall also contain a statement or be accompanied by a certificate personally signed by the Head of the Procuring Activity, his Deputy, or his Chief of Staff reading substantially as follows:

The proposed contract is advantageous to and necessary for the national defense; existing facilities of the Army are inadequate to accomplish the required services, and compensation specified therein is considered reasonable.

(3) *Limitation on compensation.* When with an individual, each personal service contract will expressly limit the compensation payable to not more than $50 per day, plus travel expenses, including actual transportation and per diem in lieu of subsistence while traveling from his home or place of business to official duty station and return.

(b) *Contracts for employment of other than experts or consultants which may involve personal or professional services.* Contracts with individuals or organizations containing any one or more of the following elements will be submitted to the level of the Head of the Procuring Activity involved, for approval:

(1) Payment to the Contractor will be rendered on a time basis.

(2) The contract calls for no definite end item.

(3) The contract provides for or will require supervision by Government personnel of its performance other than the administrative supervision exercised by a Contracting Officer.

This paragraph shall not apply to time and material contracts as set forth in § 592.407 of this subchapter.

4. In § 590.604–4, the date "June 30, 1952" appearing in paragraphs (a) and (b) is changed to read "June 30, 1953".

5. The address of the General Accounting Office contained in §§ 590.606–2, 590.606–3, and 590.606–4 is changed to read "General Accounting Office, Army Audit Branch, 634 North Noble Street, Indianapolis 7, Indiana, Attention: Contract Service Group."

6. Sections 590.809 and 590.810 are rescinded and the following substituted therefor:

§ 590.809 *Instructions for preparation of Procurement Action Report; Monthly Summary (DA Form 377) (Reports Control Symbol CSGLD–534).* (a) This summary will include every new procurement action, as defined in § 590.807, transacted during the month covered by this report, irrespective of the dollar value of any such action. It will include every modification (amendment, change order, or supplemental agreement) to contracts negotiated under paragraph 2c (11) and 2c (16) of Public Law 413, 80th Congress, irrespective of the dollar value of any such contract or modification thereto. This summary will also include every modification involving an increase or decrease of $10,000 or more. Modifications not pertaining to paragraphs 2c (11) or 2c (16) of Public Law 413 which involve an increase or decrease of less than $10,000 will be completely excluded from this summary.

(b) For the purpose of this summary only those reportable modifications made pursuant to the provisions of the basic contract will be reported in the columns headed "number of modifications." New actions and reportable modifications not made pursuant to the provisions of the basic contract will be reported in the columns headed "number of new actions."

(c) The dollar value entries in this summary will reflect the net total of all debit and credit procurement actions reportable under paragraph (a) of this section. If during the month the credit actions exceed the debit actions for any item, a credit entry will be shown. Such entry will be preceded by the symbol CR (for credit). Dollar value entries will not include cents. (Example: $500 not $500.25 nor $500.00).

(d) Monthly summaries will be consolidated at the following levels and in the following manner prior to submission to the Assistant Chief of Staff, G–4, Department of the Army. (See § 590.805.)

(1) *Class I installations.* At Class I installations all reportable actions will be consolidated each month on one DA Form 377 regardless of the source of the funds involved in any of the actions. The appropriate army area having responsibility for the Class I installation will be indicated in the space for "Technical Service of Command." The original of each DD Form 350 of those actions shown in line 8 columns D and G will be attached to the DA Form 377.

(2) *Class II installations.* At Class II installations those reportable actions which have been transacted for the purpose of Class I activities will be consolidated on one DA Form 377, and the appropriate army area having responsibility for the Class I activities will be indicated in the space for "Technical Service or Command." All other reportable actions at Class II installations will be consolidated on one DA Form 377, and the technical service having responsibility for the Class II installation will be indicated in the space for "Technical Service or Command." The governing factor in the aforementioned breakdown will be whether the action was executed for the purpose of Class I activities or for the purpose of Class II activities. Where the contractual instrument has been assigned a number pursuant to § 590.603 of this part the letter symbol of this number may be used as a guide. As an exception to the above, general depots will submit one DA Form 377 for each Procuring Activity located at the depot.

(3) *Date of report.* Enter the day, month, and year on which the report is prepared.

(4) *From.* Enter the title and address of the Procuring Activity in sufficient detail to readily establish the identity of the office, installation, activity, or individual preparing the report.

(5) *Station number.* Enter the fiscal code station number (SR 35–218–1). Where a Class II installation has been assigned a separate station number to identify its Class I activities (§ 590.603–5 (b)) this latter station number will be entered on the army area report from this installation (subparagraphs (1) and (2) of this paragraph).

(6) *Month ending.* Enter the month covered by the report. Where information for DA Form 377 is obtained from Individual Procurement Action Report, Reports Control Symbol CSGLD–525 (DD Form 350) the date of the report (Item 39, DD Form 350) will be the controlling factor in determining which monthly summary (DA Form 377) will include the action reported. For example, a procurement action executed November 28, but having a "date of report" of December 2, will be reported in the monthly summary of December actions, the only exception being the close of the fiscal year, when all actions taken in the month of June will be reported on the monthly summary regardless of the "date of report."

(7) *Technical Service or command.* Enter the name of the Technical Service, Army Area, or command having responsibility for the Procuring Activity: such as Quartermaster Corps, Third Army, Far East, National Guard Bureau, etc. At Class I and Class II installations the instructions set forth in subparagraphs (1) and (2) of this paragraph will govern.

The column headed "Modifications" will be those actions which were made pursuant to the provisions of the basic contract, and will not be included in column C and D. The total of column A will equal columns B, C, and D.

(8) *Line 1; Small Business total.* Enter the total number of actions and dollar amount of procurement (except interdepartmental, interservice and outside continental United States) from concerns which are classified as Small Business. Entries on this line will equal the totals of entries on lines 1a and 1b. For the purpose of this report, a small business is defined as one in which the aggregate number of employees of the contracting organization and its affiliates is less than 500.

(9) *Line 1a; Small Business; advertised.* Enter the number of actions and dollar amount of procurement by advertising from concerns classified as Small Business.

(10) *Line 1b; Small Business; negotiated.* Enter the number of actions and dollar amount of procurement by negotiation in accordance with the provisions of the Armed Services Procurement Regulation, from concerns classified as Small Business.

(11) *Line 2; other than Small Business; total.* Enter the total number of actions and dollar amount of procurement (except interdepartmental, interservice and outside continental United States) from all concerns which were other than Small Business. Entries on this line will equal the totals of entries on lines 2a and 2b.

(12) *Line 2a; other than Small Business; advertised.* Enter the number of actions and dollar amount of procurement by advertising from concerns classified as Other than Small Business.

(13) *Line 2b; other than Small Business; negotiated.* Enter the number of actions and dollar amount of procurement by negotiation in accordance with the provisions of the Armed Services Procurement Regulations from concerns classified as Other than Small Business.

(14) *Line 3; total advertised.* Enter the total number of actions and dollar amount of advertised procurement. Entries on this line will equal the totals of entries on lines 1a and 2a.

(15) *Line 4; total negotiated.* Enter the total number of actions and dollar amount of negotiated procurement. Entries on this line will equal the totals of entries on lines 1b and 2b.

(16) *Line 5; interdepartmental procurement.* Include procurement of supplies or services from other Federal agencies (outside of Department of Defense) or under a contract made by any such department or agency; e. g., purchase made under Bureau of Federal Supply Schedules and purchases made under Schedule of Products issued by Federal Prison Industries, Inc.

(17) *Line 6; interservice procurement.* Enter the number of actions and dollar amount covering individual purchase instruments executed against term contracts, open-end contracts, indefinite quantity contracts, or agreements for obtaining supplies or service, which contracts or agreements were originally let by department or agency of Department of Defense other than the Army, and which do not specify quantities or total dollar value; e. g., purchases against open-end contracts of the Armed Services Petroleum Purchasing Agency.

(18) *Line 7; work performed outside continental United States.* Enter the total amount of actions and dollar amount of purchase actions where the place of performance is outside continental United States. Place of performance applies to place of manufacture or final assembly by the prime contractor, place of real property construction, and place of service performed.

(19) *Line 8; total.* Enter on this line the total number of actions and dollar amount of all types of procurement to be covered by this report. For the report covering offices located within continental United States, entries on this line will equal the totals of entries on lines 3, 4, 5, 6, and 7.

(20) *Line 9; special category data which have been included in line 4.* Enter the total number of actions and total dollar value only of those actions negotiated for the following reasons.

(21) *Line 9a; perishable subsistence.* (See § 592.209 of this subchapter.)

(22) *Line 9b; small purchases.* (See § 590.700.)

(23) *Line 9c; petty cash purchases under imprest fund procedure.* (See SR 35–350–10.)

(24) *Line 9d; delivery order against "open-end contracts."* (See § 596.515 of this subchapter.)

(25) *Line 10; special Small Business information which is included in lines 1 and 2 above.*

(26) *Line 10a; suitable to Small Business.* This entry will include the following:

(i) All actions not reported on DD 350.

(ii) All actions actually awarded to Small Business.

(iii) That portion of the actions awarded to Large Business which was in fact, suitable to performance by Small Business firms. The total of these will be added to arrive at the Suitable for Small Business figure.

(27) *Line 10a (1); suitable for Small Business; advertised.* Enter the number of actions and dollar amount of procurement considered suitable for small business which was advertised.

(28) *Line 10a (2); suitable for Small Business; negotiated.* Enter the number of actions and dollar amount of procurement considered suitable for small business which was negotiated.

(29) *Remarks.* Enter the DD Form 350 report numbers of those actions which are included in line 2. Enter any other comments to supplement the information shown in the body of the report which are considered essential to a proper understanding of the report.

(30) *Signature.* The report will be signed by a Contracting Officer or his authorized representative and the appropriate name and title typed in the space provided. Where a consolidated monthly summary is being prepared pursuant to subparagraphs (1) and (2) of this paragraph, the consolidated report will be prepared and signed by an officer so designated by the commanding office of the installation concerned.

§ 590.810 *Retention of procurement action reports.* Individual Procurement Action Report (DD Form 350) and Procurement Action Report—Monthly Summary (DA Form 377) or comparable forms submitted by Contracting Officers to higher headquarters indicating the status of procurement actions may be destroyed after 6 months. Such material is considered nonrecord material.

PART 591—PROCUREMENT BY FORMAL ADVERTISING

Section 591.403 is amended by changing paragraph (i) (1) to read as follows:

§ 591.403 *Rejection of bids.* • • •

(i) *Not responsible bidders.* (1) The lowest bid as to price may be rejected by the Contracting Officer if the bidder is determined to be not responsible. For the elements to be considered in determining responsibility, see § 590.357 of this subchapter.

• • • • •

PART 592—PROCUREMENT BY NEGOTIATION

Part 592 is amended as follows:

1. Section 592.204–2 is rescinded and the following substituted therefor:

§ 592.204–2 *Application*—(a) *Authorization.* Section 2 (c) (4) of the Armed Services Procurement Act of 1947 shall be used as authority to negotiate personal or professional services contracts, only when all the conditions set forth in § 402.204–2 of this title have been satisfied.

(b) *Application.* Section 2 (c) (4) does not authorize the making of any contracts. It merely authorizes the award by negotiation, as distinguished from formal advertising, of contracts otherwise authorized by law.

(c) *Approval required.* (1) The requirements for approval of higher authority of contracts involving personal and professional services are set forth in § 590.604–1 (a) of this subchapter.

(2) The requirements for approval of higher authority of contracts containing provisions closely related to personal services contracts are set forth in § 590.604–1 (b) of this subchapter.

2. Section 592.308 is rescinded and the following substituted therefor:

§ 592.308 *Retention of copies of determinations and findings and of other records.* (a) Executed originals of all Determinations and Findings, copies of all supporting documents, and complete records with respect to all negotiated contracts shall be preserved in the cognizant purchasing office or Procuring Activity concerned for a period of six years following payment on each respective contract, unless retired earlier under other regulations.

(b) Each procurement transaction file will be complete and copies of all documents, certified if necessary, will be included therein. Procurement transaction files will be maintained in such a manner as to present a complete resume of the transaction for historical record or such other purpose as may be required. As a minimum in negotiated procurements, a memorandum for record, signed by the Contracting Officer or his properly designated representative, and briefly setting forth the facts, conclusions, and actions regarding the transaction, will be included as part of the file.

(c) The Contracting Officer's official file of each contract awarded by negotiation shall contain an assembled section of documents, communications, and memoranda presenting an historical record of negotiations preceding award of the contract. Such section of the file shall be identified by a cover sheet designated as "Summary of Negotiation and Contract Award Data." The head of each Procuring Activity is authorized to publish an appropriate form of such designation and to delegate authority for local reproduction. The form so published shall include as a minimum a check list and certification substantially as detailed below. Additional items and/or reductions of monetary limits separating Parts I and II of the form, determined by the head of a Procuring Activity to be necessary or appropriate to its contract procedure or records thereof, may be included in the form promulgated by the Procuring Activity.

SUMMARY OF NEGOTIATION AND CONTRACT AWARD DATA

The purpose of this summary, pursuant to § 592.308, is to present a brief statement of basic data as to which complete detail in narrative or documentary form are contained in the assembled file underlying this cover sheet. Each pertinent item on this form is to be completed either by filling in blanks or by the insertion of data appropriate to the purpose of the item and as to which supporting papers are contained in the file.

Contract date _____ Contract No. _____

Name of contractor _____

_____

PART I. Items 1 to 8 below will be completed for all negotiated contracts, except those covering small purchase.

1. (Copy of procurement order, requisition, or document upon which procurement is based, or reference thereto.)

2. (Complete justification for negotiation.)

3. (Copy of request for proposals, including drawings and specifications or reference thereto.)

4. Number of requests for proposals distributed _____

Date of distribution _____

Number of proposals received _____

Date of award _____

5. (Statement relative to contingent fees, signed by the contractor.)

6. (Special contract provisions, or reference thereto.)

7. Small business _____ (Yes or No).

8. Regular dealer _____ or manufacturer _____ (Yes or No).

_____

_____

PART II. Items 9 to 14 below will be completed for negotiated contracts which are expected to exceed $25,000 (except that the Head of each Procuring Activity may reduce the dollar value if desired).

9. Labor area classification _____

10. Amount of work to be subcontracted $_____ _____ percent.

11. (Explanation of any Government financial assistance required by the contractor.)

12. (Detail of survey or other determination of contractor's ability to consummate the contract.)

13. (Justification for this award, and determination if required.)

14. (Summary of proposal received, with comparative information on all factors entering into total cost.)

_____

_____

I certify that I have this date reviewed this contract file and that it contains papers in support of the above data and is otherwise considered to provide a clear and complete record of the negotiation and award of this contract.

(Signature) _____

Contracting officer, or contracting officer's representative.

Date _____

PART 596—CONTRACT CLAUSES AND FORMS

Part 596 is amended as follows:

1. Section 596.536–1 is amended by renumbering clauses 18 through 21 thereof as clauses 19 through 22, and inserting a new clause 18 as follows:

§ 596.536–1 *Sample of form.*

• • • • • •

18. *Adjustment of rentals; State or local taxation.* Except as may be otherwise provided, the rental rates established in this lease do not include any State or local tax on the property herein leased. If and to the extent that such property is hereafter made taxable by State and local governments by Act of Congress, then in such event the rental rates of this lease shall be equitably adjusted.

• • • • • •

2. Section 596.571 (b) is amended to read as follows:

§ 596.571 *Invitation for bids (Construction Contract).* • • •

(b) A revised text of this form will be made available as soon as approved. Interim use, however, of WD Standard Procurement Form No. 116 is authorized in the meantime. Local reproduction is authorized. In reproducing WD Standard Procurement Form No. 116;

(1) The Bureau of the Budget approval notation in the upper right hand corner should be omitted;

(2) The last sentence of paragraph 2 should be changed to read as follows:

The bidder who is awarded the contract will be required to execute the Department of the Army Contract Form for Construction (DA AGO Form R–5701) which is incorporated herein by reference. (A copy is obtainable upon request.)

PART 602—GOVERNMENT PROPERTY

A new Subpart I is added to Part 602 as follows:

SUBPART I—AUDIT OF INDUSTRIAL PROPERTY RECORDS

Sec.

602.900 Scope of subpart.
602.901 Responsibility for audits.
602.901–1 Continental United States.
602.901–2 Overseas.
602.902 Purpose of audits.
602.903 Performance of audits.
602.903–1 Frequency.
602.903–2 Scope of audit.
602.904 Reports of audit.
602.904–1 Distribution and action on reports.
602.904–2 Clearance of deficiencies.
602.905 Accounts not in condition for audit.
602.905–1 Distribution of reports.
602.905–2 Action.

AUTHORITY: §§ 602.900 to 602.905–2 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. Sup. 151–161.

§ 602.900 *Scope of subpart.* This subpart sets forth policies governing audit of industrial property accounts.

§ 602.901 *Responsibility for audits.*

§ 602.901–1 *Continental United States.* Within the continental United States, and for contracts administered from the continental United States, the Army Audit Agency, operating as a functional activity of the Comptroller of the Army, is charged with the operational performance of audits of industrial property accounts.

§ 602.901–2 *Overseas.* Commanders of major oversea commands or similar areas are responsible for the operational performance of audits of industrial property accounts of contracts administered by their commands. The performance of these audits will be through audit agencies established within their commands and in accordance with basic techniques prescribed by the Army Audit Agency.

§ 602.902 *Purpose of audits.* The purpose of audits of industrial property accounts is to determine and report to those responsible for contract administration and to all echelons of command, whether accounting for and disposition of Government property has been accomplished in accordance with applicable regulations, whether the controls being exercised are adequate and, where the need exists, to make appropriate recommendations for the improvement of controls or the correction of deficiencies.

§ 602.903 *Performance of audits.*

§ 602.903–1 *Frequency.* Audits will normally be performed on an annual basis. Special or more frequent audits may be performed at the discretion of the regional auditor concerned or as directed by the Chief, Army Audit Agency. Request by installations for special or more frequent audits will be submitted through the Head of the Procuring Activity to the regional auditor. Initial audits will normally be made as soon as practicable after inception of contract activity.

§ 602.903–2 *Scope of audit.* Selective audit principles will be employed in the performance of audits. A selective audit reflects the overall condition of the account and the adequacy of the accounting controls.

§ 602.904 *Reports of audits.* The report of audit is a Government administrative report for the information of all echelons of command and operations concerned with contract administration. The report of audit will not be transmitted to the Contractor, but information necessary to form the basis for corrective action may be discussed with or extracted and transmitted to the Contractor by the Contracting Officer, or his authorized representative.

§ 602.904–1 *Distribution and action on reports.* (a) Distribution of reports will be made as follows:

(1) The original and one copy will be forwarded to the installation commander responsible for the administration of the contract or contracts. When more than one contract is included in an audit report the original will be filed with the contract property control records of the first contract shown on the schedules attached to the report and an entry will be made in the property control records of all other contracts covered by the audit showing the report of audit number, date, period covered, and the contract number under which the report of audit is filed. The copy of the report of audit will be retained at the installation headquarters for administrative use.

(2) One copy will be furnished the head of the procuring activity administering the contract for information, for follow-up action where required, and for retention in command headquarters. Coordination will be effected by the head of the procuring activity with other interested services, where necessary.

(b) Upon receipt of a Report of Audit the installation commander will report within 15 days to the Head of the Procuring Activity the action taken or contemplated and target date for completion with respect to any deficiencies or recommendations contained in the Report of Audit. Information copy of this report will be forwarded to the regional auditor by the installation commander.

(c) The Head of the Procuring Activity will review the report of audit and the corrective action reported by the installation commander to determine the propriety and sufficiency of corrective action taken and will notify the regional auditor when any deficiencies reported have been adjusted. If adjustment of deficiencies will be delayed more than 90 days he will furnish the regional auditor an interim advice of progress being made in connection therewith.

§ 602.904–2 *Clearance of deficiencies.* After verification at account level, deficiencies listed on reports of audit will be cleared by appropriate entry in a subsequent report of audit, or by issuance of supplemental reports of audit which will be given the same distribution as the original reports.

§ 602.905 *Accounts not in condition for audit.* Accounts will be reported

not in condition for audit when audit is found to be impracticable due to missing or incomplete records or an abnormal number of errors.

§ 602.905–1 *Distribution of reports.* Reports of accounts not in condition for audit will be distributed in the manner prescribed for reports of audit in § 602.904–1 (a) of this part, except that the Chief, Army Audit Agency, will furnish a copy to The Inspector General.

§ 602.905–2 *Action.* (a) Upon receipt of a report of an account not in condition for audit, the installation commander will immediately take forceful action necessary to have the records placed in an acceptable condition for audit. He will advise the Head of the Procuring Activity within 15 days of the action taken and the probable date of completion.

(b) The Head of the Procuring Activity will review the report of account not in condition for audit and the installation commander's report of corrective action to determine any further action necessary and will advise the regional auditor promptly of the action being taken and the probable date the account will be in condition for audit. In the event the corrective action is not completed within 90 days from the date account is reported not in condition for audit, the regional auditor will be advised every 90 days of the progress toward correction until the account is found to be in an acceptable condition for audit.

(c) If the circumstances are such as to justify a waiver of accounting requirements the case will be prepared and submitted in accordance with SR 735–275–15 (Special Regulations, Department of the Army).

[Proc. Cir. 15, Aug. 8, 1952] (R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. Sup. 151–161)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 52–9779; Filed, Sept. 5, 1952; 8:55 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Manpower Policy 8]

POLICY ON TRAINING AND UTILIZATION OF SCIENTIFIC AND ENGINEERING MANPOWER

Preface. This policy has been recommended by the interagency Manpower Policy Committee, its Committee on Specialized Personnel, and the national Labor-Management Manpower Policy Committee of the Office of Defense Mobilization. It is issued for information and guidance to employers of scientists and engineers; to educational institutions and to professional associations; and assigns to Government agencies the responsibility for providing assistance and leadership in the fields of action required of them.

I. *Statement of the problem.* The importance of scientists and engineers in the establishment of the strongest possible defense and, should war come, in insuring ultimate victory, is well established and widely recognized. Furthermore there is no limit, in principle, to the advances which can be made in science and technology, practical limits being imposed largely by the limited number of individuals with training and ability along these lines. The problem, then, is to formulate national policies and to take actions consistent with these policies and with the principles of a voluntary manpower program in order to guarantee the most effective use of existing resources of scientific and technical personnel and to encourage the training of increasing numbers of additional scientists and engineers.

Throughout this document all references to scientists and engineers make no distinction between the sexes or between racial groups, it being understood that equality of opportunity to make maximum effective use of intellect and ability is a basic concept of democracy.

II. *Discussion of the problem.* Basically, the national defense program consists of the following major elements:

1. Maintenance of armed forces at approximately 3.7 million.

2. Production of military equipment and material to supply an armed force of 3.7 million, to provide a reserve supply of key equipment sufficient to meet the first year's needs of full mobilization, and to assist other free nations to build up their military strength.

3. Expansion of specialized manpower and productive capacity to support high levels of both military and civilian production.

4. Maintenance of a vigorous civilian economy for an increasing population.

This is a long-term program. Any substantial change in it within the foreseeable future will be by way of expansion. Consequently, the requirements for specialized manpower presented in this report are estimated minimum requirements.

One of the most far-reaching effects of the defense program is an acceleration of research and industrial technology. Likewise the development, operation and maintenance of modern scientific weapons has given greater emphasis to military technology. As a result, industrial and scientific development which normally would have been spread over a decade now must be telescoped into less than half that time. The realities of international relations indicate that intensive activity in the fields of engineering, science and industrial development must be made a more important aspect of our continuing national security. This means an unprecedented and sustained demand for specialized manpower in a great variety of fields.

Of the approximately 60 million civilians currently employed only about 4 million are in the professions. Only 1 percent or 600,000 are employed in engineering and in the biological and physical sciences. On this numerically small but vitally important segment of our manpower depends in very large part our national security and future increases in our standard of living.

New discoveries and the development of new techniques of inquiry call for an increasing number of investigators and as each area of knowledge becomes more complex, increased specialization of individuals and longer periods of training are required.

The advance of scientific knowledge also results in an increasing degree of utilization of specialized personnel as technical discoveries are applied in industrial operations.

The number of workers per engineer in the basic commodity producing and transporting industries, for example, has decreased continuously from an approximate 250 in 1900 to about one-quarter of that in 1950.

These factors help to explain the fourfold growth of the professions in the last 50 years—from one million to four million. There has been an even more rapid expansion in the engineering and scientific fields, which have increased some 60 percent in the last decade alone and now total 600,000. The continually increasing complexity of the economy and the rapid growth of research activity make it necessary that this trend continue.

Despite the fact that very large numbers of young men and women have been trained in science and engineering since World War II, stringencies of engineers and scientists now exist in some fields and acute shortages are in immediate prospect. This situation has been caused in part by the increased demand resulting from the defense program with no corresponding decrease in non-defense programs and in part by the very small number of persons trained in these fields during World War II.

As the defense program develops, two highly significant facts with respect to specialized personnel stand out:

First, the demand is rising rapidly and will continue at a high level indefinitely.

Second, college enrollments show that the supply completing training is declining and will continue to decline through 1954 after which an upturn will occur in the number of engineering graduates.

These facts indicate that in the next few years it will be very difficult, or impossible, to obtain a supply of specialized personnel equal to the expanded demand. Vigorous and intelligent action in the utilization of specialized manpower in the armed forces and in civilian activities is required. Both military and civilian manpower policies should recognize that within the objectives of attaining maximum military strength and maintaining a vigorous civilian economy the achievement of an improved balance between the supply of and demand for specialized personnel is our most urgent manpower goal.

III. *Purpose.* The purpose of this policy is:

1. To focus attention on the problems created by the shortage of trained scientists and engineers in the attainment of maximum military strength while maintaining a healthy civilian economy and to enlist the support and assistance of the public, industry, educational institutions and Government agencies in the solution of these problems.

2. To indicate actions which should be taken to provide scientific and engineering manpower to achieve necessary research and development and production goals for 1952 and for the years immediately ahead.

3. To provide an initial program to meet scientific and technical manpower requirements of a broadened mobilization base, and to set forth the policy of the Federal Government and the responsibilities of Government agencies concerned with scientific and technical manpower problems.

IV. *Policy.* It is the policy of the Federal Government to take and to encourage the taking of action which will aid in achieving the following objectives:

A. To utilize most efficiently existing resources of scientific and technical skills in private industry, in the civil government, in the armed forces and in educational institutions.

B. To develop increasingly reliable information regarding requirements and resources of scientists and engineers to meet both immediate and long-term national needs.

C. On the basis of needs indicated under B, to attract and train the additional number of able young men and women required for scientific and technical fields.

Industrial employers, educational administrators, scientists and engineers, as individuals, and professional associations of scientists and engineers, have an important responsibility to assist in achieving these objectives. In order that they may do their full part, it is recommended that the actions listed below be taken. In taking these actions all groups should direct their efforts toward furthering the objective of self-development by the individual to meet the national need for scientific and engineering manpower.

It is recognized that many of the activities recommended are already underway in individual industrial firms, educational institutions, professional organizations and in government, but they are listed here partly for the sake of completeness and partly for the purpose of bringing them to the attention of those segments of industry, education and the professions which are not now engaged in such activities.

a. Employers of scientists and engineers are urged:

1. To make every effort to meet increasing demands for engineering and scientific personnel by improving their utilization of scientists and engineers through programs of systematic review and reevaluation of the duties, responsibilities, training and experience requirements of positions in which scientists or engineers are employed to determine the minimum levels of training and experience required for each position. Particular attention should be given to identifying and utilizing scientists and engineers of exceptional ability in work which will make full use of their capacities.

2. To take the necessary steps to develop qualified research leaders and administrators.

3. To develop, in cooperation with educational institutions, especially the junior colleges and technical institutes, improved programs for selecting and training sub-professional personnel to do work which requires less than the full training of professional scientists and engineers.

4. To maintain programs for the continuous review of performance and compensation of scientists and engineers to assure that salaries are commensurate with the contributions being made by such personnel.

5. To consult with public employment offices in the development of recruitment campaigns to avoid activities which would be disruptive to high-urgency defense work. Professional associations and similar organizations may be of assistance in providing additional information needed in this connection. Large scale transfers of personnel between projects of equal urgency or form a project of greater urgency to one of lesser urgency are obviously contrary to the best interests of the mobilization effort.

6. To cooperate with educational institutions in the development of on-the-job or off-the-job training for scientists and engineers which will increase and broaden the professional competence of such personnel.

7. In the case of professional personnel subject to induction into the armed forces, to submit complete and timely employment information to local Selective Service boards for their use in classification of registrants engaged in essential activities of a scientific or technical nature.

8. In the case of professional personnel subject to recall to active duty by the Armed Forces, to submit complete and timely employment information to appropriate military authorities for their use in determining eligibility for delay in recall to active duty.

9. In cooperation with associations of employers in industries in which serious shortages of scientists and engineers exist, to establish Technical Manpower Utilization Committees to consider steps which can be taken on an industry-wide or area basis to alleviate the effects of those shortages and to disseminate information concerning successful practices of individual firms in dealing with such shortages.

10. In cooperation with associations of employers, to consider the advisability of expanding existing scholarship programs to assist students with the necessary ability and interest but without the necessary funds to complete their education in the sciences and in engineering.

11. To reexamine their personnel policies and effect any changes necessary to assure full utilization of women and members of minority groups having scientific and engineering training.

12. To cooperate with appropriate public and private agencies in determining current and long-range requirements and resources of scientists and engineers and in developing relevant information regarding their employment, such as salaries, hours, mobility, and working conditions. It is essential that employers of scientists and engineers take steps to improve the techniques for forecasting their own current and long-range technical manpower requirements.

b. Professional associations of scientists and engineers are urged:

1. To undertake informational programs designed to bring to the attention of students, through normal educational channels, and to individuals employed in sub-professional positions but possessing an aptitude for science or engineering, the career opportunities in scientific and technical fields in order to attract into these fields additional students with the required ability and interest.

2. To cooperate with appropriate public and private agencies in determining current and long-range requirements and resources of scientists and engineers and in developing relevant information regarding their employment, such as salaries, hours, mobility, and working conditions.

3. To cooperate with educational institutions in studying the adequacy of existing curricula in the sciences and in engineering, in developing better teaching methods and in achieving maximum utilization of teaching facilities in scientific and engineering fields.

c. Educational institutions are urged:

1. To make special provision for students who possess the necessary aptitude for engineering work but who lack the courses in science and mathematics prerequisite for admission to the engineering college either because of the inadequacy of high school offerings or because their interest in an engineering career was developed too late in the high school program. Such special provision should include a program for locating the potential candidates, encouraging them to apply for enrollment in colleges offering scientific and engineering courses, and special counseling to assist the candidate in working up a suitable curriculum. In most instances the candidate's initial shortcomings may be made up either by a lengthening of the normal curriculum or by intensification through additional work during summer vacation periods.

2. To make further studies of the engineering curriculum, as regards both its content and its length, and to give consideration to all possible measures which may be indicated under present conditions of engineering and scientific manpower shortages, such as acceleration, cooperative work-study arrangements, etc.

3. To make further studies of teaching methods employed in the sciences and engineering and of the use of teaching and research facilities in these fields in order to achieve the maximum educational return from existing staffs and facilities.

4. To study the causes of high drop-out rates among qualified students of engineering and science and to take steps toward minimizing the number of such drop-outs.

5. To strengthen high school curricula in order that more high school graduates will be eligible for entrance into engineering colleges and to establish closer working arrangements between colleges and universities and high schools to the end that both high school students and

the faculty will become more aware of the opportunities in the engineering field.

V. *Assignment of responsibility.* In order that the desired objectives can be achieved in accordance with the above-stated policy the assignments indicated below are made to the specified departments and agencies of Government. In listing these assignments, it is to be understood that they do not, in many cases, represent new assignments of responsibility, and that many of the activities referred to are already underway. A complete listing is given in order to indicate the total responsibility of Government departments and agencies in implementing national scientific and engineering manpower policies.

A. The Department of Labor shall:

1. In cooperation with the National Science Foundation, Bureau of the Census, Federal Security Agency and the Civil Service Commission strengthen its program of information on the supply of and demand for scientists and engineers in industry, education and government and provide this information to:

a. Private and public employers as a guide to planning of their recruitment and training activities.

b. Schools for the guidance of students in the choice of careers.

c. The Selective Service System as a guide to the deferment of registrants having scientific and engineering training and experience.

d. The Department of Defense as a guide to the postponement in call to active duty of reservists having scientific and engineering training and experience.

2. Through the federal-state system of public employment offices, expand its informational and placement service to scientists and engineers and to employers of such personnel.

3. Encourage and assist employers of scientists and engineers in maintaining realistic hiring specifications and in conducting appropriate recruitment programs.

4. Determine manpower shortages which can be met in whole or in part by short-term training programs designed to complete the professional training in engineering or science of individuals already employed by industry or to provide additional professional training to allow employed engineers and scientists to assume increased responsibilities; cooperate with the Federal Security Agency in the arranging of appropriate programs through the use of local training facilities.

5. Cooperate with the Selective Service System and the Department of Defense in relating military manpower procurement policies to civilian requirements for scientists and engineers.

6. Develop, with the cooperation of the Department of Defense, expanded counseling and placement programs to assist individuals being discharged from the Armed Forces in availing themselves of training and job opportunities in scientific and engineering fields.

7. Make available to employers information on techniques for improving the utilization of scientists and engineers.

B. The Selective Service System shall:

1. Continue to apply to scientists and engineers the policy formulated by Congress providing for classifying in a deferred class registrants whose activities are necessary to the maintenance of the national health, safety or interest for as long a period as they continue to meet the criteria for such deferment.

2. Prepare semi-annually, in cooperation with the Department of Labor and the Department of Defense, a report on the status of the student deferment program, indicating any recommended changes in the size or character of this program and the reasons therefor.

C. The Department of Defense shall:

1. Continue, through the Military Departments, to review all military jobs requiring scientific and engineering skills and take any additional steps necessary to assure that to the greatest possible degree, consistent with the missions of the Armed Services.

a. Military personnel having full scientific or engineering competence are assigned to military jobs requiring that level of competence, and

b. Military jobs requiring less than full scientific or engineering competence are filled by subprofessional personnel.

2. Continue program of maintaining an inventory of current military manpower requirements in scientific and engineering specialties as an aid to determination of over-all specialized manpower requirements, to recall of reserves and to assignment or transfer of military personnel.

3. Encourage the continued development within the Military Departments of central military personnel records to facilitate the identification of individuals with scientific and engineering competence as an aid to meeting specialized manpower requirements of the Armed Forces to greatest extent possible by full utilization of personnel already in the Armed Services.

4. Continue review of reserve policies and take any additional steps necessary to assure that reservists possessing scientific and engineering competence which is being fully utilized in defense or essential civilian activities are called to active duty only when (a) the military services have need of persons with such skills and the need of the military services for these skills outweighs that of the defense-supporting or essential civilian economy, or (b) when the individual reservist possesses highly developed, essential military skills which cannot otherwise be obtained, (c) the individual reservist has a special obligation to serve, such as completion of military-financed training programs.

5. Continue collaboration with the Atomic Energy Commission and the National Advisory Committee for Aeronautics in a review of the total research and development programs of the three agencies, which together account for the great bulk of all research and development work performed by or sponsored by the Federal Government, with a view toward reducing the demands on the engineering and scientific manpower pool to the minimum level consistent with the national security.

D. The Civil Service Commission shall:

1. Encourage and assist agencies which employ scientists and engineers to evaluate periodically all technical positions to determine the minimum levels of training and experience required to satisfactorily perform the duties involved, and to utilize personnel having full scientific and engineering competence only in positions requiring such competence.

2. In cooperation with all departments and agencies which employ technical personnel, develop a program for identifying scientists and engineers in the government service who possess exceptional ability and wherever necessary assist in placing them in positions which will make full use of such ability.

3. Encourage and assist agencies in developing training programs which will broaden and improve the competence of scientists and engineers now in the government service. Such programs might make use, in a teaching capacity, of the professional personnel of the agencies concerned, or might be carried out in cooperation with a neighboring college or university.

4. Encourage and assist agencies in developing sub-professional personnel to perform jobs not requiring full professional competence in science or engineering.

E. The Atomic Energy Commission shall:

1. Continue collaboration with the Department of Defense and the National Advisory Committee for Aeronautics in a review of the total research and development programs of the three agencies, which together account for the great bulk of all research and development work performed by or sponsored by the Federal Government, with a view toward reducing the demands on the engineering and scientific manpower pool to the minimum level consistent with the national security.

F. The National Science Foundation shall:

1. Encourage basic research in the sciences and engineering in colleges and universities in order to stimulate the training of additional and better trained scientists and engineers.

2. Conduct follow-up studies on young graduate scientists and engineers to determine what occupational adjustments they are making in or outside the armed forces in order to assist in the development of Selective Service policy and policy on placement of such personnel within the Armed Forces.

G. The Federal Security Agency shall:

1. Encourage and assist engineering colleges to make special provision for students who possess the necessary aptitude for engineering work but who lack the courses in science and mathematics prerequisite to admission either because of the inadequacy of high school offerings or because their interest in an engineering career was developed too late in the high school program. Such special provision should include a program for locating the potential candidates, encouraging them to apply for enrollment in colleges offering scientific and engineering courses, and special counseling to assist the candidate in working up a suitable curriculum. In most instances the candidate's initial shortcomings may be made up either by a lengthening of the normal curriculum or by intensification through additional work during summer vacation periods.

2. Encourage and assist colleges and universities to develop undergraduate and graduate level training for scientific and engineering personnel currently employed but requiring additional training to broaden and improve their professional skills.

3. In cooperation with employers and Labor-Management Committees, encourage and assist colleges, universities, and vocational schools, in areas where shortages of engineers and scientists exist, in the establishment of short training courses to develop draftsmen, engineering aides and scientific aides to assist professional personnel in matters requiring less highly developed skills.

4. Assist secondary schools in developing more adequate curricula and better teaching methods in order to provide students possessing the requisite aptitudes and interests with the fundamental education necessary for college work in science and engineering.

H. The National Advisory Committee for Aeronautics shall:

1. Continue collaboration with the Department of Defense and the Atomic Energy Commission in a review of the research and development programs of the three agencies, which together account for the great bulk of all research and development work performed by or sponsored by the Federal Government, with a view toward reducing the demands on the engineering and scientific manpower pool to the minimum level consistent with the national security.

VI. This policy shall take effect on September 6, 1952.

OFFICE OF DEFENSE MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

[F. R. Doc. 52-9858; Filed, Sept. 5, 1952; 10:24 a. m.]

[Defense Mobilization Order 6, Amdt. 5]

DMO 6—CREATING INTERAGENCY REGIONAL COMMITTEES ON DEFENSE MOBILIZATION

ADDITIONAL MEMBERSHIP

1. Defense Mobilization Order No. 6, issued by this Office under date of February 9, 1951, creating Interagency Regional Committees on Defense Mobilization, is hereby revised, under Paragraph 1, to provide for full membership on each regional committee for a representative designated by the Administrator of the Federal Civil Defense Administration.

This order is to take effect on September 6, 1952.

OFFICE OF DEFENSE MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

[F. R. Doc. 52-9830; Filed, Sept. 4, 1952; 3:34 p. m.]

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Supplementary Regulation 117]

GCPR, SR 117—MILK SOLD TO SCHOOLS IN DETROIT MILK MARKETING AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation No. 117 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation permits sellers of milk to schools in the Detroit (Michigan) Milk Marketing Area to use as their ceiling price for such sales $.04625 per half-pint of milk. This will permit the Detroit schools to purchase milk for their school lunch at lower prices.

The Detroit schools normally contract for their fluid milk requirements on a bid basis. Contracts for the supply of milk normally cover the duration of a school year. The lowest bidders thus had very low contract prices as the basis for their GCPR ceiling prices. Many of these sales are made to schools at no profit or only a nominal profit. If these lower bidders are not permitted price increases, the only sellers who will be able to bid for the school business will be those who held contracts at higher prices during the GCPR base period. This means that the normally low bidders will not have an opportunity to supply these school lunch programs. This supplementary regulation brings low-end sellers in line with the prevailing level of ceiling prices for such sales. In any event this supplementary regulation is limited to the Detroit (Michigan) marketing area since that is the only place where this problem is known to have arisen. If this supplementary regulation were made applicable generally in the absence of more information, it is feared that the price of milk supplied to school systems might rise unduly.

The Director of Price Stabilization has consulted with individual members of the Industry affected before issuing this supplementary regulation and has given full consideration to their recommendations. Moreover, the Director has formally consulted with the Fluid Milk Industry Advisory Committee as well as with representatives of trade associations. In the judgment of the Director, the ceiling prices and the provisions of this supplementary regulation are generally fair and equitable and are necessary to effectuate the provisions of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.
1. What the supplementary regulation does.
2. Ceiling prices for sales to schools in Detroit milk marketing area.

AUTHORITY: Sections 1 and 2 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What the supplementary regulation does.* This supplementary regulation modifies the General Ceiling Price Regulation by allowing sellers of fluid milk to use as their ceiling prices for sales of fluid milk to schools in the Detroit (Michigan) Milk Marketing Area $0.04625 per half-pint.

SEC. 2. *Ceiling prices for sales to schools in Detroit milk marketing area.* Irrespective of any other provisions of the GCPR, you may sell fluid milk to schools in the Detroit (Michigan) Milk Marketing Area, whether the purchaser is a school board, Board of Education, Diocese or otherwise, at $0.04625 per half-pint. You may also continue to sell at your present ceiling price.

All other provisions of the GCPR not in conflict with this supplementary regulation remain in full force and effect.

Effective date. This supplementary regulation is effective September 5, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 5, 1952.

[F. R. Doc. 52-9863; Filed, Sept. 5, 1952; 1:00 p. m.]

[General Overriding Regulation 2, Revision 1, Amdt. 2]

GOR 2—SALES TO THE UNITED STATES, ITS AGENTS AND SUPPLIERS

CEILING PRICES FOR SALES F. O. B. ANY DESTINATION WITHIN A ZONE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 2 to General Overriding Regulation 2, Revision 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

General Overriding Regulation 2, Revision 1, covers all matters of a special and overriding nature applying to sales to the United States, its agents and suppliers.

The General Services Administration has recently solicited bids for furniture and drafting and office supplies in which the unit price quoted shall be f. o. b. any destination within a specified zone. It intends to continue to solicit bids on this basis. Many potential bidders have not sold on this basis in the past. Under many of our regulations establishment of uniform prices f. o. b. any destination within a zone would be time-consuming or otherwise unsatisfactory. Consequently, it has been decided to amend General Overriding Regulation 2, Revision 1, so as to provide a uniform and simple method by which persons making sales to the United States may establish such prices.

This amendment provides that prospective sellers may determine their ceiling prices f. o. b. any destination within a zone by adding to f. o. b. factory (or other shipping point) ceiling prices the average freight from the shipping point into the zone at the lowest available common carrier rates. Substantially sim-

ilar provisions are contained in this amendment for determining ceiling prices f. o. b. any destination within a zone on the basis of previously established "delivered" or "f. o. b. destination" ceiling prices.

Although the use of an average freight in computing ceiling price will, in some instances, increase the total price to be paid by the government as compared with the cost which it would incur by buying f. o. b. factory and paying the actual freight, there will be other instances in which a decrease will result. In view of the great number and variety of Government orders, the increases and decreases of cost will probably reach a balance.

As to the computation of the average freight from shipping point into the zone of destination, this Amendment provides that the appropriate agency of the United States, with the approval of the Office of Price Stabilization, may designate the freight center of each zone so that the freight at the lowest available current common carrier rate from the shipping point to that freight center may serve as average freight. It is expected that the General Services Administration will designate such freight centers whenever the probable places of destination and magnitude of the orders are known beforehand. As in many instances the Government will not be in a position to designate a freight center, this amendment provides for a secondary method for determining the average freight. The second method provides simply for adding the freight to the place within the zone to which the freight for a particular bidder is the lowest to the freight to the place where it is the highest, and dividing the result by two.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, and with representatives of the General Services Administration to the extent practicable, and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

General Overriding Regulation 2, Revision 1, is amended by adding a new section 43 at the end of Article IV to read as follows:

SEC. 43. *Sales f. o. b. any destination within a zone*— (a) *General.* You may sell to the United States or any agency thereof f. o. b. any destination within a zone even though you have not customarily sold on such basis. The term "f. o. b. any destination within a zone" means that delivery shall be made at any destination designated by the purchaser within a specified, integrated geographical area, on board conveyance of carrier, free of expense to the purchaser. However, the purchaser may require delivery by the seller to premises designated by the purchaser in two situations. First, if transportation is by the seller's vehicle and, second, if, and to the extent that, the applicable tariff for the principal transportation service used by the seller includes such delivery.

(b) *How you determine your ceiling price f. o. b. any destination within a zone.* (1) You determine your ceiling price f. o. b. any destination within a zone for any commodity for which you have a ceiling price f. o. b. a shipping point by adding to the latter your average freight into the zone. Subparagraph (4), below, tells you how to find your average freight. Your f. o. b. shipping point may be your factory, your warehouse, or any other customary point of origin.

(2) You determine your ceiling price f. o. b. any destination within a zone for any commodity for which you have a delivered (or f. o. b. destination) ceiling price and which you ship from your customary point of delivery (or destination) into the zone within which you are now establishing a uniform ceiling price f. o. b. any destination by adding to the delivered (or f. o. b. destination) ceiling price your average freight into the zone. You follow the directions contained in subparagraph (4) in order to find your average freight. In following these directions take as your "shipping point" your customary point of delivery (or point of destination). If your delivered (or f. o. b. destination) ceiling price is a uniform price within a zone or area use as your "shipping point" the railroad station in such zone or area from which the freight into the zone within which you are establishing a uniform price f. o. b. any destination is the lowest.

(3) You determine your ceiling price f. o. b. any destination within a zone for any commodity as to which you have a delivered (or f. o. b. destination) ceiling price and which you ship from your plant into the zone within which you are now establishing a uniform ceiling price f. o. b. any destination as follows: First, deduct from your delivered (or f. o. b. point of destination) ceiling price the freight for transporting the commodity in carload lots from your plant to the point of delivery (or destination) using the lowest current common carrier rates customarily used by you for the commodity involved. If your delivered (or f. o. b. point of destination) ceiling price has uniformly been established for a zone or area, you use in this computation as point of delivery (or destination) the railroad station within such zone or area to which the freight from your plant is the highest. Second, add to the remainder the average freight into the zone. Subparagraph (4) tells you how to find the average freight.

(4) (i) You determine "average freight" by finding the freight for the commodity from your shipping point to the freight center of the zone. This freight center will be designated by the interested government agency, with the approval of OPS, and you will be advised in writing what the freight center is.

(ii) If no freight center has been designated and communicated to you in writing you find your average freight by taking half the sum of the following: The freight from your shipping point to the railroad station within the zone to which the freight is the lowest plus the freight from your shipping point to the railroad station within the zone to which the freight is the highest.

(iii) If no freight center has been designated and communicated to you in writing and your shipping point is within the zone within which you wish to establish uniform prices f. o. b. any destination, your average freight is half the freight from your shipping point to the railroad station within that zone to which the freight is the highest.

(iv) In computing average freight under this paragraph you must always use the lowest current common carrier rate customarily used by you for the commodity involved. For sales in known quantities you must use the rates applicable to such quantities. For sales of uncertain quantities you may use l. c. l. rates. However, if you do so you must make an allowance reflecting the difference between l. c. l. rates and carload rates on all shipments in carload lots.

(5) If you have ceiling prices for sales of the same commodity f. o. b. various points (for instance f. o. b. plant, f. o. b. warehouse, Chicago, Ill. and f. o. b. warehouse, Los Angeles, Calif.; or f. o. b. factory, Raleigh, N. C., and delivered, Denver, Colo.) your ceiling price f. o. b. any destination within a zone must be based on your established ceiling price which yields the lowest ceiling price f. o. b. any destination within a zone.

(c) *Records.* In addition to all records required by other applicable Office of Price Stabilization regulations, you shall keep, for a period of two years from the date when you first used these ceiling prices in a bid or an offer to sell or a sale, for inspection by the Director of Price Stabilization, the worksheets showing how you computed your ceiling prices f. o. b. any destination within a zone.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 2 to General Overriding Regulation 2, Revision 1 is effective September 5, 1952.

NOTE: The record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

SEPTEMBER 5, 1952.

[F. R. Doc. 52-9862; Filed, Sept. 5, 1952; 10:59 a. m.]

[General Overriding Regulation 14, Interpretation 2]

GOR 14—EXCEPTED SERVICES

INT. 2—NECESSARY OPERATIONS IN CONNECTION WITH DRILLING OF OIL AND GAS WELLS (SECTION 3 (a) (18))

There has been some confusion as to the scope of GOR 14, section 3 (a) (18). Various interpretations have been placed on what constitutes the necessary operations in connection with the drilling of oil and gas wells. The interpretations placed on this section have varied because of the different operations considered necessary in different areas of the country. This Office has consulted with a number of industry representatives and endeavored to ascertain what industry generally regards as necessary operations in connection with the drilling of oil and gas wells. All charges for the necessary operations in connection with the drilling of oil and gas wells, whether performed by the operator or the subcontractor for him, are excepted from price controls.

It is the interpretation of this Office that the following listed examples of operations shall constitute necessary operations in connection with the drilling of oil and gas wells. This interpretation does not limit the necessary operations to this list only.

Section 3 (a) (18) of GOR 14 is interpreted to mean that in addition to electrical logging services, preparation of locations, shot hole and diamond core drilling, fishing jobs, pulling, salvaging, and plugging operations, the following are examples of services which shall be considered excepted from price control whether performed by the operator or a subcontractor for him:

Surveying lease and making location.

Moving in derrick materials by trucking contractor.

Erection of derrick by rig building contractor.

Moving in small machines, usually cable tools to drill water well, providing water line is not laid to nearby water course or pond by a water well contractor.

Moving in drilling rig, equipment, or supplies to and from location.

Fuel for the operation of the rig and other equipment at the well location.

Moving in conductor and surface pipe by miscellaneous contractors.

Furnishing of cement and performing cementing services for conductor and/or surface casing.

Engineering services for the purpose of developing deviation from vertical in the drilling of hole.

Testing operations rendered by contractor involving the furnishing of instruments and necessary tools for performing a drillstem test.

Perforating gun, jet, or knife and equipment for the purpose of perforating pipe into producing formation.

Furnishing equipment, men and materials to transport acid to well and pump into well bore, usually under pressure, to increase or induce production, remove mud or precipitates from face of formation.

Water Operation. In this type operation, following the surveying and staking of location, it is customary in marsh land drilling to have a contractor dig a canal from a main water course to location preparatory to moving in barge on which is mounted a drilling rig. In moving rotary rig to location, it is necessary to employ contractor for towing barge. In water operations, an operator usually contracts with owner of boats for use by drilling contractor to move materials and crews to and from location. After barge is floated over location, sea cocks are opened and the barge settles to bottom; at which time drilling operations are ready to commence. Subsequent operations are more or less similar to Land Operations in all of the various services needed.

Preparing location, including operations such as grading; excavating; constructing roads, canals, piers and platforms; and erecting shelters.

Installing equipment, including any means of transporting, assembling, erecting, and testing.

Making, conditioning and completing hole, including drilling and control thereof, coring, reaming, straightening or deflecting, repairing defects, together with all surveying, fishing, casing, cementing, perforating, and treating operations that may be required.

Plugging and grouting, including the setting of bottom hole or bridge plugs and injecting cement, plastic or other material into the formation selectively or otherwise.

Completing for utilization, including installation of tubing, packers, valves and other service connections above or below the surface such as flow lines, oil and gas separators, treating equipment and tanks; and also all testing and repairing.

Repairing or redrilling, including deepening, plugging back, squeezing, side tracking, cleaning out, reaming, treating (shooting, acidizing, hydrafracing, etc.), pulling and running casing and tubing, and testing.

Core drillings; strata testing; well logging; well shooting; cementing; pressure fracturing; sand acidizing; repressuring or flooding.

Shooting.

Rig removal.

Pulling casing and tubing on abandonment. Dry holes—casings are pulled and well plugged; Old abandoned wells—casings and tubings are pulled and well is plugged.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

SEPTEMBER 5, 1952.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-46, Direction 5 of September 5, 1952]

M-46—PRIORITIES ASSISTANCE FOR THE PETROLEUM AND GAS INDUSTRIES IN THE UNITED STATES AND CANADA

DIR. 5—RULES FOR ACQUIRING CARBON CONVERSION STEEL BY PETROLEUM AND GAS OPERATORS IN THE UNITED STATES AND CANADA

This direction is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

REGULATORY PROVISIONS

Sec.

1. What this direction does.
2. Applicability of other orders.
3. Carbon conversion steel for construction operations.
4. Orders for carbon conversion steel.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* The purpose of this direction is to provide rules for the acquisition and use of carbon conversion steel without allotments. The direction provides that the only finished carbon conversion steel which may be obtained by petroleum and gas operators without allotments is finished carbon conversion steel for use in approved construction projects. The effect of this is to require that finished carbon conversion steel in the form and shape of oil country tubular goods continue to be acquired only by allotments. "Finished carbon conversion steel" has the same meaning as in CMP Regulation No. 1, Direction 19.

SEC. 2. *Applicability of other orders.* No operator shall acquire any finished carbon conversion steel, including such steel in the form and shape of oil country tubular goods, pursuant to the provisions of Direction 19 to CMP Regulation No. 1, as amended, or Direction 7 to Revised CMP Regulation No. 6, as amended.

SEC. 3. *Carbon conversion steel for construction operations.* (a) Any operator who has received authorization from the Petroleum Administration for Defense to commence construction of a petroleum or gas project on Form PAD–26 together with a related allotment of carbon steel for the third calendar quarter of 1952, the fourth calendar quarter of 1952, or the first calendar quarter of 1953, may use the allotment symbol identifying such allotment to order for delivery in each of such quarters for each such approved project up to 500 tons of finished carbon conversion steel without charging the related allotment, and use such steel in such project.

(b) To obtain authorization to acquire in excess of 500 tons of finished carbon conversion steel in any such calendar quarter for any such project, as provided in paragraph (a) of this section without charging the related allotment, or to obtain authorization to acquire finished carbon conversion steel in any amount for any other construction project without charging the related allotment, a domestic operator shall make application to the Petroleum Administration for Defense, Washington 25, D. C., and a Canadian operator shall make application to the Petroleum Division, Department of Defence Production, Toronto, Canada. Such application shall describe and state the tonnage of the semifinished and finished conversion product and the name and address of the supplier and the finishing plant.

SEC. 4. *Orders for carbon conversion steel.* Any person who is authorized to acquire and use finished carbon conversion steel pursuant to section 3 of this direction, may place authorized controlled material orders for such steel with the finished conversion steel producer, and such producer may accept and fill such orders if they will not interfere with production directives and other directives which may be issued from time to time to such steel producer by NPA, or with the acceptance and filling of orders which such steel producer is required to accept pursuant to any regulation or order of NPA. The person ordering such steel shall make his own arrangements for obtaining the semifinished carbon conversion steel with the original ingot producer, or the finished conversion steel producer. In arranging to purchase the semifinished carbon conversion steel

from an original ingot producer or an intermediate producer, such person shall furnish to such original ingot producer or intermediate producer a certification in the following form:

Certified under Direction 5 to NPA Order M–46

which shall be signed as provided in section 8 of NPA Reg. 2. This certification shall constitute a representation to the original ingot producer or intermediate producer and to NPA that such person is authorized to place such order under the provisions of this direction to obtain the quantity of semifinished conversion steel covered by the delivery order, for conversion into finished conversion steel, and that he will furnish an authorized controlled material order to the finished conversion steel producer. Notwithstanding the provisions of any NPA regulation or order, a producer of semifinished carbon conversion steel may deliver semifinished carbon conversion steel pursuant to such a certification: *Provided, however,* That such delivery shall not interfere with production directives and other directives which may be issued from time to time to such steel producer by NPA, or with delivery on orders which such steel producer is required to accept pursuant to any regulation or order of NPA.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This direction shall take effect September 5, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[NPA Order M–46A, Direction 3 of September 5, 1952]

M–46A—PRIORITIES ASSISTANCE FOR FOREIGN PETROLEUM OPERATIONS

DIR. 3—RULES FOR ACQUIRING CARBON CONVERSION STEEL BY PETROLEUM AND GAS OPERATORS FOR FOREIGN OPERATIONS

This direction is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Applicability of other orders.
3. Carbon conversion steel for construction operations.
4. Orders for carbon conversion steel.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* The purpose of this direction is to provide rules for the acquisition and use of carbon conversion steel without allotments. The direction provides that the only finished carbon conversion steel which may be obtained by petroleum and gas operators without allotments is finished carbon conversion steel for use in approved construction projects. The effect of this is to require that finished carbon conversion steel in the form and shape of oil country tubular goods continue to be acquired only by allotments. "Finished carbon conversion steel" has the same meaning as in CMP Regulation No. 1, Direction 19.

SEC. 2. *Applicability of other orders.* No operator shall acquire any finished carbon conversion steel, including such steel in the form and shape of oil country tubular goods, pursuant to the provisions of Direction 19 to CMP Regulation No. 1, as amended, or Direction 7 to Revised CMP Regulation No. 6, as amended.

SEC. 3. *Carbon conversion steel for construction operations.* (a) Any operator who has received an allotment of carbon steel for a construction project on Form PAD–26A for the third calendar quarter of 1952, the fourth calendar quarter of 1952, or the first calendar quarter of 1953, may use the allotment symbol identifying such allotment to order for delivery in each of such quarters, for each such project, up to 500 tons of finished carbon conversion steel without charging the related allotment, and use such steel in such project.

(b) To obtain authorization to acquire in excess of 500 tons of finished carbon conversion steel in any such calendar quarter for any such project as provided in paragraph (a) of this section without charging the related allotment, or to obtain authorization to acquire finished carbon conversion steel in any amount for any other construction project without charging the related allotment, an operator shall make application by filing an original and three copies with the Office of International Trade. Such application shall describe and state the tonnage of the semifinished and finished conversion product and the name and address of the supplier and the finishing plant.

SEC. 4. *Orders for carbon conversion steel.* Any person who is authorized to acquire and use finished carbon conversion steel pursuant to section 3 of this direction, may place authorized controlled material orders for such steel with the finished conversion steel producer, and such producer may accept and fill such orders if they will not interfere with production directives and other directives which may be issued from time to time to such steel producer by NPA, or with the acceptance and filling of orders which such steel producer is required to accept pursuant to any regulation or order of NPA. The person ordering such steel shall make his own arrangements for obtaining the semifinished carbon conversion steel with the original ingot producer, or the finished conversion steel producer. In arranging to purchase the semifinished carbon conversion steel from an original ingot producer or an intermediate producer, such person shall furnish to such original ingot producer or intermediate producer a certification in the following form:

Certified under Direction 3 to NPA Order M–46A

which shall be signed as provided in section 8 of NPA Reg. 2. This certification shall constitute a representation to the original ingot producer or intermediate producer and to NPA that such person is authorized to place such order under the provisions of this direction to obtain the quantity of semifinished conversion steel covered by the delivery order, for conversion into finished conversion steel, and that he will furnish an authorized controlled material order to the finished conversion steel producer. Notwithstanding the provisions of any NPA regulation or order, a producer of semifinished carbon conversion steel may deliver semifinished carbon conversion steel pursuant to such a certification: *Provided, however,* That such delivery shall not interfere with production directives and other directives which may be issued from time to time to such steel producer by NPA, or with delivery on orders which such steel producer is required to accept pursuant to any regulation or order of NPA.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This direction shall take effect September 5, 1952.

Chapter XXI—Office of Rent Stabilization, Economic Stabilization Agency

[Rent Regulation 1, Amdt. 74 to Schedule A]

[Rent Regulation 2, Amdt. 72 to Schedule A]

RR1—HOUSING

RR2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE A—DEFENSE-RENTAL AREAS

ILLINOIS, INDIANA, MICHIGAN AND PENNSYLVANIA

Effective September 6, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 3d day of September 1952.

JAMES MCI. HENDERSON,
Director of Rent Stabilization.

1. Schedule A, Item 83, is amended to describe the counties in the defense-rental area as follows:

Cook County, except (i) the Cities of Berwyn, Blue Island, Calumet City, Chicago Heights, Des Plaines, Harvey, Park Ridge, and that portion of the City of Elgin located therein, (ii) the Town of Cicero, (iii) the Villages of Arlington Heights, Bartlett, Bellwood, Brookfield, Burnham, Calumet Park, Crestwood, Dolton, East Hazelcrest, Evergreen Park, Flossmoor, Franklin Park, Glencoe, Glenview, Hazelcrest, Hillside, Homewood, Kenilworth, La Grange, La Grange Park, Lansing, Lemont, Lyons, Markham, Matteson, Morton Grove, Mt. Prospect, Northfield, North Riverside, Oak Forest, Orland Park, Palatine, Phoenix, Riverdale, River Forest, Riverside, South Holland, Thornton, Tinley Park, Westchester, Western Springs, Wheeling, Wilmette, Winnetka, and (iv) those portions of the Villages of Barrington, Hinsdale and Steger located in said Cook County; Kane County, except that portion of the City of Elgin located therein, the Cities of Batavia, Geneva and St. Charles, and the Villages of Carpentersville, East Dundee, Hampshire, South Elgin and West Dundee; and Lake County, except the City of Lake Forest, the Villages of Deerfield, Grayslake and Lake Bluff, and that portion of the Village of Barrington located therein.

This decontrols the Village of Lake Bluff in Lake County, Illinois, a portion of the Chicago, Illinois, Defense-Rental Area.

2. Schedule A, Item 88b, is amended to describe the counties in the defense-rental area as follows:

Peoria County, except the Cities of Chillicothe and Peoria, and the Villages of North Chillicothe and Peoria Heights, and all unincorporated localities in said county; Tazewell County, except the Cities of Pekin and Washington, the Village of Morton, and all unincorporated localities.

This decontrols the City of Pekin in Tazewell County, Illinois, a portion of the Peoria, Illinois, Defense-Rental Area.

3. Schedule A, Item 102, is amended to describe the counties in the defense-rental area as follows:

Lake County, except the Cities of Crown Point, East Chicago, Hammond, Hobart and Whiting, the Towns of Highland and Munster, and the Townships of Cedar Creek, Eagle Creek, Hanover, West Creek and Winfield.

Ditto.

In Lake County, the City of Whiting, the Town of Highland, and the Townships of Hanover and Winfield.

This decontrols the Town of Munster in Lake County, Indiana, a portion of the Gary-Hammond, Indiana, Defense-Rental Area.

4. Schedule A, Item 152, is amended to describe the counties in the defense-rental area as follows:

Calhoun County, except the City of Battle Creek and the Townships of Battle Creek, Bedford, Emmett and Pennfield.

This decontrols the Township of Pennfield in Calhoun County, Michigan, a portion of the Kalamazoo-Battle Creek, Michigan, Defense-Rental Area.

5. Schedule A, Item 267, is amended to describe the counties in the defense-rental area as follows:

Allegheny County, except the Boroughs of Bethel, Churchill, Elizabeth, Ingram, Rosslyn Farms and Wilkinsburg, and the Townships of Crescent, Franklin, Mount Lebanon, Ohio, Penn and Shaler; Armstrong County; Beaver County, except the Borough of Beaver and the Township of Brighton; Lawrence County, except the Borough of New Wilmington; Westmoreland County; in Butler County, the City of Butler; Fayette County, except the Townships of Henry Clay, Stewart and Wharton; in Greene County, the Townships of Cumberland, Dunkard, Jefferson, Monongahela, Morgan and Franklin, except the Borough of Waynesburg; and Washington County, except the Townships of East Finley, Morris, South Franklin and West Finley.

That part of Beaver County north and east of the Ohio River, except the Townships of Economy, Harmony and Brighton, and the Boroughs of Ambridge, Baden, Beaver and Conway, and (effective February 28, 1952) that part of the Borough of Ellwood City which lies in Beaver County.

In Beaver County, the Townships of Potter and Center and the Borough of Monaca.

In Beaver County, Brighton Township.

This decontrols the Township of Franklin in Allegheny County, Pennsylvania, a portion of the Pittsburgh, Pennsylvania, Defense-Rental Area.

All decontrols effected by these amendments are based on resolutions submitted under section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

NORTH RIVER, MASS.; STATE OF MASSACHUSETTS HIGHWAY BRIDGE BETWEEN SCITUATE AND MARSHFIELD

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.77 governing the operation of the highway bridge over the North River between Scituate and Marshfield is hereby prescribed as follows:

§ 203.77 *North River, Mass.; State of Massachusetts highway bridge between Scituate and Marshfield.* (a) The owner of or agency controlling the bridge will not be required to keep draw tenders in constant attendance at the bridge.

(b) Whenever a vessel unable to pass under the closed bridge desires to pass through the draw during the period between May 1, and October 31, at least 4-hours advance notice of the time the opening is required shall be given to the authorized representative of or agency controlling the bridge. For the remainder of the year at least 24-hours advance notice for a desired opening shall be given. For this purpose the owner of the bridge shall provide arrangements whereby the draw tenders can be readily reached by telephone or otherwise at any time of the day or night.

(c) Upon receipt of such notice, the authorized representative of the owner of or agency controlling the bridge, in compliance therewith, shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(d) The owner of or agency controlling the bridge shall keep conspicuously posted on both sides of the bridge, in a position where it can easily be read at any time, a copy of these regulations together with a notice stating exactly how the representative specified in paragraph (b) of this section may be reached.

(e) Automobiles, trucks, vehicles, vessels, or other watercraft shall not be stopped or manipulated in a manner hindering or delaying the operation of the draw. All passage over the draw or through the draw opening shall be in a manner to expedite both land and water traffic.

(f) The operating machinery of the draw shall be maintained in serviceable condition, and the draw opened and closed at least once each quarter to make certain that the machinery is in proper order for satisfactory operation.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 34—SOUTHEASTERN REGION

SUBPART—KENTUCKY WOODLANDS NATIONAL WILDLIFE REFUGE, KENTUCKY

HUNTING PERMITTED

Basis and purpose. On the basis of observations and reports of field representatives of the Fish and Wildlife Service, it has been determined that the population of white-tailed deer and rabbits is sufficient that a periodic removal is possible and can best be accomplished by public hunting.

Inasmuch as the following regulation is a relaxation of existing regulations applicable to the Kentucky Woodlands National Wildlife Refuge, notice and public procedure thereon are not required (60 Stat. 237; 5 U. S. C. 1001, et seq.).

Effectively immediately upon publication of this document in the FEDERAL REGISTER, § 34.60 *Hunting permitted,* is revised to read as follows:

§ 34.60 *Hunting permitted.* Until further notice, raccoons and opossums may be taken on that part of the Kentucky Woodlands National Wildlife Refuge, Kentucky, lying west of the dividing Ridge Road north of U. S. Highway No. 68 and south of the Moss Creek Ferry Road, and until further notice, fallow deer of either sex, white-tailed deer, rabbits, red and gray foxes, bobcats, woodchucks, squirrels, opossums, skunks, crows, and carp may be taken by means of bow and arrow within the fallow deer range on the Kentucky Woodlands National Wildlife Refuge, as determined annually by the officer in charge of the Refuge and designated by posting. All such hunting shall be in accordance with the State laws and regulations, at such times, and under such special regulations and conditions as may be prescribed by the officer in charge of the Refuge, copies of which shall be posted at Refuge headquarters. All hunting shall also be in accordance with the provisions of §§ 34.58, 34.59, and 34.61.

(Sec. 10, 45 Stat. 1224; 16 U. S. C. 715i)

Dated: August 29, 1952.

O. H. JOHNSON,
Acting Director.

[F. R. Doc. 52-9717; Filed, Sept. 5, 1952; 8:45 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 424]

EXTENSIONS OF TIME FOR PAYMENT OF TAXES BY CORPORATIONS EXPECTING CARRY-BACKS AND TENTATIVE CARRY-BACK ADJUSTMENTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 3791 of the Internal Revenue Code (53 Stat. 467; 26 U. S. C. 3791).

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform the regulations prescribed by Treasury Decision 5498, approved February 27, 1946 (26 CFR Part 474), to sections 3779 and 3780 (a) of the Internal Revenue Code, as amended by section 304 (a), (b), and (g) of the Excess Profits Tax Act of 1950, approved January 3, 1951, such Treasury decision is amended as follows:

PARAGRAPH 1. The paragraph which reads "Pursuant to the above-quoted provisions of the Tax Adjustment Act of 1945, the following regulations are hereby prescribed:", which paragraph immediately precedes § 474.0, is stricken and there is inserted in lieu thereof the following:

SEC. 304. TECHNICAL AMENDMENTS (EXCESS PROFITS TAX ACT OF 1950, APPROVED JANUARY 3, 1950).

(a) Section 3779 of the Internal Revenue Code (relating to extensions of time for payment of taxes by corporations expecting carry-backs) is hereby amended by striking "710 (c) (3)" where it appears in subsection (b) and inserting in lieu thereof "432 (c)", and by striking the words "four equal" where they appear in subsections (c), (g) and (i).

(b) Section 3780 (a) of such code (relating to tentative carry-back adjustments) is hereby amended by striking "710 (c) (3)" and inserting in lieu thereof "432 (c)".

* * * * *

(g) The amendments made by this section shall be applicable with respect to taxable years ending after June 30, 1950.

Pursuant to the above-quoted provisions of law, the following regulations are hereby prescribed:

PAR. 2. Section 474.2 is amended by inserting "711 (a) (2) (L), and 433 (a) (1) (J)" in lieu of "and 711 (a) (2) (L)" in the last sentence of paragraph (c) thereof, so that such sentence will read as follows: "In determining the net operating loss deduction, the adjustments required by sections 122 (c), 711 (a) (1) (J), 711 (a) (2) (L), and 433 (a) (1) (J) are likewise to be made."

PAR. 3. Section 474.4 is amended by striking "four equal installments." from the end of the first sentence thereof and inserting in lieu thereof "installments as provided in section 56 (b).", so that such sentence will read as follows: "If an extension of time relates to only part of the tax, the time for payment of the remainder of the tax shall be considered to be the dates on which payments would have been required if such remainder had been the tax and the taxpayer had elected to pay the tax in installments as provided in section 56 (b)."

PAR. 4. Section 474.8 is amended by striking from the second sentence thereof the words "four equal", so that such sentence will read as follows: "The time for payment of such amount shall be the dates on which payments would have been required if there had been no extension with respect to such amount and the taxpayer had elected under section 56 (b) to pay the tax in installments."

PAR. 5. Section 474.9 is amended by striking the words "four equal" from the second sentence thereof, so that the part of such sentence which precedes paragraph (a) thereof will read as follows: "The interest, which is to be collected as part of such amount, is to be computed from the dates on which payments would have been required if there had been no extension, and the taxpayer had elected under section 56 (b) to pay the tax in installments, at the following rates:"

PAR. 6. Section 474.11 is amended by inserting "711 (a) (2) (L), and 433 (a) (1) (J)" in lieu of "and 711 (a) (2) (L)" in the last sentence of paragraph (b) thereof, so that such sentence will read as follows: "In computing the net operating loss deduction for purposes of determining any such increase or decrease, proper adjustments as required by sections 122 (c), 711 (a) (1) (J), 711 (a) (2) (L), and 433 (a) (1) (J) are to be made."

[F. R. Doc. 52-9784; Filed, Sept. 5, 1952; 8:56 a. m.]

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Parts 723, 727]

CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO; MARYLAND TOBACCO

NOTICE OF DETERMINATIONS TO BE MADE WITH RESPECT TO TOBACCO MARKETING QUOTAS FOR 1953-54 MARKETING YEAR

Pursuant to the Agricultural Adjustment Act of 1938, as amended, the Secretary of Agriculture is preparing to proclaim national marketing quotas for cigar-filler tobacco, cigar-filler and binder tobacco, and Maryland tobacco, for the 1953-54 marketing year, determine the amount of the national marketing quota for each kind of tobacco, apportion the national marketing quotas among the several States, and convert the State marketing quotas into State acreage allotments.

The Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1312 (a)), provides that the Secretary of Agriculture shall proclaim a national marketing quota for each marketing year for each kind of tobacco for which a national marketing quota was proclaimed for the immediately preceding marketing year. The act (7 U. S. C. 1301 (b) (15)) defines "tobacco" as each one of the kinds of tobacco listed below comprising the types specified as classified in Service and Regulatory Announcement Numbered 118 (7 CFR Part 30) of the Bureau of Agricultural Economics of the Department:

Flue-cured tobacco, comprising types 11, 12, 13, and 14;
Fire-cured tobacco, comprising types 21, 22, 23, and 24;
Dark air-cured tobacco, comprising types 35 and 36;
Virginia sun-cured tobacco, comprising type 37;
Burley tobacco, comprising type 31;
Maryland tobacco, comprising type 32;
Cigar-filler and cigar-binder tobacco, comprising types 42, 43, 44, 45, 46, 51, 52, 53, 54, and 55;
Cigar-filler tobacco, comprising type 41.

The act provides that any one or more of the types comprising any such kind of tobacco shall be treated as a "kind of tobacco" for the purposes of this act if the Secretary finds that there is a difference in supply and demand conditions as among such types of tobacco which results in a difference in the adjustments needed in the marketings thereof in order to maintain supplies in line with demand. Pursuant to this authority the Secretary has determined (15 F. R. 8214) that type 46 tobacco shall be treated as a separate kind of tobacco for purpose of marketing quotas and price supports on the 1951 and subsequent crops of such tobacco.

The act (7 U. S. C. 1313 (l)) provides that notwithstanding any other provision of the act, whenever after investigation the Secretary determines with respect to any kind of tobacco that a substantial difference exists in the usage or market outlets for any one or more of the types comprising such kind of tobacco and that the quantity of tobacco of such type or types to be produced under the marketing quotas and acreage allotments established pursuant to this section would not be sufficient to provide an adequate supply for estimated market demands and carry-over requirements for such type or types of tobacco, the Secretary shall increase the marketing quotas and acreage allotments for farms producing such type or types of tobacco in the preceding year to the extent necessary to make available a supply of such type or types of tobacco adequate to meet such demands and carry-over requirements. The increases in farm marketing quotas and acreage allotments shall be made on the basis of the production of such type or types of tobacco during the period of years considered in establishing farm marketing quotas and acreage allotments for such kind of tobacco. The additional production authorized by this subsection shall be in addition to the national marketing quota established for such kind of tobacco pursuant to section 312 of this act. The increase in acreage under this subsection shall not be considered in establishing future State or farm acreage allotments.

National marketing quotas were proclaimed for the 1952-53 marketing year as follows:

Kind of tobacco:
Cigar-filler; 16 F. R. 11474.
Cigar-filler and binder; 16 F. R. 11474.
Maryland; 16 F. R. 11537.

The act (7 U. S. C. 1312 (a)) provides that the Secretary shall also determine and specify in such proclamation the amount of the national marketing quota in terms of the total quantity of tobacco which may be marketed, which will make available during such marketing year a supply of tobacco equal to the reserve supply level. The act provides further that the amount of the 1953-54 national marketing quota may, not later than March 1, 1953, be increased by not more than 20 per centum if the Secretary determines that such increase is necessary in order to meet marketing demands or to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level. The act (7 U. S. C. 1301 (b)) defines the "total supply" of tobacco for any marketing year as the carry-over at the beginning of the marketing year (or on January 1 of such marketing year in the case of Maryland tobacco) plus the estimated production in the United States during the calendar year in which such marketing year begins. "Reserve supply level" is defined as the normal supply plus 5 per centum thereof. "Normal supply" is defined as a normal year's domestic consumption and exports, plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports. A "normal year's domestic consumption" is defined as the yearly average quantity produced in the United States and consumed in the United States during the 10 marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A "normal year's exports" is defined as the yearly average quantity produced in the United States which was exported from the United States during the 10 marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

The act (7 U. S. C. 1312 (b)) requires that within 30 days after a national marketing quota is proclaimed for the 1953-54 marketing year for cigar-filler tobacco, cigar-filler and binder tobacco, or Maryland tobacco, the Secretary shall conduct a referendum of farmers who are engaged in the production of the 1952 crop of each of such kinds of tobacco to determine whether such farmers are in favor of or opposed to such quota. If more than one-third of the farmers voting in the referendum oppose such quota, the quota shall not be effective thereafter. The Secretary is also required to submit to such farmers the question of whether they favor marketing quotas for a period of three years beginning with the 1953-54 marketing year. If two-thirds of the farmers voting on this question favor quotas for such three-year period, the Secretary is required to proclaim marketing quotas for such period. A separate referendum will be held for each of such kinds of tobacco and the results of any referendum will not affect the results of any other referendum.

The act (7 U. S. C. 1313 (a)) requires the Secretary to apportion the national marketing quota, less the amount to be allotted under subsection (c) of section 1313 (small farms and "new" farms), among the several states on the basis of the total production in each State during the five calendar years immediately preceding the calendar year in which the quota is proclaimed, with such adjustments as are determined to be necessary to make correction for abnormal conditions of production, for small farms, and for trends in production, giving due consideration to seed bed and other plant diseases during such 5-year period. The act (7 U. S. C. 1313 (g)) authorizes the Secretary to convert State marketing quotas into State acreage allotments on the basis of average yield per acre for the State during the 5 years last preceding the year in which the national marketing quota is proclaimed, adjusted for abnormal conditions of production.

In making the determinations of the amounts of the national marketing quotas, the apportionment of the quotas among the several States, and the conversion of State marketing quotas into State acreage allotments, consideration will be given to any data, views and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 3d day of September 1952.

[SEAL] G. F. GEISSLER,
Administrator.

[F. R. Doc. 52-9789; Filed, Sept. 5, 1952; 8:58 a. m.]

[7 CFR Part 997]

HANDLING OF FILBERTS GROWN IN OREGON AND WASHINGTON

SALABLE, SURPLUS, AND WITHHOLDING PERCENTAGES

Notice is hereby given that the Department is considering the issuance of the proposed administrative rule herein set forth pursuant to the provisions of

Marketing Agreement No. 115 and Order No. 97 regulating the handling of filberts grown in Oregon and Washington (7 CFR Part 997), effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Prior to the final issuance of such administrative rule, consideration will be given to data, views, or arguments pertaining thereto which are submitted in writing to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and which are received not later than the close of business on the tenth day after date of publication of this notice in the FEDERAL REGISTER, except that, if said tenth day after publication should fall on a holiday, Saturday, or Sunday, such submission may be received by the Director not later than the close of business on the next following work day.

Upon the basis of estimates submitted by the Filbert Control Board, the administrative agency operating under the aforesaid agreement and order, and other information available to the Department, it is proposed that the salable percentage of merchantable in-shell filberts for the fiscal year beginning August 1, 1952, be fixed at 66 percent and the surplus percentage at 34 percent.

Following is a summary of the supply and demand situation for merchantable in-shell filberts for the fiscal year beginning August 1, 1952, which is based in part on estimates submitted by the Filbert Control Board, and in part on other information available to the Department: (1) Merchantable production from the 1952 crop, 17,167,000 pounds; (2) trade demand, 11,000,000 pounds; (3) handler carryover, August 1, 1952 (all certified for shipment), 794,000 pounds; (4) trade demand to be supplied from the 1952 crop (item 2–item 3), 10,206,000 pounds; (5) salable quantity computed at 66 percent of item 1, 11,330,000 pounds; (6) handler carryover as of August 1, 1953 (item 5–item 4), 1,124,000 pounds.

On the basis of the aforesaid proposed salable and surplus percentages, the withholding percentage, which is the ratio of the surplus percentage to the salable percentage, would be 52 percent, when adjusted to the nearest whole number.

The proposed rule is as follows:

§ 997.202 *Salable, surplus, and withholding percentages for merchantable in-shell filberts.* For the fiscal year beginning August 1, 1952, the salable percentage of merchantable in-shell filberts shall be 66 percent, the surplus percentage shall be 34 percent, and the withholding percentage shall be 52 percent.

Issued at Washington, D. C., this 3d day of September 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Branch.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 522]

EMPLOYMENT OF LEARNERS IN THE CIGAR INDUSTRY IN THE UNITED STATES

NOTICE OF PROPOSED AMENDMENT

Pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (section 14, 52 Stat. 1068, as amended; 29 U. S. C. 214) the Administrator has heretofore issued regulations (§§ 522.201 through 522.211) providing for the employment of learners in the cigar industry in the continental United States at wages lower than the minimum wage applicable under section 6 of the act.

Such regulations have been re-examined in the light of recent changes in wage levels, administrative experience in the operation of the regulations, and after consultation with interested parties in the industry. All relevant information available indicates that it is necessary to amend the learner regulations for this industry by increasing the minimum learner wage rates as proposed below.

Accordingly, notice is hereby given pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), that under the authority provided in section 14 of the Fair Labor Standards Act of 1938, as amended, the Administrator of the Wage and Hour Division, United States Department of Labor, proposes to amend § 522.204 (a) of this part to read as follows:

§ 522.204 *Subminimum rates.* (a) The subminimum rates which may be authorized in special certificates issued in the cigar industry shall be not less than 65 cents per hour in the occupations of cigar machine operating and cigar packing; not less than 65 cents per hour for the first 480 hours and 70 cents per hour for the second 480 hours in the occupations of hand rolling and hand bunch making; not less than 65 cents per hour for the first 320 hours and 70 cents per hour for the second 320 hours in the occupation of making Italian stogies; and not less than 65 cents per hour in the occupations of hand stripping and machine stripping.

Prior to final adoption of the proposed amendment, consideration will be given to any data, views or arguments pertaining thereto which are submitted in writing to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., within 15 days from publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 2d day of September 1952.

F. GRANVILLE GRIMES, JR.,
Acting Administrator, Wage and Hour and Public Contracts Divisions.

[Order 5]

CHIEF OF CONCESSIONS MANAGEMENT, REGIONAL DIRECTORS, AND SUPERINTENDENTS

DELEGATION OF AUTHORITY WITH RESPECT TO APPROVAL OF CONCESSIONERS' RATES, STOCK TRANSFERS, ETC.

Subject to the limitations and conditions contained in section 16 of Order No. 2640 (16 F. R. 5846):

(a) The Chief of Concessions Management is authorized:

1. To approve all transfers of corporate stock in corporations operating under concession contract with the Department of the Interior.

2. To approve the amount of performance bonds of concessioners required under contracts with the Department of the Interior.

3. To approve all subconcession agreements made by concessioners operating under contracts with the Department of the Interior.

(b) The Regional Directors are authorized:

1. To execute concession contracts involving terms not longer than five years.

2. To issue authorizations to concessioners to sell intoxicating beverages.

(c) The Superintendents are authorized:

1. To approve the opening and closing dates for concession operations, notwithstanding tentative dates which may be indicated in rate schedules.

(Secretary's Order No. 2640, 30 Stat. 535; 16 U. S. C., 1946 ed., sec. 2)

Issued this 2d day of September 1952.

CONRAD L. WIRTH,
Director.

Approved: September 2, 1952.

JOEL D. WOLFSOHN,
Assistant Secretary of the Interior.

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

RELIEF FROM EXCESS PROFITS TAX BECAUSE OF AN INADEQUATE EXCESS PROFITS CREDIT

ALLOWANCE DURING FISCAL YEAR ENDED JUNE 30, 1952

Subchapter E of Chapter 2 of the Internal Revenue Code imposes an excess profits tax on corporations for taxable years beginning after December 31, 1939. Under the provisions of this subchapter excess profits are measured by comparing the earnings for the current taxable year with a statutory excess profits credit.

Section 722 of Subchapter E reflects the recognition by Congress of the desirability and necessity of granting relief in meritorious cases to corporations which bear an excessive burden because of an inadequate excess profits credit. This section provides for the recomputation of excess profits tax on the basis of a reconstructed excess profits credit.

As required by section 722 (g) the following list, containing the cases arranged alphabetically by internal revenue districts, shows the name and address of each corporation to which relief has been allowed, business, taxable years involved, excess profits credit before allowance of relief, increase in excess profits credit claimed, increase in excess profits credit allowed, decrease in excess profits tax, and increase in income tax. Allowances pursuant to decisions entered by The Tax Court of the United States have been made in fifty-four docketed cases. These are included in the list with appropriate notations. There are included as a supplement to this list eight cases in which relief was allowed by the Commissioner during the fiscal year ended June 30, 1951. These cases were not included in the list of allowances made during the fiscal year 1951 previously published.

In order to determine the relief granted and the relevant data required to be published, intermediate computations of the excess profits tax and the income tax showing the amounts of taxes which would have been due without the benefits of section 722 were made. Comparison of the pertinent items and figures appearing in the application for relief and the tax computations after allowance of relief with those appearing in the intermediate tax computations developed the required data.

Explanations of certain of the items, as displayed in their respective column headings of the list, and the data evolved, follows:

Business in which engaged, column 2. The business in which taxpayer is engaged is that reported in the income tax return of the corporation for the taxable year or years involved, therefore, it does not necessarily correspond with the business during the base period. In those instances where the return for the year involved failed to disclose the nature of the business, information from other sources was utilized. Moreover, since the nature of business shown usually represents a general description of the predominant business activity, it does not necessarily represent or reflect the business activity with respect to which an inadequate excess profits credit was established.

Excess profits credit before allowance of relief, column 4. The excess profits credit before allowance of relief is the credit originally claimed by the taxpayer, as corrected, whether based on income or capital.

Increase in the amount of excess profits credit claimed by taxpayer, column 5. The increase in the amount of excess profits credit claimed by taxpayer is the excess of the credit based on the constructive income claimed by the taxpayer over the credit before allowance of relief shown in column 4.

Increase in the amount of excess profits credit allowed, column 6. The increase in the amount of excess profits credit allowed is the excess of the recomputed credit based on constructive income finally allowed over the credit before allowance of relief shown in column 4.

Gross reduction in the excess profits tax, column 7; gross increase in the income tax, column 8. The gross reduction in the excess profits tax and the gross increase in the income tax resulting from the operation of section 722 are the difference between the gross taxes which would have been due without the benefits of section 722 and the gross taxes due after relief has been granted. The gross excess profits tax is the tax due prior to the deferment under section 710 (a) (5), the foreign tax credit under section 729, the credit for debt retirement under section 783, the ten percent credit under section 784, and the adjustment under section 734. The gross income tax is the tax due prior to the foreign tax credit under section 131.

The changes in the income and excess profits taxes shown reflect the effect of the increase attributable to section 722 in the unused excess profits credit carried forward from prior taxable years as well as the effect of the increase in unused excess profits credit carried back from subsequent taxable years to the extent that claims with respect to unused credit carry-overs and carry-backs determined under section 722 were allowed within the same fiscal year.

While the decrease in excess profits tax is directly related to the increase in excess profits credit allowed, a number of factors serve to invalidate a comparison of the relationship of these two items applicable to a corporation for different taxable years or to different corporations for the same taxable year. Among the most important factors affecting this comparison are (1) increase in excess profits tax rates, (2) changes in rate structure from a graduated to a flat rate system, (3) effect of unused excess profits credits of prior and subsequent years attributable to section 722, (4) variation of provisions applicable to fiscal years, (5) limitation of excess profits tax to the amount by which 80 percent of net income exceeds the income tax, applicable to certain taxable years, and (6) relation of excess profits before the application of section 722 to the increase in excess profits credit allowed.

For taxable years beginning after December 31, 1940, a portion of the amount by which the excess profits tax is reduced by reason of the application of section 722 is offset by an increase in income tax. This offset arises from the provisions which permit the deduction of the income subject to excess profits tax (or excess profits tax in certain taxable years) in arriving at income subject to income tax.

Lists containing the cases in which relief has been allowed for prior fiscal years have been published in the various issues of the FEDERAL REGISTER as follows:

Fiscal years ended	Volume	Number	Date
June 30, 1942	9	184	Sept. 28, 1944
June 30, 1943	9	184	Sept. 28, 1944
June 30, 1944	9	219	Nov. 2, 1944
June 30, 1945	10	224	Nov. 15, 1945

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

WAGE RATES FOR SUGARCANE INDUSTRY IN PUERTO RICO AND VIRGIN ISLANDS

NOTICE OF HEARINGS AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsections (c) (1) and (c) (2) of section 301 of the Sugar Act of 1948, as amended (61 Stat. 929; 7 U. S. C. Sup. 1131), notice is hereby given that public hearings will be held as follows:

At San Juan, Puerto Rico, in the Conference Room of the Production and Marketing Administration Office, Segarra Building, on September 25, 1952, at 9:30 a. m.,

At Christiansted, St. Croix, Virgin Islands, in the District Court Room, on September 29, 1952, at 9:30 a. m.

The purpose of these hearings is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining (1), pursuant to the provisions of section 301 (c) (1) of said act, fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in Puerto Rico and the Virgin Islands during the calendar year 1953 on farms with respect to which applications for payments under the said act are made and (2), pursuant to the provisions of section 301 (c) (2) of said act, fair and reasonable prices for the 1952-53 Puerto Rican crop and the 1953 crop of Virgin Islands sugarcane to be paid, under either purchase or toll agreements by processors who, as producers, apply for payments under the said act.

In order to obtain the best possible information, the Department requests that all interested parties appear at the hearing to express their views and to present appropriate data with respect to wages and prices. While testimony on all points relative to the subject matters of the hearing is desired, it is especially requested that, in connection with fair prices for 1952-53 crop Puerto Rican sugarcane, interested persons be prepared to make recommendations on the subject of pricing sugarcane from which is made raw sugar within and not within the processor's 1953 marketing allotment. Attention should be given to pricing methods which will not encourage an excessive rate of shifting by producers from one mill to another or from one method of settlement, cash or sugar, to another. In addition, it is requested that recommendations be made on the elements of cost properly admissible as selling and delivery expenses in the computation of net proceeds from sales of molasses and on possible changes in the provision of the 1951-52 crop price determination which relates to allowances made by processors to producers for hauling sugarcane and other services.

The hearings, after being called to order at the time and places mentioned herein, may be continued from day to day within the discretion of the presiding officers, and may be adjourned to a later day or a different place without notice other than the announcement

thereof at the hearing by the presiding officers.

Tom O. Murphy, Ward S. Stevenson, L. F. Diehl, and G. Laguardia are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearings.

Issued this 3d day of September 1952.

[SEAL] LAWRENCE MYERS,
Director, Sugar Branch.

[F. R. Doc. 52-9790; Filed, Sept. 5, 1952; 8:58 a. m.]

Commodity Credit Corporation

CHAIRMAN OF PMA COUNTY COMMITTEE

DELEGATION OF AUTHORITY WITH RESPECT TO EXECUTING LEASES FOR STORAGE STRUCTURES

Pursuant to the authority conferred upon me, by the bylaws of Commodity Credit Corporation published in 14 F. R. 7689, I hereby appoint the Chairman of every Production and Marketing Administration county committee or in his absence the Acting Chairman, a contracting officer, within the county of his jurisdiction, for the purpose of executing, in accordance with instructions, leases of Commodity Credit Corporation-owned storage structures, not needed for storage of Commodity Credit Corporation-owned grain. The aforementioned instructions shall be available for inspection in the PMA County offices.

In leasing such structures, such contracting officers have been instructed to give preference first to farmers or groups of farmers for the storage of their own grain; then to any cooperative associations, as that term is defined in the Agricultural Marketing Act, as amended (12 U. S. C. 1141j), for the storage of grain; and then to commercial warehousemen for the storage of grain: *Provided, however*, That the above preferences shall not be applicable to the leasing of such structures to cooperative associations for use in connection with the peanut price support program. Such contracting officers have been instructed to lease such structures to cooperative associations for such term and on such conditions as may be prescribed by me, for use in connection with the peanut price support program. Thereafter, if such structures are not needed for the storage of grain or peanuts, they may be leased for the storage of any commodity or product which will not be injurious or hazardous to the structure itself, or to the grain or peanuts stored in other structures at the site.

The rate of rental and the terms and conditions of such leases or rental agreements shall be determined by me, and such rates shall be reasonably related to storage rates approved under the Uniform Grain Storage Agreement or other warehouse agreements covering the farm commodities to be stored in such structures.

The expiration date of any such lease or rental agreement shall not be later than April 30 following the date of the rental agreement, unless extended in accordance with instructions issued to the Chairman of the Production and Marketing Administration county committees, which instructions are on file and available for inspection by the public in the PMA County offices.

The delegation of authority issued May 22, 1951, contained in Federal Register Document 51-6055, published in 16 F. R. 4945, is hereby revoked.

Issued this 29th day of August 1952.

[SEAL] ELMER F. KRUSE,
Acting President,
Commodity Credit Corporation.

Attested:

LIONEL C. HOLM,
Secretary,
Commodity Credit Corporation.

DEFENSE PRODUCTION ADMINISTRATION

[D. P. A. Request No. 13–A—DPAV–5, Supp. 1 (c)]

WITHDRAWAL OF REQUEST TO PARTICIPATE IN PLAN OF ACTION NO. 1 UNDER VOLUNTARY AGREEMENT RELATING TO SUPPLY OF PETROLEUM TO FRIENDLY FOREIGN NATIONS

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request published on 16 F. R. 8377, August 22, 1951, to participate in a plan of action entitled "Plan of Action No. 1 Under Voluntary Agreement Relating to the Supply of Petroleum to Friendly Foreign Nations," dated July 26, 1951, transmitted to and accepted by those companies listed on 16 F. R. 8377, August 22, 1951, 16 F. R. 11038, October 30, 1951, and 16 F. R. 12517, December 12, 1951, is hereby withdrawn.

The Notice of Termination of Plan of Action No. 1 published by the Secretary of the Interior and Petroleum Administrator for Defense, on 17 F. R. 6166, July 9, 1952, and this withdrawal of the request do not relieve any participating company of any obligation, including the carrying out of approved schedules according to the terms, conditions, or intent thereof, incurred under Plan of Action No. 1 as originally approved and issued; nor do they deprive such company of any rights received or accrued under said Plan of Action No. 1, including the right to carry out the transactions specified in any schedule approved heretofore; nor do they deprive the Administrator of the Petroleum Administration for Defense of the authority to change, modify, or amend any schedule heretofore approved, or the right of any such company to carry out transactions in accordance with any such change, modification, or amendment made by the Administrator of the Petroleum Administration for Defense.

Further, except as to any act or omission to act performed or omitted by reason of the request to participate in Plan of Action No. 1, or as to any obligation incurred thereunder, and permitted to be concluded pursuant to such Notice of Termination, the immunity from prosecution under the Federal Antitrust Laws and the Federal Trade Commission Act heretofore granted is likewise withdrawn.

(Sec. 708, 64 Stat. 818, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2158; E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.)

Dated: September 4, 1952.

HENRY H. FOWLER,
Administrator.

[DPA Request No. 40—DPAV–22 (a)]

WITHDRAWAL OF REQUEST TO PARTICIPATE IN VOLUNTARY AGREEMENT RELATING TO SUPPLY OF HEATING OIL TO EAST COAST

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request published at 17 F. R. 2023, March 7, 1952, to participate in a voluntary agreement entitled "Voluntary Agreement Relating to the Supply of Heating Oil to the East Coast" transmitted to and accepted by those companies listed at 17 F. R. 2023, March 7, 1952, is hereby withdrawn. As stated in the Notice of Expiration, 17 F. R. 4826, May 27, 1952, this voluntary agreement by its own terms ceased to be effective on April 30, 1952.

The immunity from prosecution under the Federal Antitrust Laws and the Federal Trade Commission Act heretofore granted is likewise withdrawn, except as to those acts performed or omitted by reason of the request which occurred prior to this withdrawal.

(Sec. 708, 64 Stat. 818, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2158; E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.)

Dated: September 4, 1952.

HENRY H. FOWLER,
Administrator.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27363]

PEAT AND HUMUS FROM GULF PORTS TO WYOMING, KANSAS, COLORADO, AND NEBRASKA

APPLICATION FOR RELIEF

SEPTEMBER 3, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. M. Engdahl, Agent, for carriers parties to his tariff I. C. C. No. 113.

Commodities involved: Peat and humus, carloads.

From: Gulf ports.

To: Points in Wyoming, Kansas, Colorado, and Nebraska.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain port rate relations.

Schedules filed containing proposed rates: H. M. Engdahl, Agent, I. C. C. No. 113, Supp. 40.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52–9773; Filed, Sept. 5, 1952; 8:54 a. m.]

[4th Sec. Application 27364]

LIQUID CAUSTIC SODA FROM MCINTOSH, ALA., TO EAST ST. LOUIS, ILL., AND ST. LOUIS, MO.

APPLICATION FOR RELIEF

SEPTEMBER 3, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Southern Railway Company, for itself and on behalf of The Alabama Great Southern Railroad Company, and The Cincinnati, New Orleans and Texas Pacific Railway Company.

Commodities involved: Liquid caustic soda, in tank-car loads.

From: McIntosh, Ala.

To: East St. Louis, Ill., and St. Louis, Mo.

Grounds for relief: Competition with rail carriers and market competition.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1172, Supp. 118.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54–89]

UNITED CORP.

NOTICE OF FILING AND ORDER FOR HEARING ON APPLICATION TO PAY FEES AND EXPENSES

SEPTEMBER 2, 1952.

The Commission, by orders herein dated November 24, 1944, and November 29, 1944, having approved a plan, filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") by The United Corporation ("United"), a registered holding company, providing for the exchange, on a voluntary basis, of portfolio assets, including cash, for then outstanding shares of United's $3 Cumulative Preference Stock, and in said orders having reserved jurisdiction with respect to fees and expenses to be paid by United in connection with said plan; and

Said plan having been consummated, and the Commission, by order herein dated March 22, 1946, having released the jurisdiction so reserved with respect to fees and expenses to be paid by United in connection with said plan;

Notice is hereby given that an application has been filed by Randolph Phillips, a common stockholder of United, for the payment of a requested fee in the amount of $39,000 for services claimed to have been rendered in 1943 and 1944 in the above entitled matter, and for reimbursement of expenses in the amount of $23,414.71 claimed to have been incurred by him in 1943 and 1944 in connection with such services.

It appearing to the Commission that it is appropriate in the public interest that a hearing be held with respect to the matters set forth in said application:

It is ordered, That a hearing on said application, pursuant to sections 11 (e) and 18 of the act and rules and regulations thereunder, be held on September 23, 1952, at 10:00 a. m., e. d. s. t., at the office of the Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 193 will advise as to the room in which such hearing is to be held. Any person who is not already a party or given leave to participate herein, who desires to be heard or otherwise wishes to participate in this proceeding shall file with the Secretary of the Commission on or before September 19, 1952, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Harold B. Teegarden, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer or officers so designated to preside at such hearing are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities having advised the Commission that it has made a preliminary examination of the said application and that, on the basis thereof, the following matters and questions are presented for consideration without prejudice, however, to the presentation of additional matters and questions upon further examination:

Whether the requested amounts for a fee and for expenses are reasonable, and were reasonably incurred, in rendering services which were necessary in connection with said plan and the proceedings with respect thereto, and whether it is appropriate and lawful to require United to pay the requested fee and expenses, in whole or in part;

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That any person desiring to assert any additional claims for compensation or reimbursement for fees and expenses in connection with the proceedings upon the plan shall, on or before September 19, 1952, file such claim or a notification of intention to assert such claim, and, in the event such claims are filed during the course of the hearings, no notice of such filing will be given unless specifically ordered by the Commission. Any person desiring to receive further notice of the filing of such additional claims should file an appearance in these proceedings or otherwise specifically request such notice.

It is further ordered, That the Secretary of the Commission shall serve notice of the said hearing by mailing a copy of this notice and order by registered mail to Randolph Phillips, The United Corporation and to all persons granted participation in the proceedings, and notice of said hearing shall be given to all other persons by publi-

cation of this notice and order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-9762; Filed, Sept. 5, 1952; 8:53 a. m.]

[File No. 70-2906]

ARLINGTON GAS LIGHT CO. ET AL.

ORDER AUTHORIZING ISSUANCE OF PROMISSORY NOTES

SEPTEMBER 2, 1952.

In the matter of Arlington Gas Light Company, Beverly Gas and Electric Company, Central Massachusetts Gas Company, Gloucester Gas Light Company, Lawrence Gas and Electric Company, Malden and Melrose Gas Light Company, Northampton Gas Light Company, Northern Berkshire Gas Company, Salem Gas Light Company, Suburban Gas and Electric Company, Wachusett Gas Company, File No. 70-2906.

The above named public-utility subsidiary companies of New England Electric System, a registered holding company, hereinafter individually referred to as "Arlington," "Beverly," "Central Mass.," "Gloucester Gas," "Lawrence," "Malden Gas," "Northampton," "Northern Berkshire," "Salem Gas," "Suburban" and "Wachusett" and collectively referred to as the "borrowing companies," having filed with this Commission applications, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935, and Rules U-23, U-42 (b) (2) and U-50 (a) (2) thereunder with respect to the following proposed transactions:

The borrowing companies propose to issue to The National City Bank of New York before September 5, 1952, unsecured promissory notes in an aggregate amount of $4,540,000. Said notes will be payable in 10 equal instalments beginning on September 1, 1953, and ending on September 1, 1962. Interest on the annual instalments payable September 1, 1953, and September 1, 1954, will be at the rate of 3¼ percent per annum, on the annual instalments payable September 1, 1955, through September 1, 1957, at the rate of 3½ percent per annum and on the annual instalments payable September 1, 1958, through September 1, 1962, at the rate of 3¾ percent per annum or an over-all cost of money for the 10-year period of 3.668 percent. Under certain conditions, the notes may be prepaid, in whole or in part, without premium.

The applications state that the Massachusetts Department of Public Utilities has granted all of the borrowing companies, except Gloucester Gas and Wachusett, authority to amortize the costs of conversion to the use of natural gas over a period of ten years and that it is expected that the Massachusetts Commission will authorize a like period of amortization for these two companies. The amount of the note each borrowing company proposes to issue is set forth in the table below and, in each case, such amount is substantially equal to the estimated amount of unamortized conversion costs at August 31, 1952. The proceeds of the proposed notes will be applied solely to the payment of short-term note indebtedness incurred by the borrowing companies for costs of conversion to the use of natural gas.

	Amount of proposed notes
Arlington	$565,000
Beverly	285,000
Central Massachusetts	200,000
Gloucester Gas	125,000
Lawrence	835,000
Malden Gas	1,240,000
Northampton	195,000
Northern Berkshire	220,000
Salem Gas	380,000
Suburban	325,000
Wachusett	170,000
Total	4,540,000

The applications state that the Massachusetts Department of Public Utilities has approved and authorized the proposed note issues and no other state commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

The applications further state that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $500 for each of the borrowing companies, or an aggregate of $5,500.

The borrowing companies request that the Commission's order herein became effective forthwith upon issuance.

Notice of the filing of the applications having been given in the manner and form provided by Rule U-23 of the rules and regulations promulgated under the act, and a hearing not having been requested or ordered by the Commission within the time specified in said notice; and the Commission finding that the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said applications be granted and that the Commission's order become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said applications be, and hereby are, granted, subject to the terms and conditions prescribed in Rule U-24, and that this order shall become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-9765; Filed, Sept. 5, 1952; 8:54 a. m.]

[File No. 70-2920]

ARKANSAS POWER & LIGHT CO.

NOTICE OF FILING CONCERNING ACQUISITION OF UTILITY ASSETS

SEPTEMBER 2, 1952.

Arkansas Power & Light Company ("Arkansas"), an electric utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed an application with the Commission pursuant to the Public Utility Holding Company Act of 1935, and has designated sections 9 and 10 thereof as applicable to the transactions which are summarized as follows:

Arkansas proposes to acquire all of the outstanding stock of Swifton Power & Light Company ("Swifton") for a cash consideration of $65,000. Upon acquiring such stock, Arkansas proposes to surrender the stock of Swifton, liquidate that Company and transfer its assets to Arkansas. All of the outstanding 360 shares of the capital stock of Swifton are owned by Graham Brothers Company, a non-affiliated Arkansas corporation.

Swifton operates an electric distribution system in the town of Swifton, Arkansas. It is presently interconnected with Arkansas, which services adjacent territory, and purchases all of its electric power requirements from Arkansas. For the year ended March 1952, Swifton's kilowatt hour sales were: residential, 152,464; commercial, 177,694. The net plant of Swifton is stated at $27,131. The total operating revenues of Swifton for the 12 months ended May 31, 1952, were $14,429 and its net profit $2,201.

The proposed transactions have been approved by the Arkansas Public Service Commission, and that Commission has directed Arkansas to eliminate the newly created Electric Plant Acquisition Adjustments (Account 100.5) in the amount of $39,911.86 by a charge to Earned Surplus.

The application states that upon consummation of the transactions, the operations of Swifton's facilities will be fully integrated with those of Arkansas and by reason of application of Arkansas' rate schedule will result in overall savings of approximately 9 percent to the customers of Swifton.

Notice is further given that any interested person may, not later than September 16, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by the said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 16, 1952, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and Rule U-100 thereof. All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

APPALACHIAN ELECTRIC POWER CO.

NOTICE OF FILING UNDER CONCERNING SALE OF BONDS AND SERIAL NOTES

SEPTEMBER 2, 1952.

Notice is hereby given that Appalachian Electric Power Company ("Appalachian"), an electric utility subsidiary of American Gas and Electric Company, a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935, and has designated section 6 (b) thereof and Rules U-42 and U-50 thereunder as applicable to the proposed transactions which are summarized as follows:

Appalachian proposes to issue and sell pursuant to the competitive bidding requirements of Rule U-50, $17,000,000 principal amount of its First Mortgage Bonds ------ percent Series due 1982, and $6,000,000 aggregate principal amount of its ------ percent Serial Notes due 1956-1967.

The First Mortgage Bonds will be issued under and secured by the company's Mortgage and Deed of Trust dated as of December 1, 1940, as supplemented, and as to be supplemented by four supplemental indentures.

The Serial Notes due 1956-67 will mature annually in the amounts of $250,000 in each of the years 1956 to 1960, inclusive; $500,000 in each of the years 1961 and 1962, and $750,000 in each of the years 1963 to 1967, inclusive.

The proceeds from the sale of securities are to be used in part for prepayment of notes payable to banks which, it is contemplated, will be outstanding in the amount of $14,000,000 at the time of the issuance and sale of the securities. The balance of the proceeds to be realized will be applied to extensions, additions and improvements to Appalachian's properties.

Notice is further given that any interested person may, not later than September 15, 1952, at 11:30 a. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by the said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 15, 1952, at 11:30 a. m., e. d. s. t., said application as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2925]

AMERICAN & FOREIGN POWER CO. INC.

NOTICE OF FILING AND NOTICE OF ORDER FOR HEARING CONCERNING ISSUANCE OF ADDITIONAL STOCK AS A STOCK DIVIDEND

SEPTEMBER 2, 1952.

Notice is hereby given that American & Foreign Power Company Inc. ("Foreign Power"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935, and has designated sections 6 (a) and 12 (c) thereof as applicable to the proposed transactions which are summarized below. All interested persons are referred to said declaration which is on file in the offices of the Commission for a full statement of the proposed transactions:

Foreign Power has declared a dividend on its 7,152,711 shares of issued and outstanding no par value common stock at the rate of 10 cents in cash for each share of stock outstanding, and one share of additional common stock for each 100 shares of such stock outstanding. The record date and the payment date for the dividend are to be fixed by Foreign Power's Executive Committee as soon as practicable after issuance of an order by this Commission authorizing the issuance of the additional stock.

In connection with the stock dividend, the declaration states that no scrip or fractional shares are to be issued but that in lieu thereof Foreign Power's dividend disbursing agent will sell, without charge to the stockholders, the number of shares of common stock of Foreign Power which otherwise would be represented by scrip or fractional shares, and will pay the proceeds of such sales to the stockholders of Foreign Power entitled thereto. The Company estimates that by reason of this provision, approximately 70 percent of Foreign Power's stockholders will receive only cash.

The proposed stock dividend is to be reflected on the books of Foreign Power by a transfer from "Earned Surplus Since January 1, 1949" to "Capital Stock" in the amount of $661,624.75. This represents a valuation of the 71,527 shares of additional stock as $9.25 per share which was the closing price of that stock on August 25, 1952, the day prior to the date when the dividend was declared.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors that a hearing be held with respect to the declaration, and that such declaration shall not become effective except pursuant to a further order of this Commission:

It is ordered, That a hearing on said declaration, pursuant to the applicable provisions of the act and the rules of the Commission, be held on September 16, 1952, at 9:00 a. m., e. d. s. t., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. On said date the Hearing Room Clerk in Room 193 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in this proceeding should file with the Secretary of the Commission on or before September 15, 1952, a request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Edward C. Johnson, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer or officers so designated to preside are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities having advised the Commission that it has made a preliminary examination of the declaration, and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the proposed issuance of no par value stock for the purpose of a stock dividend is in accordance with the standards of section 7 of the act, particularly subsections (c) and (d) thereof;

2. Whether, under the standards of section 12 of the act, the Commission should make any adverse findings in connection with the proposed stock dividend;

3. Whether the proposed accounting entries are proper and in conformity with sound accounting principles;

4. Generally, whether the proposed transactions are in all respects in accordance with the standards of the act and whether, in the event that the declaration shall be permitted to become effective, it is necessary or appropriate to impose any terms and conditions to insure compliance with the standards of the act, or in the public interest, or for the protection of investors.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission serve a copy of this order by registered mail on the declarant herein, and that notice of said hearing shall be given to all other persons by general release of this Commission, which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

UNITED STATES TARIFF COMMISSION

[Investigation No. 5]

WOOL

NOTICE OF INVESTIGATION

Institution of investigation. By direction of the President, dated September 2, 1952, the United States Tariff Commission, on the 2d day of September

1952, instituted, and hereby gives notice of an investigation, under section 22 of the Agricultural Adjustment Act, as amended, and Executive Order No. 7233 of November 23, 1935, for the purpose of determining whether wool of the sheep subject to duty under paragraphs 1101 (a) and 1102 of the Tariff Act of 1930, carbonized wool of the sheep subject to duty under paragraph 1106 of the said act, or sheep's-wool tops subject to duty under the said paragraph 1106 are being or are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective or materially interfere with the price-support program undertaken by the United States Department of Agriculture with respect to wool.

Hearing. All parties interested will be given opportunity to be present, to produce evidence, and to be heard at a public hearing to be held in the Tariff Commission Building, 8th and E Streets NW., Washington, D. C., beginning at 10 a. m. on the 29th day of September 1952.

Request to appear. Parties desiring to appear at the public hearing should notify the Secretary of the Commission in writing at its offices in Washington, D. C., in advance of the hearing.

Rules. The Commission's rules of practice and procedure set forth in Part 204 the rules governing investigations under section 22. Copies of these rules may be obtained from the United States Tariff Commission, Washington 25, D. C.

I hereby certify that the above investigation was instituted by the United States Tariff Commission on the 2d day of September 1952.

[SEAL] DONN N. BENT,
Secretary.

SMALL DEFENSE PLANTS ADMINISTRATION

[S. D. P. A. Pool Request 1]

REQUEST TO GENERAL TIRE PRODUCTION POOL, INC., TO OPERATE AS SMALL BUSINESS PRODUCTION POOL AND REQUEST TO CERTAIN COMPANIES TO PARTICIPATE IN OPERATIONS OF SUCH POOL

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request to General Tire Production Pool, Inc., to operate as a small business production pool and the request to the companies hereinafter listed to participate in the operations of such pool, set forth below, were approved by the Attorney General after consultations with respect thereto between the Attorney General, the Chairman of the Federal Trade Commission, and the Administrator of the Small Defense Plants Administration. The voluntary program in accordance with which the pool shall operate has been approved by the Administrator of the Small Defense Plants Administration and found to be in the public interest as contributing to the national defense.

REQUEST TO GENERAL TIRE PRODUCTION POOL, INC.

You are requested to operate as a small business production pool in accordance with the voluntary program as set forth in the papers submitted to the Small Defense Plants Administration, Pooling Section, Washington, D. C.

In my opinion, the operations of your corporation as a small business production pool will assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect thereto between his representatives, representatives of the Chairman of the Federal Trade Commission, and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary program and find it to be in the public interest as contributing to the national defense. You may commence your operations thereunder as a small business production pool upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, provided that your operations are within the limits set forth in the approved voluntary program.

Your cooperation in this matter will be appreciated.

Sincerely yours,

TELFORD TAYLOR,
Administrator.

REQUEST TO COMPANIES

You are requested to participate in the operations of the General Tire Production Pool, Inc., which will operate as a small business production pool, in accordance with the voluntary program as set forth in the papers submitted by it to the Small Defense Plants Administration, Pooling Section, Washington 25, D. C.

In my opinion, your participation in the operations of this small business production pool will greatly assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect to this matter between his representatives, representatives of the Chairman of the Federal Trade Commission, and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary program and find it to be in the public interest as contributing to the national defense.

You will become a participant therein upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, providing that the operations of this production pool and your participation therein are within the limits set forth in the approved voluntary program.

Your cooperation in this matter will be appreciated.

Sincerely yours,

TELFORD TAYLOR,
Administrator.

The General Tire Production Pool, Inc., accepted the request set forth above to operate as a small business production pool.

LIST OF COMPANIES ACCEPTING REQUEST TO PARTICIPATE

Ectro, Inc., 425 South Sandusky Street, Delaware, Ohio.

Jackson Electronic & Manufacturing Co., 595 East Tallmadge Avenue, Akron, Ohio.

The McCaskey Register Co., 2435 South Union Avenue, Alliance, Ohio.

The Sterling Manufacturing Co., 7201 Wentworth Avenue, Cleveland, Ohio.

General Tire & Rubber Co., 1708 Englewood Avenue, Akron, Ohio.

Part 35	8123

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Administrative Committee (established pursuant to said amended marketing agreement and order, it is hereby found and determined that:

§ 940.204 *Expenses and rate of assessment for the 1952–53 fiscal year*—(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Administrative Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, for the maintenance and functioning of such committee, in accordance with the provisions thereof, during the fiscal year beginning March 1, 1952, will amount to $5,600.00.

(b) *Rate of assessment.* The rate of assessment, which each handler who first handles peaches shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order is hereby fixed at seven-tenths of one cent (0.007) per bushel basket of peaches, or its equivalent of peaches in other containers or in bulk, shipped by such handler during said fiscal year.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) the rate of assessment in accordance with the provisions of the amended marketing agreement and order, is applicable to all peaches shipped during the aforesaid fiscal year; (2) such shipments are now in progress and are subject to the regulatory provisions of Peach Order 1 (7 CFR 940.304; 17 F. R. 7383; 7808); (3) the provisions hereof do not impose any obligation on a handler until such handler ships peaches; and (4) it is essential that the specification of the assessment rate be issued immediately so that the aforesaid assessments may be collected and thereby enable said Administrative Committee to perform its duties and functions in accordance with said amended marketing agreement and order.

Notwithstanding the approval of the aforesaid expenses, none of such funds may be used to pay any wage or salary that is inconsistent with the Defense Production Act of 1950, as amended, Executive Order No. 10161, or any supplementary order, directive, or regulation pursuant thereto.

As used in this section, the terms "handler," "shipped," "shipments," "peaches," and "fiscal year" shall have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 4th day of September 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52–9844; Filed, Sept. 8, 1952; 8:54 a. m.]

PART 951—TOKAY GRAPES GROWN IN SAN JOAQUIN AND SACRAMENTO COUNTIES IN CALIFORNIA

DETERMINATION RELATIVE TO EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1952–53 SEASON

Notice was published in the August 14, 1952, daily issue of the FEDERAL REGISTER (17 F. R. 7398) that consideration was being given to proposals regarding the expenses and the fixing of the rate of assessment for the 1952–53 season under the marketing agreement, as amended, and Order No. 51, as amended (7 CFR Part 951; 17 F. R. 7417), regulating the handling of Tokay grapes grown in San Joaquin and Sacramento Counties in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended.

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Industry Committee (established pursuant to said amended marketing agreement and order), it is hereby found and determined that:

§ 951.207 *Expenses and rate of assessment for the 1952–53 season*—(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Industry Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the season beginning April 1, 1952, will amount to $39,520.00.

(b) *Rate of assessment.* The rate of assessment, which each handler who first ships Tokay grapes shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order is hereby fixed at two and one-half cents ($0.025) per hundred pounds of Tokay grapes shipped by such handler during said season.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) in accordance with the provisions of said amended marketing agreement and order, the rate of assessment is applicable to all fresh Tokay grapes shipped during the 1952–53 season; (2) shipments of Tokay grapes are now being made and are subject to the regulatory provisions of Tokay Grape Order 1 (7 CFR 951.313; 17 F. R. 7774); (3) the provisions of this section do not impose any obligation on a handler until such handler ships Tokay grapes; and (4) the immediate specifications of the assessment rate will assist handlers of Tokay grapes in making their plans for the 1952–53 season and thereby tend to promote the orderly marketing of such grapes.

Notwithstanding the approval of the aforesaid expenses, none of such funds may be used to pay any wage or salary that is inconsistent with the Defense Production Act of 1950, as amended, Executive Order No. 10161, or any supple-

mentary order, directive, or regulation pursuant thereto.

As used in this section, the terms "handler," "ships," "shipped," and "season" shall have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 4th day of September 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

PART 415—TESTIMONY BY EMPLOYEES AND PRODUCTION OF RECORDS IN LEGAL PROCEEDINGS

The following new part is adopted to give interested persons notice of regulations which limit participation by employees of the Civil Aeronautics Administration in court proceedings:

Sec.
415.1 Testimony by employees.
415.2 Production of records.

AUTHORITY: §§ 415.1 and 415.2 issued under R. S. 161, sec. 205, 52 Stat. 984, as amended; 5 U. S. C. 22, 49 U. S. C. 425.

§ 415.1 *Testimony by employees.* Employees of the Civil Aeronautics Administration are prohibited from appearing as expert or opinion witnesses in legal proceedings between private litigants, involving aeronautical matters. They are free to testify as to any matters of fact within their personal knowledge.

§ 415.2 *Production of records.* Records of the Civil Aeronautics Administration, the release of which is prohibited by General Order 51 [1] are in the custody and control of employees for purposes relating to the performance of their official duties only. They have no control over them and no discretion with regard to permitting their use for any other purpose. Employees are prohibited from giving out any copies thereof and from producing them in court whether in answer to subpoena ordering that they be produced or otherwise.

This part shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-9794; Filed, Sept. 8, 1952; 8:45 a. m.]

[Amdt. 18]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

ALTERATIONS

This amendment is intended to define specifically the area which will be utilized for determining the minimum obstruction clearance in the establishment of instrument approach procedures using the back or front localizer courses of an ILS without the glide path. Section 609.10 (k) (2) as published on March 13, 1952 in 17 F. R. 2166 is amended to read:

§ 609.10 *Instrument landing system procedures determination.* • • •

(k) *Utilization of back course of ILS.* • • •

(2) *Without glide path.* Where there is no glide path, but a fan marker, compass locator, or other suitable fix is located on the localizer back course within seven miles of the airport, a straight-in approach may be formulated and approved using landing minimums equivalent to straight-in low frequency range minimums. Obstruction clearance will be determined by requiring 300 feet clearance over all objects within the approach area described in paragraph (f) (1) (i) and (iii) of this section, and by adding to this basic requirement of 300 feet any encroachment on the transitional surfaces described in paragraph (f) (3) of this section. The slope set forth in paragraph (f) (1) (ii) of this section will not be applicable, and the transitional surfaces beyond 200 feet from the runway end will extend from the edge of the approach area commencing at airport elevation. These obstruction clearances will also be required on the front courses of ILS's when glide paths are not commissioned or are inoperative.

(Sec. 205, 54 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective October 15, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-9793; Filed, Sept. 8, 1952; 8:45 a. m.]

TITLE 22—FOREIGN RELATIONS

Chapter IV—International Joint Commission, United States and Canada

PART 401—RULES OF PROCEDURE

EDITORIAL NOTE: The regulations of the International Joint Commission, United States and Canada, formerly codified as Part 501 of this title and inadvertently omitted from the 1949 Edition of the Code of Federal Regulations, are hereby redesignated as Part 401 of Chapter IV of this title and appear as set forth below.

Sec.
401.1 Definitions.
401.2 Meetings.
401.3 Chairmen.
401.4 Permanent offices.
401.5 Duties of secretaries.
401.6 Applications.
401.7 Number of application copies.
401.8 Approval of Governments.
401.9 Notice and publication.
401.10 Statement in response to application.
401.11 Statement in reply.
401.12 Supplemental applications and statements.
401.13 Interested private parties.
401.14 Preliminary hearing.
401.15 Preliminary communication with parties.
401.16 Production and inspection of documents.
401.17 Subpenas.
401.18 Compelling attendance of witnesses, etc.
401.19 Depositions.
401.20 Final hearings.
401.21 Printing of briefs and records.
401.22 Majority may conduct hearings.
401.23 Amendments.
401.24 Service of process.
401.25 Expenses of proceedings.
401.26 Submission to Governments.
401.27 General rule.
401.28 Proceedings under Articles IX and X.

AUTHORITY: §§ 401.1 to 401.28 issued under Art. XII of the Treaty between the United States and Great Britain, Jan. 11, 1909, 36 Stat. 2453.

SOURCE: §§ 401.1 to 401.28 contained in Rules of Procedure, International Joint Commission, Feb. 2, 1912, except as otherwise noted.

§ 401.1 *Definitions.* In the construction of the rules in this part and the forms herein referred to (unless the context otherwise requires) words importing the singular number shall include the plural, and words importing the plural number shall include the singular; the term "party" or "parties" shall include Governments and also persons permitted by the rules in this part to take part in any proceedings before the Commission; the word "person" shall include individual, partnership, or corporation, and "oath" shall include affirmation.

§ 401.2 *Meetings.* Regular sessions of the Commission shall be held annually at Washington beginning on the first Tuesday of April and at Ottawa beginning on the first Tuesday of October.

Special meetings may be held at such times and places in the United States and the Dominion of Canada as the chairmen of the two sections may determine.

§ 401.3 *Chairmen.* The commissioners of the United States section of the Commission shall appoint a chairman, to be known as the chairman of the United States section of the International Joint Commission, and he shall act as chairman at all meetings of the Commission held in the United States, and in respect to all matters required to be done in the United States by the chairman of the Commission.

The commissioners of the Canadian section of the Commission shall appoint a chairman, to be known as the chairman of the Canadian section of the International Joint Commission, and he shall act as chairman at all meetings of the Commission held in Canada, and in respect to all matters required to be done in Canada by the chairman of the Commission.

In case it shall be impracticable for the chairman of either section to act in any matter, then the commissioner of such section next in order of appointment shall act in his stead.

§ 401.4 *Permanent offices.* The permanent offices of the Commission shall be at Washington, in the District of Columbia, and at Ottawa, in the Dominion of Canada, and the secretaries of the United States and Canadian sections of the Commission shall, subject to the order of said respective sections, have full charge and control of said offices, respectively.

§ 401.5 *Duties of secretaries.* The secretaries shall act as joint secretaries at all sessions or meetings of the Commission, and each shall keep an accurate permanent record of the proceedings and preserve the same in the permanent offices of the Commission. It shall also be the duty of each of them to receive and file all applications and other papers properly presented to the Commission in any proceeding instituted before it, and to number in numerical order all such applications; and the number given an application shall be the file number for all papers and documents connected with such application. Each secretary shall also keep in the permanent office under his control a docket, in which he shall record the title of the application or other proceeding, separately in each case, the date of filing the same, the name and post-office address of the attorneys of record, and a brief statement of the contents, together with proper reference to the files of the original papers referred to in said docket. Each shall forward to the other for filing in the office of the other copies of all letters, documents or other papers received by him or filed in his office, pertaining to any matter before the Commission, to the end that there shall be on file in each office either the original or a copy of all official papers, documents, records and correspondence relating to matters at any time pending before the Commission.

§ 401.6 *Applications.* In all cases to be submitted to the Commission under Articles III, IV and VIII of the Treaty the method of bringing such cases to the attention of the Commission and invoking its action shall be as follows:

(a) Where one or the other of the Governments on its own initiative seeks the approval of the Commission for the use, obstruction or diversion of waters with respect to which under Articles III and IV of the Treaty the approval of the Commission is required, it shall file with the Commission an application setting forth as fully as may be necessary for the information of the Commission the facts upon which the application is based, and the nature of the order of approval desired.

(b) Where any private person seeks the approval of the Commission for the use, obstruction or diversion of such waters, he shall first make written application to the Government within whose jurisdiction the privilege desired is to be exercised, to grant such privilege, and upon such Government, or the proper department thereof, transmitting such application to the Commission, with the request that it take appropriate action thereon, the same shall be filed and be proceeded with by the Commission in the same manner as an application on behalf of one or the other of the Governments. All applications by private persons should conform, as to their contents, to the requirements of paragraph (a) of this section.

§ 401.7 *Number of application copies.* One duplicate original and 25 copies of the application, supplemental application, statement in response, supplemental statement in response, statement in reply, and supplemental statement in reply shall be filed with each of the secretaries, and there shall be filed with each of the secretaries such drawings, profiles, and plans of survey on tracing linen, and such specifications and maps, as may be necessary to illustrate clearly the matter of the application.

[As amended Nov. 11, 1914]

§ 401.8 *Approval of Governments.* In cases where either of the respective Governments shall have authorized the use, obstruction or diversion of navigable waters, all plans filed as aforesaid shall be accompanied with the approval thereof by the Government or proper department of the Government within whose jurisdiction such waters lie.

§ 401.9 *Notice and publication.* As soon as practicable after an application is made as provided for in § 401.6, the secretary of the section of the Commission appointed by the other Government shall forthwith send to such Government a notice in writing that the application has been made and a copy thereof.

The secretaries shall also, as soon as practicable after the application is made, cause to be published for 3 successive weeks in the Canada Gazette, and in two weekly newspapers, published one on each side of the international boundary line nearest the locality in which the use, obstruction, or diversion of waters is proposed to be made, a notice that the application has been made, and of the nature and locality of the proposed use, obstruction or diversion, and that all persons interested therein are entitled to be heard with respect thereto before the Commission.
